- Accept the change with amendments outlined below
- Reject the change
- If the change is not rejected, amend as outlined below

Accept the change for the 5 currently scheduled trees in the group of 6 that are situated on our property on the grounds as listed, but recognising that we wish to retain these trees for their amenity value, make provision for a deferred maintenance contribution for the period that appropriate maintenance has been prevented.

Reasons for my views (you may attach supporting documents):

If you wish to make multiple submissions, you can use the submission table on page 3 or attach additional pages.

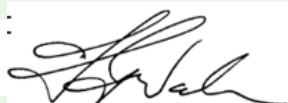

I originally supported the inclusion of these trees in the schedule due to their amenity value. However, they were poor specimens due the years of unbalanced pruning when the main Dunedin - Invercargill telephone lines were situated along the road side. These overhead lines have long ago been replaced by underground cables, but the asymmetrical damage to the trees has remained. We have approached Council on several occasions regarding arranging necessary maintenance on these large 100 year old English Oaks that extend over our dwelling, and that have been subject to substantial limb fall incidents in high winds. Subsequent visits by arborists / Council representatives have led to written reports that stated the trees presented no such risk, and there was no justification for substantial trimming to be undertaken. Despite challenging this Council position, it became clear that any RMA consent application to substantially trim the trees would have not been supported. It is only now that we have received the plan change information that Council has presented a completely different position, that aligns with what we have been presenting for a considerable time. The accumulated maintenance liabilities that have accrued due to this impasse are now substantial, and we are of the view that Council has a moral obligation to contribute.
