

D. Management Zones

15. Residential Zones

15.1 Introduction

Dunedin's residential environments are diverse in character and include a variety of housing types ranging from apartments to stand-alone residential buildings. This diversity stems from successive waves of settlement and the prior zoning regimes, and will continue through the approaches proposed in this Plan.

These residential environments are an important resource for the city and contribute to the social, economic, and cultural well-being of people. The types and condition of housing, and the services available to it are important considerations in determining the distribution of resources and providing attractive residential environments. Developing residential environments that maintain and improve people's enjoyment of residential amenity is key.

In achieving this, of importance is the development of an urban form that ensures that Dunedin remains compact, with resilient townships, and sustainably managed urban expansion. The city has a limited amount of residential land, and so to facilitate a more compact form, it needs to be ensured that development is undertaken in a suitable manner. Also, changing demographics, including an aging population and an increase in single person households, has led to a requirement for greater flexibility in the size and type of dwelling options available throughout Dunedin.

Inappropriate land use, subdivision, and development in residential areas can adversely affect the character and amenity of Dunedin's residential environments and is a major concern. Furthermore, commercial activities that do not support the day-to-day living of residents and which detract from residential character and amenity need to be avoided.

In response to these issues, the Plan encourages the development of attractive, safe and compact residential environments through controlling matters including the siting of appropriate activities in residential zones, the design, location and scale of land use activities and buildings, the avoidance of certain activities in sensitive locations, and impacts on the efficiency and affordability of public infrastructure and services.

Many of the provisions for the residential zones are designed to manage the potential for development to adversely affect the amenity and character of streets and neighbourhoods. In some cases, provisions are designed to ensure new houses have a similar character to existing houses; however, in some areas the provisions may allow for houses of a different character in order to support the development of high quality medium density housing. In these areas, which include the Inner City Residential Zone and General Residential 2 Zone, the desired 'future character' includes houses that may be different in style or even size, but that are designed to be attractive and integrate well with surrounding housing. This outcome is achieved through a mixture of performance standards for bulk and location and rules that require consent for larger buildings and multi-unit developments (3 or more units). Resource consents for these developments will consider whether:

- the building design and placement is appropriate for the context of the site, including considering the appropriateness of form (roof pitch, scale, massing, window placement, entrance detailing and/or proportion) and materials
- adequate green space is provided.

Parts of the residential zones are also managed through heritage precincts, which include more controls on new development as well as alterations to existing buildings if they are scheduled heritage buildings or identified 'character-contributing' buildings. Natural Hazard overlays also apply to some parts of residential zones.

This management approach will result in residential zones that support the needs of residents, provide a range of housing types and sizes; maintain and improve amenity values; enhance streetscapes; maintain and enhance efficient and affordable water and waste infrastructure networks; enable land use activities that are accessible by a range of

travel modes, and contribute to compact living environments.

The various residential zones proposed in this Plan are briefly described below.

15.1.1 Zone descriptions

15.1.1.1 General Residential 1

The General Residential 1 Zone covers the city's hill suburbs and valleys of the main urban area of Dunedin and Mosgiel and is characterised by low density suburban residential living.

15.1.1.2 General Residential 2

The General Residential 2 Zone covers defined areas within the city's suburbs of the main urban area of Dunedin and Mosgiel. It is characterised by existing or proposed medium density suburban residential living and provides for a range of housing choices throughout the suburban area. Within this zone, the rules differ between those existing and proposed new medium density areas in recognition of the existing or surrounding built form.

15.1.1.3 Inner City Residential

The Inner City Residential Zone covers the residential area near the campus and between the town belt and the central business district. It is characterised by existing or proposed medium density residential living and provides for a range of housing choices close to the central area of Dunedin. With good access to public transport and facilities this environment supports opportunities for higher densities of development than other areas of the City which also allows for different forms of development. Within this environment particular areas that contain dwellings with high heritage characteristics are identified as residential heritage precincts and have additional rules to protect heritage values.

15.1.1.4 Low Density Residential

The Low Density Residential Zone is a smaller subset of the main urban Dunedin suburban environment, and has slightly larger sites than the General Residential 1 Zone. It is characterised by a more spacious and open suburban environment.

15.1.1.5 Large Lot Residential 1

The Large Lot Residential 1 Zone includes a small number of residential areas that have to be developed at a lower density to maintain existing bush or open areas, or because of land instability issues, or where development and subdivision with larger lot sizes is considered more appropriate to maintain other values or respond to other issues.

15.1.1.6 Large Lot Residential 2

The Large Lot Residential 2 Zone includes a small number of residential areas that have to be developed at a lower density, with large sites, either to maintain bush or open areas, because of land instability issues, or to maintain the amenity values of the surrounding area, or where development and subdivision with larger lot sizes is appropriate to maintain other values or respond to other issues.

15.1.1.7 Township and Settlement

The Township and Settlement Zone is a mix of larger residential settlements supported by a commercial area, and smaller residential areas that are not attached to a commercial centre and are generally located between townships, particularly along the coast. These areas are characterised by low density environments, and provide for further sites where fully serviced by DCC infrastructure, and development on larger sites that are not fully serviced by DCC infrastructure.

15.2 Objectives and Policies

Objective 15.2.1	
Residential zones are primarily reserved for residential activities and only provide for a limited number of compatible activities, including: visitor accommodation, community activities, major facility activities, and commercial activities that support the day-to-day needs of residents.	
Policy 15.2.1.1	Provide for a range of residential and community activities, where the effects of these activities will be managed in line with objectives 15.2.2, 15.2.3 and 15.2.4 and their policies.
Policy 15.2.1.2	Provide for a limited range of major facility activities and commercial activities, including dairies, registered health practitioners, training and education, and visitor accommodation, where the effects of these activities will be managed in line with objectives 15.2.3 and 15.2.4, and their policies.
Policy 15.2.1.3	Limit the size of working from home and dairies in residential zones to a size that: - is compatible with the character and amenity of the residential zone; and - does not detract from the vibrancy and functioning of the centres hierarchy.
Policy 15.2.1.4	Require activities ancillary to visitor accommodation to be located and designed to cater to patrons of the primary activity rather than the general public.
Policy 15.2.1.5	Avoid commercial activities, other than those expressly provided for, from locating in residential zones, unless: - the activity will not detract from the vibrancy and functioning of the centres hierarchy; and - the site is adjacent to a centre and it provides a logical extension to a centre; and - the centre is at, or very close to, capacity; and - the development activities are done in accordance with the performance standards of the street typology (if relevant) of the adjacent centre zoned sites; and - the development maximises opportunities for integration with the centre; or - if the site is in the Township and Settlement Zone: - the commercial activity would have significant positive effects in terms of supporting the needs of the community and visitors to the area; and - the activity is unable to be located in, or adjacent to, the nearest centre, or no centre exists within the relevant township or settlement; and - the location is appropriate for the proposed activity; and - any adverse effects from noise, vehicle movements, and on-street parking supply will be avoided or, if avoidance is not practicable, adequately mitigated.
Policy 15.2.1.6	Avoid industrial activities, rural activities, and major facility activities other than those expressly provided for, sport and recreation that involves motor vehicles, and any other activities not compatible with the character and amenity of the residential zone.
Policy 15.2.1.7	Provide for service stations on a strategic road or arterial road, where it is not practicable, due to a lack of site availability and/or special locational requirements, to locate in the PPH, TR, CEC, industrial or centre zones.

Objective 15.2.2

Residential activities, development, and subdivision activities provide high quality on-site amenity for residents.

Policy 15.2.2.1 {Note - appeal relates to outdoor living space in ICR only}	Require residential development to achieve a high quality of on-site amenity by: - providing functional, sunny, and accessible outdoor living spaces that allow enough space for on-site food production, leisure, green space or recreation; - having adequate separation distances between residential buildings; - retaining adequate open space uncluttered by buildings; and - having adequate space available for service areas.
---	--

Objective 15.2.3

Activities in residential zones maintain a good level of amenity on surrounding residential properties and public spaces.

Policy 15.2.3.1	Require buildings and structures to be of a height and setback from boundaries that ensures there are no more than minor effects on the sunlight access of current and future residential buildings and their outdoor living spaces.
Policy 15.2.3.2	Require working from home, dairies, training and education, and community and leisure - small scale to operate in a way (including hours of operation) that avoids or, if avoidance is not practicable, adequately mitigates, noise or other adverse effects on the amenity of surrounding residential properties.
Policy 15.2.3.3	Require buildings and structures in the Inner City Residential Zone to be of a height and setback from boundaries that: - enables a high quality, medium density form of development; - is consistent with the existing streetscape character of the zone; and - avoids or, if avoidance is not practicable, adequately mitigates, adverse effects on sunlight access on outdoor spaces at the rear of adjacent sites.
Policy 15.2.3.4	Only allow schools, emergency services, early childhood education, community and leisure - large scale, sport and recreation, registered health practitioners, training and education, visitor accommodation, supported living facilities, service stations and stand-alone car parking where they are designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties.
Policy 15.2.3.5	Only allow cemeteries where they are designed and located: - to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties; and - to avoid, as far as practicable, the potential for reverse sensitivity.
Policy 15.2.3.6	Avoid sport and recreation that involves motor vehicles unless the adverse effects on the amenity of surrounding properties will be no more than minor.

Objective 15.2.4

Activities maintain or enhance the amenity of the streetscape, and reflect the current or intended future character of the neighbourhood.

Policy 15.2.4.1 {Note - appeal relates to impermeable surfaces in ICR only}	Require development to maintain or enhance streetscape amenity by ensuring: a. garages, carports and car parking do not dominate the street; b. there are adequate green space areas free from buildings or hard surfacing; c. buildings' height and boundary setbacks, and scale reflect the existing or intended future residential character; d. shared service areas are not visible from ground level from outside the site; and e. outdoor storage is managed in a way that does not result in unreasonable visual amenity effects or create nuisance effects.
Policy 15.2.4.2	Require residential activity to be at a density that reflects the existing residential character or intended future character of the zone.
Policy 15.2.4.3	Restrict the tenancy and design of family flats to: a. avoid, as far as practicable, the risk they will be used for a separate, non-ancillary, residential activity; b. avoid, as far as practicable, future pressure to subdivide off family flats; and c. minimise, as far as practicable, any adverse effects on the amenity and character of the neighbourhood.
Policy 15.2.4.4	Require fences to be of a height and design that contributes positively to the streetscape amenity and character of the neighbourhood.
Policy 15.2.4.5	Require ancillary signs to be located and designed to maintain residential amenity including by being of an appropriate size and number to convey information about the name, location and nature of the activity on-site to passing pedestrians and vehicles and not being oversized or too numerous for what is necessary for that purpose.
Policy 15.2.4.6	Only allow subdivision activities where the subdivision is designed to ensure any future land use and development will: a. maintain the amenity of the streetscape b. reflect the current or future intended character of the neighbourhood; c. provide for development to occur without unreasonable earthworks or engineering requirements; and d. provide for quality housing.
Policy 15.2.4.7	Only allow schools, emergency services, early childhood education, community and leisure - large scale, sport and recreation, registered health practitioners, training and education, visitor accommodation, supported living facilities, restaurants or retail ancillary to sport and recreation, service stations and stand-alone car parking where they are designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on streetscape amenity.
Policy 15.2.4.8	Only allow buildings over 300m ² footprint or multi-unit developments where they are designed to ensure that streetscape and neighbourhood amenity and character is maintained or enhanced.

Rules

Rule 15.3 Activity Status

15.3.1 Rule Location

The activity status tables in rules 15.3.3 to 15.3.6 specify the activity status of land use activities, development activities, and subdivision activities in the residential zones and relevant overlay zones, except rules for the following city-wide activities, which are contained in Part B of the Plan:

1. Public Amenities (Section 3)
2. Temporary Activities (Section 4) - note that this section includes provisions that apply to construction
3. Network Utilities (Section 5)
4. Transportation (Section 6)
5. Scheduled Trees (Section 7)
6. Natural Hazard Mitigation Activities (Section 8)
7. Earthworks (Section 8A)

15.3.2 Activity Status Introduction

1. The activity status tables in rules 15.3.3 - 15.3.5 show the activity status of activities in the residential zones and the overlay zones indicated, provided any performance standards shown in the far right column are met.
2. Activities are split into three types: a. land use activities, b. development activities, c. subdivision activities. Within these types, activities are split into categories. The nested tables in Section 1.3 outline the hierarchy of categories, activities and sub-activities.
3. Permitted land use activities do not automatically provide for any related development activities. Therefore, the activity status of any associated development activities should also be checked.
4. Where a new land use activity requires a resource consent, all associated development activities will be considered and assessed as part of the resource consent even if the development otherwise meets the development performance standards listed in the Plan.
5. The nested tables in Section 1.3 are intended to be a complete list of activities. However, in the case of an activity that is not covered by any of the activities in the nested tables, the activity status will be non-complying.

Additional activity status rules in hazard overlay zones

6. For the purpose of the hazards provisions, activities are categorised as natural hazards sensitive activities, natural hazards potentially sensitive activities or natural hazards least sensitive activities. The activities that are in each hazards sensitivity category are included in the definitions section and in Section 11.1.
7. In the Hazard 1 (flood) Overlay Zone or the Hazard 2 (flood) Overlay Zone, the activity statuses in Rule 15.3.6 apply to the following activities:
 - a. natural hazards sensitive activities;
 - b. natural hazards potentially sensitive activities, and
 - c. new buildings, and additions and alterations to buildings, that create more than 60m² of new ground floor area.
8. Where the activity status in Rule 15.3.6 differs from that in rules 15.3.3 - 15.3.5, the most restrictive activity status always applies.
9. In addition to the rules in Rule 15.3.6, performance standards for development activities within hazard overlay zones are included in Rules 15.3.4.

10. Activities in a hazard overlay zone must comply with all of the rules in rules 15.3.3 - 15.3.6.

Performance Standards

11. Performance standards are listed in the far right column of the activity status tables.
12. Performance standards apply to permitted, controlled, and restricted discretionary activities.
13. If a permitted or controlled activity does not meet one or more performance standards, then the activity status of the activity is indicated in the relevant performance standard rule.
14. If a restricted discretionary activity does not meet one or more performance standards, then the activity status remains restricted discretionary, unless otherwise indicated in the performance standard.

Legend

Acronym	Meaning
P	Permitted Activity
C	Controlled Activity
RD	Restricted Discretionary Activity
D	Discretionary Activity
NC	Non-complying Activity
GR1	General Residential 1 Zone
GR2	General Residential 2 Zone
ICR	Inner City Residential Zone
LDR	Low Density Residential Zone
LLR1	Large Lot Residential 1 Zone
LLR2	Large Lot Residential 2 Zone
TS	Township and Settlement Zone
ASBV	Areas of Significant Biodiversity Value
Haz1	Hazard 1 Overlay Zones
Haz2	Hazard 2 Overlay Zones
Haz3	Hazard 3 Overlay Zones

15.3.3 Land Use Activity Status Table

1.	Performance standards that apply to all land use activities		a. Acoustic insulation (noise sensitive activities only) b. Electrical interference c. Light spill d. Noise e. Setback from National Grid (National Grid sensitive activities only) f. Structure plan mapped area performance standards (where relevant)
Residential activities		Activity status	Performance standards
2.	Supported living facilities	RD	a. Minimum car parking b. Outdoor living space c. Service areas
3.	Standard residential	P	a. Density b. Minimum car parking c. Outdoor living space d. Service areas e. Family flats
4.	Working from home	P	a. Hours of operation b. Maximum gross floor area c. Minimum car parking
Community activities		Activity status	Performance standards
5.	Community and leisure - small scale	P	a. Minimum car parking b. Hours of operation
6.	Community and leisure - large scale	RD	a. Minimum car parking b. Hours of operation
7.	Conservation	P	
8.	Early childhood education - small scale	RD	a. Minimum car parking
9.	Early childhood education - large scale	D	
10.	Sport and recreation that involves motor vehicles	NC	
11.	All other sport and recreation activity	D	
Commercial activities		Activity status	Performance standards
12.	Ancillary licensed premises	Same status as underlying activity	

13.	Dairies	RD	a. Hours of operation b. Maximum gross floor area
14.	Registered health practitioners	D	
15.	Restaurants, or retail, ancillary to sport and recreation	D	
16.	Restaurants, retail, or conference, meeting and function activity, ancillary to visitor accommodation	RD	a. Location
17.	Service stations on a strategic road or arterial road	D	
18.	Service stations, other than on a strategic road or arterial road	NC	
19.	Stand-alone car parking	D	
20.	Training and education	RD	a. Hours of operation b. Minimum car parking
21.	Visitor accommodation in the George Street North residential heritage precinct	P	a. Density
22.	Visitor accommodation, other than in George Street North residential heritage precinct	RD	a. Density b. Minimum car parking c. Minimum vehicle loading
23.	All other activities in the commercial activities category	NC	
Major facility activities		Activity status	Performance standards
24.	Cemeteries	RD	
25.	Emergency Services	RD	a. Minimum car parking
26.	Schools	D	
27.	All other activities in the major facility activities category	NC	
Rural activities		Activity status	Performance standards
28.	Grazing	P	
29.	Scheduled Mining Activity	P	a. Scheduled Mining Activity
30.	Mining {Note - appeal relates to activity status of expansion of existing mining operations only}	NC	
31.	All other activities in the rural activities category	NC	
Industrial activities		Activity status	Performance standards
32.	All activities in the industrial activities category	NC	

Note 15.3.3A- General advice

1. Papakāika activity (a sub-activity of standard residential activity) is intended to allow descendants of the original native reserve grantees to live on this land. If papakāika is developed and is subsequently no longer required for the use of Manawhenua in accordance with the papakāika definition, resource consent will be required to allow its use as other residential development. In this situation, the provisions that govern residential activity, including density of residential development, will apply. It is strongly recommended that the use of relocatable buildings is considered for papakāika development in order to avoid potential future problems of being unable to obtain consent for ownership or occupation of dwellings by people other than descendants of the original grantees.
2. Where papakāika is on Māori Land, the provisions of the Te Ture Whenua Māori Act 1993 or subsequent legislation apply.
3. New marae may only be established with the agreement of Manawhenua.

15.3.4 Development Activity Status Table

1.	Performance standards that apply to all development activities		a. Natural Hazards Performance Standards b. Maximum building site coverage and impermeable surfaces c. Setback from scheduled tree d. Structure plan mapped area performance standards (where relevant)
2.	Performance standards that apply to all buildings and structures activities		a. Boundary setbacks b. Building length c. Fire fighting d. Height in relation to boundary e. Maximum height f. Number, location and design of ancillary signs g. Setback from coast and water bodies h. Setback from National Grid
In all locations, including areas covered by rows 3 - 36 below		Activity status	Performance standards
3.	New buildings and additions and alterations that result in: - a building that is greater than 300m² footprint or - a multi-unit development in the ICR and GR2 zones	RD	
4.	Fences	P	a. Fence height and design
In locations not covered by rows 7 - 36 below.		Activity status	Performance standards

5.	New buildings, and additions and alterations to buildings, that result in a building that is less than or equal to 300m ²	P	
6.	All other buildings and structures activities	P	
Buildings and structures activities in a residential heritage precinct that are visible from an adjoining public place		Activity status	Performance standards
7.	New buildings	RD	
8.	Repair and maintenance of a non character-contributing building	P	
9.	Repair and maintenance of a character-contributing building or non-protected part of a scheduled heritage building	P	a. Materials and design
10.	Earthquake strengthening or restoration of a character-contributing building or non-protected parts of a scheduled heritage building	P	a. Materials and design
11.	Demolition or removal for relocation of a character-contributing building or non-protected part of a scheduled heritage building	RD	
12.	Signs attached to buildings or structures	P	
13.	All other additions and alterations to a character-contributing building or non-protected part of a scheduled heritage building (other than earthquake strengthening or restoration)	RD	
14.	Additions and alterations to a non character-contributing building that involve: • an increase in the footprint of 10m² or more • an increase in the height of the building by more than 2m; or • the replacement of a pitched roof with a mono pitch roof	C	
15.	All other additions and alterations to non character-contributing buildings	P	
16.	New retaining walls less than 1m high	P	
17.	All other new structures up to 2.5m high and 2m ² footprint	P	
18.	All new structures not covered by rows 16 and 17 above.	RD	
Buildings and structures activities that affect a protected part of a scheduled heritage building or scheduled heritage structure		Activity status	Performance standards
19.	Repairs and maintenance	P	a. Materials and design

20.	Restoration of a building or structure that has a Heritage New Zealand Category 1 listing (as detailed in Appendix A1.1)	C	a. Materials and design
21.	Restoration of all other scheduled heritage buildings and structures	P	a. Materials and design
22.	Earthquake strengthening where external features only are protected	C	a. Materials and design
23.	Signs attached to buildings or structures	P	
24.	All other additions and alterations	RD	
25.	Demolition	NC	
26.	Removal for relocation	RD	
Development activities on a scheduled heritage site, where visible from an adjoining public place or a public place within the heritage site		Activity status	Performance standards
27.	New structures no more than 2.5m high or 2m ² footprint	P	
28.	All other new structures	RD	
29.	New buildings	RD	
30.	Parking, loading and access	RD	a. Parking, loading and access standards
Site development activities in all areas (except as covered by rows 27 - 30 above)		Activity status	Performance standards
31.	Parking, loading and access	P	a. Parking, loading and access standards b. Location and screening of car parking
32.	New or additions to parking areas that result in 50 or more new parking spaces.	RD	a. Parking, loading and access standards b. Location and screening of car parking
33.	Storage and use of hazardous substances	P	a. Hazardous substances quantity limits and storage requirements b. Setback from coast and water bodies
34.	Outdoor storage	P	a. Location and screening of outdoor storage
35.	Vegetation clearance	P	a. Vegetation clearance standards
36.	All other site development activities	P	
All buildings and structures activities not covered in rows above		Activity status	Performance standards

37.	All buildings and structures activities not covered in rows 3 to 36 above	P	a. Materials and design
-----	---	---	-------------------------

Note 15.3.4A- General advice

1. An archaeological authority is required under the Heritage New Zealand Pouhere Taonga Act 2014 to modify or destroy an archaeological site. If you wish to do any earthworks that may affect an archaeological site, you must first obtain an authority from Heritage New Zealand. This is the case regardless of whether the site is designated, or the activity is permitted under the District Plan or Regional Plan, or a resource or building consent has been granted.
2. An archaeological site is defined as any place in New Zealand that was associated with human activity that occurred before 1900 and provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand. This includes the scheduled archaeological sites within the District Plan.
3. Pre-1900 buildings are considered archaeological sites. An archaeological authority must be obtained before demolishing a pre-1900 building or structure.
4. The **archaeological alert layer mapped area** identifies sites and areas that have a strong likelihood of containing archaeological remains, however remains may be present anywhere within the District. If archaeological remains are discovered during any site works, at any location, the Accidental Discovery Protocol (Appendix A8) should be followed.

15.3.5 Subdivision Activity Status Table

Subdivision activities		Activity status	Performance standards
1.	Cross lease, company lease and unit title subdivision	RD	a. Access b. Esplanade reserves and strips c. Fire fighting d. Service connections e. Shape
2.	General subdivision	RD	a. Access b. Esplanade reserves and strips c. Fire fighting d. Minimum site size e. Service connections f. Shape g. Structure plan mapped area performance standards (where relevant)

Note 15.3.5A - Other RMA considerations

1. Under Section 226(1)(e)(ii) of the Resource Management Act 1991, where an existing allotment shown on a survey plan meets all relevant provisions of the district plan and any proposed district plan, the Dunedin City Council must issue a certificate to that effect to enable the Registrar-General of Land to issue a certificate of title for that separate allotment.

15.3.6 Activity Status in Hazard 1 (Flood) Overlay Zone and Hazard 2 (Flood) Overlay Zone

Activity	Activity status
----------	-----------------

		a. Haz1 (flood)	b. Haz2 (flood)
1.	Natural hazards sensitive activities	NC	RD
2.	Natural hazards potentially sensitive activities	NC	RD
3.	New buildings, and additions and alterations to buildings, which create more than 36m ² of new ground floor area	RD	RD

Note 15.3.6A - Other RMA considerations

1. For the purposes of the natural hazards provisions only, with respect to section 10 of the RMA (existing use rights), Council will generally consider that a land use activity is similar in character, intensity, and scale where:
 - a. for a residential activity, there is less than 25m² increase in ground floor area of any residential building(s), in any consecutive 10 year period; or
 - b. for a residential activity, a new building is to be used solely as a garage or shed; or
 - c. for all other natural hazards sensitive activities and natural hazards potentially sensitive activities, the ground floor area of any buildings increases by less than 100% in any consecutive 10 year period.
2. Accordingly, these activities will not usually trigger the provisions for natural hazards sensitive activities and natural hazards potentially sensitive activities in Rule 15.3.6. However, Council will consider specific circumstances associated with the development and how this affects the character, intensity and scale of the land use activity.

Rule 15.4 Notification

1. Applications for resource consent for the following activities will be considered without the need to obtain a written approval of affected persons and will not be notified in accordance with section 95A or section 95B of the RMA, unless Council considers special circumstances exist in relation to the application that require public notification:
 1. earthquake strengthening of a scheduled heritage building or scheduled heritage structure where external features only are protected (controlled activity) and that are not listed by Heritage New Zealand;
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is not listed by Heritage New Zealand; and
 3. In the **Holyhead Street structure plan mapped area**, subdivision activities in accordance with Rule 15.7A Holyhead Street structure plan mapped area performance standards
2. With respect to resource consent applications, Heritage New Zealand will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided for the following:
 1. activities that affect a protected part of a scheduled heritage building, scheduled heritage structure, or a scheduled heritage site, that is listed with Heritage New Zealand;
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is listed by Heritage New Zealand; and
 3. contravention of the archaeological sites performance standard (Rule 13.3.3).
3. With respect to resource consent applications for the following activities, Manawhenua will be considered an affected person in accordance with section 95B of the RMA where their written approval is not provided:
 1. cemeteries;
 2. all restricted discretionary activities that list 'effect on cultural values of Manawhenua' as a matter for discretion; and
 3. discretionary and non-complying activities in a **wāhi tūpuna mapped area** where the activity is

identified as a threat in Appendix A4.

4. With respect to sections 95D(b) and 95E(2)(a) of the RMA, Council will not consider family flats as part of the permitted baseline in considering residential density effects in the residential zones.
5. With respect to resource consent applications for the following activities, the Otago Regional Council will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
 1. activities in the hazard 1 or hazard 1A (flood) overlay zones; and
 2. activities in **swale mapped areas**.
6. All other activities are subject to the normal tests for notification in accordance with sections 95A-95G of the RMA.

Rule 15.5 Land Use Performance Standards

15.5.1 Acoustic Insulation

Noise sensitive activities in the following areas must comply with Rule 9.3.1:

1. **port noise control mapped area;**
2. **airport noise outer control mapped area;**
3. **airport noise inner control mapped area;**
4. within 40m of the Taieri Aerodrome Zone;
5. within 40m of a state highway;
6. within 20m of an industrial zone; and
7. within 70m of a railway line.

15.5.2 Density

1. Standard residential activities must not exceed the following density limits:

Zone		i. Minimum site area for a residential unit (excluding family flats)	ii. Maximum development potential per site
a.	General Residential 1 Zone	1 per 500m ²	1 habitable room per 100m ²
b.	General Residential 2 Zone not within an infrastructure constraint mapped area or the South Dunedin mapped area	N/A	1 habitable room per 45m ²
c.	General Residential 2 Zone within an infrastructure constraint mapped area	N/A	1 habitable room per 100m ²
d.	General Residential 2 Zone within the South Dunedin mapped area	N/A	1 habitable room per 60m ²
e.	Inner City Residential Zone	N/A	1 habitable room per 45m ²
f.	Low Density Residential Zone	1 per 750m ²	1 habitable room per 150m ²

Zone		i. Minimum site area for a residential unit (excluding family flats)	ii. Maximum development potential per site
g.	Large Lot Residential 1 Zone	1 per 2000m ²	1 habitable room per 400m ²
h.	Large Lot Residential 2 Zone	1 per 3500m ²	1 habitable room per 700m ²
i.	Township and Settlement Zone not within the no DCC reticulated wastewater mapped area	1 per 500m ²	1 habitable room per 100m ²
j.	Township and Settlement Zone within the no DCC reticulated wastewater mapped area	1 per 1000m ²	1 habitable room per 200m ²

k. Except:

i. In all zones, other than the GR2 and ICR zones:

1. A single residential unit may be erected on a site of any size provided all other performance standards are met.
2. one family flat is allowed per site in association with a standard residential activity provided the maximum development potential per site is not exceeded.

2. For the purposes of this standard:

- a. the calculation of habitable rooms includes rooms in family flats and sleep outs;
- b. the calculation of minimum site area excludes access legs provided for rear sites; and
- c. the calculation of maximum development potential only applies in the Inner City Residential and General Residential 2 Zones, and for determining whether a family flat can be developed in other zones.

3. More than one residential building (other than a family flat) may only be built on a site if all residential buildings are able to meet all the following performance standards if they were ever subdivided into separate sites:

- a. site coverage;
- b. height in relation to boundary;
- c. setbacks; and
- d. access.

4. Standard residential activity that contravenes the performance standard for density is a non-complying activity, except the following are restricted discretionary activities:

- a. papakāika that contravenes the performance standards for density; **{Note - appeal relates to clause (a) only}**
- b. standard residential in the General Residential 2 Zone (**infrastructure constraint mapped area**) that contravenes the performance standards for maximum development potential per site, provided the maximum development potential per site of the activity proposed does not exceed 1 habitable room per 45m²; and
- c. contravention of Rule 15.5.2.3 (bulk and location performance standards for multiple residential buildings on the same site).

5. Visitor accommodation must have a maximum of one visitor accommodation unit per 80m² of site area;

6. Visitor accommodation that exceeds one visitor accommodation unit per 80m² of site area is a non-complying activity.

Note 15.5.2A - General advice

1. Maximum development potential may not be achievable on all sites as site size, shape, topography, and design will all influence development potential.

15.5.3 Electrical Interference

Land use activities must comply with Rule 9.3.2.

15.5.4 Hours of Operation

Activity	Hours of operation
1. Working from home (excluding homestay)	7.00am - 7.00pm
2. Dairies	6.00am - 10.00pm
3. Community and leisure	Sunday - Thursday: 6.00am - 10.30pm Friday - Saturday: 6.00am - 12.00am (midnight)
4. Training and education	8.00am - 8.00pm

5. Working from home hours of operation do not apply to activities that:
 - a. are located entirely within a building; and
 - b. do not involve machinery operation, visitors, customers, or deliveries.
6. Special church celebrations, including Christmas midnight mass, are exempt for this standard, provided they occur no more than 3 times in a calendar year.
7. Activities that contravene the performance standard for hours of operation are restricted discretionary activities.

15.5.5 Light Spill

Land use activities must comply with Rule 9.3.5.

15.5.6 Location

1. For restaurants, retail, or conference, meeting and function ancillary to visitor accommodation, all customer pedestrian access must not be orientated to the street frontage.
2. Land use activities that contravene the performance standard for location are restricted discretionary activities.

15.5.7 Maximum Gross Floor Area

Activity	Maximum gross floor area
1. Working from home	50m ² (includes any internal or external area occupied for storage of materials or goods)
2. Dairies	50m ²

3. Working from home or dairies that contravene the performance standard for maximum gross floor area are discretionary activities.

Note 15.5.7A - Other requirements outside of the District Plan

1. Registration must be obtained from the DCC's Environmental Health Department for any working from home activity which involves food products, hairdressing, beauty therapy or tattooing. Please contact the DCC's Environmental Health Department on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.
2. Approval from DCC's Alcohol Licensing Department may be required for working from home activity that involves the sale or distribution of alcohol. Please contact the DCC on 03 477 4000 or visit the DCC website www.dunedin.govt.nz

for more information.

15.5.8 Minimum Car Parking

Land use activities must provide the on-site car parking as follows:

Activity	Minimum car parking rate
1. Standard residential in Inner City Residential Zone	a. 1 - 5 habitable rooms on a site: 1 parking space b. 6 - 8 habitable rooms on a site: 2 parking spaces c. Greater than 8 habitable rooms on a site: 2 parking spaces plus 1 space for every 4 habitable rooms (or part thereof) d. Except: i. where sites with less than 5 habitable rooms have no existing parking, no additional parking is required for additions that increase the number of habitable rooms to 5 (or fewer), provided no additional residential units are created; ii. where the provision of an on-site parking space for sites with 1-5 habitable rooms would result in the loss of an on-street parking space, no parking space is required. iii. where a residential building that existed as at 26 September 2015 (date of notification of the Plan) is divided into more residential units, no additional parking is required provided that no additional habitable rooms are created.
2. Standard residential in all other residential zones	a. 1 - 4 habitable rooms: 1 parking space b. 5 or more habitable rooms: 2 parking spaces
3. Working from home	On-site car parking must be provided for all vehicles associated with the activity
4. Supported living facilities	a. Student hostels i. hostels with 1 - 10 residents: 1 parking space ii. hostels with 11 - 20 residents: 2 parking spaces iii. hostels with 21 - 30 residents: 3 parking spaces iv. hostels with greater than 30 residents: 3 parking spaces plus 1 additional space for every 10 additional residents (or part thereof) v. Except student hostels in the Campus Zone or within 500m walking distance of the Campus Zone have no minimum car parking requirements. b. Rest homes i. 1 parking space for every 3 beds. c. Retirement villages i. 1 parking space for every residential unit, and 1 parking space for every 3 beds for any rest home type component of the retirement village.
5. Community and leisure	1 parking space for every 5 persons the facility can accommodate at any one time

Activity		Minimum car parking rate
6.	Visitor accommodation (other than in George Street North Residential Heritage Precinct)	1. 1 parking space per 3 guest rooms, where the activity is based upon guest rooms (e.g. hotels); 2. 1 parking space per visitor accommodation unit, where the activity is based on units (e.g. motels); and 3. 1 parking space per visitor accommodation unit on a campground.
7.	Early childhood education - small scale	1 parking space per 2 full time equivalent staff members plus one parking space for parent/guardian use per 6 children the facility is licensed for.
8.	Training and education	1 parking space per 30m ² of gross floor area.
9.	Emergency services	a. For fire stations: 5 parking spaces per fire engine bay. b. For all other activities: 1 parking space per 100m ² gross floor area.

10. Activities other than standard residential must provide mobility parking spaces as follows:

Total number of parking spaces provided		Minimum number of these that must be mobility parking spaces
a.	1 - 20	1 parking space
b.	21 - 50	2 parking spaces
c.	For every additional 50 parking spaces	1 additional parking space

11. Required parking spaces may be used for car, cycle or motorcycle parking, except for any required mobility parking spaces, which must be used for accessible car parking.
12. Parking spaces may be shared between land use activities (i.e. the same parking spaces may be used to fulfil the minimum car parking requirement for more than one land use activity), as long as the hours of operation of the land use activities do not overlap.
13. Residential and office activities (excluding registered health practitioners) undertaken entirely within a scheduled heritage building do not need to provide any additional car parking other than what is already on-site and may remove any car parking that does not meet the performance standards for location of car parking.
14. For the purposes of calculating minimum car parking:
- Where the minimum car parking performance standard results in the requirement for a fractional space, any fraction under one half will be disregarded and any fraction of one half or greater will be counted as one space.
 - Parking loading and access areas within a building will be excluded from the assessment of gross floor area for the purpose of calculating the minimum car parking requirement.
15. For activities where the minimum car parking performance standard is based on the gross floor area, the following areas will be excluded from the assessment of gross floor area:
- any parking area and associated manoeuvring space, including aisle; and
 - any loading area and associated manoeuvring space.
16. Activities that contravene this performance standard are restricted discretionary activities.

Note 15.5.8A - Other relevant District Plan provisions

1. Parking areas must comply with the standards in Section 6.6: Parking, Loading and Access Standards.

15.5.9 Minimum Vehicle Loading

1. Land use activities must provide on-site vehicle loading as follows:

Activity	Minimum vehicle loading
a. Visitor accommodation with more than 50 visitor accommodation units (except in relation to scheduled heritage buildings in the George Street North Residential Heritage Precinct)	1 loading space to accommodate the turning circle of a coach (See Appendix 6B, Figure 6B.12).

2. Activities that contravene this performance standard are restricted discretionary activities.

Note 15.5.9A - Other relevant District Plan provisions

1. Vehicle loading must comply with the vehicle loading design performance standards in Section 6.6: Parking, Loading and Access Standards.

15.5.10 Noise

Land use activities must comply with Rule 9.3.6.

15.5.11 Outdoor Living Space

15.5.11.1 Minimum area of outdoor living space for standard residential activity

{Note - appeal relates to ICR only}

- a. Standard residential activity must provide a minimum of outdoor living space per residential unit as follows:

Number of habitable rooms in unit	1. Ground level units in ICR, GR2, and campus zones	2. Ground level units in all other zones	3. Units not at ground level
i. 1	15m ²	25m ²	6m ²
ii. 2	15m ²	25m ²	10m ²
iii. 3	20m ²	35m ²	10m ²
iv. More than 3 habitable rooms	20m ² + 5m ² per additional habitable room over 3 habitable rooms	35m ² + 5m ² per additional habitable room over 3 habitable rooms	10m ²

- v. Except: family flats that have direct access to at least 25m² of outdoor living space provided for the primary residential unit do not need to provide additional outdoor living space.
 - vi. Required outdoor living space for residential units must be for the exclusive use of the individual residential unit, however, for the sake of clarity, this does not require that the area to be fenced or otherwise partitioned from another unit's outdoor living space.
- b. Activities that contravene this performance standard are restricted discretionary activities.

15.5.11.2 Minimum area of outdoor living space for supported living facilities.

- a. Supported living facilities that offer individual residential units, must provide a minimum area of outdoor living space per residential unit as follows:

Number of habitable rooms in unit		Minimum area
i.	1-2	15m ²
ii.	3	20m ²
iii.	More than 3 habitable rooms	20m ² + 5m ² per additional habitable room over 3 habitable rooms

- b. Required outdoor living space for individual residential units must be for the exclusive use of the residential unit, however for the sake of clarity, this does not require that the area to be fenced or otherwise partitioned from another unit's outdoor living space.
- c. For supported living facilities, such as rest homes or student hostels, which only provide bedrooms or beds for residents (not residential units), shared outdoor living space must be provided as follows:

Type of room		Minimum area of outdoor living space per bedroom
i.	Single occupancy bedrooms	5m ²
ii.	Multiple occupancy bedrooms/hospital rooms/dorms (rooms used to accommodate 2 or more residents)	10m ²

- d. Shared outdoor living space may be provided as a mixture of ground level balcony, decks or terrace spaces, provided at least 60% is at ground level, and each space is at least 20m².
- e. Where a facility provides a mixture of residential units and bed/bedroom only options, such as a retirement village, the outdoor living space must comply with the respective standards above based on the amount of each type of accommodation.
- f. Activities that contravene this performance standard are restricted discretionary activities.

15.5.11.3 Quality and location of outdoor living space for all residential activities

- a. Outdoor living space provided at ground level must:
- be clear of buildings and structures, except for pools, building eaves, pergolas, decks and terraces;
 - have an average vertical grade not exceeding 1:12 (vertical:horizontal) in any direction;
 - have dimensions no less than 3m;
 - be usable for its intended purpose and not used for vehicle parking, manoeuvring, driveways, or pedestrian accessways to other residential units or properties, or other uses; and
 - include at least one continuous area no smaller than 15m².
- b. Outdoor living space provided not at ground level must:
- if provided as a deck, balcony, or roof terrace, have dimensions no less than 1.8m.
- c. All outdoor living space must:
- be located on the northern, eastern or western sides of residential buildings as per Figure 15.5.11.3A; and
 - be directly accessible from a principal living area, except if provided as shared outdoor living space for

supported living facilities.

- d. Activities that contravene this performance standard are restricted discretionary activities.

Figure 15.5.11.3A: Location of outdoor living space

15.5.12 Service Areas

1. Residential activity with 3 or more residential units on a site must provide service areas with a minimum area of 2.5m² per residential unit. Service area requirements are in addition to outdoor living space requirements.
2. Activities that contravene this performance standard are restricted discretionary activities.

15.5.13 Setback from National Grid

National Grid sensitive activities must comply with Rule 5.6.1.1.

15.5.14 Family Flats

15.5.14.1 Family Flats - Tenancy

- a. Family flats must:
 - i. only be occupied by:
 1. a person or persons related to or dependent on the household that lives in the primary residential unit on the same site; or
 2. employed on-site as a domestic or child-care worker by the household that lives in the primary residential unit on the same site; and
 - ii. not be on a different tenancy agreement to the primary residential unit.
- b. Standard residential activity that contravenes this performance standard is a non-complying activity.

15.5.14.2 Family Flats - Design

- a. Family flats must:
 - i. not exceed a maximum gross floor area of 60m²;
 - ii. be on the same available water and waste infrastructure connection, or the same non-reticulated wastewater disposal system as the primary residential unit;
 - iii. be on the same household electricity account; and
 - iv. share the same vehicle access as the primary residential unit.
- b. Standard residential activity that contravenes this performance standard is a restricted discretionary activity.

15.5.15 Scheduled Mining Activity

15.5.15.1

Fairfield Sandpit No. 1 must meet the performance standards listed below.

15.5.15.2

If Fairfield Sandpit No. 1 contravenes any of these standards it will be considered a new mining activity and will be subject to the rules that apply to mining in Rule 15.3.

15.5.15.3 Maximum annual extraction

- a. Fairfield Sandpit No. 1 must not exceed a maximum annual limit of 10,000 tonnes.

15.5.15.4 Operating limits

- a. Fairfield Sandpit No. 1:
 - i. may only operate: Monday to Friday 6.00am to 8.00pm and Saturday 7.00am to 5.00pm;
 - ii. must not use blasting;
 - iii. must not undertake aggregate processing; and
 - iv. must not quarry within 15m of any adjoining property boundary which is used for residential purposes.

15.5.15.5 Noise

Fairfield Sand Pit No. 1 must comply with Rule 9.3.6, subject to the following:

- a. an adjustment of minus 5 dBA for noise emissions having special audible characteristics; and
- b. noise level readings for the purpose of determining compliance with the noise conditions must be provided by the quarry operator for two hours, at times representative of the operation and at which maximum noise levels can be assessed. For continuous operations, readings must take place at 12 monthly intervals; for intermittent operations readings must be provided at the time of every subsequent operation of the site.

15.5.15.6 Landscaping and Rehabilitation

- a. Fairfield Sand Pit No. 1 must undertake a programme of screen planting designed to mitigate adverse visual effects as viewed from adjacent residential areas, road and other viewing areas, and a programme of landscaping to encourage the revegetation of areas that are no longer being mined. The programmes must ensure that:
 - i. all planting is in accordance with a landscape plan prepared by a qualified landscape architect;
 - ii. all vegetation established as part of this programme is maintained in a healthy state at all times;
 - iii. where practical, existing screening vegetation within 15m of any adjoining property boundary which is used for residential purposes will be retained; and
 - iv. the site is rehabilitated to an appearance and character similar to that of the surrounding environment.

- b. Fairfield Sand Pit No. 1 must ensure the edge of the quarried area is designed and certified by a suitably qualified geotechnical engineer to ensure that the edge will not adversely affect any adjoining property boundary.

Rule 15.6 Development Performance Standards

15.6.1 Building Length

1. New buildings and additions and alterations must not result in a building with a continuous dimension (building length) that is greater than 20m measured parallel to boundaries, except along any boundary length where the building shares the wall with the adjacent building.
2. For the purposes of this rule a 'continuous dimension' will be measured as follows for walls that modulate: where modulation involves a step-back of 1 metre or more in depth it will be counted as a new wall, but where modulation is less than 1 metre in depth it will be considered a continuous dimension.
3. Buildings that are not visible from an adjoining public place are exempt from this standard.
4. New buildings, and additions and alterations that contravene the performance standard building length are restricted discretionary activities.

