

# Dunedin Multipurpose Stadium: Assessment of Urban Design Effects

## APPENDIX 1: PHOTOGRAPHS

All photographs were taken on the 12<sup>th</sup> and 13<sup>th</sup> September 2007 by Janet Reeves. The weather was fine, but hazy. Digital camera, focal length 2.8, lens 28mm equivalent.

### Part One: Existing site from close quarters

Photograph 1      View of Anzac Avenue/Ravensbourne Road frontage of site from corner of Union Street East

Photograph 2      Looking along the Water of Leith towards the south east from Anzac Avenue. The site of the proposed stadium and university building is on the left bank of the river channel.

Photograph 3      View from Awatea Street across car park to Ravensbourne Road, with line of trees marking the edge of Logan Park beyond.

Photograph 4      Awatea Street, in the centre of the proposed development site, looking north west towards the University Campus.

Photograph 5      View from corner of Awatea Street and Leander Street, looking north east across the proposed development site to concrete batching plant, quarry and Signal Hill.

Photograph 6 Parry Street looking east from the centre of the proposed development site.

Photograph 7 View along Ravensbourne Road to the east. The proposed development site is on the right, the concrete batching plant on the left.

**Part Two: View of the site from selected vantage points with proposed stadium building superimposed**

Vantage point 1 View from Rotary Park

Vantage point 2 View from Vauxhall Reserve, Portobello Drive

Vantage point 3 View from junction of Portsmouth Drive and Teviot Street

Vantage point 4 View from Unity Park

Vantage point 5 View from junction of Queens Drive and City Road

Vantage point 6 View from Highgate overbridge

Vantage point 7 View from Cobden Street

Vantage point 8 View from Dundas Street
