Subject: Re: LGOIMA request: bridge inventory and steel bridge inspection and maintenance record Dunedin City
Date: Thursday, 15 October 2026 01:04:00 p.m.
Attachments: LGOIMA - steel in lower bridge parts.xlsx

Kia ora [redacted]

I am writing in response to your official information request, received on 2 October (see email below).

Please find attached a spreadsheet containing information on bridges held by DCC as per your request.

I trust that this now completes your request.

kā mihi

Subject: Re: LGOIMA request: bridge inventory and steel bridge inspection and maintenance record Dunedin City

Please treat this email as a request under the Local Government Official Information and Meetings Act 1987.

I am requesting electronic copies of existing information held by Dunedin City about bridges and similar bridge structures that the Council owns or manages.

Please provide:

1. The bridge or structure inventory, including the asset name or ID, location, road or track, and structural material where recorded. Please include road, walking and

cycling bridges, and any park or reserve bridges in the register. I am interested in structures with steel in their main load-bearing members, such as girders, trusses or primary framing. Please exclude structures where steel is limited to handrails, signs or fittings.

2. For structures recorded as steel, or where the main structural material is unknown, the available inspection and condition records relating to corrosion, protective coatings, paint condition, or recommendations for repair or recoating.

3. Available records of coating or painting work, including dates, products or systems used where recorded, surface preparation, repairs, and any known lead-based paint surveys or hazardous-coating information.

4. Any current or planned inspections, maintenance, repair, recoating or replacement work for these structures, including project or contract timing where recorded.

Please include existing asset-register exports, spreadsheets, reports, inspection records, GIS data or other electronic records that contain this information. I am seeking records already held by the Council; I am not asking the Council to inspect bridges or create a new assessment.

If the information is held by another organisation, please transfer the relevant part of this request if appropriate, or tell me which organisation holds it. If you expect a charge, please let me know the estimated cost before doing chargeable work so I can decide whether to refine the request.

Please provide the response electronically by email.

Regards,
