

CONSUMER ELECTRICITY FUND

Providing assistance for Dunedin residents

About the fund...

- In 1998 the Dunedin City Council (DCC), in liaison with agencies providing budget advisory services, set up the DCC Consumer Electricity Fund.
- The purpose of the fund is to help people living within the DCC boundary with a grant towards their electricity costs.
- The fund is available for homeowners and people who rent.
- The fund is accessible once in a five year period, or twice in exceptional circumstances

To apply...

- You must live within the DCC rating area and have a current electricity account in your name. If you have a Community Services Card and photo ID, you may be able to self-apply.
- Contact Dunedin Budget Advisory Services (DBAS) for an application form.
- Return your completed form with copies of your power bill, Community Services Card, and photo ID to enquiries@budgetingdunedin.co.nz or drop it off at Catholic Social Services, 42 Macandrew Road, South Dunedin.
- If you do not have a Community Services Card, you will need a full budget assessment through a listed agency.
- If approved, the grant is paid directly to your power account.
