How to find more about Council grants and make applications

Information about Council grants is provided on the Council website at this web address: www.dunedin.govt.nz/funding.

The Council's community, recreation, arts and environment funding is now distributed in line with the Council Grants Policy 2015 (www.dunedin.govt.nz/community-grants). The process brings together a number of formerly separate Council funding streams, with an emphasis to align grants to Council strategies.

Community grants

There are two contestable funding pools, City Service Grants; and City and Project Grants, within the new community grants process. Contributions made to regular grant recipients from the past have been used to determine the size of these pools. The size of these pools is determined as part of the Annual/Long Term Plan consultations each year.

For those organisations that rent properties from the Council's Property Department there is another process in the policy called Property Arrangements. More information can be obtained from the Grants Policy 2015 on the criteria for these and other grants.

The Grants Subcommittee will consider the alignment to the Council's strategies and any other financial support received from the Council when making funding decisions.

Grants Committee 2017/18 Funding Pools	2016/17	2017/18
City Service and City Project Grants	\$493,800*	\$494,800*

*This total is the unallocated portion of the pool and includes an additional \$60,000 funding for City Service and City Project Grants. This additional funding is ongoing annually from the 2016/17 year.

Events Funding

The Dunedin City Council is committed to supporting a vibrant events environment in Dunedin that will continue to build a sense of community, enhance the city's unique identity and add to its cultural wealth. It also aims to optimise the contribution of festivals and events to the city's economic development. It is important to ensure that our event funds are allocated fairly and transparently, based on clearly defined criteria. The Dunedin Festival and Events Strategy 2009 – 2019 was developed to facilitate this process.

This strategy classifies events into three categories:

Premier – A festival or event that attracts a large audience and participation generates significant economic wealth and contributes to the positive international and national profile of the city. A premier festival or event will attract at least 5,000 visitor nights and/or will generate \$1.0m or more through direct visitor expenditure, and will generate high levels of positive media awareness. Premier events will be supported by Enterprise Dunedin and each will be linked with relevant international marketing campaigns. A premier event may be a one-off event or may re-occur on an annual or biennial basis.

Major – A festival or event that attracts a substantial audience and participation and contributes to the positive regional and sometimes national profile of the city. A major festival or event will attract an audience of at least 5,000 people including a reasonable number of visitors, mostly from the Southern region (Otago and Southland). Major events usually occur on an annual basis although not necessarily so.

Local – A festival or event that is staged for local people as a celebration of an occasion or for some reason that is significant to the wider community. Audience participation will vary and admissions will usually be free, although where a local event is also a fundraiser this may not be so.

Eligibility for Events Funding

Festivals and events that are eligible for funding include but are not restricted to: not-for-profit organisations including clubs and societies; local, regional and national sports, arts, culture and recreation organisations; and charitable trusts.
