Subject: submission re bust stop 42 Macandrew Rd

It appears that yet again big business and big money have dictated to the community. The bus stop that was positioned where now the Macandrew road vehicle entry to KMart is, has been moved a few yards south to right outside the beautiful large windows of St Patricks Basilica (a building of significant history in Dunedin). The bus stop at this location creates a blot on the landscape at any time, but in particular when special events are happening in the church e.g. weddings and funerals. The logical and community minded decision would have been to move it a few yards further south to outside the church carpark / old brick building that was Catholic Social Services. I call on you, the council, to re-think and rectify this situation. Thanking you in anticipation of a sensible community outcome.

Martin George
