

APPENDIX 1: THE APPLICATION

The full application, including appendices, is available here:

The Marshall Day Acoustic report attached to the application as as Appendix 5 incorrectly attached the predicted noise calculations for the demolition of the Cadbury Warehouse (previously consented), rather than for the Cadbury Factory (i.e. Appendix D of the noise report). The error does not flow through into the remainder of the report assessment and conclusions.

A link to the amended Appendix 5 (Marshall Day Noise Assessment) is available here:
