	NZ, Otago-Southland Branch (Louise Mainvil)		GR2 rezoning - IN01-IN13 & RTZ1-2		<ul style="list-style-type: none"> Public Transport/Active Transport (PT/AT) has been accounted for in the choice of proposed development locations, especially Greenfield development. While criteria in the risk assessment model includes proximity to a bus stop, it is difficult to gauge the extent to which AT has been considered. Otago University's Active Living Lab "Turning the Tide - from Cars to Active Transport" provides illustration of health co-benefits from PT/AT. Housing design and quality that incorporates climate change mitigation and adaptation can be encouraged or even mandated in future developments. This is an opportunity for DCC to lead and provide exemplars on the health co-benefits that can be achieved through housing design and quality.

S201.002	Zig Zag Trust	13. Assessment of sites for rezoning to residential	IN01	If the change is not rejected, amend	<p>Remove Change IN01 (rezoning from General Residential 1 zone to General Residential 2 zone at part of Mosgiel, and associated changes) until such time as an agreed approach is implemented to address traffic safety issues at the intersection of State Highway 87 (Gordon Road and Quarry Road) with Burns Street, Hagart-Alexander Drive, and Gladstone Road and to resolve increased pressure on the transport network between Doon Street and Factory Road. Alternatively, low cost, short term interventions are available and could be implemented in the interim to address the issue and to maintain safety and efficiency, whilst a longer term and likely more costly remedy is developed and approved for implementation.</p>