Figure 15.6.1A: Building Length

15.6.2 Fence Height and Design

15.6.2.1 Maximum Height

- a. The maximum height of fences along boundaries (including within the boundary setbacks required by Rule 15.6.13) is 2m, except:
 - i. for sites within a residential heritage precinct, fences along the part of a side boundary that is within the road boundary setback required by Rule 15.6.13 (see Figure 15.6.2.1A) the maximum height is

1.4m.

- b. For the purposes of calculating maximum height, where a fence is erected atop a retaining wall, the height will be calculated as the combined height measured from ground level to the top of the fence.
- c. Activities that contravene this performance standard are restricted discretionary activities.

Figure 15.6.2.1A: Side boundary fences in heritage precincts

15.6.2.2 Visual Permeability

- a. Fences along road boundaries or boundaries adjoining a reserve (including within the boundary setbacks required by Rule 15.6.13) must be constructed to a length and/or height that maintains visual permeability for 50% of the length of the boundary measured at a height of 1.4m above ground level (see Figure 15.6.2.2A).
- b. The following fences are exempt from this requirement:
 - i. fences along the road boundary of a state highway;
 - ii. fences required to meet Rule 15.6.8 (Location and Screening of Outdoor Storage); and
 - iii. boundaries with a reserve that is not in the Recreation Zone or a residential zone.
- c. Fences that contravene this performance standard are restricted discretionary activities.

Figure 15.6.2.2A: Examples of fencing that meet Rule 15.6.2.2 Visual Permeability

15.6.3 Fire Fighting

All new residential buildings and subdivision activities must comply with Rule 9.3.3.

15.6.4 Natural Hazards Performance Standards

15.6.4.1 Hazard exclusion areas (swale mapped area)

New buildings and structures and additions and alterations located in a **swale mapped area** must comply with Rule 11.3.1.1.

15.6.4.2 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the Hazard 1 or 2 (land instability) overlay zones must comply with Rule 11.3.2.

15.6.4.3 Relocatable buildings

New buildings containing residential activity on the ground floor in the Hazard 3 (coastal) Overlay Zone must comply with Rule 11.3.3.

15.6.4.4 Outdoor storage

Outdoor storage in the Hazard 1 (flood) Overlay Zone must comply with Rule 11.3.4.

15.6.5 Hazardous Substances Quantity Limits and Storage Requirements

The storage and use of hazardous substances must comply with Rule 9.3.4.

15.6.6 Height

Note 15.6.6A - General advice

1. The permitted height of buildings and structures is controlled by both the maximum height standard and height in relation to boundary standard. The absolute maximum height specified in the 'maximum height performance standard' may not be achievable on all sites due to site dimensions and topography.
2. A common wall is a wall or two abutting walls that form the dividing partition between two adjoining buildings.

15.6.6.1 Height in relation to boundary

- a. On all side and rear boundaries that adjoin a site with a residential zone or a Residential Transition Overlay Zone, new buildings and additions and alterations to buildings must not protrude through the following planes:
 - i. in the General Residential 1 Zone, a plane rising at an angle of 45 degrees measured from a point 2.5m above ground level at the boundary; or for parts of the site where the width of the site as measured at right angles to the side or rear boundaries is under 16m (see Figure 15.6.6.1G), or that have a slope angle of 6 degrees or more and where the ground level at the nearest boundary is lower than the existing ground level of the building platform (see Figure 15.6.6.1H), through a plane raising at an angle of 55 degrees from a point 2.5m above ground level at the boundary.
 - ii. in the Inner City Residential Zone, a plane rising at an angle of 45 degrees measured from a point 3m above ground level at the boundary (see Figure 15.6.6.1B); or for parts of the site where the width of the site as measured at right angles to the side or rear boundaries is under 16m (see Figure 15.6.6.1G), or that have a slope angle of 6 degrees or more and where the ground level at the nearest boundary is lower than the existing ground level of the building platform (see Figure 15.6.6.1H), through a plane raising at an angle of 55 degrees from a point 3m above ground level at the boundary.
 - iii. in the General Residential 2 Zone, a plane rising at an angle of 55 degrees measured from a point 3m

above ground level at the boundary (see Figure 15.6.6.1A);

- iv. in all other residential zones, a plane rising at an angle of 45 degrees measured from a point 2.5m above ground level at the boundary (see Figure 15.6.6.1C)
- v. except:
 1. in the Inner City Residential Zone, for any new buildings and additions or alterations to buildings within 16m of the road boundary, the height in relation to boundary will be measured from 6.5m above ground level at side boundaries, provided that all buildings on the remainder of the site are set back from the side boundaries by at least 2m (see Figure 15.6.6.1D);
 2. where new buildings or additions and alterations are built to a common wall, any part of a building where the height and angle of the roofline are the same as the adjoining building is exempt from this standard Figure 15.6.6.1E;
 3. gable ends and dormers may protrude through the height in relation to boundary plane by a maximum of 2m (see Figure 15.6.6.1F); and
 4. rooftop structures are exempt from the performance standard for height in relation to boundary.
- b. Activities that contravene this performance standard are restricted discretionary activities.

Figure 15.6.6.1A: General Residential 2 Zone

Figure 15.6.6.1B: Inner City Residential Zone

Figure 15.6.6.1C: All other residential zones

Figure 15.6.6.1D: Inner City Residential Zone height in relation to boundary special provision

Figure 15.6.6.1E: Roof line mirror image where shared wall

Figure 15.6.6.1F: Gable ends and dormers protruding through height plane

Figure 15.6.6.1G: Site width exception rule

Figure 15.6.6.1H: Sloping site exception rule

15.6.6.2 Maximum height

- a. New buildings and structures, and additions and alterations must not exceed the following maximum height above ground level:

		1. Maximum height in the Inner City Residential Zone	2. Maximum height in all other residential zones
i.	Family flat (stand-alone building)	Not provided for	3m (from ground level to the bottom of the eaves)
ii.	Garages and carports in road boundary setback	3m (from ground level to the bottom of the eaves)	3m (from ground level to the bottom of the eaves)
iii.	All other buildings and structures within setbacks from boundaries, except as provided for in Rule 15.6.13.1	2m	2m
iv.	All other buildings and structures	12m	9m

- v. Except:

1. rooftop structures are exempt from the performance standard for height provided they do not exceed the maximum height limit for all other buildings and structures by more than one third of that limit.
2. within the **Huriawa height restriction mapped area** (see Figure 15.6.6.2A)
 1. buildings on sites between Rockal Street and Kilda Street must not protrude through a horizontal plane 4.5m above ground level at the Sulisker Street boundary of the site;
 2. buildings on sites between Rona Street and Rockal Street must not exceed 4.5m.
- b. Buildings or structures must not protrude through the height restriction for the Taieri Aerodrome approach and take-off fans shown on the **Taieri Aerodrome flight fan mapped area**.
- c. Activities that contravene this performance standard are restricted discretionary activities.

Figure 15.6.6.2A: Huriawa Height Restriction Mapped Area

15.6.7 Location and Screening of Car Parking

1. In all residential areas, parking, loading and access areas and garages and carports must not occupy more than 50% of the area of the front yard that is part of the road boundary setback required by Rule 15.6.13.
2. In residential heritage precincts, parking areas must not be visible from an adjoining public place, unless they are set back a minimum of 4m from the road boundary.
3. Activities that contravene this performance standard are restricted discretionary activities.

15.6.8 Location and Screening of Outdoor Storage

1. Shared service areas provided for 3 or more residential units must be located or screened so they are not visible at ground level from residential activities within the site, residential activities on adjacent sites, or public places.
2. Outdoor storage, including service areas, must not encroach into required parking, loading, manoeuvring, or outdoor living areas.
3. Materials stored outside must be stored in a way that prevents them contaminating any off-site area.
4. Activities that contravene this performance standard are restricted discretionary activities.

15.6.9 Materials and Design

Repairs and maintenance, restoration and earthquake strengthening must comply with Rule 13.3.2.

15.6.10 Maximum Building Site Coverage and Impermeable Surfaces

1. Development activities must not exceed the following maximum building site coverage limits:

Zone		i. Maximum building site coverage: buildings and structures with a footprint greater than 10m ² (% of site)	ii. Maximum building site coverage: buildings and structures and any impermeable surfaces (% of site)
a.	General Residential 1 Zone	40%	70%
b.	General Residential 2 Zone	50%	80%
c.	Inner City Residential Zone	60%	80%
d.	Low Density Residential Zone	35%	65%
e.	Large Lot Residential 1 and 2 Zones	30%	50%
f.	Township and Settlement Zone	40%	70%
g.	Township and Settlement Zone in a no DCC reticulated wastewater mapped area	30%	50%

2. Any vehicle access that provides access to another site and access leg for rear sites will be excluded from the calculation of total site area for the purpose of calculating site coverage in column i but included in the calculation of site coverage in column ii (See Figure 15.6.10A).
3. Activities that contravene this performance standard are restricted discretionary activities.

Figure 15.6.10A: Site coverage calculation

15.6.11 Number, Location and Design of Ancillary Signs

15.6.11.1 General

- a. Signs visible from a public place must meet all of the following performance standards, except that regulatory signs, directional signs and warning signs that do not exceed 0.25m² are exempt from these standards.
- b. Signs must also comply with:
 - i. Rule 6.7.2 where located on or above the footpath; and
 - ii. Rule 6.7.3 where visible from a road.
- c. Signs must not be illuminated or digital, except signs ancillary to visitor accommodation in the George Street North Residential Heritage Precinct and North Ground Residential Precinct.
- d. Signs that contravene the performance standard for number, location, and design of ancillary signs are restricted discretionary activities.

15.6.11.2 All signs in residential zones

- a. Signs must not be attached to roofs.
- b. Signs must not project higher than the lowest point of the roof, except as mounted flat against a parapet or gable end.
- c. Signs must have a maximum of 2 display faces per sign.
- d. Where attached to a building, signs must not protrude from a building façade by more than 1m.

15.6.11.3 All signs (ancillary to residential activities)

- a. Maximum one sign per site, either attached to a building, freestanding or attached to a fence or retaining wall.
- b. The height, above ground level, at the highest point of any sign:
 - i. attached to a residential building, is 4m; and
 - ii. where attached to a fence, retaining wall or freestanding, is 2m.
- c. Signs must have a maximum area of 0.6m² per display face.
- d. Portable freestanding signs must not be located on the road reserve.

15.6.11.4 All signs (ancillary to dairies)

- a. The height, above ground level, at the highest point of any sign attached to a building is 6m.
- b. Signs attached to a verandah fascia must not exceed a height of 0.5m, or the height of a verandah fascia, whichever is greater.
- c. The maximum area of walls up to 4m above ground level, or the bottom of a verandah, whichever is the lesser that signs may occupy is 50%.
- d. One sign with a maximum display face of 2m² is allowed per building between 4 and 6m in height above ground level.
- e. Signs attached at right angles to the façade of a building (including attached to the underside of a verandah), must not exceed:
 - i. a maximum of 2 signs per site; and
 - ii. a maximum area per display face of 1.5m²
- f. Portable freestanding signs on footpaths outside dairies must not exceed:
 - i. a maximum height of 0.9m above ground level;
 - ii. a maximum width of 0.6m; and

- iii. a maximum of 1 portable freestanding sign per street frontage of dairy.

15.6.11.5 Signs attached to buildings (ancillary to commercial activities and community activities)

- a. Maximum 1 sign per site attached to a building.
- b. The height, above ground level, at the highest point of any sign, attached to a building is 4m.
- c. Signs must have a maximum area per display face of 1.5m², except signs ancillary to visitor accommodation may have a maximum area of 2m² per display face in the George Street North Residential Heritage Precinct and North Ground Residential Precinct.

15.6.12.6 Freestanding signs (ancillary to commercial activities and community activities)

- a. Maximum of 1 permanently fixed freestanding sign or 1 portable freestanding sign per site.
- b. Freestanding signs must be positioned entirely within site boundaries.
- c. The maximum dimensions of freestanding signs are:
 - i. maximum height of 2m;
 - ii. maximum area of 1.5m² per display face, except signs ancillary to visitor accommodation may have a maximum area of 2m² per display face in the George Street North Residential Heritage Precinct and North Ground Residential Heritage Precinct;
 - iii. maximum width of 0.6m; and
 - iv. maximum depth of 0.4m.

Note 15.6.11A - Other requirements outside of the District Plan

- 1. For additional restrictions that may apply to signs, see also:
 - a. NZ Transport Agency *Traffic Control Devices Manual, Part 3, Advertising Signs and Signs on State Highways Bylaw*.
 - b. Dunedin City Council Commercial Use of Footpaths Policy.
 - c. Dunedin City Council Roadway Bylaw.
 - d. Dunedin City Council Traffic and Parking Bylaw.

15.6.12 Parking, Loading and Access Standards

Parking, loading and access must comply with Rule 6.6.

15.6.13 Setbacks

Note 15.6.13A - General advice

- 1. A common wall is a wall or two abutting walls that form the dividing partition between two adjoining buildings.

15.6.13.1 Boundary setbacks

- a. New buildings and structures, and additions and alterations, must have a minimum set back from boundaries, as follows:

Zone		1. Setback from any road boundary	2. Setback from side and rear boundaries	3. Setback from boundary with right of way
i.	General Residential 1 Zone	4.5m	2m	1m

Zone		1. Setback from any road boundary	2. Setback from side and rear boundaries	3. Setback from boundary with right of way
ii.	General Residential 2 Zone (except for Gardens, Mornington, Mosgiel, South Dunedin, and Caversham mapped areas)	4.5m	2m	1m
iii.	General Residential 2 Zone (Gardens, Mornington, Mosgiel, South Dunedin, and Caversham mapped areas)	3m	1m	1m
iv.	Inner City Residential Zone	3m	1m	1m
v.	Low Density Residential Zone	4.5m	2m	1m
vi.	Large Lot Residential 1 and 2 Zones	4.5m	4m	1m
vii.	Township and Settlement Zone	4.5m	2m	1m

viii. Except:

- where residential buildings are located on a site between two sites (including corner sites) with residential buildings that do not meet the standard for setback from the road boundary, then the minimum setback may be reduced to the depth of the larger of the two existing setbacks, as shown in Figure 15.6.13.1A¹;
- where buildings are built to the boundary and share a common wall no setback is required for the length of the buildings where joined (see Figure 15.6.13.1B);
- the setback from any road boundary may be reduced to 0.5m for garages (stand-alone and attached) and carports no greater than 4.5m in width (as measured parallel to the road boundary) that have their entry facing the road and that meet Rule 15.6.6.2.a.ii (maximum height);
- the setback from the side and rear boundary may be reduced to 1m for garages (stand-alone and attached) and carports that are no greater than 6m in length (as measured parallel to the boundary) and that meet Rule 15.6.6.2.a.ii (maximum height)
- decks less than 0.5m above ground level, structures less than 2m² in footprint and 2m in height, and all fences are exempt from this standard.
- for new buildings or additions and alterations to buildings in the Inner City Residential Zone being built in accordance with Rule 15.6.6.1.a.v.1 (alternate height in relation to boundary performance standard) where a 2m minimum setback is required in accordance with that rule.

b. Activities that contravene this performance standard are restricted discretionary activities.

¹ Note: for the purposes of this rule 'existing setbacks' will be measured from the main part of residential buildings and will not include any garages or carports, or other parts of buildings that occupy less than 50% of the building frontage (within the setback), e.g. bay windows, porches, steps, or decks (See Figure 15.6.13.1C). Where the main part of an existing buildings is not parallel to the road boundary (e.g. not consistently the same distance from the road boundary), the nearest point of the building from the boundary will be used to determine the existing setback.

Figure 15.6.13.1A: Setback from road boundary consistent with neighbour

Figure 15.6.13.1B: Setbacks for buildings sharing common wall

Figure 15.6.13.1C: Determining existing setbacks

15.6.13.2 Setback from scheduled tree

New buildings and structures, additions and alterations, and any site development activities that involve the installation of impermeable surfacing must comply with Rule 7.5.2.

15.6.13.3 Setback from coast and water bodies

New buildings and structures, additions and alterations, and storage and use of hazardous substances must comply with Rule 10.3.3.

15.6.13.4 Setback from National Grid

New buildings and structures, and additions and alterations must comply with Rule 5.6.1.1.

15.6.14 Vegetation Clearance Standards

15.6.14.1 - Maximum area of vegetation clearance (UBMA)

Vegetation clearance in an **urban biodiversity mapped area** (UBMA) must comply with Rule 10.3.2.4.

15.6.14.2 - Maximum area of vegetation clearance in a hazard overlay zone

Vegetation clearance in the Hazard 1 (land instability) or Hazard 2 (land instability) Overlay Zone must comply with Rule 11.3.2.

Rule 15.7 Subdivision Performance Standards

15.7.1 Access

Subdivision activities must comply with Rule 6.8.1.

15.7.2 Esplanade Reserves and Strips

Subdivision activities must comply with Rule 10.3.1.

15.7.3 Fire Fighting

Subdivision activities must comply with Rule 9.3.3.

15.7.4 Minimum Site Size

- The minimum site sizes for new resultant sites is:

Zone		Minimum site size
a.	General Residential 1 Zone	500m ²
b.	General Residential 2 Zone	300m ²
	1. not within an infrastructure constraint mapped area ; or	
	2. within the infrastructure constraint mapped area (Mosgiel)	
c.	General Residential 2 Zone within an infrastructure constraint mapped area , except for the infrastructure constraint mapped area (Mosgiel)	500m ²
d.	Inner City Residential Zone	200m ²
e.	Low Density Residential Zone	750m ²
f.	Large Lot Residential Zone 1	2000m ²

Zone		Minimum site size
g.	Large Lot Residential Zone 2	3500m ²
h.	Township and Settlement Zone	500m ²
i.	Township and Settlement Zone within a no DCC reticulated wastewater mapped area	1000m ²

- j. Except resultant sites created and used solely for the following purposes are exempt from the minimum site size:
 - i. Scheduled ASBV or QEII covenant;
 - ii. reserve;
 - iii. access;
 - iv. utility; or
 - v. road.
2. General subdivision that contravenes the standard for minimum site size is non-complying, except in the following circumstances where the subdivision is restricted discretionary:
 - a. a two or more site subdivision where one resultant site is below, but not less than, 75% of the minimum site size and the average of the site sizes meets the minimum site size performance standard; and
 - b. the subdivision does not result in any resultant site being of a size that could be further subdivided in accordance with the minimum site size performance standards; and
 - c. the undersized resultant site is large enough to contain a building platform of at least 7m by 10m that meets the performance standards of this Plan including, but not limited to:
 - i. outdoor living space;
 - ii. minimum car parking space;
 - iii. setbacks from boundaries, water bodies, significant trees, National Grid transmission lines; and
 - iv. esplanade reserves and strips.
 - v. maximum building site coverage and impermeable surfaces

Note 15.7.4A - Other relevant District Plan provisions

1. Note that Rule 15.3.4.3 requires restricted discretionary resource consent for new buildings and additions and alterations that result in a multi-unit development. Landowners undertaking subdivision may wish to apply for subdivision and land use consent simultaneously if three or more units are proposed in a development.

15.7.5 Service Connections

Subdivision activities must comply with Rule 9.3.7.

15.7.6 Shape

1. Each resultant site that is intended to be developed must be of a size and shape that is large enough to contain a building platform of at least 7m by 10m that meets the performance standards of this Plan including, but not limited to:
 - a. outdoor living space;
 - b. minimum car parking;
 - c. setbacks from boundaries, water bodies, scheduled trees; and

- d. esplanade reserves or strips.
- 2. **Building platforms must have a slope of 12° (1:4.7 or 21%) or less and must:**
 - a. not contain scheduled heritage buildings or structures; or
 - b. not contain right-of-way easements.
 - c. **be located at least 12m from the outer edge of a National Grid support structure or centreline of an overhead National Grid transmission line.**
- 3. For unreticulated areas, resultant sites must provide for a waste disposal area to be located at least 50m from any water body and Mean High Water Springs.
- 4. Sites created and used solely for the following purposes are exempt from the shape standard:
 - a. Scheduled ASBV or QEII covenant;
 - b. reserve;
 - c. access;
 - d. network utility; or
 - e. road.
- 5. Subdivision activities that do not meet this standard are restricted discretionary activities, except that subdivision activities that do not meet Rule 15.7.6.2.c are non-complying activities.

Rule 15.8 Structure Plan Mapped Area Performance Standards

15.8.1

Subdivision of land in a structure plan mapped area must be in accordance with the relevant structure plan mapped area performance standards.

15.8.2

Development activities in a structure plan mapped area must be designed and located to ensure all of the requirements of the structure plan mapped area performance standards can be met.

15.8.3 East Taieri Structure Plan Mapped Area Performance Standards

15.8.3.1 Subdivision

- a. Transport network
 - i. Access links to Gladstone Rd, Riccarton Rd, and Cemetery Rd must be provided for full development of the site to occur.
 - ii. The legal road width of a collector road must be a minimum of 20m wide, including footpaths 2m wide, and cycle lanes 1.5m wide.
 - iii. The legal road width of a local road must be a minimum of 16m wide, including footpaths a minimum 1.5m wide.
- b. Reserve
 - i. A 4000m² recreation reserve must be provided within the region marked 'Area A' on the structure plan. The reserve is to have road frontages of at least 20m, and the detailed location of this reserve must be shown in a resource consent application for subdivision of land in the area and vest in Council accordingly.

15.8.3.2 Density

Up to 20% of the land used for residential purposes within the region marked "Area A", may be developed at a

density of one residential unit per 300m².

15.8.3.3 Development requirements or conditions of subdivision consent

- a. Stormwater network
 - i. On-site stormwater systems (retention/detention and secondary flowpaths, etc.) must be designed for 1 in 100 (1%) annual exceedance probability event. A stormwater retention/detention pond to service the **East Taieri structure plan mapped area** (see Figure 15.8.3A) must be established in the general location of the area marked "detention area" on the structure plan and developed to the satisfaction of Council.
 - ii. Local stormwater reticulation systems must be designed for a 1 in 10 (10%) annual exceedance probability event.
 - iii. Development within the 'specified floor level' area shown on the structure plan is to be designed to adequately address potential flooding issues, with finished floor levels for dwellings above the 1:50 year flood level in accordance with the NZ Building Code.
- b. Reserve
 - i. The reserve must have a consistent boundary treatment where it adjoins residential properties, installed by the developer prior to vesting in Council. The reserve must be flattened and grassed to a standard that can be cut with a ride-on mower, and free of buildings, tree stumps, or other obstacles, prior to vesting in Council.

15.8.3.4 Information requirements

- a. Subdivision applications must include an Integrated Traffic Assessment (ITA) (refer Rule 6.14.2).
- b. Subdivision applications must include information outlining:
 - i. the techniques to be used to manage stormwater, and the location and extent to which these techniques are accommodated on-site; and
 - ii. how the integrity of the stormwater mitigation and management measures will not be compromised during and after subdivision; and
 - iii. a maintenance plan for stormwater infrastructure, including actions to be taken to ensure the on-going management and maintenance of on-site mitigation measures and the responsibilities for this; and
 - iv. design details highlighting the adequacy of the proposed measures and identifying areas of greatest risk; and
 - v. how subdivision within the 'specified floor level' area shown on the structure plan is to be designed to adequately address potential flooding issues.

15.8.3.5

In the case of conflict with performance standards 15.5 to 15.7 the rules in this performance standard apply.

15.8.3.6

Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.3A: East Taieri structure plan

In Change No 15 East Taieri Structure Plan – Residential 6

15.8.4 Formby Street Structure Plan Mapped Area Performance Standards

15.8.4.1 Subdivision

- a. Wastewater network
 - i. Proprietary wastewater treatment facility must be established in the area marked "wastewater treatment area" on the Formby Street structure plan (see Figure 15.8.4A).
- b. Transport network
 - i. A public pedestrian accessway with a minimum width of 1.5m must be established along the "possible 1.5m footpath" line marked on the Formby Street structure plan (see Figure 15.8.4A).
 - ii. The legal road width of the two cul-de-sacs must be at least 16m, with a footpath on at least one side of each of the cul-de-sacs.
- c. New buildings and structures, and additions and alterations, on Lots 1-10 must have a minimum set back from the side or rear boundary (as relevant) on the eastern site boundary, of 10m.
- d. The maximum height for new buildings and structures, and additions and alterations above ground level on Lots 1-10 is 6m.

15.8.4.2

In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.

15.8.4.3

Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.4A: Formby Street structure plan

15.8.5 Mosgiel East Structure Plan Mapped Area Performance Standards

15.8.5.1 Subdivision

- a. Transport network
 - i. Access points for roads must be provided as indicated in the Mosgiel East structure plan (see Figure 15.8.5A).
 - ii. The legal width of a collector road must be a minimum of 20m wide, including footpaths of a minimum 2m wide, and cycle lanes 1.5m wide.
 - iii. The legal width of a local road must be a minimum of 16m wide, including footpaths a minimum 1.5m wide.
- b. Stormwater network
 - i. The rate of stormwater discharge to the Silverstream must remain equal to or less than that of pre-development up to the 1 in 100 (1%) annual exceedance probability event.

15.8.5.2 Development requirement or condition of subdivision consent

- a. Stormwater network
 - i. Local stormwater reticulation systems must be designed for a 1 in 10 (10%) annual exceedance probability event.
 - ii. On-site stormwater systems (retention/detention and secondary flowpaths, etc.) must be designed for

1 in 100 (1%) annual exceedance probability event. Stormwater retention/detention measures must be provided on-site as part of the overall development.

- iii. There must be no individual discharge of stormwater to the Silverstream or Owhiro Stream.

15.8.5.3 Information requirements

- a. Subdivision and land use applications must include information outlining:
 - i. the techniques to be used to manage stormwater and the extent to which these techniques are accommodated on-site; and
 - ii. how the integrity of the stormwater mitigation and management measures will not be compromised during and after a subdivision; and
 - iii. a maintenance plan for stormwater infrastructure, including actions to be taken to ensure the on-going management and maintenance of on-site mitigation measures and the responsibilities for this; and
 - iv. design details highlighting the adequacy of the proposed measures and identifying areas of greatest risk.

15.8.5.4

In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.

15.8.5.5

Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.5A: Mosgiel East structure plan

15.8.6 Holyhead Street Structure Plan Mapped Area Performance Standards

15.8.6.1 Subdivision

- a. Staging: the subdivision may be staged with the first stage comprising some or all of lots 1-8 (inclusive), 17, 18, 24, 25 and 30 as shown on the Holyhead Street structure plan (see Figure 15.8.6A).
- b. Vehicle access to the resultant sites must be as follows:
 - i. Lots 1-4 from Montfort Street (State Highway 87);
 - ii. Lots 5-7 from Montfort Street (State Highway 87) via access Lot 30;
 - iii. Lots, 8, 24, and 25 initially from Montfort Street (State Highway 87) via access Lot 30, but from Holyhead Street via lot 29 once Lot 29 is formed; and
 - iv. All other lots via Holyhead Street directly, or Holyhead Street via Lot 29.

15.8.6.2 Development requirement or condition of subdivision consent

- a. Vehicle access
 - i. Lot 29 must be formed as an access road either once all of Lots 1-8 (inclusive), 24 and 25 have residential development established on them, or before any residential development is established on any of Lots 9-16 (inclusive) or any of Lots 19-23 (inclusive).

15.8.6.3

In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.

15.8.6.4

Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.6A: Holyhead Street structure plan

15.8.7 Patmos Avenue Structure Plan Mapped Area Performance Standards

1. Vehicle access must not be provided through the part of 28 Patmos Avenue that is outside the **Patmos Avenue structure plan mapped area** (see Figure 15.8.7A).
2. The minimum site size for new resultant sites in the area marked A on the Patmos Avenue structure plan (see Figure 15.8.7A) is 1,000m².
3. The minimum site size for new resultant sites in the area marked B on the Patmos Avenue structure plan (see Figure 15.8.7A) is 2,000m².
4. Construction of dwellings must not take place until all roading, stormwater, wastewater and water supply infrastructure is in place for that stage of the development, and connections to future stages, and adjoining sites, are provided for.
5. In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.
6. Subdivision, land use and development activities that contravene this performance standard are a non-complying activity.

Figure 15.8.7A: Patmos Avenue structure plan

15.8.8 Torquay Street Structure Plan Mapped Area Performance Standards

1. 'Lot 100' as shown in the Torquay Street structure plan (see Figure 15.8.8A) may not be subdivided from the residential dwelling marked 'existing dwelling'.
2. No dwelling may be constructed in Areas A or B as shown on the Torquay Street structure plan (see Figure 15.8.8A).
3. Construction of dwellings must not take place until:
 - a. all roading, stormwater, wastewater and water supply infrastructure is in place for that stage of the development, and connections to future stages, and adjoining sites, are provided for; and
 - b. the public pathway shown in the Torquay Street structure plan (see Figure 15.8.8A) is constructed.
4. In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.
5. Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.8A: Torquay Street structure plan

15.8.9 Emerson Street Structure Plan Mapped Area Performance Standards

1. The layout of any subdivision must include provision for vehicle access to Mulford Park recreation reserve for maintenance purposes.
2. The layout of any subdivision must provide for roading access to 18 Roy Crescent.
3. Construction of dwellings must not take place until all roading, stormwater, wastewater and water supply infrastructure is in place for that stage of the development, and connections to future stages, and adjoining sites, are provided for.
4. In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.
5. Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.9A: Emerson Street structure plan

15.8.10 North Road Structure Plan Mapped Area Performance Standards

1. Vehicle access must be provided between Norwood Street and North Road.
2. Construction of dwellings must not take place until all roading, stormwater, wastewater and water supply infrastructure is in place for that stage of the development, and connections to future stages, and adjoining sites, are provided for.
3. In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.
4. Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.10A: North Road structure plan

15.8.11 Bradford Structure Plan Mapped Area Performance Standards

1. The layout of any subdivision must provide for:
 - a. pedestrian access from Glenelg Street through to Bradford School; and
 - b. vehicle access between Ronay Street and Bradford Street.
2. Construction of dwellings must not take place until all roading, stormwater, wastewater and water supply infrastructure is in place for that stage of the development, and connections to future stages, and adjoining sites, are provided for.
3. In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.

4. Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.11A: Bradford structure plan

15.8.12 St Albans Street Structure Plan Mapped Area Performance Standards

1. The layout of any subdivision must provide for:
 - a. pedestrian access to the Department of Conservation reserve at PT Sec 121 Lixmont Street;
 - b. pedestrian access to the DCC Reserve at 79 Cockerell Street, to enable access to Brockville Road; and
 - c. vehicle access between Lixmont Street, St Albans Street and Ettrick Street.
2. Construction of dwellings must not take place until all roading, stormwater, wastewater and water supply infrastructure is in place for that stage of the development and connections to future stages, and adjoining sites, are provided for.
3. In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.
4. Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.12A: St Albans Street structure plan

15.8.13 Dalziel Road Structure Plan Mapped Area Performance Standards

1. Vehicle access to Area X on the Dalziel Road structure plan (see Figure 15.8.13A) must be provided from Taieri Road.
2. Vehicle access to Area Y on the Dalziel Road structure plan (see Figure 15.8.13A) must be provided from Dalziel Road.
3. Construction of dwellings must not take place until all roading, stormwater, wastewater and water supply infrastructure is in place for that stage of the development and connections to future stages, and adjoining sites, are provided for.
4. In the case of conflict with performance standards 15.5 to 15.7, the rules in this performance standard apply.
5. Activities that contravene this performance standard are a non-complying activity.

Figure 15.8.13A: Dalziel Road structure plan

Rule 15.9 Assessment of Controlled Activities

Rule 15.9.1 Introduction

1. Controlled activities will be assessed in accordance with section 104 and 104A of the RMA. Council must grant the application and may impose conditions with respect to matters over which it has reserved its control.
2. Rule 15.9.2:
 - a. lists the matters over which Council has reserved its control; and
 - b. provides guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi); and
 - ii. conditions that may be imposed.
3. Where a controlled activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 15.10; and
 - iii. the matters of control become matters of discretion and will be assessed as indicated in this section.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 15.12; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 15.13; and
 - iii. the assessment guidance in this section will also be considered.

15.9.2 Assessment of controlled activities

Activity	Matters of control	Guidance on the assessment of resource consents
1. Affecting a scheduled heritage building or a scheduled heritage structure: • Earthquake strengthening that affects a protected part of a scheduled heritage building or scheduled heritage structure, where external features only are protected. • Restoration of a protected part of a scheduled heritage building or scheduled heritage structure that has a Heritage New Zealand Category 1 listing as detailed in Appendix A1.1	a. Effects on heritage values	See Rule 13.4

15.9.2 Assessment of controlled activities

Activity	Matters of control	Guidance on the assessment of resource consents
2. In a heritage precinct, additions and alterations to a non character-contributing building that involve: • an increase in the footprint of 10m² or more; • an increase in the height of the building by more than 2m; or • the replacement of a pitched roof with a mono pitch roof.	a. Effect on heritage streetscape character	See Rule 13.4

Rule 15.10 Assessment of Restricted Discretionary Activities (Performance Standard Contraventions)

Rule 15.10.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 15.10.2 - 15.10.6:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 15.10.2 - 15.10.6 apply as follows:
 - a. Rule 15.10.2 applies to all performance standard contraventions;
 - b. Rule 15.10.3 applies to land use performance standard contraventions;
 - c. Rule 15.10.4 applies to development performance standard contraventions;
 - d. Rule 15.10.5 applies to subdivision performance standard contraventions; and
 - e. Rule 15.10.6 applies to performance standards that apply in an overlay zone, mapped area, heritage precinct or affecting a scheduled heritage item.

15.10.2 Assessment of all performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. All performance standard contraventions	<i>Potential circumstances that may support a consent application include:</i> a. The degree of non-compliance with the performance standard is minor. b. The need to meet other performance standards or topography, or other site specific factors, make meeting the standard impracticable. c. Non-compliance with a development performance standard would improve the design of the development in a way that would result in positive effects and better achieve the identified objectives and policies of the Plan. <i>General assessment guidance:</i> d. Where more than one standard is contravened, the combined effects of the contraventions should be considered. e. In balancing consideration of the objectives and policies related to the maintenance of heritage values or heritage precinct streetscape character and those related to general amenity, greater weight will usually be placed on heritage policies.

15.10.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Density - (Rule 15.5.2.6) all residential units are able to meet bulk and location performance standards	a. Effects on on-site amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.2 ii. Residential development achieves high quality on-site amenity for residents (Policy 15.2.2.1). <i>General assessment guidance:</i> iii. Non-compliance with Rule 15.5.2.6 will be assessed based on which performance standard(s) the second residential building does not provide for compliance with, if subdivided in future. See assessment rules in relation to performance standard contraventions for: 1. site coverage; 2. height in relation to boundary; 3. setbacks; and 4. access.
2.	Density - (Rule 15.5.2.7.a) Papakāika	a. Effects on cultural values of Manawhenua	See Rule 14.3
		b. Effects on health and safety	See Rule 9.5
		c. Effects on the safety and efficiency of the transport network	See Rule 6.10
3.	Density - (Rule 15.5.2.7.b) standard residential in General Residential 2 Zone infrastructure constraint mapped area	a. Effects on efficiency and affordability of infrastructure	See Rule 9.5

15.10.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
4.	Family flats - Design	a. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. The design of family flats avoids, as far as practicable, the risk they will be used for a separate, non-ancillary residential activity, or future pressure to subdivide off family flats, and minimises, as far as practicable, any adverse effects on the amenity and character of the neighbourhood (Policy 15.2.4.3). <i>Potential circumstances that may support a consent application include:</i> iii. The family flat is in the same residential building as the primary residential unit. iv. The design of the family flat matches the design of the primary residential building. v. Landscaping or other forms of screening will be used to reduce the visibility of the family flat. vi. The family flat will not be easily viewed from outside the site. vii. The extra area is required due to the occupant's needs. viii. The size of the family flat is unlikely to create future pressure for it to be subdivided or be consented to operate as a second residential activity on the site.
5.	Electrical interference	a. Effects on health and safety	See Rule 9.5
6.	Hours of operation	a. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3 ii. Working from home, dairies, training of education, and community and leisure operate in a way (including hours of operation), that avoids or, if avoidance is not practicable, adequately mitigates, effects on the amenity of surrounding properties (Policy 15.2.3.2). <i>Potential circumstances that may support a consent application include:</i> iii. The extension of hours will not result in unreasonable disturbance from vehicle headlights, deliveries/pick-ups, vehicle movements, or other noise.

15.10.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
7.	Location	a. Effects on the vibrancy and economic and social success of the CBD and centres.	<i>Relevant objectives and policies:</i> i. Objective 15.2.1 ii. Activities ancillary to visitor accommodation are located and designed to cater to patrons of the primary activity rather than the general public (Policy 15.2.1.4). <i>Potential circumstances that may support a consent application include:</i> iii. The ancillary activity is designed and managed so as to be unlikely to attract external customers. iv. There will be no external advertising on buildings facing the street, for the ancillary activity.
8.	Minimum car parking	a. Effects on accessibility b. Effects on the safety and efficiency of the transport network	See Rule 6.10
9.	Minimum vehicle loading	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
10. {Note - appeal relates to ICR only}	Outdoor living space	a. Effects on on-site amenity for residents	<i>Relevant objectives and policies:</i> i. Objective 15.2.2 ii. Residential development achieves high quality on-site amenity by providing functional, sunny, and accessible outdoor living spaces that allow enough space for on-site food production, leisure, green space or recreation (Policy 15.2.2.1.a). <i>Potential circumstances that may support a consent application include:</i> iii. The property is within a short walking distance from public green space. iv. Juliet balconies (balconies less than the width required by the rule, including zero depth) with glass doors that can be opened to create an opening greater than 1m wide and allow direct sunlight into the principal living area, may be acceptable if alternate shared outdoor living space is available and easily accessed and it is more compatible with the design of the dwelling than alternative balcony forms.

15.10.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
11.	Service areas	a. Effects on on-site amenity for residents	<i>Relevant objectives and policies:</i> i. Objective 15.2.2 ii. Adequate space is available for service areas (Policy 15.2.2.1.d).

15.10.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
----------------------	--	-----------------------	---

1.	Boundary setback	a. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3 ii. Buildings and structures are of a height and setback from boundaries that ensures no more than minor effects on the sunlight access of current and future residential buildings and their outdoor amenity spaces (Policy 15.2.3.1). iii. In the Inner City Residential Zone, buildings and structures are of a height and setback from boundaries that avoids or, if avoidance is not practicable, adequately mitigates adverse effects on sunlight access on outdoor space at the rear of adjacent sites (Policy 15.2.3.3.c). <i>Potential circumstances that may support a consent application include:</i> iv. Residential buildings on neighbouring sites receive adequate natural light and privacy. v. The reduced setback will mirror the setback of the adjacent residential building, both in minimum distance from the boundary, and the maximum extent to which the encroachment occurs along the boundary (including length and height). vi. There are no windows from living or sleeping areas proposed along the wall of the new building or existing along the wall of any adjacent parallel residential building.
		b. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Development maintains or enhances streetscape amenity by ensuring buildings' height, boundary setbacks, and scale reflect existing or intended future residential character (Policy 15.2.4.1.c). iii. In the Inner City Residential Zone, buildings and structures are of a height and setback from boundaries that: 1. enables a high quality, medium density development (Policy 15.2.3.3.a); 2. is consistent with the existing streetscape character of the zone (Policy 15.2.3.3.b). <i>Potential circumstances that may support a consent application include:</i> iv. The boundary setback is consistent with surrounding properties. v. Landscaping or fences screen or soften the visual effects of buildings. vi. The building is designed to integrate with residential buildings on the site and contribute to residential character and amenity e.g. similar materials to residential buildings, and roof pitch.

15.10.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
2.	Boundary setback - (Rule 15.6.13.1.a.viii.3) garages and carports setback from road boundary	a. Effects on health and safety	See Rule 6.10
3.	Building length	a. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Development maintains or enhances streetscape amenity by ensuring buildings' scale reflect existing or intended future residential character (Policy 15.2.4.1.c). <i>Potential circumstances that may support a consent application include:</i> iii. The bulk of the building is broken up by: 1. varying building elevations; 2. setting parts of the building back; 3. using different textures; 4. architectural features; or 5. other forms of building modulation. iv. The visual impact of the building length is screened and softened by landscaping, fencing, or other screening, which provides an attractive interface for surrounding properties. v. The building is set back from boundaries an adequate distance to avoid shading or visual effects on adjacent residential properties or public places. vi. Topography of the site mitigates the effects of the building scale on adjacent residential properties or public places. vii. In the case of buildings to be used for emergency services, there is a need for longer buildings to meet operational requirements.

15.10.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
4.	Fence height and design	a. Effects on health and safety	See Rule 9.5
		b. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Fences are of a height and design that contributes positively to the streetscape amenity and character of the neighbourhood (Policy 15.2.4.4). <i>Potential circumstances that may support a consent application include:</i> iii. The increased height or reduced visual permeability is necessary to meet protection requirements, to provide security, minimise noise effects from a busy road or activity, or for public well-being. iv. An attractive interface with the street is achieved. v. The fence will be screened by landscaping.
5.	Fire fighting	a. Effects on health and safety	See Rule 9.5
6.	Hazardous substances quantity limits and storage requirements	a. Effects on health and safety	See Rule 9.5

15.10.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
7.	- Maximum height - Height in relation to boundary {Note - appeal relates to height in relation to boundary in ICR only}	a. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3 ii. Buildings and structures are of a height and setback from boundaries that ensures no more than minor effects on the sunlight access of current and future residential buildings and their outdoor living spaces (Policy 15.2.3.1). iii. In the Inner City Residential Zone, buildings and structures are of a height and setback from boundaries that avoids or, if avoidance is not practicable, adequately mitigates adverse effects on sunlight access on outdoor space at the rear of adjacent sites (Policy 15.2.3.3.c).
		b. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Development maintains or enhances streetscape amenity by ensuring buildings' height, boundary setbacks, and scale reflect existing or intended future residential character (Policy 15.2.4.1.c). iii. In the Inner City Residential Zone, buildings and structures are of a height and setback from boundaries that: 1. enables a high quality, medium density development (Policy 15.2.3.3.a); 2. is consistent with the existing streetscape character of the zone (Policy 15.2.3.3.b). <i>Potential circumstances that may support a consent application include:</i> iv. The height and/or height in relation to boundary is consistent with surrounding properties. v. Landscaping or fences screen or soften the visual effects of buildings. vi. Natural landforms or topography (e.g. cliffs, tall trees on adjacent reserves) provide a backdrop to the building.

