BRIEF OF EVIDENCE OF WILL HAGENDORN

Introduction

1. My full name is William (Will) Hagendorn, I am an arborist residing in Dunedin.
2. I provided the arborist report for Adam and Anna O'Byrne which is being relied on for their resource consent application. I understand that my report is subject to an additional information request from the Dunedin City Council. The purpose of this brief is to answer the following question from the Panel:

At the hearing Mr Robert's assessed that the installation of either of the drainage system options, set out in Mr Campbell's report on Page 24 and 25, would likely have a critical adverse effect on the health and stability of the tree. Do you agree and why?

3. In short, I agree with Mr Roberts' assessment and his conclusion that the drainage works will compromise the tree, for the reasons provided in his report.
