Importance: High

Kia ora [REDACTED]

I write about your LGOIMA request received 30 December 2024 regarding what the residential rates rises have been each year for the last ten years or so.

Please find attached the information you have requested.

Subject: Rates rises last ten years

Hi there

Just wondering if it's possible to get what the residential rates rises have been each year for the last ten years or so.

It's purely for my own interest as a way of looking forward and planning for the future.

Thanks
[REDACTED]

DCC Residential Rates
GST Inclusive

	Total Residential Rates \$'000	Change	
		\$'000	%
2015/16	94,722		
2016/17	97,646	2,924	3.1%
2017/18	102,243	4,597	4.7%
2018/19	109,696	7,452	7.3%
2019/20	115,646	5,951	5.4%
2020/21	121,575	5,928	5.1%
2021/22	133,866	12,292	10.1%
2022/23	142,940	9,074	6.8%
2023/24	152,945	10,005	7.0%
2024/25	182,976	30,030	19.6%

Please note this is the change in the budgeted total residential rates only and excludes the data for the other differentials (Commercial, Lifestyle, Farmland, Residential Heritage Bed & Breakfasts, and Stadium: 10,000+ seat capacity).

The total residential rates includes a mix of general and targeted rates. These can be fixed charges calculated per separately used or inhabited part of a rating unit (SUIP) or based on the capital value (CV) of a property.