15.10.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
8.	Location and screening of car parking	a. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4, 6.2.1 ii. Garages, carports, and car parking do not dominate the street (Policy 15.2.4.1a). <i>Potential circumstances that may support a consent application include:</i> iii. Landscaping or other features soften the impact of these activities. iv. In order to meet Rule 6.6.1.2.a.i (requirement to not reverse onto a motorway, strategic road, arterial road, urban high density corridor, commercial centre street, or collector road), there are no reasonably practicable alternatives other than to contravene the standard.
9.	Location and screening of outdoor storage	a. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Development maintains or enhances streetscape amenity by ensuring shared service areas are not visible from ground level from outside the site (Policy 15.2.4.1.d). iii. Development maintains or enhances streetscape amenity by ensuring outdoor storage is managed in a way that does not result in unreasonable visual amenity effects or create nuisance effects (Policy 15.2.4.1.e).
10.	Maximum building site coverage and impermeable surfaces {Note - appeal relates to impermeable surfaces in ICR only}	a. Effects on on-site amenity for residents	<i>Relevant objectives and policies:</i> i. Objective 15.2.2 ii. Residential development achieves high quality on-site amenity by retaining adequate open space uncluttered by buildings (Policy 15.2.2.1.c).
		b. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Development maintains or enhances streetscape amenity and by ensuring there are adequate green space areas free from buildings or hard surfacing (Policy 15.2.4.1.b).
		c. Effects on efficiency and affordability of infrastructure	See Rule 9.5

15.10.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
11.	Number, location and design of ancillary signs	a. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Ancillary signs are located and designed to maintain residential amenity by being of an appropriate size and number to convey information about the name, location and nature of the activity on-site to passing pedestrians and vehicles and not being oversized or too numerous for what is necessary for that purpose (Policy 15.2.4.5).
		b. Effects on the safety and efficiency of the transport network	See Rule 6.10
12.	Parking, loading and access standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
13.	Setback from coast and water bodies	a. Effects on biodiversity values and natural character of riparian margins and the coast	See Rule 10.5
		b. Effects on public access	
		c. Risk from natural hazards	See Rule 11.4
14.	Setback from scheduled tree	a. Effects on long term health of tree	See Rule 7.6

15.10.5 Assessment of subdivision performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Access	a. Effects on accessibility	See Rule 6.10
2.	Esplanade reserves and strips	a. Effects on biodiversity values and the natural character of riparian margins and the coast	See Rule 10.5
		b. Effects on public access	
3.	Fire fighting	a. Effects on health and safety	See Rule 9.5
4.	Minimum site size - (Rule 15.7.4.2)	a. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 2.4.1 ii. Resultant sites are of a size: 1. that provides for compliance of all relevant land use and development performance standards; and 2. where in a structure plan mapped area, reflects the requirements of the structure plan mapped area performance standards (Policy 2.4.1.8). <i>Potential circumstances that may support a consent application include:</i> iii. The adjustment of site boundaries is necessary to achieve: 1. a more balanced division of site sizes relative to an existing residential buildings size, location or access requirements; 2. better alignment with topographical or other site development constraints; or 3. the protection of heritage items, significant trees, indigenous vegetation, or waterways on a site.
5.	Service connections	a. Effects on efficiency and affordability of infrastructure	See Rule 9.5

15.10.5 Assessment of subdivision performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
6. Shape	<i>Relevant objectives and policies:</i> a. Objective 2.4.1 b. Subdivision is designed to ensure any future land use or development is able to meet the performance standards in the zone, or where in a structure plan mapped area, reflects the requirements of the structure plan mapped area performance standards, unless: i. a resource consent is approved for a development that does not meet the performance standard and the subdivision is intended for and capable of providing for that approved development; or ii. the resultant site is required for: 1. Scheduled ASBV; QEII covenant; or 2. reserve; or 3. access; or 4. utility; or 5. road (Policy 2.4.1.8). <i>General assessment guidance:</i> c. Non-compliance with the performance standard for shape will be assessed based on which performance standard(s) the shape of the resultant site does not provide for compliance with. See matters of discretion and assessment rules in relation to performance standard contraventions for: i. outdoor living space; ii. minimum car parking; iii. boundary setbacks; iv. setbacks from water bodies; v. setback from scheduled tree; and vi. setback from National Grid. d. For contravention of the building platform slope part of the shape performance standard (Rule 15.7.6.2), see the matters of discretion and assessment rules in relation to earthworks - large scale (Rule 8A.7.2.1). <i>Conditions that may be imposed:</i> e. Restrictions or conditions, including by way of consent notice, on land use or development activities allowed on the site. f. A building platform may be required to be registered against the title by way of consent notice.	

15.10.6 Assessment of restricted discretionary performance standard contraventions in an overlay zone, mapped area, heritage precinct or affecting a scheduled heritage item

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. In a hazard overlay zone or swale mapped area : - Hazard exclusion areas (Rule 11.3.1.1) – Swale mapped area - Maximum area of vegetation clearance in the hazard overlay zones (Hazard 1 or 2 (land instability) overlay zones) - Relocatable buildings (Hazard 3 (coastal) Overlay Zone) - Outdoor Storage (Hazard 1 (flood) Overlay Zone) - Hazardous substances quantity limits and storage requirements	a. Risk from natural hazards	See Rule 11.4
2. In an urban biodiversity mapped area : Vegetation clearance standards: Maximum area of vegetation clearance (UBMA)	a. Effects on biodiversity values	See Rule 10.5
3. In a Huriawa height restriction mapped area : Maximum height	a. Effects on cultural values of Manawhenua	See Rule 14.3
4. In a heritage precinct : Fence height and design - Materials and design - Maximum height - Height in relation to boundary - Location and screening of car parking - Number, location and design of ancillary signs (Rule 15.6.11.6.d) - Freestanding signs ancillary to commercial and community activities in the George Street North Residential Heritage Precinct and North Ground Residential Heritage Precinct	a. Effects on heritage streetscape character	See Rule 13.5
5. In a wāhi tūpuna mapped area : - Esplanade reserves and strips - Setback from coast and water bodies	a. Effects on cultural values of Manawhenua	See Rule 14.3
6. Affecting a scheduled heritage building or scheduled heritage structure : Materials and design	a. Effects on heritage values	See Rule 13.5

15.10.6 Assessment of restricted discretionary performance standard contraventions in an overlay zone, mapped area, heritage precinct or affecting a scheduled heritage item

Activity		Matters of discretion	Guidance on the assessment of resource consents
7.	In the Taieri Aerodrome flight fan mapped area: Maximum height (Rule 15.6.6.2.b)	a. Effects on health and safety	See Rule 9.5

Rule 15.11 Assessment of Restricted Discretionary Activities

Rule 15.11.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 15.11.2 - 15.11.5:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how a consent application will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 15.11.2 - 15.11.5 apply as follows:
 - a. Rule 15.11.2 applies to restricted discretionary land use activities;
 - b. Rule 15.11.3 applies to restricted discretionary development activities;
 - c. Rule 15.11.4 applies to restricted discretionary subdivision activities; and
 - d. Rule 15.11.5 applies to activities that are restricted discretionary due to a rule that applies in an overlay zone, mapped area, heritage precinct, or affecting a scheduled heritage item.
4. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in the Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.
5. Where a restricted discretionary activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 15.10; and
 - iv. the matters of discretion in this section will be assessed as indicated.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 15.12; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 15.13; and
 - iii. the assessment guidance in this section will also be considered.
6. With respect to section 104(2), Council will not consider family flats as part of the permitted baseline in considering residential density effects in the residential zones.

15.11.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. All restricted discretionary land use activities in the residential zones, including but not limited to the activities listed below	a. Effects on accessibility	See Rule 6.11
	b. Effects on the safety and efficiency of the transport network	
	c. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3 ii. Activities are designed to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>General assessment guidance:</i> iii. In assessing the effects on amenity, Council will: 1. consider the effects of vehicle movements on the site as well as any significant changes to the number and nature of vehicle movements on the adjoining road, and the appropriateness of higher levels of vehicle movements based on the Road Classification Hierarchy in Appendix 6A; and 2. consider the relevant policies for development activities, including policies 15.2.3.1, 15.2.3.3, 15.2.4.1. <i>Potential circumstances that may support a consent application include:</i> iv. Performance standards for development activities are met. <i>Conditions that may be imposed include:</i> v. Conditions on signage, lighting, hours of operation. vi. Delivery time restrictions. vii. Requirements for fencing or landscaping of car parking areas to minimise adverse visual and nuisance effects from lighting and/or vehicle headlights on surrounding properties.

15.11.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
	d. Effects on streetscape amenity and character	<i>Relevant objectives and policies (priority considerations):</i> i. Objective 15.2.4 ii. Activities are designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on streetscape amenity (Policy 15.2.4.7). <i>General assessment guidance:</i> iii. In assessing the effects on amenity, Council will: 1. consider the effects of vehicle movements on the site as well as any significant changes to the number and nature of vehicle movements on the adjoining road, and the appropriateness of higher levels of vehicle movements based on the Road Classification Hierarchy in Appendix 6A; and 2. consider the relevant policies for development activities, including policies 15.2.3.1, 15.2.3.3, 15.2.4.1. <i>Potential circumstances that may support a consent application include:</i> iv. Performance standards for development activities are met.
2. Cemeteries	a. Effects on surrounding sites' residential amenity.	<i>Relevant objectives and policies:</i> i. Objective 15.2.3 ii. Cemeteries are designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties and avoid, as far as practicable, the potential for reverse sensitivity (Policy 15.2.3.5). <i>General assessment guidance/Conditions that may be imposed include:</i> iii. In assessing the effects on amenity, Council will consider the location of graves being a suitable distance away from boundaries and any screening or landscaping proposed. These aspects may be included as conditions of consent.
	b. Effects on cultural values of Manawhenua	See Rule 14.4

15.11.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
3. Emergency Services	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
	b. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3 ii. Activities are designed to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>General assessment guidance:</i> iii. In assessing the effects on amenity, Council will consider: 1. whether the facility has been designed to minimise effects on surrounding sites amenity. 2. the functional requirements and operational needs of the emergency service when considering the above matters.
	c. Positive effects for natural hazard resilience	<i>Relevant objectives and policies:</i> i. Policy 2.2.1.11
4. Restaurants, retail, or conference, meeting and function ancillary to visitor accommodation	a. Effects on the vibrancy and economic and social success of CBD and centres	<i>Relevant objectives and policies:</i> i. Objective 15.2.1 ii. Activities ancillary to visitor accommodation are located and designed to cater to patrons of the primary activity rather than the general public (Policy 15.2.1.4). <i>Potential circumstances that may support a consent application include:</i> iii. The ancillary activity is designed and managed so as to be unlikely to attract external customers. iv. There will be no external advertising on buildings facing the street, for the ancillary activity. v. Communal outdoor gathering areas are located or screened to minimise effects on adjacent residential properties. <i>Conditions that may be imposed include:</i> vi. Entrances to be located internally to the visitor accommodation. vii. No signs related to the ancillary activity to be visible from a public place.

15.11.2 Assessment of restricted discretionary land use activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
5.	Supported living facilities	a. Effects on efficiency and affordability of infrastructure	See Rule 9.6
		b. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3. ii. Supported living facilities are designed to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>Potential circumstances that may support a consent application:</i> iii. Communal outdoor gathering areas are located or screened to minimise effects on adjacent residential properties.
6.	Early childhood education - small scale	a. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3. ii. Early childhood education - small scale are designed to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>Potential circumstances that may support a consent application include:</i> iii. For early childhood education centres: 1. acoustic insulation, acoustic fencing, low noise surfaces for play areas, or other such treatments; and 2. use of a noise management plan.

15.11.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
7. Visitor accommodation	a. Effects on surrounding sites' residential amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.3. ii. Visitor accommodation is designed to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>Potential circumstances that may support a consent application include:</i> iii. Communal outdoor gathering areas are located or screened to minimise effects on adjacent residential properties. iv. For campgrounds: 1. Limits on the scale of the activity. 2. Location of dump stations (for disposal of waste from motor homes) away from boundaries with residential properties. 3. Restrictions on location and hours of operation of generators to minimise any effects from noise on neighbours. 4. Road upgrades necessary to handle the amount and type of vehicles anticipated. 5. Location, screening, or acoustic fencing of communal outdoor living/ gathering areas.

15.11.3 Assessment of restricted discretionary development activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. New buildings or additions and alterations to buildings that result in: • a building that is greater than 300m² footprint or • a multi-unit development in the ICR and GR2 zones	a. Effects on streetscape amenity and character	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Buildings over 300m² footprint and multi-unit developments are designed to maintain or enhance streetscape and neighbourhood amenity and character (Policy 15.2.4.8) <i>General assessment guidance:</i> iii. In assessing the effects on amenity Council will consider whether building design reflects, and is conducive with, the residential scale. The cumulative effect of buildings on the streetscape amenity will also be considered. iv. In assessing the effects on streetscape amenity and character, Council will consider: 1. building design and placement in terms of appropriateness for the context of the site, including: considering the appropriateness of form (roof pitch, scale, massing, window placement, entrance detailing, and/or proportion) and materials 2. any landscaping proposed and its effectiveness in enhancing amenity and/or mitigating adverse effects 3. the level of visibility from the street 4. the location of any car parking 5. whether the development provides adequate green space and maintains an appropriate balance of green space vs built and hard features 6. whether the development has the potential to adversely affect any heritage streetscape values in the immediate neighbourhood v. in general, where a new building is located within an integrated group of buildings that contribute strongly to the heritage streetscape character of the immediate neighbourhood, design maintains the coherence of the group and the contribution it makes to the overall character and amenity. <i>Conditions that may be imposed include:</i> vi. Requirements for design features to break up the bulk of the building, for example by varying building elevations, by setting parts of the building back, use of different textures, by the use of architectural features, or modulation. <i>Potential circumstances that may support a consent application include:</i> vii. The visual effects of the building is screened and softened by landscaping, fencing, or other screening, which provides an attractive interface with the street. viii. The building is set back from boundaries adequate distance to

15.11.3 Assessment of restricted discretionary development activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
			avoid shading or visual effects on adjacent residential properties or public places. ix. Topography of the site mitigates the effects of the building scale on adjacent residential properties or public places.
2.	High trip generators: • New or additions to parking areas that result in 50 or more new parking spaces	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
		b. Effects on accessibility	

Table 15.11.4 Assessment of restricted discretionary subdivision activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. All subdivision activities	a. Effects on neighbourhood residential character and amenity	<i>Relevant objectives and policies:</i> i. Objective 15.2.4 ii. Subdivision is designed to ensure any future land use and development will: 1. maintain the amenity of the streetscape; 2. reflect the current or future intended character of the neighbourhood; 3. provide for development to occur without unreasonable earthworks or engineering requirements; and 4. provide for quality housing (Policy 15.2.4.6). <i>Design considerations that may support a consent application include:</i> iii. The layout of the subdivision takes into account solar orientation and is designed to ensure future development will facilitate a high level of passive solar gain. <i>Conditions that may be imposed include:</i> iv. Building platforms registered against the title by way of consent notice.
	b. Risk from natural hazards	See Rule 11.5
	c. Effects on efficiency and affordability of infrastructure	See Rule 9.6
	d. Effects on the safety and efficiency of the transport network	See Rule 6.11
2. All subdivision activities that involve a new road	a. Effects on the safety and efficiency of the transport network	

15.11.5 Assessment of restricted discretionary activities in an overlay zone, mapped area, heritage precinct or affecting a scheduled heritage item

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. In a hazard 1 or 2 (flood) overlay zone (see Rule 15.3.6): New buildings, and additions and alteration to buildings, which create more than 36m² of new ground floor area	a. Risk from natural hazards	See Rule 11.5
2. In all hazard overlay zones, swale mapped areas and dune system mapped areas : All subdivision activities	a. Risk from natural hazards	See Rule 11.5
3. In a UBMA : All subdivision activities	a. Effects on biodiversity values	See Rule 10.6
4. In a heritage precinct : All RD activities due to being in a heritage precinct	a. Effects on heritage streetscape character	See Rule 13.6
5. Activities affecting a scheduled heritage site : - New buildings and all other structures on a scheduled heritage site, where visible from an adjoining public place or a public place within the site - Parking, loading and access on a scheduled heritage site, where visible from an adjoining public place or a public place within the site - All subdivision activities	a. Effects on heritage values	See Rule 13.6
6. Activities affecting a scheduled heritage building or a scheduled heritage structure : - Additions and alterations that affect a protected part of a scheduled heritage building or scheduled heritage structure - Removal for relocation - All subdivision activities on sites containing a scheduled heritage building or scheduled heritage structure	a. Effects on heritage values	See Rule 13.6
7. In a wāhi tūpuna mapped area : All subdivision activities	a. Effects on cultural values of Manawhenua	See Rule 14.4

15.11.5 Assessment of restricted discretionary activities in an overlay zone, mapped area, heritage precinct or affecting a scheduled heritage item

Activity	Matters of discretion	Guidance on the assessment of resource consents
8. In the Hazard 2 (flood) Overlay Zone : - Natural hazards sensitive activities - Natural hazards potentially sensitive activities	a. Risk from natural hazards	See Rule 11.5
9. In the National Grid Corridor mapped area : All subdivision activities	a. Effects on health and safety	See Rule 5.8
	b. Reverse sensitivity effects	
	c. Effects on efficient and effective operation of network utilities	

Rule 15.12 Assessment of Discretionary Activities

Rule 15.12.1 Introduction

1. Discretionary activities will be assessed in accordance with section 104 and 104B of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. Rules 15.12.2 - 15.12.3 provide guidance on how a consent application for the listed discretionary activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi);
 - b. potential circumstances that may support a consent application;
 - c. general assessment guidance, including any effects that will be considered as a priority; and
 - d. conditions that may be imposed.
3. Rules 15.12.2 - 15.12.3 apply as follows:
 - a. Rule 15.12.2 applies to discretionary land use activities; and
 - b. Rule 15.12.3 applies to discretionary performance standard contraventions.
4. With respect to section 104(2), Council will not consider family flats as part of the permitted baseline in considering residential density effects in the residential zones.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

15.12.2 Assessment of discretionary activities

Activity	Guidance on the assessment of resource consents
1. All discretionary land use activities listed below	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 6.12 for guidance on the assessment of resource consents in relation to Objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. b. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety. c. See Section 14.5 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.

15.12.2 Assessment of discretionary activities

Activity	Guidance on the assessment of resource consents
2. Registered health practitioners	<i>Relevant objectives and policies (priority considerations)</i> a. Objective 15.2.3 b. Registered health practitioners are designed and located to avoid, or if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>General assessment guidance:</i> c. In assessing the effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number and nature of vehicle movement on the adjoining road, with consideration of the Road Hierarchy in Appendix 6A. <i>Potential circumstance that may support a consent application include</i> d. The scale of the facilities is appropriate to the residential environment, providing for a small number of registered health practitioners, rather than a medical centre, which should be located in a centre. <i>Conditions that may be imposed include:</i> e. Delivery/pick uptime restrictions. f. Landscaping to minimise amenity effects of lighting, vehicle headlights, or parking areas on surrounding properties. g. Number of registered practitioners to be employed.
3. • Early childhood education - large scale • Schools	<i>Relevant objectives and policies (priority considerations)</i> a. Objective 15.2.3 b. Schools and early childhood education are designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>General assessment guidance:</i> c. In assessing the effects on amenity Council will consider whether buildings and outdoor areas are designed and located to reduce noise emissions. <i>Conditions that may be imposed include:</i> d. Delivery time restrictions e. Landscaping to minimise amenity effects of lighting, vehicle headlights or parking areas on surrounding properties. f. Mitigation measures to minimise noise such as insulation, acoustic fencing, low noise surfaces for play areas, or other such treatments. g. A noise management plan may be required.

15.12.2 Assessment of discretionary activities

Activity	Guidance on the assessment of resource consents
4. Sport and recreation (not involving the use of motor vehicles)	<i>Relevant objectives and policies (priority considerations)</i> a. Objective 15.2.3 b. Sport and recreation is designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>General assessment guidance:</i> c. In assessing the effects on amenity Council will consider whether buildings and outdoor areas are designed and located to reduce noise emissions. d. Amount of parking proposed is appropriate for the activity and will not result in impacts or parking pressure on the surrounding residential environment. e. Hours of operation proposed are appropriate for the residential environment. f. The scale of the facilities is appropriate to the residential environment. <i>Conditions that may be imposed include:</i> g. Landscaping to minimise amenity effects of lighting, vehicle headlights or parking areas on surrounding properties. h. Hours of operation. i. Car parking requirements.
5. Stand-alone car parking	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 15.2.3 b. Stand-alone car parking is designed and located in a way that avoids, or if avoidance is not practicable, adequately mitigates, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). <i>General assessment guidance:</i> c. In assessing the effects on the amenity of surrounding residential properties, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number and nature of vehicle movement on the adjoining road, with consideration of the Road Hierarchy in Appendix 6A. <i>Conditions that may be imposed include:</i> d. Requirements for fencing or landscaping of car parking areas to minimise adverse visual or nuisance effects from lighting and/ or vehicle headlights on surrounding properties.

15.12.2 Assessment of discretionary activities

Activity	Guidance on the assessment of resource consents
6. Restaurants or retail ancillary to sport and recreation	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 15.2.4 b. Sport and recreation facilities are designed and operated in a way that avoids, or if avoidance is not practicable, adequately mitigates, adverse effects on streetscape amenity (Policy 15.2.4.7). <i>General assessment guidance:</i> c. The ancillary activity is designed and managed so as to be unlikely to attract external customers. d. There will be no external advertising on buildings facing the street, for the ancillary activity.

15.12.2 Assessment of discretionary activities

Activity	Guidance on the assessment of resource consents
7. Service stations on a strategic road or arterial road	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 15.2.1, 15.2.3 and 15.2.4. b. Provide for service stations on a strategic road or arterial road only where it is not practicable, due to a lack of site availability and/or special locational requirements, to locate in the PPH, TR, CEC, industrial or centre zones (Policy 15.2.1.7). c. Service stations are designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.4). d. Service stations are designed and located to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on streetscape amenity (Policy 15.2.4.7). <i>General assessment guidance:</i> e. In assessing the effects on the amenity of surrounding residential properties and the streetscape amenity, Council will consider the: i. design and location of buildings, forecourts/yards and signs; ii. location of access/egress points; iii. effects of vehicle movements on the site; and iv. the hours of operation, light spill, noise and location of service station development in relation to site boundaries. f. See Rule 6.12.2.1 for guidance on the assessment of the effects on the safety and efficiency of the transportation network, and other transportation effects. <i>Conditions that may be imposed include:</i> g. Requirements for fencing, landscaping and/or setbacks of buildings, forecourts/yards, signs and access/egress points to minimise adverse visual or nuisance effects from noise, lighting and/or vehicle headlights on surrounding properties. h. Restrictions on hours of operation. i. Restrictions on on-site lighting. j. Requirements for screening of storage areas. k. Requirement to control dust. l. Conditions related to building design, scale and bulk including roof lines, height, façade articulation, colour and materials to ensure compatibility with surrounding residential amenity. m. Restrictions on signage.

15.12.3 Assessment of discretionary performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. - Acoustic insulation - Noise - where the limit is exceeded by less than 5dB LAeq (15min) - Light spill - where the limit is exceeded by 25% or less	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
2. Maximum gross floor area for working from home and dairies	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 15.2.3 b. Working from home and dairies operate in a way that avoids or, if avoidance is not practicable, adequately mitigates, noise or other adverse effects on the amenity of surrounding residential properties (Policy 15.2.3.2). c. The size of working from home and dairies is compatible with the character and amenity of the residential zones (Policy 15.2.1.3.a). d. The size of working from home and dairies does not detract from the vibrancy and functioning of the centres hierarchy (Policy 15.2.1.3.b). <i>Potential circumstances that may support a consent application include:</i> e. The degree of non-compliance with the performance standard is minor. <i>General assessment guidance:</i> f. In assessing the effects on amenity, Council will consider if: i. the increased scale of the activity will result in increased vehicle movements or parking requirements, or the need for additional outdoor storage. ii. the scale of the activity is appropriate to the residential environment and is secondary to the residential activity.

Rule 15.13 Assessment of Non-complying Activities

Rule 15.13.1 Introduction

- Non-complying activities will be assessed in accordance with section 104, 104B and 104D of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
- Rules 15.13.2 - 15.13.5 provide guidance on how a consent application for the listed non-complying activities will be assessed, including:
 - relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi); and
 - general assessment guidance, including any effects that will be considered as a priority.
- With respect to section 104(2), Council will not consider family flats as part of the permitted baseline in considering residential density effects in the residential zones.
- For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

15.13.2 Assessment of all non-complying activities

Activity	Guidance on the assessment of resource consents
1. All non-complying land use activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 15.2.1 <i>General assessment guidance:</i> b. In assessing the significance of effects, consideration will be given to: i. short to long term effects, including effects in combination with other activities ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the grant of resource consent. iii. any effects otherwise managed through performance standards and consistent with all relevant objectives and policies for the zone. c. In assessing activities that are non-complying due to being in an overlay zone, mapped area, in a scheduled site, or affecting a scheduled item, that otherwise require resource consent, the assessment guidance provided in relation to the underlying activity status will also be considered. <i>Relevant guidance from other sections (priority considerations):</i> d. See Section 6.13 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3, and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. e. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety. f. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.

15.13.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
1. Sport and recreation that involves motor vehicles	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 15.2.1, 2.2.6 b. Policies 15.2.1.6, 2.2.6.1.f
2. Commercial advertising	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.4.1 b. Policy 2.4.1.6.c

15.13.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
3. All non-complying commercial activities	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 15.2.1 b. Strategic Directions - Objectives 2.4.3, 2.3.2 c. Commercial activities, other than those expressly provided for, are avoided from locating in residential zones, unless: i. the activity will not detract from the vibrancy and functioning of the centres hierarchy; and ii. the site is adjacent to a centre and it provides a logical extension to a centre; and iii. the centre is at, or very close to, capacity; and iv. the development activities are done in accordance with the performance standards of the street typology (if relevant) of the adjacent centre zoned sites; and v. the development maximises opportunities for integration with the centre; or vi. if the site is in the Township and Settlement Zone: 1. the commercial activity would have significant positive effects in terms of supporting the needs of the community and visitors to the area; and 2. the activity is unable to be located in, or adjacent to, the nearest centre, or no centre exists within the relevant township or settlement; and 3. the location is appropriate for the proposed activity; and 4. any adverse effects from noise, vehicle movements, and on-street parking supply will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 15.2.1.5). <i>General assessment guidance:</i> d. In assessing the effects on the vibrancy and functioning of the centres hierarchy, Council will also consider effects on the economic feasibility of any redevelopment necessary to maintain the vibrancy and attractiveness of those centres.
4. • All major facility activities (excluding cemeteries, emergency services and schools) • All rural activities (excluding grazing and scheduled mining activity) • All industrial activities	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 15.2.1 b. Policy 15.2.1.6

15.13.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
5. In the hazard 1 (flood) overlay zones : • Natural hazards potentially sensitive activities • Natural hazards sensitive activities	See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.

15.13.4 Assessment of non-complying development activities

Activity	Guidance on the assessment of resource consents
1. Demolition of a protected part of a scheduled heritage building or scheduled heritage structure	<i>Relevant guidance from other sections (priority considerations):</i> See Section 13.8 for guidance on the assessment of resource consents in relation to Objective 13.2.1 and effects on heritage values.

15.13.5 Assessment of non-complying performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. Density	<i>Relevant objectives and policies (priority considerations):</i> - Strategic Directions - Objectives 2.7.1 (policies 2.7.1.1, 2.7.1.3), 2.4.1 (Policy 2.4.1.5) - Objective 15.2.4, Policy 15.2.4.2, Policy 15.2.4.3 - See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.1 and effects related to the efficiency and affordability of infrastructure.
2. Density - visitor accommodation	<i>Relevant objectives and policies (priority considerations):</i> - Objective 15.2.3 - Policy 15.2.3.4
3. • Light spill - where the limit is exceeded by greater than 25% • Noise - where the limit is exceeded by 5dB LAeq (15 min) or more • Hazardous substances quantity limits and storage requirements (Rule 9.3.4.2)	<i>Relevant guidance from other sections (priority considerations):</i> See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
4. Setback from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and public health and safety.

15.13.5 Assessment of non-complying performance standard contraventions

Performance standard		Guidance on the assessment of resource consents
5.	Minimum site size	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 15.2.4, 9.2.1 <i>Relevant guidance from other sections (priority considerations):</i> b. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.1 and effects related to the efficiency and affordability of infrastructure.
6.	Structure plan mapped area performance standards	<i>Relevant objectives and policies (priority considerations):</i> a. Strategic Directions - Objective 2.4.1, Policy 2.4.1.8
7.	Family Flats - Tenancy	<i>Relevant objectives and policies (priority considerations):</i> a. Strategic Directions - 2.4.1 (Policy 2.4.1.5) b. Objective 15.2.4 c. The tenancy of family flats avoids, as far as practicable, the risk they will be used for a separate, non-ancillary residential activity, or future pressure to subdivide off family flats, and minimises, as far as practicable, any adverse effects on the amenity and character of the neighbourhood (Policy 15.2.4.3).
8.	Shape (Rule 15.7.6.2.c) - setback of building platforms from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and reverse sensitivity.

Rule 15.14 Special Information Requirements

15.14.1 Papakāika - ownership and occupation

For papakāika activity, proof that both the owner and occupier of the land fall into one of the classes listed in the definition of papakāika is required. Proof can be obtained from the Māori Land Court or the Ngāi Tahu Whakapapa Unit.

16. Rural Zones

16.1 Introduction

Dunedin's rural environment is large, at around 314,822 hectares or approximately 96% of the total land area of the city. This rural environment is highly varied, stretching from coastal lowlands north and south of the main urban part of the city, through river plains, valley systems, hill country and rolling uplands, to the inland mountain ranges at the western extent of the city.

The rural environment is dominated by pastoral farming in many areas, which contributes to the sense of openness and low density of development throughout much of Dunedin. Significant areas of indigenous vegetation and habitat for indigenous fauna are found across the city, ranging from estuarine and coastal habitat through to alpine plant communities on the Rock and Pillar and Lammermoor ranges. Plantation forestry is found mainly on the hills to the north of the Taieri Plain or in the southern coastal parts of the city.

The principal functions of the rural environment are firstly to provide for productive rural activities such as pastoral farming, livestock, horticulture, forestry, and mining and associated resource-based activities; and secondly, the provision of ecosystem services - soil, water and air resources and the setting for the vast majority of the city's indigenous vegetation and habitat for indigenous species.

The rural environment contributes significantly to Dunedin's economy through rural primary production activities such as farming, forestry, and mining and associated processing and service activities that rely on these. The rural parts of Dunedin also play an important role in providing for tourism (another key sector of the Dunedin economy), not least eco-tourism activities. The functions of the rural environment are interrelated, with much of Dunedin's rural economic activity reliant on maintaining the quality of the natural environment. The provision of ecosystem services, and issues relating to the natural environment more generally, are addressed in the Natural Environment section (Section 10).

The rural environment also contains a number of outstanding and significant natural landscapes and features, along with coastal areas with natural character values. Along with the biodiversity values referred to above, these elements of the rural environment make an important contribution to the social and cultural well-being of the residents of Dunedin, and to the quality of the city's natural environment.

The key issues facing the rural environment are:

- the fragmentation of rural landholdings from subdivision, which can lead to rural properties too small to be used for productive purposes. Dunedin already has a large number of small rural sites as a result of historic subdivision patterns under earlier district plans and schemes. Pressure for rural residential subdivision in rural areas threatens to further fragment rural land; and
- non-productive land uses or those activities that would ordinarily be expected to locate in the urban parts of Dunedin seeking to locate in rural areas.

The following issues stem directly from these two key issues:

- the productive capacity of the rural environment can be diminished through the loss of rural land and soil resources, including the finite high class soils resource that needs to be retained for future generations;
- the spread of non-rural uses including rural residential activities into rural areas can have adverse effects on landscape values, rural character and amenity values; and natural environment functions and values;
- potential conflicts between activities in the rural environment, which often arises from new activities in rural areas complaining about established productive rural activities and is known as 'reverse sensitivity'; and
- demand for the inefficient provision of infrastructure and services, stemming from the fact that sometimes people living on small rural blocks in close proximity to urban areas demand urban public infrastructure and services, such as reticulated services or sealed roads.

In response to these issues, seven rural zones and their objectives, policies and rules manage Dunedin's rural environment in a manner that recognises its diversity. The Plan emphasises the importance of providing for rural activities and for other activities which are reliant on or associated with the rural environment, while acknowledging that residential uses are clearly secondary and subordinate to these activities. This approach seeks to achieve the strategic outcomes for the rural zones, while ensuring that environmental effects are managed at an acceptable level.

A limited degree of flexibility has been incorporated into the subdivision rules that apply in the rural zones, via provision for surplus dwelling subdivision.

The rural zones are supported by overlays relating to landscape, natural character of the coast, and scheduled areas of significant indigenous vegetation and habitats of indigenous fauna. Provisions relating to these are located in the Natural Environment section, along with rules relating to other matters that apply more generally throughout the rural zones, such as rules on vegetation clearance and setback from coast and water bodies.

Appendix A7 provides descriptions and rural character values for each of the seven rural zones. The seven rural zones are: Coastal Rural Zone, High Country Rural Zone, Hill Country Rural Zone, Hill Slopes Rural Zone, Middelmarsh Basin Rural Zone, Peninsula Coast Rural Zone and Taieri Plain Rural Zone.

16.2 Objectives and Policies

Objective 16.2.1	
Rural zones are reserved for productive rural activities and the protection and enhancement of the natural environment, along with certain activities that support the well-being of communities where these activities are most appropriately located in a rural rather than an urban environment. Residential activity in rural zones is limited to that which directly supports farming or which is associated with papakāika.	
Policy 16.2.1.1	Enable farming, grazing and conservation in the rural zones.
Policy 16.2.1.2	Provide for rural activities, veterinary services, rural industry, rural contractor and transport depots, community activities, emergency services, cemeteries and crematoriums in the rural zones where the effects will be adequately managed in line with objectives 16.2.2 and 16.2.3, 16.2.4 and their policies, and the objectives and policies of any relevant overlay zones.
Policy 16.2.1.3	Require rural ancillary retail, rural tourism and working from home to be at a scale that: a. is ancillary to and supportive of productive rural activities or conservation activity on the same property; and b. supports objectives 2.3.2 and 2.4.3 and their policies.
Policy 16.2.1.4	Only allow visitor accommodation in the rural zones where it supports productive rural activities or a significant conservation activity on the same property.
Policy 16.2.1.5	Require residential activity, with the exception of papakāika, in the rural zones to be at a level (density) that supports farming activity and achieves objectives 2.3.1, 2.4.6, 16.2.2, 16.2.3 and 16.2.4 and their policies.
Policy 16.2.1.6	Restrict the tenancy and design of family flats to: a. avoid, as far as practicable, the risk they will be used for a separate, non-ancillary, residential activity; and b. avoid, as far as practicable, future pressure to subdivide off family flats.
Policy 16.2.1.7	Avoid residential activity in the rural zones on a site that does not comply with the density standards for the zone, unless it is the result of a surplus dwelling subdivision.
Policy 16.2.1.8	Avoid supported living facilities, commercial activities, industrial activities, and major facility activities, unless otherwise provided for, in the rural zones.
Policy 16.2.1.9	Only allow cross lease, company lease and unit title subdivision in the rural zones where it does not result in an increase in residential development potential beyond that which might be achieved through a general subdivision.
Policy 16.2.1.10	Only allow the subdivision of a surplus dwelling where: a. the subdivision meets policies 16.2.3.8 and 16.2.4.3.a, b and d; b. the dwelling is habitable and in good condition; and c. the subdivision will not result in any additional development potential for residential activity across resultant sites than would otherwise be provided for by the minimum site size standard.
Policy 16.2.1.11	Provide for service stations on a strategic road or arterial road, where it is not practicable, due to a lack of site availability and/or special locational requirements, to locate in the PPH, TR, CEC, industrial or centre zones.

Objective 16.2.1

Rural zones are reserved for productive rural activities and the protection and enhancement of the natural environment, along with certain activities that support the well-being of communities where these activities are most appropriately located in a rural rather than an urban environment. Residential activity in rural zones is limited to that which directly supports farming or which is associated with papakāika.

Policy 16.2.1.12	Enable the New Zealand Marine Studies Centre in the Portobello Marine Science mapped area .
------------------	--

Objective 16.2.2

The potential for conflict between activities within the rural zones, and between activities within the rural zones and adjoining residential zones, is minimised through measures that ensure:

- the potential for reverse sensitivity in the rural zones is minimised;
- the residential character and amenity of adjoining residential zones is maintained; and
- a reasonable level of amenity for residential activities in the rural zones.

Policy 16.2.2.1	Require residential buildings and cemeteries to minimise, as far as practicable, the potential for reverse sensitivity by being set back an adequate distance from: - site boundaries; and - intensive farming, domestic animal boarding and breeding (including dogs), mining, landfills, wind generators - large scale, and the Waitati Rifle Range.
Policy 16.2.2.2	Require buildings that house animals to be set back from site boundaries an adequate distance to ensure that any adverse effects on sensitive activities on adjoining sites, such as residential activities, are avoided or, if avoidance is not practicable, are no more than minor.
Policy 16.2.2.3	Require all new buildings to be located an adequate distance from site boundaries to ensure a good level of amenity for residential activities on adjoining sites.
Policy 16.2.2.4	Require rural ancillary retail, rural tourism - small scale, working from home, mineral exploration, and mineral prospecting to operate in a way (including hours of operation or, for mineral exploration, use of blasting) that avoids or, if avoidance is not practicable, adequately mitigates noise or adverse effects on the amenity of sensitive activities on surrounding properties.
Policy 16.2.2.5	Only allow rural tourism - large scale, rural research - large scale (outside the Invermay Farm mapped area), rural contractor and transport depots - large scale, community and leisure - large scale, sport and recreation, veterinary services, visitor accommodation, cemeteries, crematoriums, intensive farming, domestic animal boarding and breeding (including dogs), rural industry, mining, service stations, or landfills where adverse effects on the amenity of residential activities on surrounding properties will be avoided or, if avoidance is not practicable, adequately mitigated.
Policy 16.2.2.6	Require forestry and shelterbelts and small woodlots to be set back an adequate distance to avoid or minimise, as far as practicable, significant effects from shading on residential buildings on surrounding properties.
Policy 16.2.2.7	Only allow cemeteries where they are designed to avoid, as far as practicable, the potential for reverse sensitivity by locating graves a suitable distance from site boundaries and providing adequate screening from surrounding activities.

Objective 16.2.3

The rural character values and amenity of the rural zones are maintained or enhanced, elements of which include:

- a. a predominance of natural features over human made features;
- b. a high ratio of open space, low levels of artificial light, and a low density of buildings and structures;
- c. buildings that are rural in nature, scale and design, such as barns and sheds;
- d. a low density of residential activity, which is associated with rural activities;
- e. a high proportion of land containing farmed animals, pasture, crops, and forestry;
- f. extensive areas of indigenous vegetation and habitats for indigenous fauna; and
- g. other elements as described in the character descriptions of each rural zone located in Appendix A7.

Policy 16.2.3.1	Require buildings and structures to be set back from site boundaries and of a height that maintains the rural character values and visual amenity of the rural zones.
Policy 16.2.3.2	Require residential activity to be at a density that maintains the rural character values and visual amenity of the rural zones.
Policy 16.2.3.3	Require mineral exploration and mineral prospecting to restore land to at least the same standard as before the activity commenced with respect to landform and productive potential.
Policy 16.2.3.4	Only allow mining and landfills where there is reasonable certainty that land will be restored or rehabilitated to an acceptable standard with respect to landform and to enable a return to productive, recreational or conservation use as soon as possible.
Policy 16.2.3.5	Only allow intensive farming, rural tourism - large scale, rural industry, rural research - large scale (outside the Invermay Farm mapped area), rural contractor and transport depots - large scale, mining and landfills where adverse effects from large scale development on rural character and visual amenity will be avoided or minimised as far as practicable.
Policy 16.2.3.6	Only allow community and leisure - large scale, sport and recreation, early childhood education, service stations, and visitor accommodation where the adverse effects of development on rural character and visual amenity are avoided or, if avoidance is not practicable, no more than minor.
Policy 16.2.3.7	Require ancillary signs to be located and designed to maintain rural character and visual amenity, including by being of an appropriate size and number to convey information about the name, location, and nature of the activity on-site to passing pedestrians and vehicles and not being oversized or too numerous for that purpose.
Policy 16.2.3.8	Only allow subdivision activities where the subdivision is designed to ensure any associated future land use and development will maintain or enhance the rural character and visual amenity of the rural zones.
Policy 16.2.3.9	Require activities to be designed and operated to ensure that any adverse effects from light spill on rural character and amenity, and the ability of people to view the night sky, will be no more than minor.
Policy 16.2.3.10	Require large buildings and structures in the Hill Slopes Rural Zone to avoid adverse visual effects caused by reflectivity or, if avoidance is not practicable, ensure effects are no more than minor.
Policy 16.2.3.11	Require papakāika to maintain, as far as practicable, the rural character values and amenity of the rural zones in terms of the design, scale and location of the development.

Objective 16.2.4

The productivity of rural activities in the rural zones is maintained or enhanced.

Policy 16.2.4.1	Require earthworks in a high class soils mapped area to retain soils on the site.
Policy 16.2.4.2	Only allow activities other than farming on highly productive land where: - the scale, size and nature of the activity means that any loss of current or potential future rural productivity would be: - insignificant in any high class soils mapped area; and - no more than minor in other areas of highly productive land; unless - for mining, the activity must locate on highly productive land due to operational requirements and there are no practicable alternative locations.
Policy 16.2.4.3	Only allow subdivision activities where the subdivision is designed to ensure any future land use and development will: - maintain or enhance the productivity of rural activities; - maintain highly productive land for farming activity, or ensure the effects of any change in land use are: - insignificant on any high class soils mapped area; and - no more than minor on other areas of highly productive land; - maintain land in a rural rather than rural residential land use; and - not increase the potential for reverse sensitivity.
Policy 16.2.4.4	Require residential activity in the rural zones to be at a density that will not, over time and/or cumulatively, reduce rural productivity by displacing rural activities.

Rules

Rule 16.3 Activity Status

16.3.1 Rule Location

The activity status tables in rules 16.3.3 to 16.3.6 specify the activity status of land use activities, development activities, and subdivision activities in the rural zones and relevant overlay zones, except rules for the following city-wide activities, which are contained in Part B of the Plan:

1. Public Amenities (Section 3)
2. Temporary Activities (Section 4) - note that this section includes provisions that apply to construction
3. Network Utilities (Section 5)
4. Transportation (Section 6)
5. Scheduled Trees (Section 7)
6. Natural Hazard Mitigation Activities (Section 8)
7. Earthworks (Section 8A)

16.3.2 Activity Status Introduction

1. The activity status tables in rules 16.3.3 - 16.3.5 show the activity status of activities in the rural zones and the overlay zones indicated, provided any performance standards shown in the far right column are met.
2. Activities are split into three types: a. land use activities, b. development activities, c. subdivision activities. Within these types, activities are split into categories. The nested tables in Section 1.3 outline the hierarchy of categories, activities and sub-activities.
3. Permitted land use activities do not automatically provide for any related development activities. Therefore, the activity status of any associated development activities should also be checked.
4. Where a new land use activity requires a resource consent, all associated development activities will be considered and assessed as part of the resource consent even if the development otherwise meets the development performance standards listed in the Plan.
5. The nested tables in Section 1.3 are intended to be a complete list of activities. However, in the case of an activity that is not covered by any of the activities in the nested tables, the activity status will be non-complying.

Additional activity status rules in hazard overlay zones

6. For the purpose of the hazards provisions, activities are categorised as natural hazards sensitive activities, natural hazards potentially sensitive activities or natural hazards least sensitive activities. The activities that are in each hazards sensitivity category are included in the definitions section and in Section 11.1.
7. In the Hazard 1 (Flood) Overlay Zone or the Hazard 2 (Flood) Overlay Zone, the activity statuses in Rule 16.3.6 apply to the following activities:
 - a. natural hazards sensitive activities;
 - b. natural hazards potentially sensitive activities; and
 - c. new buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area.
8. Where the activity status in Rule 16.3.6 differs from that in rules 16.3.3 - 16.3.5, the most restrictive activity status always applies.
9. In addition to the rules in Rule 16.3.6, performance standards for development activities within hazard overlay

zones are included in Rule 16.3.4.

10. Activities in a hazard overlay zone must comply with all of the rules in 16.3.3 - 16.3.5.

Performance Standards

11. Performance standards are listed in the far right column of the activity status tables.
12. Performance standards apply to permitted, controlled, and restricted discretionary activities.
13. If a permitted or controlled activity does not meet one or more performance standards, then the activity status of the activity is indicated in the relevant performance standard rule.
14. If a restricted discretionary activity does not meet one or more performance standards, then the activity status remains restricted discretionary (unless otherwise indicated in the performance standard).

