Subject: LGOIMA request - clause 11.1 method and final local-street schedule

Period: 30 October 2024 to 1 May 2025

Scope control: This is a narrow comparator request. It does not seek a general history of Dunedin speed management.

Tēnā koutou,

I am completing an undergraduate urban-planning dissertation comparing how a small number of road-controlling authorities evidenced the school-related local-street test in clause 11.1 of the Land Transport Rule: Setting of Speed Limits 2024.

Under the Local Government Official Information and Meetings Act 1987, I request:

1. The final machine-readable dataset or schedule supplied to NZ Transport Agency by 1 May 2025 identifying Dunedin local streets classified under the school-related test, including the local streets around the school described in the 30 April 2025 Council report.
2. The final methodology, instruction or factual working table used to distinguish those streets from wider permanent 30 km/h neighbourhood areas, including any fields already held for the earlier evidential source and the inclusion or exclusion outcome. I do not ask Council to create a candidate list or new analysis.
3. The final record approving or adopting that classification method or schedule, including the approving role or body and date. The public Council report and resolution may be supplied by direct URL if they are the complete responsive record.

Limits:

Please exclude other road categories, drafts, routine correspondence, duplicate records, general communications material and legal advice subject to legal professional privilege. I do not seek the content of external legal advice. If no separate method, candidate table or approval record exists, written confirmation is sufficient.

Format and consultation:

Please provide any dataset or working table in original XLSX or CSV format. If one item would require substantial collation, identify it and consult me before refusing the remainder or beginning chargeable work. I do not authorise charges at this stage.

Ngā mihi,

[REDACTED]

Our responses are as follows:

1. Please see the attached PDF "Reversals-for-section-11-of-the-SOSL-Rule-2024", which contains the

dataset provided to the NZ Transport Agency (NZTA) by 1 May 2025 identifying Dunedin local streets classified under the school-related test, including the local streets surrounding the school referred to in the Council report dated 30 April 2025.

2. The methodology applied by Council is set out in the Council report in the Agenda of Council - Wednesday, 30 April 2025, please see the link below:

https://infocouncil.dunedin.govt.nz/Open/2025/04/CNL_20250430_AGN_3069_AT.PDF

We reference you specifically to the Discussion section (paragraphs 16 to 22). This section explains the definition of a "specified road" and notes that most of the speed limits in question were originally established to support slower-speed neighbourhoods, rather than being based solely on the presence of a school.

3. The final record approving or adopting that classification method, is the resolution of Council which can be found in the Minutes of Council - Wednesday, 30 April 2025, see link below

https://infocouncil.dunedin.govt.nz/Open/2025/04/CNL_20250430_MIN_3069.PDF

We trust that this is the information sought.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz.

Please note that it is our policy to proactively release our responses to official information requests where possible. Our response to your request will be published to the DCC website, with your personal information removed.

kā mihi
Lauren
