## **CONDITIONS FOR APPROVAL FOR OPERATING STREET STALLS**

The organization holding this permit must observe the following conditions:

- If permission is granted to locate the stall on a footpath (other than the approved sites below) stalls should usually be sited on the outer side of the footpath except where there is insufficient room to set them up without obstructing pedestrian flow.
- They must not obstruct pedestrian or vehicular traffic nor restrict the viewing of shop windows at the site.
- •The stalls must be kept clear of all fire hydrants and markers so that these are clearly visible at all times and the hydrants themselves are readily accessible to the Fire Service.
- The stalls must be adequately protected from sun, wind and rain, and if it is intended to offer foodstuffs for sale, the additional, conditions relating to the sale of food must be observed as required in the following handouts - Sausage and BBQ Guidelines, Safe Food Handling pamphlet, and the Hawkers, Mobile Traders and Street Stalls pamphlet.
- All persons associated with the stall must comply promptly with any requests or instructions from parking enforcement officers or members of the police force.
- At the conclusion of the day's activities the stall must be completely dismantled, all construction material removed from the public street and the site left in a clean and tidy condition.
- Any damage caused to the public street will be made good by the Council at the expense of the stall organisers.
- All liability for claims for damages that may arise from the siting of the stalls on public footways rests with the holder of this permit.

### **Approved DCC Fundraising Sites in the Central City area**

These sites are for fundraising groups only (not for self profit), to book or check availability contact the Customer Services Agency phone 477 4000.

1. Hanover Street (By National Bank) providing the windows beyond the blank wall are not encroached upon.
2. St Andrew Street (By Jay Jays only)

Note: Other sites may be approved from time to time.