Legend

Acronym	Meaning
+	Additional provisions apply (assessment criteria for activities in overlay need to be viewed)
N/A	Not Applicable
P	Permitted Activity
C	Controlled Activity
RD	Restricted Discretionary Activity
D	Discretionary Activity
NC	Non-complying Activity
Pr	Prohibited Activity
RU	Rural Zones
ONF	Outstanding Natural Feature Overlay Zone
ONL	Outstanding Natural Landscape Overlay Zone
SNL	Significant Natural Landscape Overlay Zone
ONCC	Outstanding Natural Coastal Character Overlay Zone
HNCC	High Natural Coastal Character Overlay Zone
NCC	Natural Coastal Character Overlay Zone
ASBV	Areas of Significant Biodiversity Value
Haz1A	Hazard 1A (flood) Overlay Zone
Haz1	Hazard 1 Overlay Zones
Haz2	Hazard 2 Overlay Zones
Haz3	Hazard 3 Overlay Zones
RTZ	Residential Transition Overlay Zone

16.3.3 Land Use Activity Status Table

1.	Performance standards that apply to all land use activities					a. Acoustic insulation (noise sensitive activities only) b. Electrical interference c. Light spill d. Noise e. Setback from National Grid (National Grid sensitive activities only)
Rural activities		Activity status				Performance standards
		a. RU	b. ONL/ SNL/NCC	c. ONF/ ONCC/HNCC	d. ASBV	
2.	Domestic animal boarding and breeding (not including dogs)	P	P	NC	NC	i. Location
3.	Domestic animal boarding and breeding (including dogs)	RD	RD	NC	NC	i. Location

51.	All other activities in the major facility activities category	NC	NC+	NC+	NC+	

Note 16.3.3A - General advice

- ¹ Papakāika activity is intended to allow descendants of the original native reserve grantees to live on this land. It is not intended to allow other residential use of rural land at a higher density than provided for in the rural zones. If papakāika is developed and is subsequently no longer required for the use of Manawhenua in accordance with the papakāika definition, resource consent will be required to allow its use as other residential development. In this situation, the provisions of the rural zones that govern residential activity, including density of residential development, will apply. It is strongly recommended that the use of relocatable buildings is considered for papakāika development in order to avoid potential future problems of being unable to obtain consent for ownership or occupation of dwellings by people other than descendants of the original grantees.
- Where papakāika is on Māori Land, the provisions of the Te Ture Whenua Māori Act 1993 or subsequent legislation apply.
- New marae may only be established with the agreement of Manawhenua.
- For papakāika activity, see also Rule 16.13 Special Information Requirements.

Note 16.3.3B – Other requirements outside of the District Plan

Plantation forestry and associated activities are addressed by the NESPF rather than Rule 16.3.3.7 for rural zones in Rule 16.3.3.7.a and for SNLs in Rule 16.3.3.7.b.

Plantation forestry and associated activities are addressed by the NESPF rather than Rule 16.3.3.7 for ONLs in Rule 16.3.3.7.b, except that Rule 16.5.13 (which is more stringent than the NESPF) and assessment Rule 16.10.5.7 (which is an effect not addressed by the NESPF) apply in addition to the NESPF.

For NCCs in Rule 16.3.3.7.b, ONFs, ONCC and HNCCs in Rule 16.3.3.7.c, and ASBVs in column Rule 16.3.3.7.d the NESPF does not apply.

The NESPF does not apply to vegetation clearance prior to afforestation and therefore rules 16.3.4.23, 16.3.4.24 and 16.3.4.25 and the rules in Section 10 Natural Environment apply.

16.3.4 Development Activity Status Table

1.	Performance standards that apply to all development activities	a. Natural Hazards Performance Standards b. Setback from scheduled tree			
2.	Performance standards that apply to all buildings and structures activities	a. Boundary setbacks b. Fire fighting c. Maximum height d. Number, location and design of ancillary signs e. Reflectivity (landscape and coastal character overlays) f. Setback from coast and water bodies g. Setback from National Grid			
Buildings and structures activities (excluding activities affecting a protected part of a scheduled heritage building or scheduled heritage structure. See rows 8 - 15)		Activity status

27.	Shelterbelts and small woodlots	P	P	RD	RD	i. Forestry and shelterbelts and small woodlots setbacks ii. Tree species
28.	All other site development activities	P	P	P	RD	

Note 16.3.4A - General advice

1. An archaeological authority is required under the Heritage New Zealand Pouhere Taonga Act 2014 to modify or destroy an archaeological site. If you wish to do any earthworks that may affect an archaeological site, you must first obtain an authority from Heritage New Zealand. This is the case regardless of whether the site is designated, or the activity is permitted under the District Plan or Regional Plan, or a resource or building consent has been granted.
2. An archaeological site is defined as any place in New Zealand that was associated with human activity that occurred before 1900 and provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand. This includes the scheduled archaeological sites within the District Plan.
3. Pre-1900 buildings are considered archaeological sites. An archaeological authority must be obtained before demolishing a pre-1900 building or structure.
4. The **archaeological alert layer mapped area** identifies sites and areas that have a strong likelihood of containing archaeological remains, however remains may be present anywhere within the District. If archaeological remains are discovered during any site works, at any location, the Accidental Discovery Protocol (Appendix A8) should be followed.

16.3.5 Subdivision Activity Status Table

Subdivision Activities		Activity status				Performance standards
		a. RU	b. ONL/ SNL/NCC	c. ONF/ ONCC/HNCC	d. ASBV	
1.	General subdivision	RD	RD+	RD+	RD+	i. Access ii. Esplanade reserves and strips iii. Fire fighting iv. Minimum site size v. Shape
2.	Cross lease, company lease and unit title subdivision	D	D	D	D	

Note 16.3.5A - Other RMA considerations

- Under Section 226(1)(e)(ii) of the Resource Management Act 1991, where an existing allotment shown on a survey plan meets all relevant provisions of the district plan and any proposed district plan, the Dunedin City Council must issue a certificate to that effect to enable the Registrar-General of Land to issue a certificate of title for that separate allotment.

16.3.6 Activity Status in Hazard 1 (Flood), Hazard 1A (Flood) and Hazard 2 (Flood) Overlay Zones

Activity		Activity status		
		a. Haz1A (flood)	b. Haz1 (flood)	c. Haz2 (flood)
1.	Natural hazards sensitive activities	Pr	NC	RD
2.	Natural hazards potentially sensitive activities	NC	NC	RD
3.	New buildings, and additions and alterations to buildings, which create more than 60m ² of new ground floor area	RD	RD	RD

Note 16.3.6A - Other RMA considerations

- For the purposes of the natural hazards provisions only, with respect to section 10 of the RMA (existing use rights), Council will generally consider that a land use activity is similar in character, intensity, and scale where:
 - for a residential activity, there is less than 25m² increase in ground floor area of any residential building(s), in any consecutive 10 year period; or
 - for a residential activity, a new building is to be used solely as a garage or shed; or
 - for all other natural hazards sensitive activities and natural hazards potentially sensitive activities, the ground floor area of any buildings increases by less than 100% in any consecutive 10 year period.
- Accordingly, these activities will not usually trigger the provisions for natural hazards sensitive activities and natural hazards potentially sensitive activities in Rule 16.3.6. However, Council will consider specific circumstances associated with the development and how this affects the character, intensity and scale of the land use activity.

Rule 16.4 Notification

1. Applications for resource consent for the following activities will be considered without the need to obtain a written approval of affected persons and will not be notified in accordance with section 95A or 95B of the RMA, unless Council considers special circumstances exist in relation to the application that require public notification:
 1. **papakāika (controlled activity) where the associated site development activities are permitted;**
 2. earthquake strengthening of a scheduled heritage building or scheduled heritage structure where external features only are protected (controlled activity) and that are not listed by Heritage New Zealand; and
 3. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is not listed by Heritage New Zealand.
2. With respect to resource consent applications for the following activities, Heritage New Zealand will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
 1. activities that affect a protected part of a scheduled heritage building, scheduled heritage structure, or a scheduled heritage site, that is listed with Heritage New Zealand;
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is listed by Heritage New Zealand; and
 3. contravention of the archaeological sites performance standard (Rule 13.3.3).
3. With respect to resource consent applications for the following activities, Manawhenua will be considered an affected person in accordance with section 95B of the RMA where their written approval is not provided:
 1. cemeteries, crematoriums and landfills;
 2. all restricted discretionary activities that list 'effect on cultural values of Manawhenua as a matter for discretion; and
 3. discretionary and non-complying activities in a **wāhi tūpuna mapped area** where the activity is identified as a threat in Appendix A4.
4. With respect to resource consent applications for the following activities, the Department of Conservation will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
 1. indigenous vegetation clearance - large scale in a scheduled Area of Significant Biodiversity Value; or
 2. indigenous vegetation clearance - large scale or any discretionary or non-complying activity in a Natural Coastal Character, High Natural Coastal Character or Outstanding Natural Coastal Character overlay zone.
5. With respect to resource consent applications for the following activities within the **radio transmitters mapped area**, Radio New Zealand Limited will be considered an affected person in accordance with section 95B of the RMA, unless its written approval is provided or discretion is restricted and excludes consideration of reverse sensitivity effects:
 1. any activities that may be sensitive to electromagnetic interference, noise or visual effects from Radio New Zealand's facilities at 740 Highcliff Road and 35 Karetai Road; and
 2. subdivision that could result in activities of this kind.
6. With respect to sections 95D(b) and 95E(2)(a) of the RMA, Council will not consider papakāika or family flats as part of the permitted baseline in considering residential density effects in the rural zones.
7. With respect to resource consent applications for the following activities, the Otago Regional Council will be

considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:

1. activities in the hazard 1 or hazard 1A (flood) overlay zones; and
 2. activities in **swale mapped areas**.
8. All other activities are subject to the normal tests for notification in accordance with sections 95A-95G of the RMA.

Rule 16.5 Land Use Performance Standards

16.5.1 Acoustic Insulation

Noise sensitive activities in the following areas must comply with Rule 9.3.1:

1. port noise control mapped area;
2. airport noise inner control mapped area;
3. airport noise outer control mapped area;
4. within 40m of the Taieri Aerodrome Zone;
5. within 40m of a state highway;
6. within 20m of an industrial zone; and
7. within 70m of a railway line.

16.5.2 Density

1. The maximum density of standard residential activity is as follows:

Rural Zone		i. Minimum site size - first residential activity per site	ii. Minimum site size - second residential activity per site	iii. Minimum site size - third residential activity per site
a.	Coastal	15ha	80ha	120ha
b.	High Country	100ha	200ha	300ha
c.	Hill Country	100ha	200ha	300ha
d.	Hill Slopes	15ha	50ha	75ha
e.	Middlemarch Basin	40ha	160ha	240ha
f.	Peninsula Coast	20ha	80ha	120ha
g.	Taieri Plain	25ha	80ha	120ha

- h. Except,
 - i. papakāika may be developed at a density of 6 residential units, or 15 habitable rooms per site, whichever is the lesser.
 - ii. in the Middlemarch Basin, Hill Country and High Country rural zones, a single residential activity is permitted on any site that existed before 26 September 2015, and that is 15ha or larger, provided the residential activity is established prior to 7 November 2023.
- i. Multiple standard residential activities (additional primary residential buildings (houses)) are only allowed on a single site where they are located no closer than 80m from other residential buildings on the same site (family flats or sleepouts are considered part of the same residential activity), except:
 - i. multiple residential units developed as part of papakāika may be located closer than 80m to each other.
- j. if a site is crossed by a boundary between two or more rural zones, the maximum density of the standard residential activity must meet the density required for the rural zone in which the residential activity is to be established; and
 - i. the total site size must meet the minimum site size for the zone in which the residential activity

is to be established; and

- ii. for each new residential activity per site, a minimum of 2ha of the site per residential activity must be located within the rural zone in which the residential activity is to be established.

2. One family flat is allowed per site in association with a standard residential activity that meets this performance standard for density.
3. Standard residential activity that contravenes the performance standard for density is a non-complying activity, except:
 - a. papakāika that contravenes the performance standard for density is a discretionary activity.

16.5.3 Electrical Interference

Land use activities must comply with Rule 9.3.2.

16.5.4 Hours of Operation

Activity	Hours of operation
1. Mineral exploration and mineral prospecting	7:00am - 10:00pm
2. Rural ancillary retail	Customers must not arrive before 7:00am or depart after 7:00pm
3. Rural tourism - small scale	Visitors must not arrive before 7:00am or depart after 7:00pm
4. Working from home (excluding homestay)	Customers and deliveries must not arrive before 7:00am or depart after 7:00pm

5. Wildlife and night sky viewing activities are exempt from this standard.
6. Activities that contravene this performance standard are restricted discretionary activities.

16.5.5 Light Spill

1. Light spill measured 1.5m above ground level at the boundary of a site must not exceed 1 Lux between 10:00pm and 7:00am.
2. Lights must be:
 - a. cut-off or fully shielded;
 - b. and directed away from roads and any adjacent property
3. Light spill measured at the boundary of the residential zone or any site used for residential purposes between 7:00am and 10:00pm must not exceed 3 Lux.
 - a. Except this standard does not apply to light spill from the headlights of motor vehicles.
4. Activities that contravene rules 16.5.5.1 and 16.5.5.2 are discretionary activities.
5. Activities that contravene any light spill limit in Rule 16.5.5.3 by 25% or less are discretionary activities.
6. Activities that contravene any light spill limit in Rule 16.5.5.3 by greater than 25% are non-complying activities.

16.5.6 Location

1. Domestic animal boarding and breeding, rural ancillary retail and rural tourism - small scale must not be accessed directly from a state highway with a speed limit of 80kmh or over.
2. Activities that contravene this performance standard are restricted discretionary activities.

16.5.7 Maximum Gross Floor Area

Activity	Maximum gross floor area
1. Rural ancillary retail	60m ²
2. Working from home	100m ²

3. Except the retailing of plants grown on the site is exempt from the performance standard for maximum gross floor area.
4. Activities that contravene this performance standard are restricted discretionary activities.

Note 16.5.7A - Other requirements outside of the District Plan

1. Registration must be obtained from DCC Environmental Health Department for any working from home activity which involves food products, hairdressing, beauty therapy or tattooing. Please contact the DCC's Environmental Health Department on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.
2. A licence from the DCC's Alcohol Licensing Department may be required for any working from home activity involving the sale or distribution of alcohol. Please contact the DCC on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.

16.5.8 Minimum Car Parking

The following land use activities must provide on-site car parking at the rates indicated below:

Activity	Minimum car parking
1. Rural ancillary retail	1 parking space for customers of any roadside produce stall
2. Rural tourism - small scale	1 parking space for every 5 persons the facility can accommodate at any one time
3. Rural research - small scale	1 parking space is required for each full time equivalent member of staff, when over five staff members are employed on-site
4. Intensive farming	1 parking space per full time equivalent member of staff employed on-site
5. Community and leisure - small scale	1 parking space for every 5 persons the facility can accommodate at any one time
6. Crematoriums	1 parking space per 75m ² of gross floor area
7. Emergency services	a. For fire stations: 5 parking spaces per fire engine bay b. For all other activities: 1 parking space per 100m² gross floor area

8. Activities must provide mobility parking spaces as follows:

Total number of parking spaces provided	Minimum number of these that must be mobility parking spaces
a. 1 - 20	1 parking space
b. 21 - 50	2 parking spaces
c. For every additional 50 parking spaces	1 additional parking space

9. Where the minimum parking performance standard results in the requirement for a fractional space, any fraction under one half will be disregarded and any fraction of one half or greater will be counted as one space.
10. Parking spaces may be shared between land use activities (i.e. the same parking spaces may be used to fulfil the minimum car parking requirement for more than one land use activity), as long as the hours of operation of the land use activities do not overlap.
11. For activities where the minimum car parking performance standard is based on the gross floor area, the following areas will be excluded from the assessment of gross floor area:
 - a. any parking area and associated manoeuvring space, including aisle; and
 - b. any loading area and associated manoeuvring space.
12. Activities that contravene this performance standard are restricted discretionary activities.

Note 16.5.8A - Other relevant District Plan provisions

1. Parking areas must comply with the standards in Section 6.6: Parking, Loading and Access Standards.

16.5.9 Noise

Land use activities must comply with Rule 9.3.6.

16.5.10 Separation Distances

1. New residential buildings and cemeteries must be located at least:
 - a. 100m from:
 - i. an existing, lawfully established intensive farming activity on a separate site;
 - ii. an existing, lawfully established domestic animal boarding and breeding (including dogs) activity on a separate site; and
 - iii. the Waitati Rifle Range at 108 Miller Road, Waitati (Minister of Defence designation D158);
 - b. 150m from existing, lawfully established landfills on a separate site;
 - c. 250m from existing, lawfully established wind generators - large scale on a separate site;
 - d. 200m from an existing, lawfully established mining activity, that does not involve blasting, on a separate site; and
 - e. 500m from an existing, lawfully established mining activity, that involves blasting, on a separate site.
2. For the purposes of this standard, separation distance is measured from either the closest wall of the new residential building or the closest edge of the cemetery, as relevant, to the closest edge of any active operational area or other part of the site being used as part of the activities listed.
3. Activities that contravene this performance standard are restricted discretionary activities.

16.5.11 Setback from National Grid

National Grid sensitive activities must comply with Rule 5.6.1.

16.5.12 Site Restoration

1. Areas disturbed by mineral prospecting and mineral exploration must restore any areas disturbed with respect to landform, biodiversity values and productive potential. Restoration must be completed prior to the end of the lease, licence, or consent, whichever is earliest.

2. Activities that contravene this performance standard are restricted discretionary activities.

16.5.13 Tree Species

Forestry and shelterbelts and small woodlots must comply with Rule 10.3.4.

16.5.14 Family Flats

16.5.14.1 Family Flats - Tenancy

- a. Family flats must:
 - i. only be occupied by:
 1. a person or persons related to or dependent on the household that lives in the primary residential unit on the same site; or
 2. employed on-site, in a paid or voluntary capacity, as a domestic, child-care, farm or conservation worker by the household that lives in the primary residential unit on the same site.
 - ii. not be on a different tenancy agreement to the primary residential unit.
- b. Standard residential activity that contravenes this performance standard is a non-complying activity.

16.5.14.2 Family Flats - Design

- a. Family flats must:
 - i. not exceed a maximum gross floor area of 60m²;
 - ii. be on the same available water and wastewater infrastructure connection, or the same non-reticulated wastewater disposal system as the primary residential unit;
 - iii. be on the same household electricity account;
 - iv. share the same vehicle access as the primary residential unit; and
 - v. be attached to or located in the same residential building as the primary residential unit, or located within 30m of the primary residential building (house), as measured as the closest distance between any wall of the primary residential building and any wall of the family flat.
- b. Standard residential activity that contravenes this performance standard is a restricted discretionary activity.

{Note - Appeal does not relate to sites in rural zones not within a landscape or coastal character overlay zone, except for Hill Slopes Rural Zone where appeal applies to all sites}

16.5.15 Blasting

1. Mineral exploration that involves blasting must comply with the following:
 - a. There are no more than 3 blast events per site per day, and no more than 21 blast events in a calendar year.
 - b. Blast events may only occur between 8.00am and 6.00pm Monday to Saturday (excluding public holidays).
 - c. The peak amplitude (Vmax) must not exceed 5 mm/second, measured on any foundation or suitable adjacent location of an adjoining residential property; Overpressure (Pmax) must not exceed 120 dBL, measured at the boundary of the receiving property, or the notional boundary of noise sensitive activities in a rural, rural residential or Ashburn Clinic Zone.
 - d. Quantum of earth moved must not exceed the earthworks - small scale standards.
2. Mineral exploration that contravenes the performance standard for blasting is a discretionary activity.

16.5.16 Scheduled Mining Activity

16.5.16.1

Scheduled mining activity must meet the performance standards listed below.

16.5.16.2

Scheduled mining activity that contravenes any of these standards will be considered a new mining activity and will be subject to the rules that apply to mining in Rule 16.3.

16.5.16.3 Maximum Annual Extraction

- a. Aramoana Quarry must not exceed a maximum annual extraction limit of 50,000m³.
- b. Fairfield Sand Pit No. 3 must not exceed a maximum annual extraction limit of 10,000 tonnes.

16.5.16.4 Operating Limits

- a. Blackhead Quarry:
 - i. may only operate: Monday to Saturday 6.00am to 10.00pm;
 - ii. must not extract material on Sec 153 Green Island Bush SD or within 100m of Blackhead Road on Secs 154 and 155 Green Island Bush SD. However, these areas may be used for quarry activities not involving extraction such as stock piling overburden; and
 - iii. must not undertake mining in the area defined by Conservation Covenant 779741/2.
- b. Fairfield Sand Pit No. 3:
 - i. may only operate: Monday to Friday 6.00am to 8.00pm and Saturday 7.00am to 5.00pm;
 - ii. must not use blasting; and
 - iii. must not extract material on Pt Sec 11 -13 Green Island West SD. However, these areas may be used for quarry activities not involving extraction, such as stockpiling overburden.
- c. Aramoana Quarry:
 - i. may only operate: Monday to Saturday 7.00am to 7.00pm;
 - ii. may only operate for the purpose of maintaining and repairing of the Aramoana Mole and the Long Mac Groyne; and
 - iii. may only transport rock on the Aramoana Road/Moana Street route, between the hours of 7.00am to 7.00pm Monday to Saturday.
- d. Mt Kettle Quarry:
 - i. may only operate: Monday to Saturday 6.00am to 10.00pm;
 - ii. must not undertake mining on more than 40 days each calendar year;
 - iii. must ensure quarrying does not alter the skyline as viewed from Portobello Road or from State Highway No 1;
 - iv. must not quarry closer than 50m to adjoining properties; and
 - v. must retain existing native vegetation on areas not quarried.

16.5.16.5 Noise

Aramoana Quarry, Blackhead Quarry, Mt Kettle Quarry and Fairfield Sand Pit No. 3 must comply with Rule 9.3.6, subject to the following:

- a. An adjustment of minus 5 dBA for noise emissions having special audible characteristics.
- b. Noise level readings for the purpose of determining compliance with the noise conditions must be provided by

the quarry operator for two hours, at times representative of the operation and at which maximum noise levels can be assessed. For continuous operations, readings must take place at 12 monthly intervals; for intermittent operations readings must be provided at the time of every subsequent operation of the site.

16.5.16.6 Blasting

- a. Aramoana Quarry, Blackhead Quarry and Mt Kettle Quarry must ensure that airblast over-pressure from a blasting event on the site, when assessed at any point within the notional boundary of any residence, does not exceed a peak non-frequency-weighted (linear or flat) level of 115 dB (Peak) at any time.

16.5.16.7 Landscaping and Rehabilitation

- a. Aramoana Quarry, Blackhead Quarry, Mt Kettle Quarry and Fairfield Sand Pit No. 3 must carry out a programme of landscaping to encourage the revegetation of areas that are no longer being mined. The landscaping programme must ensure that:
 - i. all planting is in accordance with a landscape plan prepared by a qualified landscape architect; and
 - ii. all vegetation established as part of this programme is maintained in a healthy state at all times.
- b. For Aramoana Quarry, Blackhead Quarry and Mt Kettle Quarry, the landscaping must include creating areas of loose scree on any benching for the colonisation of rock plants.
- c. For Fairfield Sand Pit No. 3, the site must be rehabilitated to an appearance and character similar to that of the surrounding environment.
- d. Aramoana Quarry must use the overburden and the stockpiling of fines that are retained on the site to recontour the area adjacent to Aramoana Road on sections 46 and 47 Blk V, North Harbour and Blueskin Survey District and must be progressively regressed.
- e. Fairfield Sand Pit No. 3 must undertake a programme of screen planting designed to mitigate adverse visual effects as viewed from the adjacent residential areas, road and other viewing areas. The programme must ensure that:
 - i. all planting is in accordance with a landscape plan prepared by a qualified landscape architect; and
 - ii. all vegetation established as part of this programme is maintained in a healthy state at all times.
- f. Fairfield Sand Pit No. 3 must ensure the edge of the quarried area is designed and certified by a suitably qualified geotechnical engineer to ensure that the edge is stable and will not adversely affect any adjoining property boundary.

Rule 16.6 Development Performance Standards

16.6.1 Fire Fighting

New residential buildings and subdivision activities must comply with Rule 9.3.3.

16.6.2 Natural Hazards Performance Standards

16.6.2.1 Hazard exclusion areas

- a. New buildings and structures and additions and alterations located in a **swale mapped area** must comply with Rule 11.3.1.1.
- b. New buildings and structures and additions and alterations located in a **dune system mapped area** must comply with Rule 11.3.1.2.

16.6.2.2 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the Hazard 1 (land instability) Overlay Zone, Hazard 2 (land instability) Overlay Zone, or in a **dune system mapped area**, must comply with Rule 11.3.2.

16.6.2.3 Relocatable buildings

New buildings containing residential activity on the ground floor in the Hazard 3 (coastal) Overlay Zone must comply with Rule 11.3.3.

16.6.2.4 Outdoor storage

Outdoor storage in the Hazard 1 and 1A (flood) Overlay Zones must comply with Rule 11.3.4.

16.6.3 Hazardous Substances Quantity Limits and Storage Requirements

The storage and use of hazardous substances must comply with Rule 9.3.4.

16.6.4 Materials and Design

Repairs and maintenance, restoration, and earthquake strengthening must comply with Rule 13.3.2.

16.6.5 Maximum Height

1. New buildings and structures, and additions and alterations, must not exceed a maximum height above ground level as follows:

Activity		i. Rural zones	ii. Landscape and coastal character overlay zones
a.	Roadside produce stall	3.5m	3.5m
b.	Buildings associated with the New Zealand Marine Studies Centre in the Portobello Marine Science mapped area	10m	10m
c.	All other buildings and structures	10m	5m

2. Rooftop structures are exempt from the performance standard for height provided they do not exceed the maximum height limit for all other buildings and structures by more than one third of that limit.
3. Buildings or structures must not protrude through the height restriction for the Taieri Aerodrome approach and take-off fans shown on the **Taieri Aerodrome flight fan mapped area**.
4. Activities that contravene this performance standard are restricted discretionary activities.

16.6.6 Number and Location of Permitted Buildings

1. In Outstanding Natural Landscape (ONL), Significant Natural Landscape (SNL), and Natural Coastal Character (NCC) overlay zones, all new buildings (less than or equal to 60m² footprint) must comply with Rule 10.3.5.

16.6.7 Number, Location and Design of Ancillary Signs

16.6.7.1 General

- a. A maximum of one sign attached to a building and one freestanding sign is allowed per site, except:
 - i. only one sign may be located in any part of a site in an ONF, ONL, SNL, ONCC, HNCC or NCC overlay zone.
- b. Signs visible from a public place must meet all of the following performance standards, except that regulatory signs, directional signs and warning signs that do not exceed 0.25m² are exempt from these standards.
- c. Signs that only give address, occupant or place name information (not including any commercial business names) do not count toward maximum sign numbers.
- d. Signs must comply with Rule 6.7.3 where visible from a road.
- e. Signs must not be illuminated or digital.
- f. Signs that contravene the performance standard for number, location and design of ancillary signs are restricted discretionary activities.

16.6.7.2 Signs attached to buildings

- a. The maximum height above ground level, at the highest point of any sign, attached to a building is 4m, except:
 - i. the maximum height is 2m in an ONF, ONL, SNL, ONCC, HNCC or NCC overlay zone.
- b. Signs must not be attached to roofs.
- c. Signs must not project higher than the lowest point of the roof, except where mounted flat against a parapet or gable end.
- d. The maximum area of signs, per display face, is 2m², except:
 - i. the maximum area of signs, per display face, is 0.6m² in an ONF, ONCC or HNCC overlay zone; and
 - ii. the maximum area of signs, per display face, is 1m² in an ONL, SNL or NCC overlay zone.
- e. In an ONF, ONCC or HNCC overlay zone the sign must only provide information about the values of the overlay zone (refer Appendices A3 and A5).

16.6.7.3 Freestanding signs

- a. Maximum dimensions of freestanding signs are:
 - i. maximum height of 4m, except:
 1. 2m in an ONF, ONL, SNL, ONCC, HNCC or NCC overlay zone;
 - ii. maximum area of 2m² per display face, except:
 1. 0.6m² per display face in an ONF, ONCC or HNCC overlay zone; and
 2. 1m² per display face in an ONL, SNL or NCC overlay zone;
 - iii. maximum of 2 display faces per sign;
 - iv. maximum width of 2m, except:
 1. 1m in an ONF, ONL, SNL, ONCC, HNCC or NCC overlay zone; and
 - v. maximum depth of 400mm.
- b. Freestanding signs must:
 - i. not obstruct parking, loading and access areas; and
 - ii. be positioned entirely within site boundaries.
- c. In an ONF, ONCC or HNCC overlay zone the sign must only provide information about the values of the overlay zone (refer Appendices A3 and A5).

Note 16.6.7A - Other requirements outside of the District Plan

1. For additional restrictions that may apply to signs, see also:
 - a. NZ Transport Agency *Traffic Control Devices Manual, Part 3, Advertising Signs and Signs on State Highways Bylaw*.
 - b. Dunedin City Council Commercial Use of Footpaths Policy.
 - c. Dunedin City Council Roadway Bylaw.
 - d. Dunedin City Council Traffic and Parking Bylaw.

16.6.8 Parking, Loading and Access Standards

Parking, loading and access must comply with Rule 6.6.

16.6.9 Reflectivity

1. New buildings and structures (except fences), and additions and alterations, in any landscape or coastal character overlay zone must comply with Rule 10.3.6.
2. In the Hill Slopes Rural Zone, new buildings and structures that exceed 300m² must have exterior surfaces that have a light reflectance value (LRV) of 30% or less, except that this rule does not apply to the following exterior surfaces:
 - a. natural wood finishes;
 - b. glass;
 - c. clear plastic;
 - d. soffits; or
 - e. flues.
3. For the purposes of Rule 16.6.9.2, the LRV of exterior surface materials whose reflectivity changes due to weathering (e.g. stone) will be measured based on an 'as weathered' condition.
4. For the sake of clarity, Rule 16.6.9.2 applies to roofs and does not apply to fences.
5. Activities that contravene this performance standard are restricted discretionary activities.

16.6.10 Setbacks

16.6.10.1 Boundary setbacks

- a. New buildings and structures, and additions and alterations, must be set back from boundaries as follows:

Activity		1. Minimum setback from road boundary	2. Minimum setback from side and rear boundaries with sites held in separate ownership
i.	Residential buildings (see Figure 16.6.10.1A)	20m	The greater of either: i. 20m; or ii. a setback that provides a 40m separation from any residential building on any adjoining site
ii.	Non-residential buildings housing animals (see Figure 16.6.10.1B)	20m	i. Buildings with a maximum height of up to 7m above ground level: 12m ii. Buildings with a maximum height that is over 7m above ground level: Twice the maximum height of the building
iii.	Non-residential buildings not housing animals (see Figure 16.6.10.1C)	20m	i. Buildings with a maximum height of up to 7m above ground level: 6m ii. Buildings with a maximum height that is over 7m above ground level: Twice the maximum height of the building
iv.	Roadside produce stall	No requirement	6m
v.	All other structures	No requirement	No requirement

- vi. Except:

1. additions and alterations to an existing building located within the minimum setback from road

- boundary, provided the addition and alteration does not further increase the contravention of the setback and does not increase the height of the building;
2. additions and alterations to an existing building used for residential activity located within the minimum setback from side and/or rear boundary, provided the addition and alteration does not further increase the contravention of the setback and does not increase the height of the residential building; and
 3. buildings associated with the New Zealand Marine Studies Centre in the **Portobello Marine Science mapped area**.
- vii. Rooftop structures are exempt from any calculation of maximum height in this performance standard.
- viii. For the purposes of this standard, the separation between residential buildings is measured from the closest wall of each residential building.
- b. Activities that contravene this performance standard are restricted discretionary activities.

Figure 16.6.10.1A: Setbacks for new residential buildings

Figure 16.6.10.1B: Setbacks for non-residential buildings housing animals

Figure 16.6.10.1C: Setbacks for non-residential buildings not housing animals

16.6.10.2 Forestry and shelterbelts and small woodlots setbacks

- a. Trees associated with forestry:
 - i. must not be planted within 30m of the boundary of any residential zone or rural residential zone;
 - ii. must not be planted within 40m of a residential building where the building exists at the time of planting;
 - iii. must not shade a motorway or a strategic, arterial or collector road between 10am and 2pm on the shortest day of the year; and
 - iv. must not be planted within 10m of the boundary of the designated rail corridor.
- b. Trees associated with shelterbelts and small woodlots:
 - i. must be set back, or managed, so that they maintain a minimum distance of their own height from any residential building on an adjoining site, where the building exists at the time of planting;
 - ii. must not shade a motorway or a strategic, arterial or collector road between 10am and 2pm on the shortest day of the year; and
 - iii. must not be planted within 10m of the boundary of the designated rail corridor.
- c. Activities that contravene this performance standard are restricted discretionary activities.

16.6.10.3 Setback from National Grid

New buildings and structures, and additions and alterations must comply with Rule 5.6.1

16.6.10.4 Setback from scheduled tree

New buildings and structures, additions and alterations, and any site development activities that involve the installation of impermeable surfacing must comply with Rule 7.5.2.

16.6.10.5 Setback from coast and water bodies

New buildings and structures, additions and alterations, and storage and use of hazardous substances must comply with Rule 10.3.3.

16.6.11 Vegetation Clearance Standards

16.6.11.1 Maximum area of vegetation clearance (UBMA)

Vegetation clearance in an **urban biodiversity mapped area** must comply with Rule 10.3.2.4.

16.6.11.2 Indigenous vegetation clearance - small scale thresholds

Indigenous vegetation clearance - small scale must comply with Rule 10.3.2.1.

16.6.11.3 Protected areas (vegetation clearance)

Vegetation clearance and indigenous vegetation clearance must comply with Rule 10.3.2.2.

16.6.11.4 Protected species (indigenous vegetation clearance)

Indigenous vegetation clearance must comply with Rule 10.3.2.3.

16.6.11.5 Maximum area of vegetation clearance in a hazard overlay zone

Vegetation clearance in the hazard 1 (land instability), hazard 2 (land instability) overlay zones, or in a **dune system mapped area**, must comply with Rule 11.3.2.

Rule 16.7 Subdivision Performance Standards

16.7.1 Access

General subdivision must comply with Rule 6.8.1.

16.7.2 Esplanade Reserves and Strips

General subdivision must comply with Rule 10.3.1.

16.7.3 Fire Fighting

General subdivision must comply with Rule 9.3.3.

16.7.4 Minimum Site Size

1. The minimum site size for new resultant sites is:

Rural Zone		Minimum site size
a.	Coastal	40ha
b.	High Country	100ha
c.	Hill Country	100ha
d.	Hill Slopes	25ha
e.	Middlemarch Basin	80ha

Rural Zone		Minimum site size
f.	Peninsula Coast	40ha
g.	Taieri Plain	40ha
h.	For the purposes of this standard, if a site is crossed by a boundary between two or more rural zones, then new resultant sites must comply with the minimum site size required for new resultant sites in each relevant rural zone.	

2. Resultant sites created and used solely for the following purposes are exempt from the minimum site size standard:
 - a. Scheduled ASBV or QEII covenant;
 - b. conservation covenant with the Department of Conservation or a local government agency;
 - c. protected private land agreement under the Reserves Act 1977;
 - d. a heritage covenant with Heritage New Zealand Pouhere Taonga;
 - e. protection of a scheduled heritage site, building or structure listed in Appendix A1.1 - Schedule of Protected Heritage Items and Sites;
 - f. reserve;
 - g. access;
 - h. network utilities; or
 - i. road.
3. General subdivision that contravenes the standard for minimum site size is non-complying, except for surplus dwelling subdivision which is restricted discretionary in either of the following sets of circumstances:
 - a. The first set of circumstances is as follows:
 - i. the subdivision of one site into two sites, where one resultant site is below the minimum site size and contains an existing residential building greater than 100m² gross floor area that was built before 26 September 2015; and
 - ii. the second resultant site is:
 1. at least the minimum site size; and
 2. a condition is offered (to be secured by consent notice) that restricts further subdivision in terms of the total number of sites that can be used for residential activity, and further residential activity on the second resultant site, to a level that is no greater than would have otherwise been allowed had the minimum site size standard been met for both sites.
 - b. The second set of circumstances is as follows:
 - i. every new site that will be created by the subdivision contains an existing residential building greater than 100m² gross floor area that was built before 26 September 2015; and
 - ii. if any of these new sites is equal to, or greater than, twice the minimum site size, a condition is offered (to be secured by consent notice), if necessary, to restrict:
 1. further subdivision of that site, in terms of the total number of sites that can be used for residential activity; and
 2. further residential activity on that site,

to a level that is no greater than would have otherwise been allowed had the minimum site size standard been met for all sites.

16.7.5 Shape

1. Each resultant site that is intended to be developed must be of a size and shape that is large enough to contain a building platform of at least 8m by 15m that meets the performance standards of this Plan including, but not limited to:
 - a. all setbacks from boundaries, water bodies, scheduled trees.
2. Building platforms must have a slope of 12° (1:4.7 or 21%) or less and must:
 - a. not contain esplanade reserves or strips;
 - b. not contain scheduled heritage buildings or structures;
 - c. not contain right-of-way easements; and
 - d. be located at least 12m from the outer edge of a National Grid support structure or centreline of an overhead National Grid transmission line.
3. For unreticulated areas, resultant sites must provide for a waste disposal area to be located at least 50m from any water body and Mean High Water Springs.
4. Sites created and used solely for the following purposes are exempt from the shape standard:
 - a. Scheduled ASBV or QEII covenant;
 - b. conservation covenant with the Department of Conservation or a local government agency;
 - c. protected private land agreement under the Reserves Act 1977;
 - d. a heritage covenant with Heritage New Zealand Pouhere Taonga;
 - e. protection of a scheduled heritage site, scheduled heritage building or scheduled heritage structure in Appendix A1.1;
 - f. reserve;
 - g. access;
 - h. network utility; or
 - i. road.
5. Subdivision activities that do not meet this standard are restricted discretionary activities, except that subdivision activities that do not meet Rule 16.7.5.2.d are non-complying activities.

Rule 16.8 Assessment of Controlled Activities

Rule 16.8.1 Introduction

1. Controlled activities will be assessed in accordance with section 104 and 104A of the RMA. Council must grant the application and may impose conditions with respect to matters over which it has reserved its control.
2. Rules 16.8.2 and 16.8.3:
 - a. list the matters over which Council has reserved its control; and
 - b. provide guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi); and
 - ii. conditions that may be imposed.
3. Where a controlled activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 16.9; and
 - iv. the matters of control become matters of discretion and will be assessed as indicated in this section.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 16.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 16.12; and
 - iii. the assessment guidance in this section will also be considered.
4. Rules 16.8.2 and 16.8.3 apply as follows:
 - a. Rule 16.8.2 applies to controlled land use activities; and
 - b. Rule 16.8.3 applies to controlled development activities.

16.8.2 Assessment of controlled land use activities

Activity	Matters of control	Guidance on the assessment of resource consents
1. Papakāika	- Design, scale, location and number of dwellings - Design, scale and location of other buildings, structures and site development activities - Disposal of stormwater and wastewater - Vehicle access and parking	<i>Relevant objectives and policies:</i> i. Objectives 16.2.3, 14.2.1, 9.2.2, 6.2.3. ii. Manawhenua are able to live in original native reserve areas where any adverse effects will be adequately managed in line with the objectives and policies of the rural zones (Policy 14.2.1.6). iii. Wastewater and stormwater can be disposed of in such a way that adverse effects on the health of people on the site or on surrounding sites will be avoided or, if avoidance is not practicable, will be insignificant (Policy 9.2.2.7). iv. Adverse effects on the safety and efficiency of the transport network are avoided or, if avoidance is not practicable, adequately mitigated (6.2.3.9.a). v. Any associated changes to the transportation network will be affordable to the public in the long term (Policy 6.2.3.9.b). vi. Papakaika maintains, as far as practicable, the rural character values and amenity of the rural zones in terms of the design, scale and location of the development (Policy 16.2.3.11). <i>Conditions that may be imposed include:</i> vii. requirements for wastewater disposal systems and wastewater disposal areas; viii. requirements for stormwater disposal; ix. water supply; x. driveways and vehicle tracks; and xi. number, design and location of residential units. <i>General assessment guidance:</i> xii. Council will consider the information required by Rule 16.13.1 provided with any resource consent application (see Special Information Requirements - Rule 16.13.1).

16.8.3 Assessment of controlled development activities

Activity	Matters of control	Guidance on the assessment of resource consents
1. Affecting a scheduled heritage building or a scheduled heritage structure: • Earthquake strengthening that affects a protected part of a scheduled heritage building or scheduled heritage structure, where external features only are protected • Restoration of a protected part of a scheduled heritage building or scheduled heritage structure that has a Heritage New Zealand Category 1 listing (as detailed in Appendix A1.1)	a. Effects on heritage values	See Rule 13.4
2. In the NCC Overlay Zone : • New buildings greater than 60m² footprint on a landscape building platform	a. Size, design and appearance of buildings	See Rule 10.4
3. In the ONL or SNL overlay zones : • New buildings greater than 60m² footprint on a landscape building platform	a. Size, design and appearance of buildings	See Rule 10.4

Rule 16.9 Assessment of Restricted Discretionary Activities (Performance Standard Contraventions)

Rule 16.9.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 16.9.2 - 16.9.6:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 16.9.2 - 16.9.6 apply as follows:
 - a. Rule 16.9.2 applies to all performance standard contraventions;
 - b. Rule 16.9.3 applies to land use performance standard contraventions;
 - c. Rule 16.9.4 applies to development performance standard contraventions;
 - d. Rule 16.9.5 applies to subdivision performance standard contraventions; and
 - e. Rule 16.9.6 applies to performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item.

16.9.2 Assessment of all performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. All performance standard contraventions	<i>Potential circumstances that may support a consent application include:</i> a. The degree of non-compliance with the performance standard is minor. b. The need to meet other performance standards, or site specific factors including topography, make meeting the standard impracticable. c. The nature of activities on surrounding sites, topography of the site and/or surrounding sites, or other site specific factors make the standard irrelevant as the adverse effects that the standard is trying to manage will not occur. d. Non-compliance with a development performance standard would improve the design of the development in a way that would result in positive effects and better achieve the identified objectives and policies of the Plan. <i>General assessment guidance:</i> e. Where more than one standard is contravened, the combined effects of the contraventions should be considered.

16.9.3 Assessment of land use performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
1. Family flats - design {Note - appeal does not relate to sites in rural zones not within a landscape or coastal character overlay zone, except for Hill Slopes Rural Zone where appeal applies to all sites}	a. Effects on long term maintenance of rural land for productive rural activities b. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.1, 16.2.3 ii. The design of family flats avoids, as far as practicable, the risk they will be used for a separate, non-ancillary residential activity and future pressure to subdivide off family flats (Policy 16.2.1.6). <i>Potential circumstances that may support a consent application include:</i> iii. For contravention of maximum gross floor area, the extra area is required due to occupant needs. iv. For contravention of maximum separation distance, other mechanisms such as covenants are proposed to avoid pressure for subdivision of the family flat. v. The size of the residential unit will not create future pressure or expectation for it to be subdivided or be consented to operate as a second residential activity on site. vi. For contravention of maximum gross floor area, the family flat is in the same residential building as the primary residential unit. vii. For family flats in separate buildings to the primary dwelling the design of the family flat matches the design of the primary residential building. viii. For family flats in separate buildings to the primary dwelling, landscaping or other forms of screening will be used to reduce the visibility of the family flat. ix. For family flats in separate buildings to the primary dwelling, the family flat will not be easily viewed from outside the site. <i>General assessment guidance:</i> x. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7.
2. Electrical interference	a. Effects on health and safety	See Rule 9.5
3. Hours of operation	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Rural ancillary retail, rural tourism - small scale, working from home, mineral exploration, and mineral prospecting operate in a way that avoids or, if avoidance is not practicable, adequately mitigates noise or adverse effects on the amenity of sensitive activities on surrounding properties (Policy 16.2.2.4).

