Subject: RE: FW: Proposed mobility park by Navy Park

Hi Sacha,

Thanks for your email. I have just spoken to Simon regarding this site but will also flick it through on an email.

I appreciate that our Property Team have recently installed an accessible Toilet at Navy Park Playground and are requesting the install of a Mobility Parking space. This would be great for the playground as well. However....

Only minimal parking is currently available with both residential properties and an early childhood centre in close proximity. On many occasions only small number of parking spaces (one or two parks) are available for parents intending to use the playground. If we decide to install a mobility carpark we will reduce the number of available car parks even further, potentially to the point where people will stop using the playground and/or new toilet.

Cheers
