
Applicant:	New Zealand Motor Caravan Association
Location:	20 and 20a Bay Road, Warrington
Application Number:	LUC-2020-293
Subject:	Postponement of Hearing
Date:	2 September 2021

This minute is to advise the postponement of the next week's hearing for the above mentioned Resource Consent application. In making this decision, the Hearings Committee have taken into account the request by the applicant to consider a remote hearing, ability of staff to obtain access to facilities in the current COVID level restriction and the logistics of multiple parties participating via Zoom (the online platform). This included Council staff, submitters and the applicant's team.

The Committee also wanted to ensure that all parties are able to fully engage in the process and they do not believe this would be possible in the current environment.

A new hearing date will be advised as soon as possible, following consultation with applicant to ensure that availability of their team. However, should travel from Auckland remain an issue, the Committee are happy to accommodate a limited number of parties participating virtually.

We apology for any inconvenience this may cause.

David Benson-Pope
Chair of Hearings Committee