16.9.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
4.	Location	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
5.	Maximum gross floor area	a. Effects on the vibrancy and economic and social success of the CBD and centres	<i>Relevant objectives and policies:</i> i. Objectives 2.3.2, 2.4.3, 16.2.1.3 ii. Policies 2.3.2.2 and 2.4.3.4 iii. Rural ancillary retail and working from home are at a scale that is ancillary to and supportive of productive rural activities or conservation on the same property (Policy 16.2.1.3.a).
6.	Minimum car parking	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
		b. Effects on accessibility	
7.	Separation distances	a. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Residential buildings and cemeteries minimise, as far as practicable, the potential for reverse sensitivity by being set back an adequate distance from intensive farming, domestic animal boarding and breeding (including dogs), mining, landfills, wind generators - large scale and the Waitati Rifle Range (Policy 16.2.2.1.b).
8.	Site restoration	a. Effects on biodiversity values	See Rule 10.5
		b. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.3 ii. Land will be restored to at least the same standard as before the mineral exploration or mineral prospecting activity commenced with respect to landform and productive potential (Policy 16.2.3.3). <i>General assessment guidance:</i> iii. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7.

16.9.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
9.	Tree species	a. Effects on biodiversity values	See Rule 10.5
		b. Effects on natural character of the coast	
		c. Effects on landscape values	

16.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	All development performance standard contraventions listed below	a. Positive effects in terms of supporting farming or conservation activity	<i>Relevant objectives and policies:</i> i. Objective 16.2.1
2.	Boundary setbacks	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Buildings that house animals are set back from site boundaries an adequate distance to ensure adverse effects on sensitive activities, such as residential activities, on adjoining sites are avoided or, if avoidance is not practicable, are no more than minor (Policy 16.2.2.2). iii. New buildings are located an adequate distance from site boundaries to ensure a good level of amenity for residential activities on adjoining sites (Policy 16.2.2.3). <i>Potential circumstances that may support a consent application include:</i> iv. Screening or landscaping will be used in the development to ensure a good level of amenity for residential activities on adjoining sites. v. Where a building used to house animals contravenes the boundary setback standard, the type and/or number of animals or the frequency of housing them mean that the potential for adverse effects from noise, odour or dust on sensitive activities on adjoining sites will be avoided or will be no more than minor.

16.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
		b. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Residential buildings minimise as far as practicable the potential for reverse sensitivity by being set back an adequate distance from site boundaries (Policy 16.2.2.1.a). <i>Potential circumstances that may support a consent application include:</i> iii. Screening or landscaping will ensure potential for reverse sensitivity is minimised as far as practicable.
		c. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.3 ii. Buildings and structures are set back from site boundaries to maintain the rural character values and visual amenity of the rural zones (Policy 16.2.3.1). <i>Potential circumstances that may support a consent application include:</i> iii. Landscaping or other forms of screening will be used to reduce the visibility of buildings or structures. iv. Colours and materials used in the development will blend in with the character of the surrounding rural environment, with natural finishes and low levels of reflectivity. v. The proposed building or structure will not obstruct any important views from public viewpoints, or cause significant obstruction of views from dwellings on surrounding sites. vi. The proposed building platform is low lying in relation to surrounding sites and roads and the proposed building will not be easily viewed from outside the site. vii. There are already existing buildings on the site in breach of the same setback. viii. There would be positive effects from maintaining open space through the clustering of buildings on the site. <i>General assessment guidance:</i> ix. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7.
3.	Hazardous substances quantity limits and storage requirements	a. Effects on health and safety	See Rule 9.5
4.	Fire fighting	a. Effects on health and safety	See Rule 9.5

16.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
5.	Forestry and shelterbelts and small woodlots setbacks	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Forestry and shelterbelts and small woodlots are set back an adequate distance from residential buildings on surrounding properties to avoid or minimise, as far as practicable, significant effects from shading (Policy 16.2.2.6). <i>Potential circumstances that may support a consent application include:</i> iii. The area to be planted is to the south of any adjoining residential zone iv. Slope or orientation or other topographical aspects of the sites involved mean that there will be no shading of residential buildings on an adjoining site.
		b. Effects on health and safety	See Rule 9.5
		c. Effects on the safety and efficiency of the transport network	See Rule 6.10
6.	Maximum height	a. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.3 ii. Buildings and structures are of a height that maintains the rural character values and visual amenity of the rural zones (Policy 16.2.3.1). <i>Potential circumstances that may support a consent application include:</i> iii. As for Rule 16.9.4.2.c.iii-vi iv. The terrain provides an adequate backdrop to the proposed building or structure and mitigates any adverse visual effects from the building or structure. <i>General assessment guidance:</i> v. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7.

16.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
7.	Number, location and design of ancillary signs	a. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.3 ii. Ancillary signs are located and designed to maintain rural character and visual amenity, including by being of an appropriate size and number to convey information about the name, location and nature of the activity on-site to passing pedestrians and vehicles and not being oversized or too numerous for that purpose (Policy 16.2.3.7). <i>General assessment guidance:</i> iii. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7.
		b. Effects on the safety and efficiency of the transport network	See Rule 6.10
8.	Parking, loading and access standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
9.	Reflectivity (Hill Slopes Rural Zone)	a. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.3 ii. Adverse visual effects caused by reflectivity are avoided or, if avoidance is not practicable, no more than minor (Policy 16.2.3.10) <i>General assessment guidance</i> iii. In assessing adverse visual effects, Council will consider the level of visibility of the building or structure from public places.
10.	Setback from coast and water bodies	a. Effects on biodiversity values and natural character values of riparian margins and the coast	See Rule 10.5
		b. Effects on public access	
		c. Risk from natural hazards	See Rule 11.4
11.	Setback from scheduled tree	a. Effects on long term health of tree	See Rule 7.6

16.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
12.	Vegetation clearance standards: • Protected species (indigenous vegetation clearance)	a. Effects on biodiversity values	See Rule 10.5
13.	Vegetation clearance standards: • Protected areas (vegetation clearance)	a. Effects on biodiversity values and natural character values of riparian margins and the coast	See Rule 10.5

16.9.5 Assessment of subdivision performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Access	a. Effects on accessibility	See Rule 6.10
2.	Esplanade reserves and strips	a. Effects on biodiversity values and natural character of the coast and riparian margins	See Rule 10.5
		b. Effects on public access	
3.	Fire fighting	a. Effects on health and safety	See Rule 9.5

16.9.5 Assessment of subdivision performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
4. Shape	<i>Relevant objectives and policies:</i> a. Objective 2.4.1 b. Subdivisions are designed to ensure future land use or development is able to meet the performance standards in the zone, or where in a structure plan mapped area, the subdivision reflects the requirements of the structure plan mapped area performance standards, unless: i. a resource consent is approved for a development that does not meet the performance standard and the subdivision is intended for and capable of providing for that approved development; or ii. the resultant site is required for: 1. Scheduled ASBV or QEII covenant; 2. reserve; or 3. access; or 4. network utility; or 5. road (Policy 2.4.1.8). <i>General assessment guidance:</i> c. Non-compliance with the performance standard for shape will be assessed based on which performance standard(s) the shape of the resultant site does not provide for compliance with. See matters of discretion and assessment rules in relation to performance standard contraventions for: i. boundary setbacks; ii. setbacks from water bodies; iii. setback from scheduled tree; and iv. setback from National Grid. d. For contravention of the building platform slope part of the shape performance standard (Rule 16.7.5.2), see the matters of discretion and assessment rules in relation to earthworks - large scale (Rule 8A.7.2.1). <i>Conditions that may be imposed include:</i> e. The requirements for a consent notice to be registered against the title that restricts development on the site. f. Restrictions or conditions, including by way of consent notice, on land use or development activities allowed on the site. g. A building platform may be required to be registered against the title by way of consent notice.	

16.9.5 Assessment of subdivision performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
5. Minimum site size (surplus dwelling subdivision Rule 16.7.4.3)	a. Effects on long term maintenance of rural land for productive rural activities	<i>Relevant objectives and policies:</i> i. Objectives 16.2.1, 16.2.3, 16.2.4 ii. The subdivision of a surplus dwelling does not result in any additional development potential for residential activity (Policy 16.2.1.10.c). iii. The subdivision is designed to ensure any associated future land use and development maintains or enhances the rural character and visual amenity of the rural zones (16.2.3.8). iv. The subdivision is designed to ensure any future land use and development maintains or enhances the productivity of rural activities, maintains highly productive land for farming activity, or ensures the effects of any change in land use are insignificant on any high class soil mapped area and no more than minor on other areas of highly productive land, and does not increase the potential for reverse sensitivity (Policy 16.2.4.3.a, b and d). <i>Potential circumstances that may support a consent application include:</i> v. A legal mechanism such as a consent notice on the title of the second resultant site will ensure that there will be no increase in the potential for residential activity as a result of the subdivision. vi. The dwelling can be shown to be in a suitable condition for occupation, with recent history of use for residential activity. vii. The resultant site on which the surplus dwelling will be located is large enough to support on-site disposal of effluent. viii. The dwelling is surplus to the requirements of the property. <i>General assessment guidance:</i> ix. In determining whether land is 'highly productive land', Council will consider its land use capability (LUC) classification (https://soils.landcareresearch.co.nz/soil-data/nzlri-soils/), the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/)

16.9.6 Assessment of restricted discretionary performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. In the ONL , SNL or ONF overlay zones : Number, location and design of ancillary signs	a. Effects on landscape values	See Rule 10.5
2. In the ONL or SNL overlay zones : - Maximum height - Reflectivity - Number and location of permitted buildings	a. Effects on landscape values	See Rule 10.5
3. In the HNCC , ONCC or NCC overlay zones : Number, location and design of ancillary signs	a. Effects on natural character of the coast	See Rule 10.5
4. In the NCC overlay zone : - Reflectivity - Maximum height - Number and location of permitted buildings	a. Effects on natural character of the coast	See Rule 10.5
5. In a wāhi tūpuna mapped area : - Maximum height - Setback from coast and water bodies - Vegetation clearance standards: Maximum area of vegetation clearance (UBMA), Protected areas (vegetation clearance), Protected species (indigenous vegetation clearance) - Esplanade reserves and strips	a. Effects on cultural values of Manawhenua	See Rule 14.3
6. In a hazard overlay zone or dune system mapped area : - Maximum area of vegetation clearance in the hazard overlay zones (Hazard 1 or 2 (land instability) overlay zones and dune system mapped area) - Relocatable buildings (Hazard 3 (coastal) Overlay Zone) - Outdoor Storage (Hazard 1 (flood) Overlay Zone) - Hazardous substances quantity limits and storage requirements	a. Risk from natural hazards	See Rule 11.4
7. In an urban biodiversity mapped area : Vegetation clearance standards: Maximum area of vegetation clearance (UBMA)	a. Effects on biodiversity values	See Rule 10.5
8. In the Taieri Aerodrome flight fan mapped area : Maximum height (Rule 16.6.5.3)	a. Effects on health and safety	See Rule 9.5
9. Affecting a scheduled heritage building or scheduled heritage structure : Materials and design	a. Effects on heritage values	See Rule 13.5

Rule 16.10 Assessment of Restricted Discretionary Activities

Rule 16.10.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 16.10.2 - 16.10.5:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how a consent application will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 16.10.2 - 16.10.5 apply as follows:
 - a. Rule 16.10.2 applies to restricted discretionary land use activities;
 - b. Rule 16.10.3 applies to restricted discretionary development activities;
 - c. Rule 16.10.4 applies to restricted discretionary subdivision activities; and
 - d. Rule 16.10.5 applies to restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item.
4. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in the Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.
5. Where a restricted discretionary activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 16.9; and
 - iv. the matters of discretion in this section will be assessed as indicated.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 16.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 16.12; and
 - iii. the assessment guidance in this section will also be considered.
6. With respect to section 104(2) of the RMA, Council will not consider family flats or papakāika as part of the permitted baseline in considering residential density effects in the rural zones.

16.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. All restricted discretionary land use activities in the rural zones that also involve development activities	a. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.3 ii. Adverse effects from large scale development on rural character and visual amenity will be avoided or minimised as far as practicable (Policy 16.2.3.5). iii. Adverse effects of development on rural character and amenity are avoided or, if avoidance is not practicable, no more than minor (Policy 16.2.3.6). <i>Potential circumstances that may support a consent application include:</i> iv. Landscaping or other forms of screening will be used to reduce the visibility of development from surrounding properties and public viewpoints. v. The development is not situated on visually prominent land. vi. The form, scale and materials used in buildings and structures are compatible with the character values of the rural zones as listed in Appendix A7. vii. Building colours and materials are chosen to blend in with the rural setting and minimise reflectivity. viii. Signage and entranceways are in character with the surrounding environment. <i>General assessment guidance:</i> ix. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7.
2. All high trip generators, which include: • any activities that generate 250 or more vehicle movements a day	a. Effects on accessibility b. Effects on the safety and efficiency of the transport network	See Rule 6.11

16.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
3. - Cemeteries - Crematoriums	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Any adverse effects on the amenity of residential activities on surrounding properties will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). <i>Potential circumstances that may support a consent application include:</i> iii. The activity will be set back a sufficient distance from its own property boundaries to avoid, or adequately mitigate, any adverse effects from noise, odour or visual impact on surrounding properties. <i>General assessment guidance:</i> iv. In assessing the effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number and nature of vehicle movements on the adjoining road.
	b. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Cemeteries are designed to avoid, as far as practicable, the potential for reverse sensitivity by locating graves a suitable distance from site boundaries and providing adequate screening (Policy 16.2.2.7).

16.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
	c. Maintenance of highly productive land	<i>Relevant objectives and policies:</i> i. Objective 16.2.4 ii. Activities other than farming are only allowed on highly productive land where the scale, size and nature of the activity means the loss of current or potential future rural productivity would be insignificant in any high class soils mapped area and no more than minor in other areas of highly productive land (Policy 16.2.4.2.a). <i>Potential circumstances that may support a consent application include:</i> iii. The site design will ensure the effect of the activity on any high class soils contained on the site, and any impact on the potential for future use of the high class soils, is insignificant. <i>General assessment guidance:</i> iv. In determining whether land is 'highly productive land', Council will consider its land use capability (LUC) classification (https://soils.landcareresearch.co.nz/soil-data/nzlr-soils/), the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/)
	d. Effects on cultural values of Manawhenua	See Rule 14.4
	e. Effects on the safety and efficiency of the transport network	See Rule 6.11

16.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
4. Domestic animal boarding and breeding (including dogs)	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Any adverse effects on the amenity of residential activities on surrounding properties will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). <i>Potential circumstances that may support a consent application include:</i> iii. The activity will be set back a sufficient distance from its own property boundaries to avoid, or adequately mitigate, any adverse effects from noise on surrounding properties. iv. The design and acoustic insulation of kennel buildings, dog runs and fencing will mitigate adverse effects from noise on surrounding properties. v. Areas used for parking, drop-off and collection of dogs are separated from kennel buildings and dog runs an adequate distance to avoid or minimise barking triggered by the arrival or departure of customers. <i>General assessment guidance:</i> vi. In assessing effects on the amenity of residential activities on surrounding properties, Council will consider effects from noise, traffic, odour and dust contaminants. vii. In assessing the effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number and nature of vehicle movements on the adjoining road. <i>Conditions that may be imposed include:</i> viii. Restrictions on the hours of operation in terms of the arrival and departure times of customers.
	b. Effects on the safety and efficiency of the transport network	See Rule 6.11

16.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
5. Intensive farming	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Any adverse effects on the amenity of residential activities on surrounding properties will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). <i>Potential circumstances that may support a consent application include:</i> iii. The activity will be set back a sufficient distance from its own property boundaries to avoid or adequately mitigate any adverse effects on surrounding properties. iv. Management plans or other mitigation measures will be employed to avoid or mitigate the effects of odour, dust, vehicle movements and operating noise on surrounding properties. <i>General assessment guidance:</i> v. In assessing effects on the amenity of residential activities on surrounding properties, Council will consider effects from noise, traffic, odour and dust contaminants. vi. In assessing the effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number or nature of vehicle movements on the adjoining road. <i>Conditions that may be imposed include:</i> vii. Restrictions on the hours of operation.
	b. Effects on the safety and efficiency of the transport network	See Rule 6.11
	c. Effects on health and safety	See Rule 9.6

16.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
6. Veterinary services (large animal practice)	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 16.2.2 ii. Any adverse effects on the amenity of residential activities on surrounding properties will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). <i>General assessment guidance:</i> iii. In assessing effects on the amenity of residential activities on surrounding properties, Council will consider effects from noise, traffic, odour and dust contaminants. iv. In assessing the effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number and nature of vehicle movements on the adjoining road. <i>Conditions that may be imposed include:</i> v. Restrictions on the hours of operation in terms of the arrival and departure times of customers.
	b. Effects on the safety and efficiency of the transport network	See Rule 6.11

16.10.3 Assessment of restricted discretionary development activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
1.	All restricted discretionary activities listed below	a. Positive effects in terms of supporting farming or conservation activity	<i>Relevant objectives and policies:</i> i. Objective 16.2.1
2.	High trip generators: • New or additions to parking areas that result in 50 or more new parking spaces	a. Effects on the safety and efficiency of the transport network b. Effects on accessibility	See Rule 6.11
3.	Indigenous vegetation clearance - large scale	a. Effects on biodiversity values	See Rule 10.6

16.10.4 Assessment of restricted discretionary subdivision activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
----------	--	-----------------------	---

16.10.4 Assessment of restricted discretionary subdivision activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. General subdivision	a. Effects on long term maintenance of rural land for productive rural activities	<i>Relevant objectives and policies:</i> i. Objective 16.2.4. ii. The design of a subdivision ensures any future land use and development will: 1. maintain or enhance the productivity of rural activities; 2. maintain highly productive land for farming activity, or ensure any loss is insignificant on any high class soils mapped area and no more than minor on other areas of highly productive land; 3. maintain land in a rural rather than rural residential land use; and 4. not increase the potential for reverse sensitivity (Policy 16.2.4.3). <i>General assessment guidance:</i> iii. In determining whether land is 'highly productive land', Council will consider its land use capability (LUC) classification, the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/)
	b. Effects on rural character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 16.2.3. ii. The subdivision is designed to ensure any associated future land use and development will maintain or enhance the rural character and visual amenity of the rural zones (Policy 16.2.3.8). <i>Potential circumstances that may support a consent application include:</i> iii. Sites are designed to respond to the topography and characteristics of the land and surrounding environment. iv. Building platforms are located to respond to landform and avoid significant visual effects. v. Driveways, vehicle tracks, utilities and services are designed and located to minimise the need for significant earthworks. <i>General assessment guidance:</i> vi. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7.

16.10.4 Assessment of restricted discretionary subdivision activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
		c. Effects on biodiversity values and natural character values of riparian margins and coast	See Rule 10.6
		d. Effects on public access	
		e. Risk from natural hazards	See Rule 11.5
		f. Effects on the safety and efficiency of the transport network	See Rule 6.11
		g. Effects on health and safety	See Rule 9.6

16.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity		Matters of discretion	Guidance on the assessment of resource consents
1.	All restricted discretionary activities listed below	a. Positive effects in terms of supporting farming or conservation activity	<i>Relevant objectives and policies:</i> i. Objective 16.2.1
2.	In the ONF overlay zone : - Indigenous vegetation clearance - large scale - Shelterbelts and small woodlots - General subdivision	a. Effects on landscape values	See Rule 10.6
3. <i>{Note - appeal relates to Peninsula Coast Rural Zone intersect with ONL/SNL only}</i>	In the ONL or SNL overlay zones : - Crematoriums - Forestry - New buildings or structures greater than 60m² footprint, or additions and alterations that result in a building or structure that is greater than 60m² footprint - General subdivision	a. Effects on landscape values	See Rule 10.6
4.	In the ONCC or HNCC overlay zones : - Shelterbelts and small woodlots - General subdivision	a. Effects on natural character of the coast	See Rule 10.6
5. <i>{Note - appeal relates to Peninsula Coast Rural Zone intersect with NCC only}</i>	In the NCC overlay zone : - Crematoriums - Forestry - New buildings or structures greater than 60m² footprint, or additions and alterations that result in a building or structure that is greater than 60m² footprint - Indigenous vegetation clearance - large scale - General subdivision	a. Effects on natural character of the coast	See Rule 10.6

16.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity		Matters of discretion	Guidance on the assessment of resource consents
6.	In an ASBV: - New buildings or structures greater than 60m² footprint, or additions and alterations that result in a building or structure that is greater than 60m² footprint - General subdivision - Shelterbelts and small woodlots - Site development activities (except for outdoor storage, parking, loading and access, vegetation clearance, storage and use of hazardous substances)	a. Effects on biodiversity values	See Rule 10.6
7.	In a wāhi tūpuna mapped area where activity is identified as a threat: - All RD Forestry - All RD buildings and structures - Indigenous vegetation clearance - large scale - Shelterbelts and small woodlots - General subdivision	a. Effects on cultural values of Manawhenua	See Rule 14.4
8.	Activities affecting a scheduled heritage building or scheduled heritage structure: - Additions and alterations that affect a protected part of a scheduled heritage building or scheduled heritage structure - Removal for relocation - All subdivision activities on sites containing a scheduled heritage building or scheduled heritage structure	a. Effects on heritage values	See Rule 13.6
9.	Activities affecting a scheduled heritage site: - All subdivision activities - New buildings and all other structures where visible from an adjoining public place or a publicly accessible place within the site - Parking, loading and access on a scheduled heritage site, where visible from an adjoining public place or a public place within the site	a. Effects on heritage values	See Rule 13.6
10.	In all hazard overlay zones, swale mapped areas and dune system mapped areas: General subdivision	a. Risk from natural hazards	See Rule 11.5

16.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity		Matters of discretion	Guidance on the assessment of resource consents
11.	In the Hazard 2 (flood) Overlay Zone : - Natural hazards sensitive activities - Natural hazards potentially sensitive activities	a. Risk from natural hazards	See Rule 11.5
12.	In a hazard 1, 1A or 2 (flood) overlay zone (see Rule 16.3.6): New buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area	a. Risk from natural hazards	See Rule 11.5
13.	In the National Grid Corridor mapped area : All subdivision activities	a. Effects on health and safety b. Reverse sensitivity effects c. Effects on efficient and effective operation of network utilities	See Rule 5.8
14.	In the radio transmitters mapped area : General subdivision	a. Reverse sensitivity effects	See Rule 5.8

Rule 16.11 Assessment of Discretionary Activities

Rule 16.11.1 Introduction

1. Discretionary activities will be assessed in accordance with section 104 and 104B of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. Rules 16.11.2 - 16.11.4 provide guidance on how a consent application for the listed discretionary activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi);
 - b. potential circumstances that may support a consent application;
 - c. general assessment guidance, including any effects that will be considered as a priority; and
 - d. conditions that may be imposed.
3. Rules 16.11.2 - 16.11.4 apply as follows:
 - a. Rule 16.11.2 applies to discretionary land use activities;
 - b. Rule 16.11.3 applies to discretionary performance standard contraventions; and
 - c. Rule 16.11.4 applies to discretionary subdivision activities.
4. With respect to section 104(2), Council will not consider family flats or papakāika as part of the permitted baseline in considering residential density effects in the rural zones.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

16.11.2 Assessment of discretionary land use activities

Activity	Priority considerations
1. All discretionary land use activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 16.2.1, 16.2.2, 16.2.3, 16.2.4. <i>Potential circumstances that may support a consent application include:</i> b. For discretionary land use activities, whether any associated development activities meet relevant performance standards, or are otherwise consistent with relevant objectives and policies for development (see Rule 16.9 for performance standard contraventions). c. Development is not situated on visually prominent land. d. The form, scale and materials used in buildings and structures are compatible with the character values of the rural zones as listed in Appendix A7. e. Colours and materials used in development are chosen to blend in with the rural setting and minimise reflectivity. f. Landscaping or other forms of screening are used to reduce the visibility of development from surrounding properties and public viewpoints. <i>General assessment guidance:</i> g. As well as the effects on the values specified in Objective 16.2.3, Council will consider the effects on the rural character values identified in Appendix A7. <i>Relevant guidance from other sections (priority considerations):</i> h. For activities taking place within the radio transmitters mapped area, see Section 5.9 for guidance on the assessment of resource consents in relation to management of reverse sensitivity effects on Radio New Zealand's facilities at 740 Highcliff Road and 35 Karetai Road. i. See Section 6.12 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. j. For activities that may have effects on biodiversity values, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1. k. For activities adjacent to water bodies and the coast, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.2. l. See Section 14.5 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.

16.11.2 Assessment of discretionary land use activities

Activity	Priority considerations
2. • Rural tourism - large scale • Rural research - large scale (outside the Invermay Farm mapped area)	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 2.3.1, 16.2.2, 16.2.3, 16.2.4. b. Commercial activities in the rural zones are restricted to those that need a rural location or support rural activities (Policy 2.3.1.2.h). c. Adverse effects on the amenity of residential activities on surrounding properties is avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). d. Adverse effects on rural character and visual amenity from large scale development will be avoided or minimised as far as practicable (Policy 16.2.3.5). e. Activities other than farming are only allowed on highly productive land where the scale, size and nature of the activity means the loss of current or potential future rural productivity would be insignificant in any high class soils mapped area and no more than minor in other areas of highly productive land (Policy 16.2.4.2.a). <i>Potential circumstances that may support a consent application include:</i> f. The activity is set back a sufficient distance from its own boundaries and existing sensitive activities on surrounding sites to avoid or adequately mitigate effects. <i>Conditions that may be imposed include:</i> g. Restriction on hours of operation. h. Restriction on maximum number of guests (rural tourism). i. Controls on lighting. j. Parking requirements. <i>General assessment guidance:</i> k. In assessing effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number or nature of vehicle movements on the adjoining road. l. In determining whether land is 'highly productive land', Council will consider its land use capability (LUC) classification, the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/) <i>Relevant guidance from other sections (priority considerations):</i> m. In an ASBV, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and effects related to biodiversity values.

16.11.2 Assessment of discretionary land use activities

Activity	Priority considerations
3. - Rural industry - Rural contractor and transport depots - large scale	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 2.2.2, 16.2.2, 16.2.3, 16.2.4, 5.2.1 b. Adverse effects on rural character and visual amenity from large scale development will be avoided or minimised as far as practicable (Policy 16.2.3.5). c. Adverse effects on the amenity of residential activities on surrounding properties, are avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). d. Activities other than farming are only allowed on highly productive land where the scale, size and nature of the activity means the loss of current or potential future rural productivity would be insignificant in any high class soils mapped area and no more than minor in other areas of highly productive land (Policy 16.2.4.2.a). e. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety. f. For rural industry, the use and development of renewable energy generation is encouraged (Policy 5.2.1.1). <i>Potential circumstances that may support a consent application include:</i> g. The activity will be set back a sufficient distance from its own property boundaries to avoid or adequately mitigate any adverse effects from noise, odour, dust, contaminants or visual effects on surrounding properties. h. High noise generating equipment is located within acoustically insulated buildings or fitted with noise reduction devices to ensure noise emissions are maintained at a reasonable level. i. If noise is not able to be adequately controlled at its source, noise reduction is achieved through noise barriers or bunds to ensure noise emissions are maintained at a reasonable level. j. Management plans or other mitigation measures will be employed to limit the effects of dust, vehicle movements and operating noise on surrounding properties. <i>Conditions that may be imposed include:</i> k. Restriction on hours of operation. l. Controls on on-site lighting. m. A requirement for screening of storage areas. n. A requirement to control dust. o. Provision of car parking areas. <i>General assessment guidance:</i> p. In assessing effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number or nature of vehicle movements on the adjoining road. q. In determining whether land is 'highly productive land', Council will consider its land use capability (LUC) classification, the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the

16.11.2 Assessment of discretionary land use activities

Activity	Priority considerations
	Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/).
4. • Mining • Landfills	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 2.2.2, 16.2.2, 16.2.3, 16.2.4, 5.2.1. b. Policies 2.3.1.8.b, 2.3.1.9 c. Adverse effects on the amenity of residential activities on surrounding properties are avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). d. Adverse effects on rural character and visual amenity from large scale development are avoided, or minimised as far as practicable (Policy 16.2.3.5). e. Land will be restored or rehabilitated to an acceptable standard with respect to landform and to enable a return to productive, recreational or conservation use as soon as possible (Policy 16.2.3.4). f. The mining activity is located on highly productive land due to operational requirements and there are no practicable alternative locations (Policy 16.2.4.2.b). g. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety. <i>Potential circumstances that may support a consent application include:</i> h. The activity will be set back a sufficient distance from its own property boundaries to avoid or adequately mitigate any adverse effects from noise, odour, dust, contaminants or visual effects on surrounding properties. i. For mining sand from dunes or beaches, there will be no significant impact on the look of the area. j. Management plans or other mitigation measures will be used to adequately manage any adverse effects from dust, vehicle movements and operating noise on surrounding properties. k. There will be no adverse effects in terms of land instability. <i>General assessment guidance:</i> l. In assessing effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number or nature of vehicle movements on the adjoining road. m. In assessing an application for mining, Council will consider the constraints imposed by the location of the mineral resource and any logistical or technical requirements to access the resource. n. In assessing effects on rural character values and amenity, Council will consider whether any proposed restoration or rehabilitation measures will ensure that final landforms: i. screen or enhance the view of excavated faces from surrounding public and residential viewpoints through appropriate landscaping, plantings or siting of public amenities; and/or ii. minimise evidence of landfills or mining activity by blending final contours with surrounding landforms to achieve as natural appearance as possible, and by providing for the establishment of vegetation cover appropriate to the local character.

16.11.2 Assessment of discretionary land use activities

Activity	Priority considerations
	o. In determining whether land is 'highly productive land', Council will consider its LUC classification, the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/). <i>Conditions that may be imposed include:</i> p. Controls on overall waste volumes for landfills. q. Restrictions on aggregate processing activity for mining. r. A requirement for buffer areas and bunds. s. For quarries, a quarry management plan addressing noise, dust and other amenity effects. t. A site restoration or rehabilitation plan and/or bond to provide for site restoration or rehabilitation. <i>Relevant guidance from other sections (priority considerations):</i> u. See Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and effects related to biodiversity values. v. Where in the SNL or NCC overlay zones, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.3 and effects related to the natural character of the coast, and Objective 10.2.5 and effects related to landscape. w. For mining in a wāhi tūpuna mapped area, and landfills in any location, see Section 14.5 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua. x. For landfills, the use and development of renewable energy generation is encouraged (Policy 5.2.1.1).

16.11.2 Assessment of discretionary land use activities

Activity	Priority considerations
5. - Community and leisure - large scale - Early childhood education - Restaurants or retail activities ancillary to sport and recreation - Sport and recreation - Visitor accommodation	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 2.3.1, 16.2.1, 16.2.2, 16.2.3, 16.2.4. b. Commercial and community activities in the rural zones are restricted to those which require a rural location and/or support rural activities (Policy 2.3.1.2.h). c. Adverse effects of development on rural character and visual amenity are avoided or, if avoidance is not practicable, no more than minor (Policy 16.2.3.6). d. Visitor accommodation supports productive rural activities or a significant conservation activity on the same property (Policy 16.2.1.4). e. Adverse effects on the amenity of residential activities on surrounding properties is avoided or, if avoidance is not practicable, adequately mitigated (Policy 16.2.2.5). f. Activities other than farming are only allowed on highly productive land where the scale, size and nature of the activity means the loss of current or potential future rural productivity would be insignificant in any high class soils mapped area and no more than minor in other areas of highly productive land (Policy 16.2.4.2.a). <i>Potential circumstances that may support a consent application include:</i> g. The activity is set back a sufficient distance from its own boundaries and existing sensitive activities. h. The activity supports a conservation activity that is associated with an ASBV, QEII covenant, conservation covenant with the Department of Conservation or a local government agency, or a protected private land agreement under the Reserves Act 1977. <i>General assessment guidance:</i> i. In assessing the effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number or nature of vehicle movements on the adjoining road. j. In determining whether land is 'highly productive land', Council will consider its land use capability (LUC) classification, the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/). <i>Relevant guidance from other sections (priority considerations):</i> k. In an ASBV, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and effects related to biodiversity values.
6. In a Residential Transition Overlay Zone (RTZ): - Intensive farming - Forestry	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 12.3 for guidance on the assessment of resource consents in relation to Objective 12.2.1 and effects related to future use of land for residential activity.

16.11.2 Assessment of discretionary land use activities

Activity	Priority considerations
7. Service stations on a strategic road or arterial road	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 16.2.1, 16.2.2, 16.2.3 b. Provide for service stations on a strategic road or arterial road only where it is not practicable, due to a lack of site availability and/or special locational requirements, to locate in the PPH, TR, CEC, industrial or centres zones (Policy 16.2.1.11). c. Service stations are designed and located to avoid, or, if avoidance is not practicable, adequately mitigate adverse effects on the amenity of residential activities on surrounding properties (Policy 16.2.2.5). d. Service stations are designed and located to avoid, or, if avoidance is not practicable, ensure adverse effects of development on rural character and visual amenity are no more than minor (Policy 16.2.3.6). <i>General assessment guidance:</i> e. In assessing the effects on the amenity of surrounding residential properties and the streetscape amenity, Council will consider the: i. design and location of buildings, forecourts/yards and signs; ii. location of access/egress points; iii. effects of vehicle movements on the site; and iv. the hours of operation, light spill, noise and location or service station development in relation to site boundaries. <i>Conditions that may be imposed include:</i> f. Requirements for fencing, landscaping and/or setbacks of buildings, forecourts/yards, signs and access/egress points to minimise adverse visual or nuisance effects from noise, lighting and/or vehicle headlights on surrounding properties. g. Restrictions on hours of operation. h. Restrictions on on-site lighting. i. Requirements for screening of storage areas. j. Requirement to control dust. k. Conditions related to building design, scale and bulk including roof lines, height, façade articulation, colour and materials to ensure compatibility with surrounding rural amenity. l. Restrictions on signage. <i>Relevant guidance from other sections (priority considerations):</i> m. See Rule 6.12.2.1 for guidance on the assessment of the effects on the safety and efficiency of the transportation network, and other transportation effects.

16.11.3 Assessment of discretionary performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. - Acoustic insulation - Noise - where the limit is exceeded by less than 5dB LAeq (15min)	<i>Relevant guidance from other sections (priority considerations):</i> See Rule 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety
2. Density (Papakāika)	<i>Relevant objectives and policies (priority considerations):</i> - Objective 16.2.3 - Any buildings and structures maintain the rural character values and visual amenity of the rural zones (Policy 16.2.3.1). <i>Relevant guidance from other sections (priority considerations):</i> - See Section 9.7 for guidance on the assessment of resource consents in relation to objectives 9.2.1 and 9.2.2; and effects related to efficiency and affordability of infrastructure and public health and safety. - See Section 14.5 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua.
3. Light spill - where rules 16.5.5.1 or 16.5.5.2 are contravened, or where the light spill limit in Rule 16.5.5.3 is exceeded by 25% or less	<i>Relevant objectives and policies:</i> - Objective 16.2.3. - Activities are designed and operated to ensure that any adverse effects from light spill on rural character and amenity, and the ability of people to view the night sky, are no more than minor (Policy 16.2.3.9). <i>Potential circumstances that may support a consent application include:</i> - It is proposed to use filtering to prevent blue or ultraviolet light <i>General assessment guidance:</i> - Duration, time and frequency of the proposed illumination <i>Relevant guidance from other sections (priority considerations):</i> - See Rule 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
4. Blasting (mineral exploration)	<i>Relevant objectives and policies (priority considerations):</i> - Objective 16.2.2 - Mineral exploration operates in a way that avoids or, if avoidance is not practicable, adequately mitigates noise or other adverse effects on the amenity of sensitive activities on surrounding properties (Policy 16.2.2.4). <i>Relevant guidance from other sections (priority considerations):</i> - See Rule 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.

16.11.4 Assessment of discretionary subdivision activities

Activity	Guidance on the assessment of resource consents
1. Cross lease, company lease and unit title subdivision	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 16.2.1 b. Cross lease, company lease and unit title subdivision do not result in an increase in residential development potential beyond that which might be achieved through a general subdivision (Policy 16.2.1.9).

Rule 16.12 Assessment of Non-complying Activities

Rule 16.12.1 Introduction

1. Non-complying activities will be assessed in accordance with section 104, 104B and 104D of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. Rules 16.12.2 - 16.12.5 provide guidance on how a consent application for the listed non-complying activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi); and
 - b. general assessment guidance, including any effects that will be considered as a priority.
3. Rules 16.12.2 - 16.12.5 apply as follows:
 - a. Rule 16.12.2 applies to all non-complying activities;
 - b. Rule 16.12.3 applies to non-complying land use activities;
 - c. Rule 16.12.4 applies to non-complying development activities; and
 - d. Rule 16.12.5 applies to non-complying performance standard contraventions.
4. With respect to section 104(2) of the RMA, Council will not consider family flats or papakāika as part of the permitted baseline in considering residential density effects in the rural zones.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

16.12.2 Assessment of all non-complying activities

Activities	Guidance on the assessment of resource consents
1. All non-complying land use activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 16.2.1, 16.2.2, 16.2.3, 16.2.4 b. The activity does not detract from, or preferably contributes to, the strategic direction objectives, including, but not limited to, those related to: i. Objectives 2.2.2, 2.2.3, 2.2.4, and 2.3.1 <i>General assessment guidance:</i> c. In assessing the significance of effects, consideration will be given to: i. short to long term effects, including effects in combination with other activities; and ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the granting of a resource consent; and d. In assessing activities that are non-complying due to being in an overlay zone, mapped area, in a scheduled site, or affecting a scheduled item, that otherwise require resource consent, the assessment guidance provided in relation to the underlying activity status will also be considered. <i>Relevant guidance from other sections (priority considerations):</i> e. For activities taking place within the radio transmitters mapped area, see Section 5.10 for guidance on the assessment of resource consents in relation to management of reverse sensitivity effects on Radio New Zealand's facilities at 740 Highcliff Road and 35 Karetai Road. f. See Section 6.13 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3, and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. g. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety. h. For activities that may have effects on biodiversity values, see Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1. i. For activities adjacent to water bodies and the coast, see Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.2. j. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.

16.12.3 Assessment of non-complying land use activities

Activity		Guidance on the assessment of resource consents
1.	Commercial advertising	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.4.1 b. Policy 2.4.1.6.c.
2.	- Supported living facilities - Commercial activities (other than those provided for) - Industrial activities (other than rural industry and rural contractor and transport depots) - Major facility activities (other than cemeteries, crematoriums, emergency services and the New Zealand Marine Studies Centre in the Portobello Marine Science mapped area)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.3.2 b. Objective 16.2.1 c. Supported living facilities, commercial activities, industrial activities and major facility activities are avoided, unless otherwise provided for, in the rural zones (Policy 16.2.1.8).
3.	In the hazard 1A (flood) overlay zone : Natural hazards potentially sensitive activities	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.
4.	In the hazard 1 (flood) overlay zones (see Rule 16.3.6): - Natural hazards potentially sensitive activities - Natural hazards sensitive activities	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.
5.	In a Residential Transition overlay zone : - Mining - Landfills	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 12.3 for guidance on the assessment of resource consents in relation to Objective 12.2.1 and effects related to future use of land for residential activity.

16.12.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
6. In an ASBV: • Commercial activities (except for restaurants or retail activities ancillary to sport and recreation and stand-alone car parking) • Early childhood education • Industrial activities • Major facility activities • Residential activities (except for working from home) • Rural activities (except for rural ancillary retail, rural tourism and rural research)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.
7. In the ONF, ONCC, or HNCC overlay zones: • Commercial activities (except for restaurants or retail activities ancillary to sport and recreation and stand-alone car parking) • Major facility activities • Industrial activities • Residential activities (except working from home) • Rural activities (except for farming, grazing, landfills, mining, scheduled mining activity, rural ancillary retail, rural tourism and rural research - small scale)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to objectives 10.2.3 and 10.2.5 and the effects related to natural character of the coast and landscape values.
8. In the ONL Overlay Zone: • Landfills • Mineral exploration that involves blasting • Mining • Major facility activities (other than cemeteries, crematoriums and the New Zealand Marine Studies Centre in the Portobello Marine Science mapped area)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.5 and effects related to landscape values.

16.12.3 Assessment of non-complying land use activities

Activity		Guidance on the assessment of resource consents
9.	In the NCC and SNL overlay zones: Major facility activities (other than cemeteries, crematoriums and the New Zealand Marine Studies Centre in the Portobello Marine Science mapped area)	<i>Relevant guidance from other sections (priority considerations):</i> See Section 10.8 for guidance on the assessment of resource consents in relation to objectives 10.2.3 and 10.2.5 and the effects related to natural character of the coast and landscape values.
10.	In a wāhi tūpuna mapped area: - Forestry - Mining	<i>Relevant guidance from other sections (priority considerations):</i> See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and the effects on cultural values of Manawhenua.

16.12.4 Assessment of non-complying development activities

Activity		Guidance on the assessment of resource consents
1.	Demolition of a protected part of a scheduled heritage building or scheduled heritage structure.	<i>Relevant guidance from other sections (priority considerations):</i> See Section 13.8 for guidance on the assessment of resource consents in relation to Objective 13.2.1 and effects on heritage values.
2.	In the ONF, ONCC, HNCC overlay zones: - New building or structure - Additions and alterations - Indigenous vegetation clearance - large scale (ONCC, HNCC overlay zones)	<i>Relevant guidance from other sections (priority considerations):</i> See Section 10.8 for guidance on the assessment of resource consents in relation to objectives 10.2.3 and 10.2.5 and the effects related to natural character of the coast and landscape values.
3.	In a wāhi tūpuna mapped area: New buildings and structures	<i>Relevant guidance from other sections (priority considerations):</i> See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.
4.	In an ASBV: Indigenous vegetation clearance - large scale	<i>Relevant guidance from other sections (priority considerations):</i> See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.

16.12.5 Assessment of non-complying performance standard contravention

Performance standard		Guidance on the assessment of resource consents
1.	Density	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 16.2.1, 16.2.3, 16.2.4. b. Policies 16.2.1.7, 16.2.3.2, 16.2.4.4 c. Strategic Directions: objectives 2.2.2, 2.3.1, policies 2.2.2.1, 2.3.1.2, 2.4.6.2 <i>Relevant guidance from other sections (priority considerations):</i> d. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.1 and effects related to the efficiency and affordability of infrastructure.
2.	In a dune system mapped area or swale mapped area: • Hazard exclusion areas	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.
3.	Light spill - where the limit is exceeded by greater than 25%	<i>Relevant objectives and policies:</i> a. Objective 16.2.3 b. Activities are designed and operated to ensure that any adverse effects from light spill on rural character and amenity, and the ability of people to view the night sky, are no more than minor (Policy 16.2.3.9). <i>Potential circumstances that may support a consent application include:</i> c. It is proposed to use filtering to prevent blue or ultraviolet light. <i>General assessment guidance:</i> d. Duration, time and frequency of the proposed illumination. <i>Relevant guidance from other sections (priority considerations):</i> e. See Rule 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
4.	• Noise - where the limit is exceeded by 5bD LAeq (15 min) or more • Hazardous substances quantity limits and storage requirements (Rule 9.3.4.2)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
5.	Setback from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities and public health and safety.

