

25.1 Townscape and Heritage Buildings and Structures

This Schedule includes all New Zealand Historic Places Trust Category I and II buildings and structures in the City. They have been included for the contribution their individual heritage value makes to the character of the City's townscape. The Schedule also includes buildings that have been assessed as being worthy of protection on the basis of their contribution to the character of a particular Townscape or Heritage precinct.

In each case, those features of the building or structure that possess significant townscape or heritage value, and that therefore require protection, have been identified by reference to the following terms:

- (i) facade - the front face(s) of the building. On corner sites or sites with multiple street frontages there may be more than one facade.
- (ii) entire external building envelope - all external surfaces of the building. The envelope includes walls, roofs and architectural elements which combine in creating the whole external appearance.
- (iii) bulk appearance - the building's appearance from a specific area as noted in Schedule 25.1. This includes roof forms, height, location and architectural elements.

Site Number	Map Number	Item	Address	Legal Description	HPT Reg No	HPT Category	Protection Required & Comments
B001	47	Alva House (Boarding House)	9 Alva Street	Lot 2 DP 19188	4720	II	entire external building envelope
