

ROSLYN BOWLING CLUB

6 Gamma Street, Roslyn, Dunedin

<http://www.sportsground.co.nz/roslynbowls>

Date: 10th December 2024

If the tree on the Roslyn Bowling Club's land at 6 Gamma St becomes a schedule tree, cause for our club will arise. There are three things we would be concerned about.

- 1 – We need to be able to trim back branches once they reach the edge of the bowling green. If this is not done our green suffers from shade and excessive drips of water.
- 2 – Roots could appear through the bowling green and we would like to be able to lower these to below the surface.
- 3 – The tree could grow branches into the neighbour's house, and we can envisage a time when branches could become dangerous and need cutting.

What we do not want is to have expenses involved with undertaking these changes.

We admire the tree and have no desire to damage it, but we can envisage expenses that we cannot afford, if it becomes a scheduled tree without these exclusions being included.

Thanks

Geoff Simons