16.12.5 Assessment of non-complying performance standard contravention

Performance standard	Guidance on the assessment of resource consents
6. Minimum site size	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 2.2.2, 2.2.4, 2.3.1, 2.4.6 b. Objectives 16.2.3, 16.2.4 c. Areas important for food production are protected from subdivision activities that may diminish food production capacity (Policy 2.2.2.1). d. Subdivision activities that provide for residential activity at a rural residential or urban scale are avoided (Policy 2.2.4.4). e. The productivity of farming and other activities that support the rural economy is maintained or enhanced through restricting subdivision activities that may lead to land fragmentation and create pressure for residential-oriented development (Policy 2.3.1.2). f. The identified character values of the rural zones are maintained (Policy 2.4.6.2). g. Subdivisions are designed to ensure any associated future land use and development maintain or enhance the rural character and visual amenity of the rural zones (Policy 16.2.3.8). h. Subdivisions are designed to ensure any future land use and development will: i. maintain or enhance the productivity of rural activities; ii. maintain highly productive land for farming activity, or ensure any loss is insignificant on any high class soils mapped area and no more than minor on other areas of highly productive land; iii. maintain land in a rural rather than rural residential use; and iv. not increase the potential for reverse sensitivity (Policy 16.2.4.3). <i>Potential circumstances that may support a consent application include:</i> i. A legal mechanism is proposed that will ensure that any proposed undersized allotment can not be used for a residential activity, and overall there is no net increase in residential development potential. <i>General assessment guidance:</i> j. In determining whether land is 'highly productive land', Council will consider its land use capability (LUC) classification, the high class soils mapped area (HCS), as well as any other evidence related to productive values. The expectation is that land in the HCS and/or that has a LUC 1-3 classification will be considered 'highly productive land'. Note that information about the LUC classification is provided on the Landcare Research website (https://www.landcareresearch.co.nz) and LUC 1-3 areas are shown on the Data Map (https://apps.dunedin.govt.nz/webmaps/secondgenerationplandata/). <i>Relevant guidance from other sections (priority considerations):</i> k. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.1 and effects related to the efficiency and affordability of infrastructure.

16.12.5 Assessment of non-complying performance standard contravention

Performance standard		Guidance on the assessment of resource consents
7.	Family Flats - Tenancy	<i>Relevant objectives and policies (priority considerations):</i> a. Strategic Directions: objectives 2.3.1, 2.4.6, 2.6.1, policies 2.3.1.2, 2.4.6.2, 2.6.1.2 b. Policy 16.2.1.6).
8.	Shape (Rule 16.7.5.2.d) - setback of building platforms from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and reverse sensitivity.
9.	In an ASBV : • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.
10.	In the ONF and ONL overlay zones : • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.5 and the effects related to landscape values.
11.	In the ONCC, HNCC and NCC overlay zones : • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.3 and the effects related to natural character of the coast.

Rule 16.13 Special Information Requirements

16.13.1 Papakāika - ownership and occupation

For papakāika activity, proof that both the owner and occupier of the land fall into one of the classes listed in the definition of papakāika is required. Proof can be obtained from the Māori Land Court or the Ngāi Tahu Whakapapa Unit.

17. Rural Residential Zones

17.1 Introduction

A number of people seek to live in a rural setting and undertake rural activities at a small scale, such as the keeping of livestock. These small-scale rural activities are commonly known as lifestyle farming or hobby farming, and the properties on which they are undertaken are commonly known as lifestyle blocks.

Lifestyle blocks can have an adverse effect on sustainable management by removing rural land from productive use; by inflating rural land values to the detriment of more productive rural activities; or by generating reverse sensitivity effects in the rural environment resulting from people living on smaller blocks of land in proximity to productive rural activities such as farming or forestry; and by resulting in pressure to extend urban public infrastructure and services into rural areas. A further issue is that there are a large number of small sites across Dunedin's rural environment which can sometimes be difficult to manage and use.

The rural residential zones have been established in response to these issues, to provide specifically for lifestyle or hobby farming in appropriately located parts of Dunedin's wider rural environment.

Rural residential zones allow for residential activity at a scale consistent with lifestyle or hobby farming, along with those rural and community activities that are consistent with the level of amenity expected by people living in these areas. Non-compatible activities in rural residential zones are discouraged or carefully managed in recognition that these can adversely affect the liveability and amenity of the zones.

Rural residential zones are sometimes located in areas with good quality land and versatile soils, and can contain productive rural activities such as small-scale farming. In order to sustainably manage natural and physical resources, it is important that the productive potential of these areas is maintained.

Some rural residential zones are located in areas of high landscape values, or coastal areas where retention or enhancement of the natural character values of the coast is important. These areas are covered by overlay zones with different rules applying for certain activities, such as buildings, structures and forestry.

Even where not located in landscape or coastal overlays, rural residential zones have their own level of rural or semi-rural character and amenity. Land use activities and development that detract from this character and amenity should be avoided. Rural residential zones can also contain areas of indigenous vegetation and habitat for indigenous species, and are subject to rules managing the clearance of indigenous vegetation.

17.1.1 Zone Descriptions

17.1.1.1 Rural Residential 1 Zone

The Rural Residential 1 Zone occurs in a variety of locations, often in proximity to urban areas, that cater for demand for rural residential activity in different parts of Dunedin. The Rural Residential 1 Zone is elevated in some locations and provides a highly visible rural context for nearby residential and urban areas. This applies, in particular, to the Rural Residential 1 Zone at Waitati, Sawyers Bay, Blanket Bay, St Leonards, Chain Hills, Saddle Hill, Blackhead and Scroggs Hill.

In other locations the Rural Residential 1 Zone is less elevated but still provides a rural or semi-rural context to adjacent residential areas, including at Waikouaiti, Abbotsford, Waldronville, Ocean View and Brighton.

The Rural Residential 1 Zone sometimes occurs on river plains, such as at Wingatui, Tirohanga Rd and Middlesmarch. In these cases, the zone has a character that reflects the productive land on which it occurs, with an open pastoral setting. At Wingatui the Rural Residential 1 Zone has a settled and mature character, with mature trees and shelter plantings, and a diverse range of rural uses including hobby farming, horse grazing and horticultural uses.

17.1.1.2 Rural Residential 2 Zone

The Rural Residential 2 Zone typically occurs in coastal locations, or on hill slopes in proximity to urban areas. The Rural Residential 2 Zone recognises existing semi-developed clusters of small rural sites where there is already some rural residential activity, and provides for one residential activity per existing site.

17.2 Objectives and Policies

Objective 17.2.1	
The rural residential zones enable lifestyle blocks, hobby farms and associated residential activities as the appropriate place in the rural environment for these to occur, and provide for a limited range of other compatible activities.	
Policy 17.2.1.1	Enable farming, grazing and conservation in the rural residential zones.
Policy 17.2.1.2	Require residential activity in the rural residential zones to be at a density that enables lifestyle blocks and hobby farms.
Policy 17.2.1.3	Require rural ancillary retail and working from home to be at a scale that: a. is ancillary to, and supportive of, productive rural activities or conservation activity on the same property, and b. supports objectives 2.3.2 and 2.4.3 and their policies.
Policy 17.2.1.4	Provide for forestry, domestic animal boarding and breeding (not including dogs), community and leisure - small scale, emergency services, and veterinary services (large animal practice) where the effects will be adequately mitigated in line with objectives 17.2.2, 17.2.3 and 17.2.4 and their policies, and the objectives and policies of any relevant overlay zones.
Policy 17.2.1.5	Only allow rural tourism, rural research, community and leisure - large scale, early childhood education, sport and recreation, and visitor accommodation where the effects will be adequately managed in line with objectives 17.2.2, 17.2.3 and 17.2.4 and their policies, and the objectives and policies of any relevant overlay zones.
Policy 17.2.1.6	Avoid cross lease, company lease and unit title subdivision in the rural residential zones unless it does not result in an increase in development potential beyond that which might be achieved through a general subdivision.
Policy 17.2.1.7	Restrict the tenancy and design of family flats to: a. avoid, as far as practicable, the risk they will be used for a separate, non-ancillary, residential activity; and b. avoid, as far as practicable, future pressure to subdivide off family flats.

Objective 17.2.2	
The potential for conflict between activities within the rural residential zones, and between activities within the rural residential zones and adjoining residential zones, is minimised through measures that ensure: a. the potential for reverse sensitivity is minimised; and b. a good level of amenity on surrounding rural residential properties, residential zoned properties and public spaces.	
Policy 17.2.2.1	Require residential buildings to minimise, as far as practicable, the potential for reverse sensitivity by being set back an adequate distance from: a. site boundaries; and b. forestry, intensive farming, domestic animal boarding and breeding (including dogs), mining, landfills and wind generators – large scale.
Policy 17.2.2.2	Require buildings that house animals to be set back from site boundaries an adequate distance so that any adverse effects on adjoining residential activities are avoided or, if avoidance is not practicable, are no more than minor.

Objective 17.2.2

The potential for conflict between activities within the rural residential zones, and between activities within the rural residential zones and adjoining residential zones, is minimised through measures that ensure:

- a. the potential for reverse sensitivity is minimised; and
- b. a good level of amenity on surrounding rural residential properties, residential zoned properties and public spaces.

Policy 17.2.2.3	Require all new buildings to be located an adequate distance from site boundaries to ensure a good level of amenity for residential activities on adjoining sites.
Policy 17.2.2.4	Require rural ancillary retail and working from home to operate in a way (including hours of operations) that avoids or, if avoidance is not practicable, adequately mitigates noise or adverse effects on the amenity of surrounding properties.
Policy 17.2.2.5	Only allow rural tourism, rural research, community and leisure - large scale, early childhood education, sport and recreation, veterinary services and visitor accommodation where any adverse effects on the amenity of surrounding rural residential properties are avoided or, if avoidance is not practicable, adequately mitigated.
Policy 17.2.2.6	Require forestry and shelterbelts and small woodlots to be set back an adequate distance to avoid or minimise, as far as practicable, significant effects from shading on residential buildings on surrounding properties.
Policy 17.2.2.7	Only allow forestry where it will be located and designed to avoid or, if avoidance is not practicable, adequately mitigate shading, noise, traffic, and other nuisance effects on sensitive activities on surrounding properties.
Policy 17.2.2.8	Require subdivisions to deliver resultant sites that will achieve a high quality of on-site amenity through being large enough and of a shape that is capable of supporting rural residential development.

Objective 17.2.3

The character and amenity of the rural residential zones are maintained, elements of which include:

- a. a high presence of natural features such as trees, bush, gully systems and water bodies;
- b. a semi-rural level of development, with a higher proportion of open space and lower density of buildings than in urban areas; and
- c. land maintained and managed for farming, grazing, conservation and rural residential activities.

Policy 17.2.3.1	Require buildings and structures to be set back from boundaries and of a height that maintains the character and visual amenity of the rural residential zones.
Policy 17.2.3.2	Only allow forestry where it will be located, designed, and managed to avoid or, if avoidance is not practicable, adequately mitigate adverse effects on the character and visual amenity of the rural residential zones.
Policy 17.2.3.3	Only allow rural tourism, rural research, community and leisure - large scale, early childhood education, sport and recreation, veterinary services and visitor accommodation activities where any adverse effects from development on rural residential character and visual amenity will be avoided or, if avoidance is not practicable, adequately mitigated.
Policy 17.2.3.4	Require ancillary signs to be located and designed to maintain the character of the rural residential zones, including by being of an appropriate size and number to convey information about the name, location and nature of the activity on site to passing pedestrians and vehicles and not being oversized or too numerous for that purpose.

Objective 17.2.3

The character and amenity of the rural residential zones are maintained, elements of which include:

- a. a high presence of natural features such as trees, bush, gully systems and water bodies;
- b. a semi-rural level of development, with a higher proportion of open space and lower density of buildings than in urban areas; and
- c. land maintained and managed for farming, grazing, conservation and rural residential activities.

Policy 17.2.3.5	Only allow general subdivision where the subdivision is designed to ensure any associated future land use and development will maintain or enhance the character and amenity of the rural residential zones.
-----------------	--

Objective 17.2.4

The productive potential of the rural residential zones for lifestyle blocks or hobby farms is maintained.

Policy 17.2.4.1	Require earthworks in a high class soils mapped area to retain soils on the site.
Policy 17.2.4.2	Only allow land use, development, or subdivision activities that may lead to land use and development in a high class soils mapped area where any adverse effects on high class soils are avoided or, if avoidance is not practicable, are no more than minor.
Policy 17.2.4.3	Only allow general subdivision where resultant sites are of a shape and size that will enable lifestyle blocks or hobby farms, including the keeping of livestock, and avoid use purely as large lot residential living.
Policy 17.2.4.4	Avoid general subdivision in the Rural Residential 2 Zone unless it does not result in an increase in residential development potential.

Rules

Rule 17.3 Activity Status

17.3.1 Rule Location

The activity status tables in rules 17.3.3 to 17.3.5 specify the activity status of land use activities, development activities, and subdivision activities in the rural residential zones and relevant overlay zones, except rules for the following city-wide activities, which are contained in Part B of the Plan:

1. Public Amenities (Section 3)
2. Temporary Activities (Section 4) - note that this section includes provisions that apply to construction
3. Network Utilities (Section 5)
4. Transportation (Section 6)
5. Scheduled Trees (Section 7)
6. Natural Hazard Mitigation Activities (Section 8)
7. Earthworks (Section 8A)

17.3.2 Activity Status Introduction

1. The activity status tables in rules 17.3.3 - 17.3.5 show the activity status of activities in the rural residential zones and the overlay zones indicated, provided any performance standards shown in the far right column are met.
2. Activities are split into three types: a. land use activities, b. development activities, c. subdivision activities. Within these types, activities are split into categories. The nested tables in Section 1.3 outline the hierarchy of categories, activities and sub-activities.
3. Permitted land use activities do not automatically provide for any related development activities. Therefore, the activity status of any associated development activities should also be checked.
4. Where a new land use activity requires a resource consent, all associated development activities will be considered and assessed as part of the resource consent even if the development otherwise meets the development performance standards listed in the Plan.
5. The nested tables in Section 1.3 are intended to be a complete list of activities. However, in the case of an activity that is not covered by any of the activities in the nested tables, the activity status will be non-complying.

Additional activity status rules in hazard overlay zones

6. For the purpose of the hazards provisions, activities are categorised as natural hazards sensitive activities, natural hazards potentially sensitive activities or natural hazards least sensitive activities. The activities that are in each hazards sensitivity category are included in the definitions section and in Section 11.1.
7. In the Hazard 1 (flood) Overlay Zone or the Hazard 2 (flood) Overlay Zone, the activity statuses in Rule 17.3.6 apply for the following activities:
 - a. natural hazards sensitive activities;
 - b. natural hazards potentially sensitive activities, and
 - c. new buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area.
8. Where the activity status in Rule 17.3.6 differs from that in rules 17.3.3 - 17.3.5, the most restrictive activity status always applies.

9. In addition to the rules in Rule 17.3.6, performance standards for development activities within hazard overlay zones are included in rules 17.3.3 - 17.3.5.
10. Activities in a hazard overlay zone must comply with all of the rules in 17.3.3 - 17.3.6.

Performance Standards

11. Performance standards are listed in the far right column of the activity status tables.
12. Performance standards apply to permitted, controlled, and restricted discretionary activities.
13. If a permitted or controlled activity does not meet one or more performance standards, then the activity status of the activity is indicated in the relevant performance standard rule.
14. If a restricted discretionary activity does not meet one or more performance standards, then the activity status remains restricted discretionary, unless otherwise indicated in the performance standard.

Legend

Acronym	Meaning
+	Additional provisions apply (assessment criteria for activities in the overlay need to be viewed)
P	Permitted Activity
C	Controlled Activity
RD	Restricted Discretionary Activity
D	Discretionary Activity
NC	Non-complying Activity
RR	Rural Residential Zones
ONF	Outstanding Natural Feature Overlay Zone
SNL	Significant Natural Landscape Overlay Zone
HNCC	High Natural Coastal Character Overlay Zone
NCC	Natural Coastal Character Overlay Zone
Haz1	Hazard 1 Overlay Zones
Haz2	Hazard 2 Overlay Zones
Haz3	Hazard 3 Overlay Zones
ASBV	Areas of Significant Biodiversity Value

17.3.3 Land Use Activity Status Table

1.	Performance standards that apply to all land use activities	a. Acoustic insulation b. Electrical interference c. Light spill d. Noise e. Setback from National Grid (National Grid sensitive activities only)
----	---	---

Rural activities		Activity status				Performance standards
		a. RR	b. ONF/ HNCC	c. SNL/ NCC	d. ASBV

27.	All other activities in the major facility activities category	NC	NC	NC	NC+	

Note 17.3.3A – Other requirements outside of the District Plan

Plantation forestry and associated activities are addressed by the NESPF rather than this Rule 17.3.3.4 for rural residential zones in Rule 17.3.3.4.a and for SNLs in Rule 17.3.3.4.c.

For ONFs and HNCCs in Rule 17.3.3.4.b and for NCCs in Rule 17.3.3.4.c the NESPF does not apply.

The NESPF also does not apply to vegetation clearance prior to afforestation and rules 17.3.4.19, 17.3.4.20 and 17.3.4.21 and the rules in Section 10 Natural Environment apply.

17.3.4 Development Activity Status Table

1.	Performance standards that apply to all development activities					a. Natural Hazards Performance Standards b. Setback from scheduled tree
2.	Performance standards that apply to all buildings and structures activities					a. Boundary setbacks b. Maximum height c. Number, location and design of ancillary signs d. Reflectivity (landscape and coastal character overlays) e. Setback from coast and water bodies f. Setback from National Grid
Buildings and structures activities (excluding activities affecting a protected part of a scheduled heritage building or scheduled heritage structure. See rows 8 - 15)		Activity status				Performance standards

24.	All other site development activities	P	P	P	RD	
-----	---------------------------------------	---	---	---	----	--

Note 17.3.4A - General advice

1. An archaeological authority is required under the Heritage New Zealand Pouhere Taonga Act 2014 to modify or destroy an archaeological site. If you wish to do any earthworks that may affect an archaeological site, you must first obtain an authority from Heritage New Zealand. This is the case regardless of whether the site is designated, or the activity is permitted under the District Plan or Regional Plan, or a resource or building consent has been granted.
2. An archaeological site is defined as any place in New Zealand that was associated with human activity that occurred before 1900 and provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand. This includes the scheduled archaeological sites within the District Plan.
3. Pre-1900 buildings are considered archaeological sites. An archaeological authority must be obtained before demolishing a pre-1900 building or structure.
4. The **archaeological alert layer mapped area** identifies sites and areas that have a strong likelihood of containing archaeological remains, however remains may be present anywhere within the District. If archaeological remains are discovered during any site works, at any location, the Accidental Discovery Protocol (Appendix A8) should be followed.

17.3.5 Subdivision Activity Status Table

Subdivision activities		Activity status				Performance standards
		a. RR	b. ONF/HNCC	c. SNL/NCC	d. ASBV	
1.	General subdivision creating resultant sites used solely for the purposes of a Scheduled ASBV or QEII covenant; or reserve; or access; or network utilities; or road.	RD	RD	RD	RD+	i. Access ii. Esplanade reserves and strips
2.	All other general subdivision in the Rural Residential 1 Zone	RD	RD+	RD+	RD+	i. Access ii. Esplanade reserves and strips iii. Fire fighting iv. Minimum site size v. Service connections vi. Shape
3.	All other general subdivision in the Rural Residential 2 Zone	NC	NC	NC	NC+	
4.	Cross lease, company lease and unit title subdivision	NC	NC	NC	NC+	

Note 17.3.5A - Other RMA considerations

- Under Section 226(1)(e)(ii) of the Resource Management Act 1991, where an existing allotment shown on a survey plan meets all relevant provisions of the district plan and any proposed district plan, the Dunedin City Council must issue a certificate to that effect to enable the Registrar-General of Land to issue a certificate of title for that separate allotment.

17.3.6 Activity Status in Hazard 1 (Flood) Overlay Zone and Hazard 2 (Flood) Overlay Zone

Activity		Activity status	
		a. Haz1 (flood)	b. Haz2 (flood)
1.	Natural hazards sensitive activities	NC	RD
2.	Natural hazards potentially sensitive activities	NC	RD
3.	New buildings, and additions and alterations to buildings, which create more than 60m ² of new ground floor area	RD	RD

Note 17.3.6A - Other RMA considerations

1. For the purposes of the natural hazards provisions only, with respect to section 10 of the RMA (existing use rights), Council will generally consider that a land use activity is similar in character, intensity, and scale where:
 - a. for a residential activity, there is less than 25m² increase in ground floor area of any residential building(s), in any consecutive 10 year period; or
 - b. for a residential activity, a new building is to be used solely as a garage or shed; or
 - c. for all other natural hazards sensitive activities and natural hazards potentially sensitive activities, the ground floor area of any buildings increases by less than 100% in any consecutive 10 year period.
2. Accordingly, these activities will not usually trigger the provisions for natural hazards sensitive activities and natural hazards potentially sensitive activities in Rule 17.3.6. However, Council will consider specific circumstances associated with the development and how this affects the character, intensity and scale of the land use activity.

Rule 17.4 Notification

1. Applications for resource consent for the following activities will be considered without the need to obtain a written approval of affected persons and will not be notified in accordance with sections 95A or 95B of the RMA, unless Council considers special circumstances exist in relation to the application that require public notification:
 1. earthquake strengthening of a scheduled heritage building or scheduled heritage structure where external features only are protected (controlled activity) and that are not listed by Heritage New Zealand; and
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is not listed by Heritage New Zealand.
2. With respect to resource consent applications for the following activities, Heritage New Zealand will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided with respect to applications for resource consent for the following:
 1. activities that affect a protected part of a scheduled heritage building, scheduled heritage structure, or a scheduled heritage site, that is listed with Heritage New Zealand;
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is listed by Heritage New Zealand; and
 3. contravention of the archaeological sites performance standard (Rule 13.3.3).
3. With respect to resource consent applications for the following activities, Manawhenua will be considered an affected person in accordance with section 95B of the RMA where their written approval is not provided with respect to resource consents applications for the following:
 1. all restricted discretionary activities that list 'effect on cultural values of Manawhenua as a matter for discretion; and
 2. discretionary and non-complying activities in a **wāhi tūpuna mapped area** where the activity is identified as a threat in Appendix A4.
4. With respect to resource consent applications for the following activities, the Department of Conservation will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
 1. indigenous vegetation clearance - large scale in a scheduled Area of Significant Biodiversity Value; or
 2. indigenous vegetation clearance - large scale or any discretionary or non-complying activity in a Natural Coastal Character or High Natural Coastal Character overlay zone.
5. With respect to resource consent applications for the following activities within the **radio transmitters mapped area**, Radio New Zealand Limited will be considered an affected person in accordance with section

95B of the RMA, unless its written approval is provided or discretion is restricted and excludes consideration of reverse sensitivity effects:

1. any activities that may be sensitive to electromagnetic interference, noise or visual effects from Radio New Zealand's facilities at 740 Highcliff Road and 35 Karetai Road; and
 2. subdivision that could result in activities of this kind.
6. With respect to sections 95D(b) and 95E(2)(a) of the RMA, Council will not consider family flats or papakāika as part of the permitted baseline in considering residential density effects in the rural residential zones.
7. With respect to resource consent applications for the following activities, the Otago Regional Council will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
1. activities in the Hazard 1 or 1A (flood) overlay zones; and
 2. activities in **swale mapped areas**.
8. All other activities are subject to the normal tests for notification in accordance with sections 95A-95G of the RMA.

Rule 17.5 Land Use Performance Standards

17.5.1 Acoustic Insulation

Noise sensitive activities in the following areas must comply with Rule 9.3.1.

1. **port noise control mapped area;**
2. within 40m of the Taieri Aerodrome Zone;
3. within 40m of a state highway;
4. within 20m of an industrial zone; and
5. within 70m of a railway line.

17.5.2 Density

1. The maximum density of standard residential activity is as follows:
 - a. In the Rural Residential 1 Zone, the minimum site size per residential activity is 2ha, except:
 - i. a single residential activity is permitted on an existing site between 1ha and 2ha created before 26 September 2015 as long as all other performance standards can be met; and
 - ii. a single residential activity is permitted on a site created by Rule 17.7.5.2 as long as all other performance standards can be met.
 - b. In the Rural Residential 1 Zone, multiple standard residential activities are only allowed on a single site where all primary residential buildings (houses) are able to meet all the relevant performance standards if they were ever subdivided into separate sites.
 - c. In the Rural Residential 2 Zone, a maximum of one residential activity per site of at least 1ha.
 - d. In all rural residential zones, one family flat is allowed per site in association with a standard residential activity that meets this performance standard for density.
2. Standard residential activity that contravenes this performance standard is a non-complying activity.

17.5.3 Electrical Interference

Land use activities must comply with Rule 9.3.2.

17.5.4 Hours of Operation

1. For rural ancillary retail, customers must not arrive before 7am or depart after 7pm.
2. For working from home, customers and deliveries must not arrive before 7am or depart after 7pm. This standard does not apply to homestays.
3. Activities that contravene this performance standard are restricted discretionary activities.

17.5.5 Light Spill

Land use activities must comply with Rule 9.3.5.

17.5.6 Location

1. Domestic animal boarding and breeding (not including dogs) and rural ancillary retail must not be accessed directly from a state highway with a speed limit of 80kmh or over.
2. Activities that contravene this performance standard are restricted discretionary activities.

17.5.7 Maximum Gross Floor Area

Activity	Maximum gross floor area
1. Rural ancillary retail	60m ²
2. Working from home	100m ² (applies only to area used within buildings)

3. The retailing of plants grown on a site is exempt from the performance standard for maximum gross floor area.
4. Activities that contravene this performance standard are restricted discretionary activities.

Note 17.5.7A - Other requirements outside of the District Plan

1. Registration must be obtained from DCC Environmental Health Department for any working from home activity which involves food products, hairdressing, beauty therapy or tattooing. Please contact the DCC's Environmental Health Department on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.
2. A licence from DCC's Alcohol Licensing Department may be required for any working from home activity involving the sale or distribution of alcohol. Please contact the DCC on 03 477 4000 or visit the DCC website at www.dunedin.govt.nz for more information.

17.5.8 Minimum Car Parking

1. Land use activities must provide on-site parking spaces as follows:

Activity	Minimum number of on-site parking spaces
a. Community and leisure – small scale	1 parking space for every 5 persons the facility can accommodate at any one time
b. Rural ancillary retail	1 on-site parking space per roadside produce stall
c. Emergency services	i. For fire stations: 5 parking spaces per fire engine bay. ii. For all other activities: 1 parking space per 100m² gross floor area.

2. Activities must provide mobility parking spaces as follows:

Total number of parking spaces provided	Minimum number of these that must be mobility parking spaces
a. 1 - 20	1 parking space
b. 21 - 50	2 parking spaces
c. For every additional 50 parking spaces	1 additional parking space

3. For the purpose of calculating minimum car parking:
 - a. where the minimum parking performance standard results in the requirement for a fractional space, any fraction under one half will be disregarded and any fraction of one half or greater will be counted as one space.
 - b. the same parking spaces may be counted for more than one land use activity (i.e. parking spaces may be shared between land use activities), as long as the hours of operation of the land use activities do not overlap.

4. For activities where the minimum car parking performance standard is based on the gross floor area, the following areas will be excluded from the assessment of gross floor area:
 - a. any parking area and associated manoeuvring space, including aisle; and
 - b. any loading area and associated manoeuvring space.
5. Activities that contravene this performance standard are restricted discretionary activities.

Note 17.5.8A - Other relevant District Plan provisions

1. Parking areas must comply with the standards in Section 6.6: Parking, Loading and Access Standards.

17.5.9 Noise

Land use activities must comply with Rule 9.3.6.

17.5.10 Separation Distances

1. New residential buildings must be located at least:
 - a. 30m from an existing, lawfully established forestry activity on a separate site;
 - b. 100m from:
 - i. an existing, lawfully established intensive farming activity on a separate site; and
 - ii. an existing, lawfully established domestic animal boarding and breeding including dogs activity on a separate site;
 - c. 150m from existing, lawfully established landfills on a separate site;
 - d. 250m from existing, lawfully established wind generators - large scale on a separate site;
 - e. 200m from an existing, lawfully established mining activity, that does not involve blasting, on a separate site; and
 - f. 500m from an existing, lawfully established mining activity, that involves blasting, on a separate site.
2. For the purpose of this standard, separation distance is measured from the closest wall of the new residential building to the closest edge of any active operational area or part of the site being used for one of the activities listed.
3. Activities that contravene this performance standard are restricted discretionary activities.

17.5.11 Setback from National Grid

National Grid sensitive activities must comply with Rule 5.6.1.1.

17.5.12 Tree Species

Forestry and shelterbelts and small woodlots must comply with Rule 10.3.4.

17.5.13 Family Flats

Rule 17.5.13.1 Family Flats - Tenancy

- a. Family flats must:
 - i. only be occupied by:
 1. a person or persons related to or dependent on the household that lives in the primary residential unit on the same site; or
 2. employed on-site, in a paid or voluntary capacity, as a domestic, child-care, farm or conservation worker by the household that lives in the primary residential unit on the same site.
 - ii. not be on a different tenancy agreement to the primary residential unit.
- b. Standard Residential activity that contravenes this performance standard is a non-complying activity.

Rule 17.5.13.2 Family Flat - Design

- a. Family flats must:
 - i. not exceed a maximum gross floor area of 60m²;
 - ii. be on the same available water and waste infrastructure connection, or the same non-reticulated wastewater disposal system as the primary residential unit;
 - iii. be on the same household electricity account;
 - iv. share the same vehicle access as the primary residential unit; and
 - v. be attached to or located in the same residential building as the primary residential unit, or located within 30m of the primary residential building (house), as measured as the closest distance between any wall of the primary residential building and any wall of the family flat.
- b. Standard Residential activity that contravenes this performance standard is a restricted discretionary activity.

{Note - appeal relates to sites in landscape or coastal character overlay zones only}

Rule 17.6 Development Performance Standards

17.6.1 Fire Fighting

New residential buildings and subdivision activities must comply with Rule 9.3.3.

17.6.2 Natural Hazards Performance Standards

17.6.2.1 Hazard exclusion areas

New buildings and structures and additions and alterations located in a **swale mapped area** must comply with Rule 11.3.1.1.

17.6.2.2 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the Hazard 1 or 2 (land instability) overlay zones must comply with Rule 11.3.2.

17.6.2.3 Relocatable buildings

New buildings containing residential activity on the ground floor in the Hazard 3 (coastal) Overlay Zone must comply with Rule 11.3.3.

17.6.2.4 Outdoor storage

Outdoor storage in the Hazard 1 (flood) Overlay Zone must comply with Rule 11.3.4.

17.6.3 Hazardous Substances Quantity Limits and Storage Requirements

The storage and use of hazardous substances must comply with Rule 9.3.4.

17.6.4 Materials and Design

Repairs and maintenance, restoration and earthquake strengthening must comply with Rule 13.3.2.

17.6.5 Maximum Height

1. New buildings and structures, and additions and alterations, must not exceed a maximum height above ground level as follows:

Activity		i. Rural residential zone	ii. Landscape and coastal character overlay zones
a.	Roadside produce stall	3.5m	3.5m
b.	All other buildings and structures	10m	5m

- c. Rooftop structures are exempt from the performance standard for height provided they do not exceed the maximum height limit for all other buildings and structures by more than one third of that limit.
- d. Buildings or structures must not protrude through the height restriction for the Taieri Aerodrome approach and take-off fans shown on the **Taieri Aerodrome flight fan mapped area**.

2. Activities that contravene this performance standard are restricted discretionary activities.

17.6.6 Number, Location and Design of Ancillary Signs

17.6.6.1 General

- a. A maximum of one sign attached to a building and one freestanding sign is allowed per site, except:
 - i. only one sign may be located in any part of a site in an ONF, SNL, HNCC or NCC overlay zone.
- b. Signs visible from a public place must meet all of the following performance standards, except that regulatory signs, directional signs and warning signs that do not exceed 0.25m² are exempt from these standards.
- c. Signs must comply with Rule 6.7.3 where visible from a road.
- d. Signs must not be illuminated or digital.
- e. Signs that contravene the performance standard for number, location and design of ancillary signs are restricted discretionary activities.

17.6.6.2 Signs attached to buildings

- a. The maximum height above ground level, at the highest point of any sign, is 4m, except:
 - i. the maximum height is 2m in an ONF, SNL, HNCC or NCC overlay zone.
- b. Signs must not be attached to roofs.
- c. Signs must not project higher than the lowest point of the roof, except as mounted flat against a parapet or gable end.
- d. The maximum area of signs, per display face, is 1m², except:
 - i. the maximum area of signs, per display face, is 0.6m² in an ONF or HNCC overlay zone.
- e. In an ONF or HNCC overlay zone the sign must only provide information about the values of the overlay zone

(refer Appendices A3 and A5).

17.6.6.3 Freestanding signs

- a. The maximum dimensions of freestanding signs are:
 - i. maximum height of 4m, except:
 1. 2m in an ONF, SNL, HNCC or NCC overlay zone;
 - ii. maximum area of 2m² per display face, except:
 1. 0.6m² per display face in an ONF or HNCC overlay zone; and
 2. 1m² per display face in an SNL or NCC overlay zone;
 - iii. maximum of 2 display faces per sign;
 - iv. maximum width of 2m, except:
 1. 1m in an ONF, SNL, HNCC or NCC overlay zone; and
 - v. maximum depth of 400mm.
- b. Freestanding signs must:
 - i. not obstruct parking, loading or access areas; and
 - ii. be positioned entirely within site boundaries.
- c. In an ONF or HNCC overlay zone the sign must only provide information about the values of the overlay zone (refer Appendices A3 and A5).

Note 17.6.6A - Other requirements outside of the District Plan

1. For additional restrictions that may apply to signs, see also:
 - a. NZ Transport Agency *Traffic Control Devices Manual, Part 3, Advertising Signs and Signs on State Highways Bylaw*.
 - b. Dunedin City Council Commercial Use of Footpaths Policy
 - c. Dunedin City Council Roadway Bylaw
 - d. Dunedin City Council Traffic and Parking Bylaw

17.6.7 Parking, Loading and Access Standards

Parking, loading and access must comply with Rule 6.6.

17.6.8 Reflectivity

New buildings and structures (except fences), and additions and alterations, in any landscape or coastal character overlay zone must comply with Rule 10.3.6.

17.6.9 Setbacks

17.6.9.1 Boundary setbacks

- a. New buildings and structures, and additions and alterations, must be set back from boundaries as follows:

Activity		1. Minimum setback from road boundary	2. Minimum setback from side and rear boundaries with sites held in separate ownership
i.	Residential buildings (See Figure 17.6.9.1A)	12m	10m

Activity		1. Minimum setback from road boundary	2. Minimum setback from side and rear boundaries with sites held in separate ownership
ii.	Non-residential buildings housing animals (See Figure 17.6.9.1B)	12m	1. Buildings with a maximum height of up to 7m above ground level: 15m. 2. Buildings with a maximum height that is over 7m above ground level: The greater of either 15m or twice the maximum height of the building.
iii.	Non-residential buildings not housing animals (See Figure 17.6.9.1C)	12m	1. Buildings with a maximum height of up to 7m above ground level: 6m. 2. Buildings with a maximum height that is over 7m above ground level: Twice the maximum height of the building.
iv.	Roadside produce stall	No requirement	6m
v.	All other structures	No requirement	No requirement

b. Activities that contravene this performance standard are restricted discretionary activities.

Figure 17.6.9.1A: Setbacks for residential buildings

Figure 17.6.9.1B: Setbacks for non-residential buildings housing animals

Figure 17.6.9.1C: Setbacks for non-residential buildings not housing animals

17.6.9.2 Forestry and shelterbelts and small woodlots setbacks

- a. Trees associated with forestry activity:
 - i. must not be planted within 30m of the boundary of any residential zone;
 - ii. must not be planted within 40m of a residential building where the building exists at the time of planting;
 - iii. must not shade a motorway or a strategic, arterial or collector road between 10am and 2pm on the

- shortest day of the year; and
- iv. must not be planted within 10m of the boundary of the designated rail corridor.
- b. Trees associated with shelterbelts and small woodlots:
 - i. must be set back, or managed so that they maintain, a minimum distance of their own height from any residential building on an adjoining site, where the building exists at the time of planting;
 - ii. must not shade a motorway or a strategic, arterial or collector road between 10am and 2pm on the shortest day of the year; and
 - iii. must not be planted within 10m of the boundary of the designated rail corridor.
- c. Activities that contravene this performance standard are restricted discretionary activities.

17.6.9.3 Setback from scheduled tree

New buildings and structures, additions and alterations, and any site development activities that involve the installation of impermeable surfacing must comply with Rule 7.5.2

17.6.9.4 Setback from National Grid

New buildings and structures, and additions and alterations must comply with Rule 5.6.1.1.

17.6.9.5 Setback from coast and water bodies

New buildings and structures, additions and alterations, and storage and use of hazardous substances must comply with Rule 10.3.3.

17.6.10 Vegetation Clearance Standards

17.6.10.1 Maximum area of vegetation clearance (UBMA)

Vegetation clearance in an **urban biodiversity mapped area** must comply with Rule 10.3.2.4.

17.6.10.2 Indigenous vegetation clearance – small scale thresholds

Indigenous vegetation clearance – small scale must comply with Rule 10.3.2.1.

17.6.10.3 Protected areas (vegetation clearance)

Vegetation clearance and indigenous vegetation clearance must comply with Rule 10.3.2.2.

17.6.10.4 Protected species (indigenous vegetation clearance)

Indigenous vegetation clearance must comply with Rule 10.3.2.3.

17.6.10.5 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the hazard 1 (land instability) overlay zone and hazard 2 (land instability) overlay zone must comply with Rule 11.3.2.

Rule 17.7 Subdivision Performance Standards

17.7.1 Access

General subdivision must comply with Rule 6.8.1.

17.7.2 Esplanade Reserves and Strips

General subdivision must comply with Rule 10.3.1.

17.7.3 Fire Fighting

General subdivision must comply with Rule 9.3.3.

17.7.4 Service Connections

General subdivision must comply with Rule 9.3.7.

17.7.5 Minimum Site Size

1. The minimum site size for new resultant sites in the Rural Residential 1 Zone is 2ha.
2. Subdivision activities that contravene this standard are non-complying, except in the following circumstances where the subdivision is discretionary:
 - a. all resultant sites are at least 75% of the minimum site size; and
 - b. a minimum of 50% of the resultant sites are not less than the minimum site size; and
 - c. the average area of the resultant sites is not less than the minimum site size.

17.7.6 Shape

1. Each resultant site that is intended to be developed must be of a size and shape that is large enough to contain a building platform of at least 8m by 15m that meets the performance standards of this Plan including but not limited to:
 - a. minimum car parking;
 - b. all setbacks from boundaries, water bodies and scheduled trees.
2. Building platforms must have a slope of 12° (1:4.7 or 21%) or less and must:
 - a. not contain esplanade reserves or strips;
 - b. not contain scheduled heritage buildings or structures;
 - c. not contain right-of-way easements; or
 - d. be located at least 12m from the outer edge of a National Grid support structure or centreline of an overhead National Grid transmission line.
3. For unreticulated areas, resultant sites must provide for a waste disposal area to be located at least 50m from any water body and Mean High Water Springs.
4. Sites created and used solely for the following purposes are exempt from the shape standard:
 - a. Scheduled ASBV or QEII covenant;
 - b. reserve;
 - c. access;
 - d. network utility; or
 - e. road.
5. Subdivision activities that do not meet this standard are restricted discretionary activities, except that subdivision activities that do not meet Rule 17.7.6.2.d are non-complying activities.

Rule 17.8 Assessment of Controlled Activities

Rule 17.8.1 Introduction

1. Controlled activities will be assessed in accordance with section 104 and 104A of the RMA. Council must grant the application and may impose conditions with respect to matters over which it has reserved its control.
2. Rule 17.8.2:
 - a. lists the matters over which Council has reserved its control; and
 - b. provides guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi); and
 - ii. conditions that may be imposed.
3. Where a controlled activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 17.9; and
 - iv. the matters of control become matters of discretion and will be assessed as indicated in this section.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 17.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 17.12; and
 - iii. the assessment guidance in this section will also be considered.

17.8.2 Assessment of controlled activities

Activity	Matters of control	Guidance on the assessment of resource consents
1. Affecting a scheduled heritage building or a scheduled heritage structure: • Earthquake strengthening that affects a protected part of a scheduled heritage building or scheduled heritage structure, where external features only are protected. • Restoration of a protected part of a scheduled heritage building or scheduled heritage structure that has a Heritage New Zealand Category 1 listing (as detailed in Appendix A1.1)	a. Effects on heritage values	See Rule 13.4

17.8.2 Assessment of controlled activities

Activity	Matters of control	Guidance on the assessment of resource consents
2. In the NCC Overlay Zone : New buildings greater than 60m² footprint on a landscape building platform	a. Size, design and appearance of buildings	See Rule 10.4
3. In the SNL Overlay Zone : New buildings greater than 60m² footprint on a landscape building platform	a. Size, design and appearance of buildings	See Rule 10.4

Rule 17.9 Assessment of Restricted Discretionary Activities (Performance Standard Contraventions)

Rule 17.9.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 17.9.2 - 17.9.6:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 17.9.2 - 17.9.6 apply as follows:
 - a. Rule 17.9.2 applies to all performance standard contraventions;
 - b. Rule 17.9.3 applies to land use performance standard contraventions;
 - c. Rule 17.9.4 applies to development performance standard contraventions;
 - d. Rule 17.9.5 applies to subdivision performance standard contraventions; and
 - e. Rule 17.9.6 applies to performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item.

17.9.2 Assessment of all performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. Performance standard contraventions	<i>Potential circumstances that may support a consent application include:</i> a. The degree of non-compliance with the performance standard is minor. b. The need to meet other performance standards, or site specific factors including topography, make meeting the standard impracticable. c. The nature of activities on surrounding sites, topography of the site and/or surrounding sites, or other site specific factors make the standard irrelevant as the adverse effects that the standard is trying to manage will not occur. d. In any landscape overlay zone, the development incorporates key design elements as set out in Appendix A3. e. Non-compliance with a development performance standard would improve the design of the development in a way that would result in positive effects and better achieve the identified objectives and policies of the Plan. <i>General assessment guidance:</i> f. Where more than one standard is contravened, the combined effects of the contraventions should be considered g. In any landscape overlay zone, the assessment will consider the landscape values outlined in Appendix A3. h. In any coastal character overlay zone, the assessment will consider the natural character values outlined in Appendix A5.

17.9.3 Assessment of land use performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
1. Family flats - design {Note - appeal relates to sites in landscape or coastal character overlay zones only}	a. Effects on rural residential character and visual amenity	<i>Relevant objectives and policies:</i> i. Objectives 17.2.1, and 17.2.3 ii. The character and visual amenity of the rural residential zones is maintained (Policy 17.2.3.1). iii. The design of family flats avoids, as far as practicable, the risk they will be used for a separate, non-ancillary, residential activity and future pressure to subdivide off family flats (Policy 17.2.1.7). <i>Potential circumstances that may support a consent application include:</i> iv. For contravention of maximum gross floor area, the family flat shares the same residential building as the primary residential unit. v. For family flats in separate buildings to the primary dwelling, the design of the family flat matches the design of the primary residential unit. vi. For family flats in separate buildings to the primary dwelling, landscaping or other forms of screening will be used to reduce the visibility of the family flat. vii. For family flats in separate buildings to the primary dwelling, the family flat will not be easily viewed from outside the site. viii. The size of the residential unit will not create future pressure or expectation for it to be subdivided or be consented to operate as a second residential activity on site
2. Electrical interference	a. Effects on health and safety	See Rule 9.5
3. Hours of operation	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Rural ancillary retail and working from home operate in a way (including hours of operations) that avoids or, if avoidance is not practicable, adequately mitigates noise or adverse effects on the amenity of surrounding properties (Policy 17.2.2.4).
4. Location	a. Effects on the safety and efficiency of the transport network	See Rule 6.10

17.9.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
5.	Maximum gross floor area	a. Effects on the vibrancy and economic and social success of the CBD and centres	<i>Relevant objectives and policies:</i> i. Objectives 2.3.2, 2.4.3, policies 2.3.2.2 and 2.4.3.4 ii. Objective 17.2.1 iii. Rural ancillary retail and working from home are at a scale that is ancillary to and supportive of productive rural activities or conservation on the same property (Policy 17.2.1.3.a).
		b. Effects on accessibility	
6.	Minimum car parking	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
		b. Effects on accessibility	
7.	Separation distances	a. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Residential buildings minimise, as far as practicable, the potential for reverse sensitivity by being set back an adequate distance from forestry, intensive farming, domestic animal boarding and breeding (including dogs), mining, landfills and wind generators - large scale (Policy 17.2.2.1.b). <i>Potential circumstances that may support a consent application include:</i> iii. For non-compliance with separation distance from forestry, the new residential activity is located to the north of the forestry activity.
8.	Tree species	a. Effects on biodiversity values	See Rule 10.5
		b. Effects on natural character of the coast	
		c. Effects on landscape values	

17.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Boundary setbacks	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Buildings that house animals are set back from site boundaries an adequate distance to ensure adverse effects on adjoining residential activities are avoided or, if avoidance is not practicable, are no more than minor (Policy 17.2.2.2). iii. New buildings are located an adequate distance from site boundaries to ensure a good level of amenity for residential activities on adjoining sites (Policy 17.2.2.3). <i>Potential circumstances that may support a consent application include:</i> iv. Screening or landscaping will be used in the development to ensure a good level of amenity for residential activities on adjoining sites. v. Where a building used to house animals contravenes the boundary setback standard, the type and/or number of animals or the frequency of housing them mean that the potential for adverse effects from noise, odour or dust on sensitive activities on adjoining sites will be avoided or minimised.
		b. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Residential buildings minimise, as far as practicable, the potential for reverse sensitivity by being set back an adequate distance from site boundaries (Policy 17.2.2.1.a). <i>Potential circumstances that may support a consent application include:</i> iii. Screening or landscaping will ensure potential for reverse sensitivity is minimised as far as practicable.

