Kia ora

I refer to your request.

Please find the information requested.

All pumps ran for approx. 2 hours, which correlates with the peaks. The black marker is on the second peak and shows a peak flow of 5099 L/s. I

I am advised that Mr McAndrew has previously discussed the flow meter accuracy with you and he has advised that is happy to do so again.

Subject: Local Government Official Information request - 1307236

NEIL has submitted a LGOIMA request - 1307236.

Below are the details of the request

Request details:

Good afternoon. Can DCC provide me - whether in numerical or graphical form - the recorded outflows from the Portobello Road pumping station for the period 5th and 6th July 2026. Thank you and best wishes. Neil Johnstone
