

COST OF WASTE MANAGEMENT

Use this table to understand how much your organisation spends on waste management each year.

Knowing how much it costs you to dispose of and recycle your waste is an important part of understanding your organisation's waste picture. This knowledge can help motivate people to make positive changes that benefit the environment and, potentially, your bottom line. Using the below table, record how much your organisation has spent on waste management over the past 12 months.

| Month | Landfill waste disposal cost | Recycling costs | | | | | eWaste disposal cost | eWaste recycling cost | Any other type of disposal costs | Any other type of recycling costs |