17.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
		c. Effects on rural residential character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 17.2.3 ii. Buildings and structures are set back from site boundaries to maintain the character and visual amenity of the rural residential zones (Policy 17.2.3.1). <i>Potential circumstances that may support a consent application include:</i> iii. Landscaping or other forms of screening will be used to reduce the visibility of buildings or structures. iv. Colours and materials used in the development will blend in with the character of the surrounding rural residential environment, with natural finishes and low levels of reflectivity. v. The proposed building or structure will not obstruct any important views from public viewpoints, or cause significant obstruction of views from dwellings on surrounding sites. vi. The proposed building platform is low lying in relation to surrounding sites and roads and the proposed building will not be easily viewed from outside the site. vii. There are already existing buildings on the site in breach of the same setback. viii. There would be positive effects from maintaining open space through the clustering of buildings on the site.
2.	Fire fighting	a. Effects on health and safety	See Rule 9.5
3.	Hazardous substances quantity limits and storage requirements	a. Effects on health and safety	See Rule 9.5

17.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
4.	Forestry and shelterbelts and small woodlots setbacks	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Forestry and shelterbelts and small woodlots are set back an adequate distance to avoid or minimise, as far as practicable, significant effects from shading on residential buildings on surrounding properties (Policy 17.2.2.6). iii. Forestry is located and designed to avoid or, if avoidance is not practicable, adequately mitigate shading, noise, traffic and other nuisance effects on surrounding properties (Policy 17.2.2.7). <i>Potential circumstances that may support a consent application include:</i> iv. The area to be planted is to the south of any adjoining residential zone or residential buildings on an adjoining site. v. Slope or orientation or other topographical aspects of the sites involved mean that there will be no shading of residential buildings on an adjoining site.
		b. Effects on health and safety	See Rule 9.5
		c. Effects on the safety and efficiency of the transport network	See Rule 6.10
5.	Maximum height	a. Effects on rural residential character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 17.2.3 ii. Buildings and structures are of a height that maintains the character and visual amenity of the rural residential zones (Policy 17.2.3.1). <i>Potential circumstances that may support a consent application include:</i> iii. As for Rule 17.9.4.1.c.iii-vi iv. The terrain provides an adequate backdrop to the proposed building or structure and mitigates any adverse visual effects from the building or structure.

17.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
6.	Number, location and design of ancillary signs	a. Effects on rural residential character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 17.2.3 ii. Ancillary signs are located and designed to maintain the character of the rural residential zones, including by being of an appropriate size and number to convey information about the name, location and nature of the activity on site to passing pedestrians and vehicles and not being oversized or too numerous for that purpose (Pol 17.2.3.4).
		b. Effects on the safety and efficiency of the transport network	See Rule 6.10
7.	Parking, loading and access standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
8.	Setback from coast and water bodies	a. Effects on biodiversity values and natural character of riparian margins and the coast	See Rule 10.5
		b. Effects on public access	
		c. Risk from natural hazards	See Rule 11.4
9.	Setback from scheduled tree	a. Effects on long term health of tree	See Rule 7.6
10.	Vegetation clearance standards: • Protected species (indigenous vegetation clearance)	a. Effects on biodiversity values	See Rule 10.5
11.	Vegetation clearance standards: • Protected areas (vegetation clearance)	a. Effects on biodiversity values and natural character of the coast and riparian margins	See Rule 10.5

17.9.5 Assessment of subdivision performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Access	a. Effects on accessibility	See Rule 6.10
2.	Esplanade reserves and strips	a. Effects on biodiversity values and the natural character of the coast and riparian margins	See Rule 10.5
		b. Effects on public access	
3.	Fire fighting	a. Effects on health and safety	See Rule 9.5
4.	Service connections	a. Effects on efficiency and affordability of infrastructure	See Rule 9.5

17.9.5 Assessment of subdivision performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
5. Shape	<i>Relevant objectives and policies:</i> a. Objective 2.4.1 b. Subdivision is designed to ensure any future land use or development is able to meet the performance standards in the zone, or where in a structure plan mapped area, reflects the requirements of the structure plan mapped area performance standards, unless: i. a resource consent is approved for a development that does not meet the performance standard and the subdivision is intended for and capable of providing for that approved development; or ii. the resultant site is required for: 1. Scheduled ASBV or QEII covenant; or 2. reserve; or 3. access; or 4. utility; or 5. road (Policy 2.4.1.8). <i>General assessment guidance:</i> c. Non-compliance with the performance standard for shape will be assessed based on which performance standard(s) the shape of the resultant site does not provide for compliance with. See matters of discretion and assessment rules in relation to performance standard contraventions for: i. minimum car parking; ii. boundary setbacks; iii. setbacks from water bodies; iv. setback from scheduled tree; and v. setback from National Grid. d. For contravention of the building platform slope part of the shape performance standard (Rule 17.7.6.2), see the matters of discretion and assessment rules in relation to earthworks - large scale (Rule 8A.7.2.1). <i>Conditions that may be imposed include:</i> e. A building platform registered against the certificate of title by way of a consent notice. f. Restrictions or conditions, including by way of consent notice, on land use or development activities allowed on the site. g. A building platform may be required to be registered against the title by way of consent notice.	

17.9.6 Assessment of performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. In a hazard overlay zone : - Maximum area of vegetation clearance in the hazard overlay zones (Hazard 1 or 2 (land instability) overlay zones) - Relocatable buildings (Hazard 3 (coastal) Overlay Zone) - Outdoor Storage (Hazard 1 (flood) Overlay Zone) - Hazardous substances quantity limits and storage requirements	a. Risk from natural hazards	See Rule 11.4
2. In the SNL Overlay Zone : - Maximum height - Reflectivity	a. Effects on landscape values	See Rule 10.5
3. In the SNL or ONF overlay zones : Number, location and design of ancillary signs	a. Effects on landscape values	See Rule 10.5
4. In the NCC or HNCC overlay zones : Number, location and design of ancillary signs	a. Effects on natural character of the coast	See Rule 10.5
5. In the NCC Overlay Zone : - Maximum height - Reflectivity	a. Effects on natural character of the coast	See Rule 10.5
6. In an urban biodiversity mapped area : Vegetation clearance standards: Maximum area of vegetation clearance (UBMA)	a. Effects on biodiversity values	See Rule 10.5
7. In the Taieri Aerodrome flight fan mapped area : Maximum height (Rule 17.6.5.1.d)	a. Effects on health and safety	See Rule 9.5
8. Affecting a scheduled heritage building or scheduled heritage structure : Materials and design	a. Effects on heritage values	See Rule 13.5

17.9.6 Assessment of performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
9. In a wāhi tūpuna mapped area: • Maximum height • Setback from coast and water bodies • Esplanade reserves and strips • Vegetation clearance standards: Protected areas (vegetation clearance), Protected species (indigenous vegetation clearance)	a. Effects on cultural values of Manawhenua	See Rule 14.3

Rule 17.10 Assessment of Restricted Discretionary Activities

Rule 17.10.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 17.10.2 - 17.10.5:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how a consent application will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 17.10.2 - 17.10.5 apply as follows:
 - a. Rule 17.10.2 applies to restricted discretionary land use activities;
 - b. Rule 17.10.3 applies to restricted discretionary development activities;
 - c. Rule 17.10.4 applies to restricted discretionary subdivision activities; and
 - d. Rule 17.10.5 applies to restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item.
4. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in the Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.
5. Where a restricted discretionary activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 17.9; and
 - iv. the matters of discretion in this section will be assessed as indicated.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 17.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 17.12; and
 - iii. the assessment guidance in this section will also be considered.
6. With respect to section 104(2) of the RMA, Council will not consider family flats or papakāika as part of the permitted baseline in considering residential density effects in the rural residential zones.

17.10.2 Assessment of restricted discretionary land use activities

Land use activities	Matters of discretion	Guidance on the assessment of resource consents
1. All restricted discretionary land use activities in the rural residential zones that also involve development activities	a. Effects on rural residential character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 17.2.3 ii. Any adverse effects from development on rural residential character and visual amenity will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 17.2.3.3). <i>Potential circumstances that may support a consent application include:</i> iii. Landscaping or other forms of screening will be used to reduce the visibility of development from surrounding properties and public viewpoints. iv. Signage and entranceways are in character with the surrounding environment.
2. All high trip generators, which include: • any activities that generate 250 or more vehicle movements a day	a. Effects on accessibility b. Effects on the safety and efficiency of the transport network	See Rule 6.11

17.10.2 Assessment of restricted discretionary land use activities

Land use activities	Matters of discretion	Guidance on the assessment of resource consents
3. Forestry	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Forestry is located and designed to avoid or, if avoidance is not practicable, adequately mitigate shading, noise, traffic and other nuisance effects on surrounding properties (Policy 17.2.2.7).
	b. Effects on rural residential character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 17.2.3 ii. Forestry is located, designed and managed to avoid or, if avoidance is not practicable, adequately mitigate adverse effects on the character and visual amenity of the rural residential zones (Policy 17.2.3.2). <i>Potential circumstances that may support a consent application include:</i> iii. The forestry is located on land that is not visually prominent. iv. The forestry is of a size and on-site location that will lessen visual effects. v. Screen planting with other species will be used to reduce visual effects.
	c. Effects on the safety and efficiency of the transport network	See Rule 6.11
4. Veterinary services (large animal practice)	a. Effects on amenity of surrounding properties	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Any adverse effects on the amenity of surrounding rural residential properties are avoided or, if avoidance is not practicable, are adequately mitigated (Policy 17.2.2.5). <i>Potential circumstances that may support a consent application include:</i> iii. The activity is set back a sufficient distance from its own boundaries to mitigate adverse effects on surrounding residential activities.
	b. Effects on the safety and efficiency of the transport network	See Rule 6.11

17.10.3 Assessment of restricted discretionary development activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
1.	High trip generators: • New or additions to parking areas that result in 50 or more new parking spaces	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
		b. Effects on accessibility	
2.	Indigenous vegetation clearance – large scale	a. Effects on biodiversity values	See Rule 10.6

17.10.4 Assessment of restricted discretionary subdivision activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
----------	--	-----------------------	---

17.10.4 Assessment of restricted discretionary subdivision activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
1.	General subdivision	a. Effects on on-site amenity	<i>Relevant objectives and policies:</i> i. Objective 17.2.2 ii. Subdivisions deliver sites that achieve a high quality of on-site amenity through being large enough and of a shape that is capable of supporting rural residential development (Policy 17.2.2.8).
		b. Effects on rural residential character and visual amenity	<i>Relevant objectives and policies:</i> i. Objective 17.2.3 ii. Subdivisions are designed to ensure any associated future land use and development will maintain or enhance the character and visual amenity of the rural residential zones (Policy 17.2.3.5). <i>Potential circumstances that may support a consent application include:</i> iii. Sites are designed to respond to the topography and characteristics of the land and surrounding environment; iv. Building platforms are located to respond to land form and avoid significant visual effects; v. Driveways, network utilities and services are designed and located to minimise the need for significant earthworks.
		c. Effects on long term maintenance of rural land for productive rural activities	<i>Relevant objectives and policies:</i> i. Objective 17.2.4 ii. Subdivisions are designed to ensure sites are of shape and size that enable lifestyle blocks or hobby farms, including the keeping of livestock, and avoid sites that will be used purely as large lot residential living (Policy 17.2.4.3).
		d. Effects on biodiversity values and natural character of riparian margins and the coast	See Rule 10.6
		e. Effects on public access	
		f. Effects on health and safety	See Rule 9.6
		g. Effects on affordability and efficiency of infrastructure	
		h. Effects on the safety and efficiency of the transport network	See Rule 6.11

17.10.4 Assessment of restricted discretionary subdivision activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
	i. Risk from natural hazards	See Rule 11.5

17.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. In the ONF Overlay Zone : - Indigenous vegetation clearance - large scale - Shelterbelts and small woodlots - General subdivision	a. Effects on landscape values	See Rule 10.6
2. In the SNL Overlay Zone : - Forestry - New buildings or structures greater than 60m² footprint, or additions and alterations that result in a building or structure that is greater than 60m² footprint - General subdivision	a. Effects on landscape values	See Rule 10.6
3. In the HNCC Overlay Zone : - Shelterbelts and small woodlots - General subdivision	a. Effects on natural character of the coast	See Rule 10.6
4. In the NCC Overlay Zone : - Forestry - New buildings or structures greater than 60m² footprint, or additions and alterations that result in a building or structure that is greater than 60m² footprint - Indigenous vegetation clearance - large scale - General subdivision	a. Effects on natural character of the coast	See Rule 10.6
5. In a wāhi tūpuna mapped area where activity is identified as a threat: - New buildings and structures - General subdivision - Forestry - Indigenous vegetation clearance - large scale - Shelterbelts and small woodlots	a. Effects on cultural values of Manawhenua	See Rule 14.4

17.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity		Matters of discretion	Guidance on the assessment of resource consents
6.	Activities affecting a scheduled heritage building or scheduled heritage structure : - Additions and alterations that affect a protected part of a scheduled heritage building or scheduled heritage structure - Removal for relocation - All subdivision activities on sites containing a scheduled heritage building or scheduled heritage structure	a. Effects on heritage values	See Rule 13.6
7.	In all hazard overlay zones, swale mapped areas and dune system mapped areas : General subdivision	a. Risk from natural hazards	See Rule 11.5
8.	In a hazard 1 or 2 (flood) overlay zone (see Rule 17.3.6): New buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area	a. Risk from natural hazards	See Rule 11.5
9.	In the Hazard 2 (flood) Overlay Zone : - Natural hazards sensitive activities - Natural hazards potentially sensitive activities	a. Risk from natural hazards	See Rule 11.5
10.	In the National Grid Corridor mapped area : All subdivision activities	a. Effects on health and safety	See Rule 5.8
		b. Reverse sensitivity effects	
		c. Effects on efficient and effective operation of network utilities	

17.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
11. In an ASBV: • New buildings or structures greater than 60m² footprint, or additions and alterations that result in a building or structure that is greater than 60m² footprint • General subdivision • Shelterbelts and small woodlots • Site development activities (except for outdoor storage, parking, loading and access, vegetation clearance, storage and use of hazardous substances)	a. Effects on biodiversity values	See Rule 10.6
12. In the radio transmitters mapped area: • General subdivision	a. Reverse sensitivity effects	See Rule 5.8

Rule 17.11 Assessment of Discretionary Activities

Rule 17.11.1 Introduction

1. Discretionary activities will be assessed in accordance with section 104 and 104B of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. Rules 17.11.2 - 17.11.3 provide guidance on how a consent application for the listed discretionary activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi);
 - b. potential circumstances that may support a consent application;
 - c. general assessment guidance, including any effects that will be considered as a priority; and
 - d. conditions that may be imposed.
3. Rules 17.11.2 - 17.11.3 apply as follows:
 - a. Rule 17.11.2 applies to discretionary land use activities; and
 - b. Rule 17.11.3 applies to discretionary performance standard contraventions.
4. With respect to section 104(2) of the RMA, Council will not consider family flats or papakāika as part of the permitted baseline in considering residential density effects in the rural residential zones.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

17.11.2 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
1. • Rural tourism • Rural research • Community and leisure - large scale • Early childhood education • Sport and recreation • Visitor accommodation	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 17.2.2, 17.2.3, 17.2.4 b. Any adverse effects on the amenity of surrounding rural residential properties are avoided or, if avoidance is not practicable, are adequately mitigated (Policy 17.2.2.5). c. Any adverse effects on rural residential character and visual amenity are avoided or, if avoidance is not practicable, are adequately mitigated (Policy 17.2.3.3). d. Where in a high class soils mapped area, adverse effects on high class soils are avoided or, if avoidance is not practicable, adverse effects are no more than minor (Policy 17.2.4.2). <i>General assessment guidance:</i> e. In assessing effects on amenity, Council will consider the effects of vehicle movements on the site as well as any significant changes to the number or nature of vehicle movements on the adjoining road. <i>Potential circumstances that may support a consent application include:</i> f. The activity is set back a sufficient distance from its own boundaries and existing sensitive activities on surrounding sites. g. Development activities meet relevant performance standards. h. Development is not situated on visually prominent land.

17.11.2 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
	i. The form, scale and materials used in buildings and structures are compatible with the character and visual amenity of the rural residential zones. j. Colours and materials used in development are chosen to blend in with the rural residential setting and minimise reflectivity. k. Landscaping or other forms of screening are used to reduce the visibility of development from surrounding properties and public viewpoints. <i>Conditions that may be imposed include:</i> l. Restriction on hours of operation m. Controls on on-site lighting n. A requirement for screening of storage areas o. A requirement to control dust p. Provision of car parking areas <i>Relevant guidance from other sections (priority considerations):</i> q. See Section 6.12 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transportation network and its affordability to the public. r. In an ASBV, see section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and effects related to biodiversity values. s. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety. t. For activities that may have effects on biodiversity values, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1. u. For activities adjacent to water bodies and the coast, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.2. v. For activities taking place within the radio transmitters mapped area, see Section 5.9 for guidance on the assessment of resource consents in relation to management of reverse sensitivity effects on Radio New Zealand's facilities at 740 Highcliff Road and 35 Karetai Road. w. See Section 14.5 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.

17.11.3 Assessment of discretionary performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. • Acoustic insulation • Noise - where the limit is exceeded by less than 5dB LAeq (15min) • Light spill - where the limit is exceeded by 25% or less	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
2. Minimum site size (Rule 17.7.5.2)	<i>Potential circumstances that may support a consent application:</i> a. The parent site contains significant topographical features such as water bodies or human-made features such as roads or rail corridors which make meeting the minimum site size impractical. <i>Relevant guidance from other sections (priority considerations):</i> b. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.1 and effects related to the efficiency and affordability of infrastructure.

Rule 17.12 Assessment of Non-complying Activities

Rule 17.12.1 Introduction

1. Non-complying activities will be assessed in accordance with section 104, 104B and 104D of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. Rules 17.12.2 - 17.12.6 provide guidance on how a consent application for the listed non-complying activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi); and
 - b. general assessment guidance, including any effects that will be considered as a priority.
3. Rules 17.12.2 - 17.12.6 apply as follows:
 - a. Rule 17.12.2 applies to all non-complying activities;
 - b. Rule 17.12.3 applies to non-complying land use activities;
 - c. Rule 17.12.4 applies to non-complying development activities;
 - d. Rule 17.12.5 applies to non-complying subdivision activities; and
 - e. Rule 17.12.6 applies to non-complying performance standard contraventions.
4. With respect to section 104(2) of the RMA, Council will not consider family flats or papakāika as part of the permitted baseline in considering residential density effects in the rural residential zones.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

17.12.2 Assessment of all non-complying activities

Activity	Guidance on the assessment of resource consents
1. All non-complying activities, including but not limited to the activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 17.2.1, 17.2.2, 17.2.3, 17.2.4 b. The activity is consistent with the strategic directions. including but not limited to: i. Objective 2.2.4 ii. Objective 2.7.1 <i>General assessment guidance:</i> c. In assessing activities that are non-complying due to being in an overlay zone, mapped area, in a scheduled site, or affecting a scheduled item, that otherwise require resource consent, the assessment guidance provided in relation to the underlying activity status will also be considered. <i>Relevant guidance from other sections (priority considerations):</i> d. For activities taking place within the radio transmitters mapped area, see Section 5.10 for guidance on the assessment of resource consents in relation to management of reverse sensitivity effects on Radio New Zealand's facilities at 740 Highcliff Road and 35 Karetai Road. e. See Section 6.13 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3, and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. f. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety g. For activities that may have effects on biodiversity values, see Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1. h. For activities adjacent to water bodies and the coast, see Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.2.

17.12.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
1. Commercial advertising	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.4.1 b. Policy 2.4.1.6.c
2. • Cemeteries • Crematoriums • Landfills	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua.

17.12.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
3. In the ONF or HNCC overlay zones: • Domestic animal boarding and breeding (not including dogs) • Forestry • Standard residential • Veterinary services - large animal practice • Visitor accommodation • Emergency services	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to objectives 10.2.3 and 10.2.5 and effects related to natural character of the coast and landscape values.
4. In the hazard 1 (flood) overlay zones (see Rule 17.3.6): • Natural hazards potentially sensitive activities • Natural hazards sensitive activities	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.
5. In a wāhi tūpuna mapped area: • Forestry • Mining	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua.
6. In an ASBV: • Rural activities (except for rural ancillary retail, rural tourism and rural research) • Residential activities (except for working from home) • Early childhood education • Commercial activities (except for stand-alone car parking) • Industrial activities • Major facility activities	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.
7. In the SNL or NCC overlay zones: • Emergency services	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objectives 10.2.3 and 10.2.5 and effects related to natural character of the coast and landscape values.

17.12.4 Assessment of non-complying development activities

Activity	Guidance on the assessment of resource consents
1. Demolition of a protected part of a scheduled heritage building or scheduled heritage structure	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 13.8 for guidance on the assessment of resource consents in relation to Objective 13.2.1 and effects on heritage values.
2. In the ONF or HNCC overlay zones : - New buildings or structures - Additions and alterations - Indigenous vegetation clearance – large scale (HNCC overlay zone)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objectives 10.2.3 and 10.2.5 and effects related to natural character of the coast and landscape values.
3. In a wāhi tūpuna mapped area : - New buildings or structures - Additions and alterations	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.
4. In an ASBV : Indigenous vegetation clearance – large scale	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.
5. In a dune system mapped area : Hazard exclusion areas	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.

17.12.5 Assessment of non-complying subdivision activities

Activity	Guidance on the assessment of resource consents
1. All other general subdivision in the Rural Residential 2 Zone	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 17.2.4 b. General subdivision of sites in the Rural Residential 2 Zone is avoided unless it does not result in an increase in residential development potential (Policy 17.2.4.4).
2. Cross lease, company lease and unit title subdivision	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 17.2.1 b. Cross lease, company lease and unit title subdivision is avoided in the rural residential zones unless it does not result in an increase in development potential beyond that which might be achieved through a general subdivision (Policy 17.2.1.6).

17.12.5 Assessment of non-complying subdivision activities

Activity	Guidance on the assessment of resource consents
3. In an ASBV : • All other general subdivision in the Rural Residential 2 Zone • Cross lease, company lease and unit title subdivision	<i>Relevant guidance from other sections (priority considerations):</i> See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.

17.12.6 Assessment of non-complying performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. Density	<i>Relevant objectives and policies (priority considerations):</i> - Objective 2.6.1, Policy 2.6.1.5 - Objective 17.2.1 - Residential activity in the rural residential zone is at a density that enables lifestyle blocks and hobby farms (Policy 17.2.1.2). <i>Relevant guidance from other sections (priority considerations):</i> - See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.1 and effects related to the efficiency and affordability of infrastructure.
2. Setback from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and public health and safety
3. • Light spill - where the limit is exceeded by greater than 25% • Noise - where the limit is exceeded by 5bD LAeq (15 min) or more • Hazardous substances quantity limits and storage requirements (Rule 9.3.4.2)	<i>Relevant guidance from other sections (priority considerations):</i> See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
4. Hazard exclusion areas (hazard overlays)	<i>Relevant guidance from other sections (priority considerations):</i> See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.

17.12.6 Assessment of non-complying performance standard contraventions

Performance standard		Guidance on the assessment of resource consents
5.	Minimum site size	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 2.2.4 and 2.6.1 b. Policies 2.2.4.4 and 2.6.1.5 c. Objectives 17.2.2, 17.2.3, 17.2.4 d. Policies 17.2.2.8, 17.2.3.5, 17.2.4.2, 17.2.4.3 <i>Relevant guidance from other sections (priority considerations):</i> e. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.1 and effects related to the efficiency and affordability of infrastructure.
6.	Family flats - Tenancy	<i>Relevant objectives and policies (priority considerations):</i> a. Strategic Directions: Objective 2.6.1, Policy 2.6.1.2 b. Objective 17.2.1 c. The tenancy of family flats avoids, as far as practicable, the risk they will be used for a separate, non-ancillary residential activity and future pressure to subdivide off family flats (Policy 17.2.1.7)
7.	Shape (Rule 17.7.6.2.d) - setback of building platforms from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and reverse sensitivity.
8.	In an ASBV : • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.
9.	In the ONF Zone : • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.5 and the effects related to landscape values.
10.	In the HNCC and NCC overlay zones : • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.3 and the effects related to natural character of the coast.

18. Commercial and Mixed Use Zones

18.1 Introduction

It is important for the economic and social success of Dunedin that it is a vibrant and exciting city. A vibrant city is lively and full of activity, due to a high level of pedestrian activity in the central city and centres and a wide range of activities occurring in these places. Key qualities that contribute to the success of the central city and centres are that there are attractions to encourage people to go there, that they are accessible (easy to get to and around) and that they are safe and enjoyable places to be.

To achieve a vibrant city it is important that Dunedin has an urban form that is accessible, clusters activities into walkable centres and a built form which supports pedestrian activity.

The key resource management issues that are being experienced or are anticipated in the commercial and mixed use zoned areas of Dunedin are:

- The retention and enhancement of the vitality and viability of the Central Business District and Centres is a key resource management issue for Dunedin City. There is a need to provide for a wide range of commercial, community, industrial and residential activities, at high densities in the CBD and centres in order to realise the social and economic agglomeration benefits that derive from the co-location of different activities.
- A need to provide a sufficient supply for the projected demand for retail and office space while avoiding an oversupply and decentralisation of activities, which could have adverse effects on the economic viability and vitality of the CBD.
- Different types of retail activity have different effects on the economic viability and vitality of the CBD and centres. For instance, having trade related and yard based retail in different parts of the city (including some areas currently zoned as Industrial) does not affect the vibrancy of centres in the same manner as general retail does. As such, a highly specific zoning response is necessary.
- While streetscape amenity values vary within the commercial and mixed use zones, land uses and development can have adverse effects on streetscape amenity values and it is important to maintain and enhance the existing amenity of all commercial areas, albeit to different levels.

There is the potential for conflicts to arise between different activities provided for within the commercial and mixed use zones as well as at the edges of the commercial and mixed use zones (for instance between residential and noisier activities) and these need to be well managed.

In response to the issues, the Plan establishes a group of thirteen commercial and mixed use zones in the city. These zones provide for a hierarchy of centres, anchored around one Central Business District (CBD), which provides a focus for economic and employment growth, driven by:

- attraction of businesses to these areas based on density of activity in the area and higher visitation;
- opportunities for social interaction, exchange of ideas and business cooperation;
- public investment in public amenities and other infrastructure in the CBD; and
- opportunities for agglomeration benefits from the co-location of activities.

The CBD Zone is supported by six different types of commercial centres within the suburban and rural parts of the city. These zones are collectively known as the Central Business District and centres zones. In order to make sure these areas are attractive places to visit, a wide range of commercial, community and residential activities are provided for in the CBD and centres, with design controls on buildings and structures to ensure a safe and good quality streetscape environment, for people to spend time in, which has a high level of pedestrian amenity.

The centres hierarchy is supported by a group of other commercial and mixed use zones which either surround the

Central Business District or are more separated from the CBD. There are four zones within the CBD edge mixed use zone group, which are the Warehouse Precinct Zone (WP), Princes, Parry and Harrow Street Zone (PPH), Smith Street and York Place Zone (SSYP) and Harbourside Edge Zone (HE). There are also two zones within the other commercial group of zones, which are the Trade Related Zone (TR) and CBD Edge Commercial zones (CEC).

These zones have characteristics (including built form, site size, land use activities and location) which make them distinct from each other and from the CBD and centres. A tailored range of land use activities and performance standards are applied to each zone. As such, the range of activities, the types of controls that are applied to development activities (including new buildings and site development activities) and the expected level of amenity vary between the zones.

Where any of the commercial and mixed use zones adjoin residential or recreation zoned areas, performance standards are applied to these commercial zones to ensure the character and amenity of these more sensitive adjoining environments will be protected.

18.1.1 Zone descriptions

18.1.1.1 Central Business District (CBD) Zone

The Central Business District (CBD) Zone encompasses the central part of the city and extends northwards along George Street to Albany Street. It includes the Octagon and Moray Place, extends south along upper Princes Street to Hope Street, east to include the Dunedin Railway Station and Toitū Otago Settlers Museum and west to the Smith Street and York Place (SSYP) Zone. The CBD is the focus for employment, retail, entertainment, leisure, visitor accommodation and art and culture activities.

Most of the CBD also has a **primary pedestrian street frontage mapped area** or **secondary pedestrian street frontage mapped area** applied to it, to ensure the best possible streetscape environment for users, and is covered by a heritage precinct overlay to protect the distinctive character of the area. Performance standards are applied to protect the streetscape amenity and heritage streetscape character, respectively, of these areas.

18.1.1.2 Centres Zones

A range of different sized commercial centres are spread throughout the urban area of Dunedin and within outlying towns of the wider district. Principal, suburban and rural centre zones provide hubs for social and economic activity for suburban and rural communities. The Principal Centre Zone includes former pre-amalgamation town centres and is located at Green Island, Mosgiel, Port Chalmers and South Dunedin. The Suburban Centre Zone includes Caversham, Gardens, Mornington and Roslyn, and the Rural Centre Zone includes Outram, Middlemarch, Waikouaiti and Waitati.

There are also Neighbourhood Centre zones, which provide for the day to day needs of individual neighbourhoods, with the Neighbourhood Destination Centre Zone also servicing visitor needs, and the Neighbourhood Convenience Centre Zone also servicing the needs of passing motorists. The Neighbourhood Centre Zone includes Andersons Bay Terminus, Brighton, Brockville, Corstorphine, Forbury, Helensburgh, Hillside, Larnach, Macandrew Bay, Maori Hill, Musselburgh, the southern part of Andersons Bay Road, the area adjoining the University and Wakari. The Neighbourhood Convenience Centre Zone includes Kaikorai North, Kaikorai South, North Dunedin and South Mosgiel; and the Neighbourhood Destination Centre Zone includes St Clair and Portobello.

Primary pedestrian street frontage mapped area and **secondary pedestrian street frontage mapped area** are applied within these centres and the Port Chalmers Principal Centre Zone also contains a heritage precinct protecting part of the centre.

18.1.1.3 Warehouse Precinct Zone (WP)

The Warehouse Precinct Zone adjoins the southern part of the CBD Zone and is bounded by Queens Gardens, Bond Street, Police Street and Cumberland Street. The zone provides for a mix of inner city living, visitor accommodation,

conference, meeting and function, entertainment and exhibition, light industrial, restaurant and bulky goods and trade related retail activity. General retail and office activity is also provided for, if it occurs in scheduled heritage buildings, in order to encourage their restoration.

The entire zone is within a heritage precinct and has a **secondary pedestrian street frontage mapped area** applied to it.

18.1.1.4 Princes, Parry and Harrow Street Zone (PPH)

The Princes, Parry and Harrow Street Zone encompasses the southern part of Princes Street and an area around Parry and Harrow Streets. The PPH Zone provides for a mix of inner-city residential living, training and education, visitor accommodation, industrial, trade and yard based retail activities.

Performance standards applied to this zone reflect the lower expectations for pedestrian amenity.

18.1.1.5 Smith Street and York Place Zone (SSYP)

The Smith Street and York Place Zone is a small zone adjoining the CBD. The SSYP Zone provides for visitor accommodation, training and education and residential activity in keeping with its existing character. Offices are also provided for where undertaken within scheduled buildings, to encourage their restoration.

Performance standards applied to this zone reflect the residential and commercial character of this zone.

18.1.1.6 Harbourside Edge Zone (HE)

The Harbourside Edge Zone encompasses an area adjoining Birch Street and Kitchener Street and extends to the waterfront. The zone provides for the continuation of the existing industry, while allowing for a transition toward a more mixed use environment by also providing for conference, meeting and function, entertainment and exhibition, restaurant, training and education, visitor accommodation, residential activities and a limited amount of office activity. In order to ensure an attractive place to live, work, and visit, new buildings within the HE Zone will be required, through a restricted discretionary resource consent process, to be designed and located to provide a high level of amenity. In addition, a performance standard requires the provision of public pedestrian access to and along the coast.

18.1.1.7 Trade Related Zone (TR)

The Trade Related Zone is an area around Andersons Bay Road which provides for large format food and beverage retail, trade related, and yard based retail as well as other specific categories of activities which generate high traffic volumes and require larger sites than are available within the CBD and centres. These characteristics mean that such retail types are likely to be incompatible with the amenity expectations of the CBD and centres. Performance standards applied to this zone reflect the more car-focused characteristics and the lower expectations for pedestrian amenity of this environment.

18.1.1.8 CBD Edge Commercial Zones (CEC)

There are two CBD Edge Commercial zones:

- an area south of the CBD (CEC – South Zone) around Cumberland Street that provides for large format food and beverage, bulky goods, trade related and yard based retail, as well as industry; and
- an area to the north-east of the CBD (CEC – North Zone) between Hanover Street and Stuart Street. This area provides for all the activities in the CEC - South Zone, as well as additional activities, including hospital and office activity. The additional activities are provided due to its closer proximity to the main retail area and Dunedin Hospital.

18.2 Objectives and Policies

Objective 18.2.1

Dunedin has a well-structured and economically and socially successful range of commercial and mixed use environments based on:

- a. the CBD, which is the focus for employment, retail, entertainment, leisure, visitor accommodation, and arts and culture activities;
- b. vibrant and viable principal centre, suburban and rural centre zones, which provide hubs for social and economic activity for rural, suburban and principal communities;
- c. Neighbourhood Centre Zone, which provides for the day to day needs of local areas, with the Neighbourhood Destination Centre Zone also servicing visitor needs, and the Neighbourhood Convenience Centre Zone also servicing the needs of passing motorists;
- d. a range of mixed use zones (WP, PPH, SSYP and HE zones) around the edge of the CBD, which provide for a compatible mix of inner-city living, commercial, and light industrial activities;
- e. an area south of the CBD (CEC – South Zone), which provides for high trip generators, large format general retail and bulky goods retail which are likely to be incompatible with the amenity expectations of the CBD and which may require larger sites than available in the CBD;
- f. an area to the north-east of the CBD (CEC – North Zone), similar to the CEC - South but also containing a mix of activities which support the adjoining CBD and Hospital zones;
- g. an area around Andersons Bay Road (TR Zone), which provides for trade related retail and specific categories of high trip generators, which are likely to be incompatible with the amenity expectations of the CBD; and
- h. an area around Birch and Kitchener Streets and the coast (HE Zone) which provides for the continuation of the existing environment characterised by industrial activity, while allowing for a transition toward a vibrant and attractive place to live, work and visit by also providing for conference, meeting and function, entertainment and exhibition, restaurant, visitor accommodation, training and education and residential activities.

Policy 18.2.1.1	Provide for a wide range of commercial, residential and community activities in the CBD and all centres zones in order to encourage economically and socially vibrant and viable centres.
Policy 18.2.1.2	Enable general retail and office activities in the CBD and centres zones and restrict their establishment in other commercial and mixed use zones in order to maintain the vibrancy of existing centres.
Policy 18.2.1.3	Avoid retail and office activities in areas where they are not provided for unless: a. it is an ancillary and secondary component of a retail or office activity that is undertaken in a scheduled heritage building as provided for by Policy 13.2.1.9 on the same or adjacent site; or b. there is a significant and sustained increase in the amount of retail activity across the city and it has been demonstrated that as a result there is a medium to longer term under-supply of retail land across all the areas where general retail is provided for; or c. in the HE Zone, it is associated with port, industrial or marine related activities operating in the area; or d. in the PPH Zone it is associated with campus activity.
Policy 18.2.1.4	Provide for food and beverage retail: a. in the CBD and centres; and b. where 1500m² or more in gross floor area, in the CEC and TR zones.

Objective 18.2.1

Policy 18.2.1.5	Provide for bulky goods retail and large format retail in the CEC and WP zones in recognition that often these activities require larger sites than are available in the CBD and centres.
Policy 18.2.1.6	Provide for trade related retail and yard based retail to locate in the TR, PPH and CEC zones in recognition that often these activities require a built form that cannot meet the requirements within the CBD and centres, and their location in these areas is unlikely to detract from the vibrancy and vitality of the CBD and centres.
Policy 18.2.1.7	Limit the scale of retail ancillary to industry to a size that: a. is clearly subordinate to and part of the operation of the primary industry activity; b. does not conflict with objectives 2.3.2 and 2.4.3; and c. does not create adverse effects on other industry activities, for example from traffic, parking, or reverse sensitivity.
Policy 18.2.1.8	Limit the scale of activities in neighbourhood and rural centres to ensure activities: a. are not a destination retail activity designed to attract customers from across suburbs, which are more appropriately located in the CBD or other central city commercial and mixed use zones; and b. do not dominate the centre and reduce the diversity of different activities that are able to establish there.
Policy 18.2.1.9	Provide for licensed premises where these are ancillary to activities that are provided for in the zone, including: a. bottle shops where food and beverage retail or dairies are provided for; and b. taverns and bars where restaurants are provided for; except in neighbourhood centres (see Policy 18.2.2.9).
Policy 18.2.1.10	Provide for hospital activity in the CEC - North Zone, to allow for the relocation of Dunedin Hospital into this zone.
Policy 18.2.1.11	Limit the gross floor area of dairies to a size that reflects these activities operating as a local convenience store rather than a destination supermarket.
Policy 18.2.1.12	Only allow food and beverage retail in the WP and PPH zones where the activity is of a size, and designed in a manner, to service the local area and not operate as a destination retailer for other parts of the city.
Policy 18.2.1.13	Avoid industrial activities in the SSYP Zone due to its residential character.
Policy 18.2.1.14	Avoid service stations, restaurant - drive through and yard based retail in the CBD, SSYP, HE and WP zones unless: a. they are designed and located to meet the built form expectations of the zone, as set out in the development activities performance standards; b. any drive-through components will not be accessed or visible from the primary pedestrian street frontage mapped area; and c. there are no, or only insignificant, adverse effects on streetscape and pedestrian amenity from vehicle movements.

Objective 18.2.1

Policy 18.2.1.15	Enable training and education in the CBD, all centres, CEC North Zone, and WP, PPH, SSYP and HE zones to enable tertiary (including the University of Otago and Otago Polytechnic) and specialist education providers.
Policy 18.2.1.16	Avoid conference, meeting and function or entertainment and exhibition in the NEC, NECC, SSYP, PPH and CEC zones unless: a. it is ancillary to visitor accommodation; or b. it has specific operational requirements that require it to locate in these zones.
Policy 18.2.1.17	Only allow restaurants outside the CBD, WP, HE and centres where the activity is not of a scale or nature that is more appropriate to locate in the CBD, centres, WP or HE because: a. it is unlikely to contribute to the vibrancy and vitality of those zones; and b. it has specific operational requirements that do not fit with those locations.
Policy 18.2.1.18	Provide for restaurants ancillary to trade related retail or food and beverage retail where they are designed to only service people engaged in the primary activity and are unlikely to attract significant patronage outside this purpose.

Objective 18.2.2

The potential for conflict between activities within the commercial and mixed use zones and in adjoining zones is minimised, as far as practicable, through adequate separation distances and other mitigation measures which ensure:

- a. the amenity of adjoining residential and recreation zoned sites is maintained; and
- b. the potential for reverse sensitivity effects is minimised as far as practicable.

Policy 18.2.2.1	Require fencing along property boundaries that adjoin residential or school zoned sites to be of an adequate height and design to provide screening for the purposes of privacy and security.
Policy 18.2.2.2	Only allow restaurants, and conference, meeting and function, and entertainment and exhibition ancillary to visitor accommodation in the PPH and SSYP zones where: a. the activities are secondary to the visitor accommodation activity; and b. any adverse effects on the amenity of surrounding residential activities, from noise, anti-social behaviour, or other effects will be avoided or, if avoidance is not practicable, adequately mitigated; and c. the potential for reverse sensitivity will be avoided or, if avoidance is not practicable, adequately mitigated.
Policy 18.2.2.3	Require buildings to be of a height in relation to boundary, and setback from side and rear boundaries, that maintains a reasonable level of sunlight access for: a. current and future residential buildings and their outdoor living spaces in adjoining residential zones; and b. sites in the recreation and school zones.
Policy 18.2.2.4	Only allow restaurants - drive through and service stations in commercial and mixed use zones, where significant adverse effects on the amenity of existing residential activities are avoided or mitigated as far as practicable.
Policy 18.2.2.5	Avoid crematoriums in all commercial and mixed use zones that provide for residential activity, because of the potential adverse social and cultural effects on activities that are provided for in these zones.

Objective 18.2.2

Policy 18.2.2.6	Avoid early childhood education and residential activities in the CEC South Zone and TR zones, and visitor accommodation in the TR Zone unless the potential for reverse sensitivity is insignificant.
Policy 18.2.2.7	Only allow community and leisure - large scale and visitor accommodation in neighbourhood centre zones (other than the Neighbourhood Destination Centre Zone) where the adverse effects on the amenity of surrounding residential activities will be avoided or, if avoidance is not practicable, adequately mitigated.
Policy 18.2.2.8	Only allow early childhood education and residential activity in the CBD, centres, CEC - North and CBD edge mixed use zones in locations where their establishment will not constrain (have reverse sensitivity effects on) activities that are provided for in the commercial and mixed use zone
Policy 18.2.2.9	Only allow ancillary licensed premises in the NECC and NEC zones where the adverse effects on the amenity of adjacent residential activities and the surrounding neighbourhood will be avoided or, if avoidance is not practicable, adequately mitigated.
Policy 18.2.2.10	Only allow visitor accommodation in the CEC - South Zone where the potential for reverse sensitivity will be avoided or, if avoidance is not practicable, adequately mitigated.
Policy 18.2.2.11	Only allow residential activity in the Speights buffer mapped area where the potential for reverse sensitivity will be avoided or, if avoidance is not practicable, adequately mitigated.

Objective 18.2.3

Land use and development maintains or enhances the amenity of the streetscape, including the visual and environmental amenity for pedestrians along identified **pedestrian street frontage mapped areas**.

Policy 18.2.3.1	Require development to maintain or enhance streetscape amenity in all commercial and mixed use zones, by ensuring: a. an attractive street interface is maintained through landscaping where buildings are not built to the street frontage; b. large parking areas which are visible from the street are visually broken up with internal landscaping, which also provides for rainwater absorption; c. service areas and outdoor storage areas associated with industrial or other activities are not visible from ground level of a public place; and d. an architecturally interesting façade through building modulation and use of glazing.
-----------------	---

Objective 18.2.3

Land use and development maintains or enhances the amenity of the streetscape, including the visual and environmental amenity for pedestrians along identified **pedestrian street frontage mapped areas**.

