Which option do you support?

- ☒ **Option one:** In-house model (our proposal)
- ☐ **Option two:** Water Services Council-Controlled Organisation model (CCO)

Why did you choose this option?

Because I do not understand why dcc was so Anti 3 waters in the past and now offers a water assets transfer package in the form of a CCO, that could in time be changed by Parliament.

Also

Why no mention of all the Otago residents who suffer from a lack of proper sewerage systems, where their only possible choice is a poorly working sewerage system that often doesn't work properly.

Do you have any other feedback related to this LWDW consultation?

Yes topics re

- ① Are you expecting wages, benefits and pensions to also be increasing ^{over} the next 9 yrs?
- ② "Service levels to stay the same!" So you expect more money for less service.
- ③ "High quality can be achieved!" I can only hope so. It took long enough to sort out Waikouaiti's problems.
- ④ Water Riffencing, hope that's a basic minimum. Why is it taking another 3 yrs
