

Blowin' in the Wind

Circle what you think is the best description of a flower that does not need to attract animals but can be pollinated by the wind:

<u>Petal Size</u> :	Large	Medium	Small
<u>Shape</u> :	Flat	Tubular	Hanging
<u>Colour</u> :	Colourful	White	Dull
<u>Scent</u> :	Sweet	Foul	None
<u>Nectar</u> :	Plentiful	Sparse	None

What are 2 **ADVANTAGES** of wind pollination ?

What are 2 **DISADVANTAGES** of wind pollination ?

Design a flower that could easily be pollinated by the wind
