

STREET TREE PLANTING APPLICATION

The Urban Forest Officer
P O Box 5045
Dunedin 9054

I would like the Dunedin City Council to consider the planting of a street tree in the road verge outside my property at:

Number:

Street/Road:

Name:

Phone:

I understand that if this is approved, then planting may take place between 12 and 18 months from the time of approval. This is because the allocation must be drawn against existing budgets and the planting has to take place at certain times of the year to be successful.

Approval of my application is also subject to service checks, e.g. water, drainage.