Policy 18.2.3.2	Require buildings along a primary pedestrian street frontage mapped area to be located, designed and operated to provide a high level of pedestrian amenity by: a. providing a continual frontage of buildings along the street, apart from pedestrian alleyways; b. providing a clear and direct visual connection between the street and the building interior; c. providing a direct physical connection to the building interior through clearly identified pedestrian entrances on the highest order pedestrian street frontage mapped area; d. providing shelter for pedestrians on footpaths, in the form of a verandah; e. being of a height that maintains existing sunlight access to footpaths and public open spaces; f. providing an architecturally interesting façade and human scale design, through building modulation and consistent alignment of windows; g. being designed to have commercial activities at the ground floor, with an adequate ground floor to ceiling height to accommodate these activities; and h. providing customer-facing activities on the ground floor.
Policy 18.2.3.3	Require buildings in a secondary pedestrian street frontage mapped area to provide a good level of pedestrian amenity by: a. providing a regular frontage of buildings along the street, with limited interruptions for vehicle accesses; b. providing a clear and direct visual connection between the street and the building interior; c. providing an architecturally interesting façade and human scale design, through building modulation and consistent alignment of windows; and d. providing shelter for pedestrians at pedestrian entrances.
Policy 18.2.3.4	Require new buildings and additions and alterations to buildings in the Harbourside Edge Zone to be designed and located to provide a high level of amenity by: a. being built to the street frontage along the entire length of Birch Street, and for no less than 60% of the street frontage on Kitchener Street, except for: i. any setbacks required to allow pedestrian entrances; and ii. the provision of amenity space for customers or residents at the front of buildings; b. including appropriate building modulation, window alignment, use of glazing, floor height, colour, architectural detail to provide visual interest and a human-scale design; c. being of a design that is coherent, appropriate to the setting and history of the area, and providing a positive relationship to both the street and the harbour; and d. having active edges with strong visual and physical connections from the street to the inside of buildings.

Objective 18.2.3

Land use and development maintains or enhances the amenity of the streetscape, including the visual and environmental amenity for pedestrians along identified **pedestrian street frontage mapped areas**.

Policy 18.2.3.5	Require development in the Harbourside Edge Zone to be designed and located to provide a high level of amenity by: a. requiring public pedestrian access to and along the coast that is attractive, safe, durable, and readily accessible to the public; b. ensuring the design and location of on-site car parking does not compromise streetscape or harbour amenity; c. ensuring development activities incorporate the principles of CPTED; and d. maintaining viewshafts from Roberts Street and Kitchener Street to and across the Steamer Basin.
Policy 18.2.3.6	Require fences visible from public places to be designed to maintain or enhance streetscape amenity.
Policy 18.2.3.7	Limit the size and number of ancillary signs to ensure they are able to convey information about the name, location and nature of the business to passing pedestrians and vehicles while not being oversized or too numerous for that purpose.
Policy 18.2.3.8	Require car parking (including stand-alone car parking) in a primary pedestrian street frontage mapped area to be located behind or within buildings with a customer-facing function (for example retail) adjoining the street.
Policy 18.2.3.9	Avoid land use activities (including stand-alone car parking) that require buildings or site design that is incompatible with: a. the high level of pedestrian streetscape amenity expected for the location in a primary pedestrian street frontage and secondary pedestrian street frontage; and b. the higher level of urban neighbourhood amenity anticipated in the HE, SSYP and WP zones.
Policy 18.2.3.10	Require industrial activities to avoid or, if avoidance is not practicable, adequately mitigate any adverse effects on streetscape amenity, by locating any part of the industrial operation that involves machinery or metal work within a part of a building that does not include any doors or windows that open to a primary pedestrian street frontage mapped area or secondary pedestrian street frontage mapped area .
Policy 18.2.3.11	Require buildings and structures to be of a height that: a. reflects the general heights of the block; and b. minimises as far as practicable adverse effects on the skyline vista of the city, particularly as viewed from Dunedin's inner hill suburbs across the upper harbour toward the Otago Peninsula, including through the use of quality and contextually appropriate architectural design.
Policy 18.2.3.12	Require network utility structures – small scale to be of a design, location and scale that maintains a high level of pedestrian amenity in pedestrian street frontage mapped areas .
Policy 18.2.3.13	Require buildings and additions and alterations, as part of the Dunedin Hospital redevelopment to maintain or enhance streetscape amenity by ensuring: a. the use of verandahs where appropriate; and b. buildings and structures above 20m minimise as far as practicable adverse effects of shading and wind on pedestrian amenity.

Rules

18.3 Activity Status

18.3.1 Rule Location

The activity status tables in rules 18.3.3 to 18.3.8 specify the activity status of land use activities, development activities, and subdivision activities in the commercial and mixed use zones and relevant overlay zones, except rules for the following city-wide activities, which are contained in Part B of the Plan:

1. Public Amenities (Section 3)
2. Temporary Activities (Section 4) - note that this section includes provisions that apply to construction
3. Network Utilities (Section 5)
4. Transportation (Section 6)
5. Scheduled Trees (Section 7)
6. Natural Hazard Mitigation Activities (Section 8)
7. Earthworks (Section 8A)

18.3.2 Activity Status Introduction

1. The activity status tables in rules 18.3.3 to 18.3.7 show the activity status of activities in the commercial and mixed use zones and the overlay zones indicated, provided any performance standards shown in the far right column are met.
2. Activities are split into three types: a. land use activities, b. development activities, c. subdivision activities. Within these types, activities are split into categories. The nested tables in Section 1.3 outline the hierarchy of categories, activities and sub-activities.
3. Permitted land use activities do not automatically provide for any related development activities. Therefore, the activity status of any associated development activities should also be checked.
4. Where a new land use activity requires a resource consent, all associated development activities will be considered and assessed as part of the resource consent even if the development otherwise meets the development performance standards listed in the Plan.
5. The nested tables in Section 1.3 are intended to be a complete list of activities. However, in the case of an activity that is not covered by any of the activities in the nested tables, the activity status will be non-complying.

Additional activity status rules in hazard overlay zones

6. For the purpose of the hazards provisions, activities are categorised as natural hazards sensitive activities, natural hazards potentially sensitive activities or natural hazards least sensitive activities. The activities that are in each hazards sensitivity category are included in the definitions section and in Section 11.1.
7. In the Hazard 2 (flood) Overlay Zones, the activity statuses in Rule 18.3.8 apply to the following activities:
 - a. natural hazards sensitive activities;
 - b. natural hazards potentially sensitive activities; and
 - c. new buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area.
8. Where the activity status in Rule 18.3.8 differs from that in rules 18.3.3 - 18.3.7, the most restrictive activity status always applies.

9. In addition to the rules in Rule 18.3.8, performance standards for development activities within hazard overlay zones are included in rules 18.3.3 - 18.3.7.
10. Activities in a hazard overlay zone must comply with all of the rules in 18.3.3 - 18.3.7.

Performance Standards

11. Performance standards are listed in the far right column of the activity status tables.
12. Performance standards apply to permitted, controlled and restricted discretionary activities.
13. If a permitted or controlled activity does not meet one or more performance standards, then the activity status of the activity is indicated in the relevant performance standard rule.
14. If a restricted discretionary activity does not meet one or more performance standards, then the activity status remains restricted discretionary, unless otherwise indicated in the performance standard.

Legend

Acronym	Meaning
P	Permitted Activity
C	Controlled Activity
RD	Restricted Discretionary Activity
D	Discretionary Activity
NC	Non-complying Activity
Central Business District and Centres Zones (Centres Hierarchy)	
CBD	Central Business District Zone
PC	Principal Centre Zone
SC	Suburban Centre Zone
RC	Rural Centre Zone
NEC	Neighbourhood Centre Zone
NECC	Neighbourhood Convenience Centre Zone
NEDC	Neighbourhood Destination Centre Zone
CBD Edge Mixed Use Zones	
WP	Warehouse Precinct Zone
PPH	Princes, Parry and Harrow Street Zone
SSYP	Smith Street and York Place Zone
HE	Harbourside Edge Zone
Other Commercial Zones	
TR	Trade Related Zone
CEC-N	CBD Edge Commercial North Zone
CEC-S	CBD Edge Commercial South Zone

Acronym	Meaning
Pedestrian Street Frontage Mapped Areas	
PPF	Primary Pedestrian Street Frontage Mapped Area
SPF	Secondary Pedestrian Street Frontage Mapped Area
Hazard Overlay Zones	
Haz1	Hazard 1 Overlay Zones
Haz2	Hazard 2 Overlay Zones
Haz3	Hazard 3 Overlay Zones

18.3.3 Land Use Activity Status Table (Central Business District And Centres)

1.	Performance standards that apply to all land use activities	a. Acoustic insulation (noise sensitive activities) b. Electrical interference c. Light spill d. Location e. Noise f. Maximum gross area of centre (NEC, NECC, NEDC and RC only) g. Setback from National Grid (National Grid sensitive activities only)			
Commercial activities		Activity status			Performance standards
		a. CBD	b. PC/SC/RC/NEDC	c. NECC/NEC	
2.	Ancillary licensed premises	Same activity status as underlying activity		D	
3.	Conference, meeting and function	P	P	NC	i. Minimum car parking
4.	Commercial advertising	NC	NC	NC	
5.	Entertainment and exhibition	P	P	NC	i. Minimum car parking
6.	Office	P	P	P	i. Minimum car parking (registered health practitioners)
7.	Retail (except yard based retail)	P	P	P	i. Minimum car parking ii. Minimum vehicle loading
8.	Retail ancillary to industry	P	P	P	i. Maximum gross floor area of retail ancillary to industry
9.	Yard based retail	NC	P	P	i. Minimum car parking ii. Minimum vehicle loading (centres)

10.	Restaurants	P	P	P	
11.	Restaurant - drive through	NC	D	D	
12.	Service stations	NC	RD	RD	i. Service station standards ii. Minimum car parking
13.	Stand-alone car parking	P	P	P	
14.	Visitor accommodation	P	P	RD	i. Minimum car parking ii. Minimum vehicle loading
Community activities		a. CBD	b. PC/SC/RC/NEDC	c. NECC/NEC	Performance standards
15.	Community and leisure - small scale	P	P	P	i. Minimum car parking
16.	Community and leisure - large scale	P	P	RD	i. Minimum car parking
17.	Conservation	P	P	P	
18.	Early childhood education	RD	RD	RD	i. Minimum car parking
19.	Sport and Recreation	P	P	P	i. Minimum car parking
Residential activities		a. CBD	b. PC/SC/RC/NEDC	c. NECC/NEC	Performance standards
20.	All activities in the residential activities category	P	P	P	i. Minimum car parking ii. Location
Industrial activities		a. CBD	b. PC/SC/RC/NEDC	c. NECC/NEC	Performance standards
21.	All activities in the industrial activities category	P	P	P	i. Location of industrial activities
Major facility activities		a. CBD	b. PC/SC/RC/NEDC	c. NECC/NEC	Performance standards
22.	Emergency services	P	P	P	i. Minimum car parking
23.	All other activities in the major facility activities category	NC	NC	NC	
Rural activities		a. CBD	b. PC/SC/RC/NEDC	c. NECC/NEC	Performance standards
24.	All activities in the rural activities category	NC	NC	NC	

18.3.4 Land Use Activity Status Table (CBD Edge and Mixed Use Zones)

1.	Performance standards that apply to all land use activities					a. Acoustic insulation (noise sensitive activities) b. Electrical interference c. Light spill d. Location e. Noise f. Setback from National Grid (National Grid sensitive activities only)
Commercial activities		Activity status				Performance standards
		a. WP	b. PPH	c. SSYP	d. HE	
2.	Ancillary licensed premises	Same activity status as underlying activity				
3.	Bulky goods retail	P	NC	NC	NC	i. Minimum car parking ii. Minimum vehicle loading
4.	Conference, meeting and function	P	NC	NC	P	i. Minimum car parking
5.	Commercial advertising	NC	NC	NC	NC	
6.	Dairies	P	P	P	P	i. Maximum gross floor area of dairies
7.	Entertainment and exhibition	P	NC	NC	P	i. Minimum car parking
8.	Food and beverage retail	D	D	NC	NC	
9.	General retail in a scheduled heritage building	P	NC	NC	NC	i. Minimum car parking ii. Minimum vehicle loading
10.	General retail not in a scheduled building and less than 1500m ² in gross floor area	NC	NC	NC	NC	
11.	General retail not in a scheduled building and 1500m ² or more in gross floor area	P	NC	NC	NC	i. Minimum car parking ii. Minimum vehicle loading

12.	Training and education	P	P <i>{Note - appeal relates to BP new hazard facility mapped area only}</i>	P	P	
13.	Office in a scheduled heritage building	P	NC	P	P	i. Maximum gross floor area of office activity in HE Zone
14.	Office not in a scheduled heritage building	NC	NC	NC	P	i. Maximum gross floor area of office activity in HE Zone
15.	Restaurants	P	D	D	P	i. Minimum car parking
16.	Restaurant - drive through	NC	D	NC	NC	
17.	Retail ancillary to industry	P	P	NC	P	i. Maximum gross floor area of retail ancillary to industry
18.	Service stations	NC	RD	NC	NC	i. Service station standards ii. Minimum car parking
19.	Stand-alone car parking	P	P	P	P	
20.	Trade related retail	P	P	NC	NC	i. Minimum car parking ii. Minimum vehicle loading
21.	Visitor accommodation	P	P <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only}</i>	P	P	i. Minimum car parking ii. Minimum vehicle loading

22.	Conference, meeting and function and entertainment and exhibition ancillary to visitor accommodation	P	RD {Note - appeal relates to BP new hazard facility mapped area only}	RD	P	i. Minimum car parking
23.	Yard based retail	NC	P	NC	NC	i. Minimum car parking ii. Minimum vehicle loading
Community activities		a. WP	b. PPH	c. SSYP	d. HE	Performance standards
24.	Community and leisure - small scale	P	P {Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only}	P	P	i. Minimum car parking
25.	Community and leisure - large scale	P	P {Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only}	P	P	i. Minimum car parking
26.	Conservation	P	P	P	P	

27	Early childhood education	RD	RD <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only}</i>	RD	RD	i. Minimum car parking
28	Sport and recreation	P	P	P	P	i. Minimum car parking
Residential activities		a. WP	b. PPH	c. SSYP	d. HE	Performance standards
29	All activities in the residential activities category	P	P <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only}</i>	P	P	i. Minimum car parking
Industrial activities		a. WP	b. PPH	c. SSYP	d. HE	Performance standards
30	All activities in the industrial activities category	P	P	NC	P	i. Minimum car parking ii. Minimum vehicle loading
Major facility activities		a. WP	b. PPH	c. SSYP	d. HE	Performance standards

31	Emergency services	P	P <i>{Note - appeal relates to Liquegas Limited existing hazard facility mapped area only}</i>	P	P	i. Minimum car parking
32	All other activities in the major facility activities category	NC	NC	NC	NC	
Rural activities		a. WP	b. PPH	c. SSYP	d. HE	Performance standards
33	All activities in the rural activities category	NC	NC	NC	NC	

18.3.5 Land Use Activity Status Table (Trade Related Zone and CBD Edge Commercial Zones)

1.	Performance standards that apply to all land use activities				a. Acoustic insulation (noise sensitive activities) b. Electrical interference c. Light spill d. Noise e. Setback from National Grid (National Grid sensitive activities only)
Commercial activities		Activity status			Performance standards
		a. CEC - North	b. CEC - South	c. TR	
2.	Ancillary licensed premises	Same activity status as underlying activity			
3.	Bulky goods retail	P	P	NC	i. Minimum car parking ii. Minimum vehicle loading
4.	Conference, meeting and function	NC	NC	NC	
5.	Commercial advertising	NC	NC	NC	
6.	Dairies	P	P	P	i. Maximum gross floor area of dairies
7.	Entertainment and exhibition	NC	NC	NC	
8.	Food and beverage retail less than 1500m ² in gross floor area	NC	NC	NC	

9.	Food and beverage retail 1500m ² or more in gross floor area	P	P	P	i. Minimum car parking ii. Minimum vehicle loading
10.	Office	P	NC	NC	
11.	General retail less than 750m ² in gross floor area	NC	NC	NC	
12.	General retail 750m ² or more in gross floor area	P	P	NC	i. Minimum car parking ii. Minimum vehicle loading
13.	Restaurants ancillary to trade related retail	D	D	P	i. Maximum gross floor area of restaurants in the Trade Related Zone ii. Location of ancillary restaurants in the Trade Related Zone
14.	Restaurants ancillary to food and beverage retail 1,500m ² or more in gross floor area	D	D	P	i. Maximum gross floor area of restaurants in the Trade Related Zone ii. Location of ancillary restaurants in the Trade Related Zone
15.	All other restaurants	D	D	D	
16.	Restaurant - drive through	RD	RD	RD	
17.	Retail ancillary to industry	P	P	P	i. Maximum gross floor area of retail ancillary to industry
18.	Service stations	RD	RD	RD	i. Service station standards ii. Minimum car parking
19.	Stand-alone car parking	P	P	P	
20.	Trade related retail	P	P	P	i. Minimum car parking ii. Minimum vehicle loading
21.	Visitor accommodation	P	D	NC	i. Minimum car parking ii. Minimum vehicle loading
22.	Yard based retail	P	P	P	i. Minimum car parking
Community activities		a. CEC - North	b. CEC - South	c. TR	Performance standards
23.	Early childhood education	D	NC	NC	
24.	Community and leisure - small scale	P	P	P	i. Minimum car parking
25.	Community and leisure - large scale	P	P	P	i. Minimum car parking
26.	Conservation	P	P	P	
27.	Sport and recreation	P	P	P	i. Minimum car parking

Residential activities		a. CEC - North	b. CEC - South	c. TR	Performance standards
28.	All activities in the residential activities category	D	NC	NC	
Industrial activities		a. CEC - North	b. CEC - South	c. TR	Performance standards
29.	All activities in the industrial activities category	P	P	P	i. Minimum car parking ii. Minimum vehicle loading
Major facility activities		a. CEC - North	b. CEC - South	c. TR	Performance standards
30.	Emergency services	P	P	P	i. Minimum car parking
31.	Hospital	RD	NC	NC	
32.	All other activities in the major facility activities category	NC	NC	NC	
Rural activities		a. CEC - North	b. CEC - South	c. TR	Performance standards
33.	All activities in the rural activities category	NC	NC	NC	

18.3.6 Development Activity Status Table

1.	Performance standards that apply to all development activities	a. Boundary treatments and other landscaping b. Natural Hazards Performance Standards c. Setback from scheduled tree d. Harbourside Edge Zone Standards (HE Zone only)
2.	Performance standards that apply to all buildings and structures activities	a. Fire fighting b. Height in relation to boundary c. Height d. Number, location and design of ancillary signs e. Setback from coast and water bodies f. Setback from National Grid g. Building colour

3.	Performance standards that apply to all new buildings and additions and alterations to buildings		a. Minimum glazing and building modulation b. Minimum ground floor to ceiling height c. Pedestrian entrances d. Verandahs e. Setback from road boundaries f. Setback from boundaries of residential or recreation zoned sites g. Parking, loading and access standards (buildings that contain car parks only)
New buildings and additions and alterations to buildings within the Harbourside Edge Zone		Activity status	Performance standards
4.	New buildings and additions and alterations to buildings not visible from an adjoining public place or the harbour	P	
5.	New buildings and additions and alterations to buildings that are visible from an adjoining public place, or the harbour	RD	
Buildings and structures activities not in a heritage precinct, or in a heritage precinct but not visible from an adjoining public place excluding activities affecting a protected part of a scheduled heritage building or a scheduled heritage structure. See rows 22 - 29.		Activity status	Performance standards
6.	New buildings and additions and alterations to buildings as part of the Dunedin Hospital redevelopment	RD	
7.	All other new buildings and additions and alterations to buildings <i>{Note - relates to appeal by BP Oil for new hazard facility mapped area in the PPH Zone only}</i>	P	
8.	Fences	P	a. Fence height and design
9.	All other new structures	P	
Buildings and structures activities in a heritage precinct that are visible from an adjoining public place		Activity status	Performance standards
10.	New buildings	RD	a. Parking, loading and access standards (buildings that contain car parks only)
11.	Repair and maintenance of a non character-contributing building	P	
12.	Repair and maintenance of a character-contributing building or non-protected part of a scheduled heritage building	P	a. Materials and design

13.	Earthquake strengthening or restoration of a character-contributing building or non-protected parts of a scheduled heritage building	P	a. Materials and design
14.	Demolition or removal for relocation of: a. a character-contributing building b. a non-protected part of a scheduled heritage building; or c. a non character-contributing building that adjoins the road frontage.	RD	
15.	Additions and alterations to a character-contributing building or non-protected part of a scheduled heritage building other than earthquake strengthening or restoration	RD	
16.	Signs attached to buildings or structures	P	
17.	All other additions and alterations to a non character-contributing building that involve: • an increase in the footprint of 10m ² or more; or • an increase in the height of the building by more than 2m.	C	
18.	All other additions and alterations to non character-contributing buildings	P	
19.	Fences	P	a. Fence height and design
20.	All other new structures up to 2.5m tall and 2m ² footprint	P	
21.	New structures greater than 2.5m tall and 2m ² footprint	RD	
Buildings and structures activities that affect a protected part of a scheduled heritage building or scheduled heritage structure		Activity status	Performance standards
22.	Repairs and maintenance	P	a. Materials and design
23.	Restoration of a building or structure that has a Heritage New Zealand Category 1 listing as detailed in Appendix A1.1	C	a. Materials and design
24.	Restoration of all other scheduled heritage buildings and structures	P	a. Materials and design
25.	Earthquake strengthening where external features only are protected	C	a. Materials and design
26.	Signs attached to buildings or structures	P	
27.	All other additions and alterations	RD	
28.	Demolition	NC	

29.	Removal for relocation	RD	
Development activities on a scheduled heritage site, where visible from an adjoining public place or a public place within the heritage site		Activity status	Performance standards
30.	New structures no more than 2.5m high or 2m ² footprint	P	
31.	All other new structures	RD	
32.	New buildings	RD	
33.	Parking, loading and access	RD	a. Parking, loading and access standards
Site development activities in all areas (except as covered by rows 30 - 33 above)		Activity status	Performance standards
34.	Parking, loading and access	P	a. Parking, loading and access standards b. Location and screening of car parking
35.	New or additions to parking areas that result in 50 or more new parking spaces.	RD	a. Location and screening of car parking b. Parking, loading and access standards
36.	Outdoor storage	P	a. Location and screening of outdoor storage
37.	Vegetation clearance	P	
39.	Storage and use of hazardous substances	P	a. Hazardous substances quantity limits and storage requirements b. Setback from coast and water bodies
40.	All other site development activities	P	
All buildings and structures activities not covered in rows above		Activity status	Performance standards
41.	All buildings and structures activities not covered in rows 4 to 40 above	P	a. Materials and design

Note 18.3.6A - General advice

1. An archaeological authority is required under the Heritage New Zealand Pouhere Taonga Act 2014 to modify or destroy an archaeological site. If you wish to do any earthworks that may affect an archaeological site, you must first obtain an authority from Heritage New Zealand. This is the case regardless of whether the site is designated, or the activity is permitted under the District Plan or Regional Plan, or a resource or building consent has been granted.
2. An archaeological site is defined as any place in New Zealand that was associated with human activity that occurred before 1900 and provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand. This includes the scheduled archaeological sites within the District Plan.
3. Pre-1900 buildings are considered archaeological sites. An archaeological authority must be obtained before demolishing a pre-1900 building or structure.
4. The **archaeological alert layer mapped area** identifies sites and areas that have a strong likelihood of containing archaeological remains, however remains may be present anywhere within the District. If archaeological remains are discovered during any site works, at any location, the Accidental Discovery Protocol (Appendix A8) should be followed.

18.3.7 Subdivision Activity Status Table

Subdivision activities		Activity status (all CMU zones)	Performance standards
1.	Subdivision activities	RD	a. Access b. Esplanade reserves and strips c. Fire fighting d. Service connections e. Shape

Note 18.3.7A - Other RMA considerations

- Under Section 226(1)(e)(ii) of the Resource Management Act 1991, where an existing allotment shown on a survey plan meets all relevant provisions of the district plan and any proposed district plan, the Dunedin City Council must issue a certificate to that effect to enable the Registrar-General of Land to issue a certificate of title for that separate allotment.

18.3.8 Activity Status in the Hazard 2 (Flood) Overlay Zone

Activity	Activity status
1. Natural hazards sensitive activities	RD
2. Natural hazards potentially sensitive activities	RD
3. New buildings, and additions and alterations to buildings, which create more than 60m ² of new ground floor area	RD

Note 18.3.8A - Other RMA considerations

- For the purposes of the natural hazards provisions only, with respect to section 10 of the RMA (existing use rights), Council will generally consider that a land use activity is similar in character, intensity, and scale where:
 - for a residential activity, there is less than 25m² increase in ground floor area of any residential building(s), in any consecutive 10 year period; or
 - for a residential activity, a new building is to be used solely as a garage or shed; or
 - for all other natural hazards sensitive activities and natural hazards potentially sensitive activities, the ground floor area of any buildings increases by less than 100% in any consecutive 10 year period.
- Accordingly, these activities will not usually trigger the provisions for natural hazards sensitive activities and natural hazards potentially sensitive activities in Rule 18.3.8. However, Council will consider specific circumstances associated with the development and how this affects the character, intensity and scale of the land use activity.

18.4 Notification

- Applications for resource consent for the following activities will be considered without the need to obtain a written approval of affected persons and will not be notified in accordance with section 95A or section 95B of the RMA, unless Council considers special circumstances exist in relation to the application that require public notification:
 - earthquake strengthening of a scheduled heritage building or scheduled heritage structure where external features only are protected (controlled activity) and that are not listed by Heritage New Zealand; and
 - contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is not listed by Heritage New Zealand.
- With respect to resource consent applications, Heritage New Zealand will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided for the following:
 - activities that affect a protected part of a scheduled heritage building, scheduled heritage structure, or a scheduled heritage site, that is listed with Heritage New Zealand; and
 - contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is listed by Heritage New Zealand.
- Applications for resource consent for the following activities will be publicly notified in accordance with section 95A of the RMA:

1. new vehicle accesses onto a road with a **primary pedestrian street frontage mapped area** (PPF);
2. **contravention of the Harbourside Edge Zone Standards performance standard (Rule 18.6.17.3); and**
3. It is likely that applications for the following performance standard contraventions will be publicly notified:
 1. acoustic insulation;
 2. light spill;
 3. noise; and
 4. setback from National Grid.
4. With respect to resource consent applications for the following activities, Manawhenua will be considered an affected person in accordance with section 95B of the RMA where their written approval is not provided:
 1. all restricted discretionary activities that list 'effect on cultural values of Manawhenua as a matter for discretion; and
 2. discretionary and non-complying activities in a **wāhi tūpuna mapped area** where the activity is identified as a threat in Appendix A4.
5. With respect to sections 95D(b) and 95E(2)(a) of the RMA, Council will not consider retail as a permitted activity in scheduled heritage buildings as part of the permitted baseline in considering the effects of discretionary or non-complying activities in the Warehouse Precinct Zone.
6. With respect to resource consent applications for the following activities, the Otago Regional Council will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
 1. activities in the Hazard 1 or 1A (flood) overlay zones; and
 2. activities in **swale mapped areas**.
7. All other activities are subject to the normal tests for notification in accordance with sections 95A-95G of the RMA.

18.5 Land Use Performance Standards

18.5.1 Acoustic Insulation

Noise sensitive activities in the following areas must comply with Rule 9.3.1:

1. within 20m of an industrial zone;
2. within 70m of a railway line;
3. within 40m of a state highway;
4. Central Business District (CBD) Zone;
5. Warehouse Precinct (WP) Zone;
6. Harbourside Edge (HE) Zone;
7. Princes, Parry and Harrow Street (PPH) Zone; and
8. CEC – North Zone.

18.5.2 Electrical Interference

Land use activities must comply with Rule 9.3.2.

18.5.3 Light Spill

Land use activities must comply with Rule 9.3.5.

18.5.4 Location

18.5.4.1 Location of activities within pedestrian street frontage mapped areas

- a. In a **primary pedestrian street frontage mapped area**, activities on the ground floor facing the street frontage, must be retail, restaurants, or entertainment and exhibition, except for entrances, lobbies and accessways that service activities on upper floors.
- b. In a **secondary pedestrian street frontage mapped area**, residential activities must not occupy the ground floor of buildings facing the street frontage.
- c. Activities that contravene this performance standard are restricted discretionary activities.

18.5.4.2 Location of industrial activities

- a. Within all commercial and mixed use zones, except trade related and CBD edge commercial zones, any part of an industry activity that involves machinery or metal work must be located within a part of a building that does not include any doors or windows that open to a **primary pedestrian street frontage mapped area** or **secondary pedestrian street frontage mapped area**.
- b. Activities that contravene this performance standard are restricted discretionary activities.

18.5.4.3 Location of restaurant drive-through and service stations

- a. Restaurant - drive through and service stations must not have vehicle access from a **primary pedestrian street frontage mapped area**.
- b. Activities that contravene this performance standard are a non-complying activity.

18.5.4.4 Location of ancillary restaurants in the Trade Related Zone

- a. For restaurants ancillary to food and beverage retail 1,500m² or more in gross floor area, or to trade related retail, all customer access must be internal to a building, except for emergency-only access/egress.

- b. Activities that contravene this performance standard are discretionary activities.

18.5.4.5 Location of residential activities

- a. New residential activities or residential buildings must not be located within the **Speights buffer mapped area**.
- b. Activities that contravene this performance standard are restricted discretionary activities.

18.5.4.6 Location (**hazard facility mapped area**)

Activities must comply with Rule 9.3.8.

18.5.5 Maximum Gross Floor Area

18.5.5.1 Maximum gross area of centre

- a. An individual land use activity must not occupy more than 50% of the gross area of a neighbourhood or rural centre.
- b. Activities that contravene this performance standard are restricted discretionary activities.

18.5.5.2 Maximum gross floor area of dairies

- a. The maximum gross floor area for dairies is 200m².
- b. Activities that contravene this performance standard are restricted discretionary activities.

18.5.5.3 Maximum gross floor area of retail ancillary to industry

- a. Retail ancillary to industry must not occupy more than 10% of the gross floor area of the industry activity.
- b. Activities that contravene this performance standard are restricted discretionary activities.

18.5.5.4 Maximum gross floor area of office activity in the Harbourside Edge Zone

- a. The cumulative gross floor area of office activity in the Harbourside Edge Zone must not exceed 6,000m².
- b. No more than 3,000m² of gross floor area of office activity may be located outside the area covered by designation D214, unless the Otago Regional Council designation allowing office activity on this site is uplifted.
- c. Office activity that is ancillary to port, industry or marine-related activity is exempt from this standard.
- d. Office activity that contravenes this performance standard is a non-complying activity.

18.5.5.5 Maximum gross floor area of restaurants in the Trade Related Zone

- a. The maximum gross floor area of restaurants ancillary to food and beverage retail 1,500m² or more in gross floor area, or to trade related retail, in the Trade Related Zone is 100m²
- b. Activities that contravene this performance standard are discretionary activities.

18.5.6 Minimum Car Parking

1. Land use activities must provide on-site parking as follows:

Activity		Zone	Minimum parking rate
Commercial activities			
a.	Conference, meeting and function	i. PC/SC/RC/NEDC/HE	1 parking space for every 5 persons the facility can accommodate at any one time

Activity		Zone	Minimum parking rate
b.	Entertainment and exhibition (capacity for greater than 20 persons at any one time)	i. PC/SC/RC/NEDC/HE	1 parking space for every 5 persons the facility can accommodate at any one time
c.	Registered health practitioners	i. PC/SC/RC/NEDC/NECC/NEC	2 parking spaces for every registered health practitioner
d.	Restaurants	i. HE	1 parking space per 30m ² of gross public floor area
e.	Bulky goods retail	i. CBD/CEC – North/CEC - South	1 parking space per 50m ² of gross public floor area
		ii. Centres/WP (500m ² or more in gross public floor area)	1 parking space per 25m ² of gross public floor area
f.	Food and beverage retail	i. CBD/CEC – North/CEC – South (1500m ² or more in gross public floor area)	1 parking space per 25m ² of gross public floor area
		ii. Centres (500m ² or more in gross public floor area)	
		iii. TR (1500m ² or more in gross public floor area)	1 parking space per 20m ² of gross public floor area
g.	Service Stations	i. Centres/PPH/TR/CEC – North/CEC - South	1 parking space per 40m ² of gross public floor area
h.	Trade related retail	i. CBD (1500m ² or more in gross public floor area)	1 parking space per 25m ² of gross public floor area
		ii. Centres (500m ² or more in gross public floor area)	
		iii. WP/CEC – North/CEC – South/PPH/TR	1 parking space per 75m ² of gross public floor area
i.	Yard based retail	i. Centres (500m ² or more in gross public floor area)	1 parking space per 25m ² of gross public floor area
		ii. CEC – North/ CEC - South (1500m ² or more in gross public floor area)	
		iii. PPH/TR	1. 1 parking space per 100m ² gross public floor area (inside buildings) 2. 1 parking space per 400m ² of outdoor display area

Activity		Zone	Minimum parking rate
j.	General Retail	i. CBD (1500m ² or more in gross public floor area) ii. WP/Centres (500m ² or more in gross public floor area) iii. CEC – North/CEC- South (750m ² or more in gross public floor area)	1 parking space per 25m ² of gross public floor area
m.	Visitor accommodation	i. CBD/Centres/WP/PPH/SSYP and HE zones ii. CEC – North (1500m ² or more in gross public floor area)	1. 1 parking space per 6 visitor accommodation units, where the activity is based on guest rooms (e.g. hotels) 2. 1 parking space per 3 visitor accommodation units, where the activity is based upon units (e.g. motels)
Community Activities			
n.	Community and leisure	i. Centres/PPH/SSYP/CEC/TR and HE	1 parking space for every 5 persons the facility can accommodate at any one time
o.	Early childhood education - small scale	i. CBD/Centres and SSYP	1. 1 parking space per 5 full time equivalent staff members, and 2. 1 parking space for parent/guardian use per 6 children the activity is licensed for
p.	Sport and recreation (with capacity for greater than 20 persons at any one time)	i. Centres/PPH/SSYP/CEC/TR and HE	1 parking space for every 5 persons the facility can accommodate at one time
Residential activities			
q.	Rest homes	i. Centres/SSYP/PPH and HE	1 parking space for every 3 beds
r.	Retirement villages	i. Centres/SSYP/PPH and HE	1 parking space for every residential unit
s.	Student hostels	i. Centres/HE/PPH and SSYP	1 parking space for every 10 residents (or part thereof) except student hostels within 500m of the Campus Zone which are managed as part of the overall campus parking requirements.

Activity		Zone	Minimum parking rate
t.	Standard residential	i. Centres/HE/PPH and SSYP	1. 1 - 5 habitable rooms on a site: 1 parking space 2. 6 - 8 habitable rooms on a site: 2 parking spaces 3. Greater than 8 habitable rooms on a site: 2 parking spaces plus 1 space for every 4 habitable rooms (or part thereof) 4. Except: 1. where sites with less than 5 habitable rooms have no existing parking, no additional parking is required for additions that increase the number of habitable rooms to 5 (or fewer), provided no additional residential units are created; 2. where the provision of an on-site parking space for sites with 1-5 habitable rooms would result in the loss of an on-street parking space, no parking space is required: and 3. in centres, no parking space is required where an existing building is converted to residential activity with fewer than five habitable rooms.
Industrial Activities			
u.	Industry	i. HE/CEC/PPH	1 parking space per 100m² gross floor area
		ii. TR	1 parking space per 75m² gross floor area
Major Facility Activities			
v.	Emergency Services	i. All zones	1. For fire stations: 5 parking spaces per fire engine bay. 2. For all other activities: 1 parking space per 100m² gross floor area.

2. Activities other than standard residential must provide mobility parking spaces as follows:

Total number of parking spaces provided		Minimum number of these that must be mobility parking spaces
a.	1 - 20	1 parking space
b.	21 - 50	2 parking spaces
c.	For every additional 50 parking spaces	1 additional parking space

3. Car parking must be provided on the same property as the activity except in the Harbourside Edge Zone where parking spaces must be provided within 200m walking distance of the activity, with all parking not on the same property as the activity provided as dedicated off-street parking for the activity through a lease

agreement.

4. Required parking spaces may be used for car, cycle or motorcycle parking, except for any required mobility parking spaces.
5. Residential and office activities (excluding registered health practitioners) undertaken entirely within a scheduled heritage building do not need to provide any additional car parking other than what is already on site and may remove any car parking that does not meet the performance standard for location of car parking.
6. Parking spaces may be shared between land use activities (i.e. the same parking spaces may be used to fulfil the minimum parking requirement for more than one land use activity), as long as the hours of operation of the land use activities do not overlap.
7. Where the minimum car parking performance standard results in the requirement for a fractional space, any fraction under one half will be disregarded and any fraction of one half or greater will be counted as one space.
8. For activities where the minimum car parking performance standard is based on the gross floor area, the following areas will be excluded from the assessment of gross floor area:
 - a. any parking area and associated manoeuvring space, including aisle; and
 - b. any loading area and associated manoeuvring space.
9. Activities that contravene this performance standard are restricted discretionary activities.

Note 18.5.6A - Other relevant District Plan provisions

1. Parking areas must comply with the standards in Section 6.6: Parking, Loading and Access Standards.

18.5.7 Minimum Vehicle Loading

1. Land use activities must provide on-site vehicle loading and manoeuvring as follows:

Zone		Activities	Minimum vehicle loading
a.	CBD and centres zones	i. Retail activity (except yard based retail)	1. On sites which gain direct vehicular access to a strategic road, arterial road or urban high density corridor or have a gross floor area of 500m ² or more: 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10)
		ii. Visitor accommodation	1. Visitor accommodation based on guest rooms (e.g. hotels) for 50 or more guest rooms: 1 loading space to accommodate the turning circle of a coach (See Appendix 6B, Figure 6B.12)
b.	Centres zones	i. Yard based retail	1. On sites which gain direct vehicular access to a strategic road, arterial road or urban high density corridor, or have a gross floor area of 500m ² or more: 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10).

Zone		Activities	Minimum vehicle loading
c.	Warehouse Precinct Zone	i. General retail (in a scheduled heritage building)	1. On sites which gain direct vehicular access to a strategic road, arterial road or urban high density corridor or have a gross floor area of 500m ² or more: 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10)
		ii. General retail (not in a scheduled heritage building and 1500m ² or more in gross floor area)	
		iii. Trade related retail	
		iv. Visitor accommodation	1. Visitor accommodation based on guest rooms (e.g. hotels) for 50 or more guest rooms: 1 loading space to accommodate the turning circle of a coach (See Appendix 6B, Figure 6B.12)
		v. Bulky goods retail	1. Activities with a gross floor area of less than 1000m ² : 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10); 2. Activities with a gross floor area of 1000m ² or more: 1 loading space to accommodate a B Train Truck (See Appendix 6B, Figure 6B.11).
d.	CBD edge commercial zones	i. General retail (750m ² or more in gross floor area)	1. On sites which gain direct vehicular access to a strategic road, arterial road or urban high density corridor: 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10)
		ii. Trade related retail	
		iii. Industry	
		iv. Food and beverage retail (1500m ² or more in gross floor area).	
		v. Visitor accommodation (CEC - North)	1. Visitor accommodation based on guest rooms (e.g. hotels) for 50 or more guest rooms: 1 loading space to accommodate the turning circle of a coach (See Appendix 6B, Figure 6B.12)
		vi. Bulky goods retail	1. Activities with a gross floor area of less than 1000m ² : 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10); 2. Activities with a gross floor area of 1000m ² or more: 1 loading space to accommodate a B Train Truck (See Appendix 6B, Figure 6B.11).

Zone		Activities	Minimum vehicle loading
e.	Princes, Parry and Harrow Street Zone	i. Trade related retail	1. On sites which gain direct vehicular access to a strategic road, arterial road or urban high density corridor, or have a gross floor area of 500m ² or more: 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10).
		ii. Yard based retail	
		iii. Industry	
f.	Harbourside Edge Zone	i. Industry	1. 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10).
		ii. Visitor accommodation	1. Visitor accommodation based on guest rooms (e.g. hotels) for 50 or more guest rooms: 1 loading space to accommodate the turning circle of a coach (See Appendix 6B, Figure 6B.12)
g.	Trade Related Zone	i. Trade related retail	1. On sites which gain direct vehicular access to a strategic road, arterial road or urban high density corridor, with a gross floor area of 500m ² or more: 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10) 2. Activities with a gross floor area of less than 1000m ² : 1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10) 3. Activities with a gross floor area of 1000m ² or more: 1 loading space to accommodate an B Train Truck (See Appendix 6B, Figure 6B.11)
		ii. Food and beverage retail (1500m ² or more in gross floor area)	
		iii. Industry	

2. Required vehicle loading must be designed and constructed to comply with Rule 6.6.2.
3. Activities that contravene this performance standard are restricted discretionary activities.

18.5.8 Noise

Land use activities must comply with Rule 9.3.6.

18.5.9 Service Station Standards

Service stations must comply with Rule 6.7.1.

18.5.10 Setback from National Grid

National Grid sensitive activities must comply with Rule 5.6.1.1.

18.6 Development Performance Standards

18.6.1 Boundary Treatments and Other Landscaping

1. A landscaping area with a minimum width of 1.5m must be provided along the full length of any road boundary that does not have a building within 1.5m of that boundary (except for where vehicle access is provided).
2. Landscaping areas must:
 - a. be planted with a mix of trees and shrubs and/or ground cover plants that achieves a total coverage of the ground area in planting (when mature), except for 10% of the area, which may be used for pedestrian paths;
 - b. have an average of one tree for every 5m of frontage;
 - c. not have more than 10% cover in impermeable surfaces (for pedestrian paths);
 - d. be designed to allow surface water run-off from surrounding areas to enter;
 - e. be protected by a physical barrier that prevents cars damaging plants;
 - f. for required trees, use trees that are at least 1.5m high at the time of planting and capable of growing to a minimum height of 5m within 10 years of planting;
 - g. be planted prior to occupation of any relevant building(s) or upon completion of site development activities; and
 - h. be maintained to a high standard, which means trees and under-planting are healthy and areas are regularly cleared of rubbish and weeds.
3. Any road boundary fences provided must be placed on the property side of any road frontage landscaping required by this rule.
4. Within any parking areas greater than 200m² (excluding loading areas), a minimum of 1m² of additional landscaped area must be provided for every parking space, with an average of one tree per 10m² of landscaping. This standard does not apply to sites used for yard based retail or sites with a street frontage of 12m or less.
5. Fencing must be provided along any boundaries which adjoin a residential or school zoned property (excluding roads). Fencing must:
 - a. be constructed from solid timber paling; and
 - b. have vertical palings which are butted together; and
 - c. only have palings visible from the residential zone; and
 - d. be a minimum of 1.8m high.
6. Activities that contravene this performance standard are restricted discretionary activities.

Note 18.6.1A - Other requirements outside of the District Plan

1. The Dunedin City Council Commercial Use of Footpaths Policy applies to all objects placed on the footpath or suspended over it up to a height of 2.6m. Contact customer services on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.

18.6.2 Building Colour

New buildings, additions and alterations to buildings, repairs and maintenance and earthquake strengthening in a commercial heritage precinct must comply with Rule 13.3.1.

18.6.3 Fence Height and Design

1. The maximum height of a fence, free-standing wall, or gate is 2m along any side boundary or within 10m of

the front boundary, unless completely screened from public view by buildings or established landscaping. For the purposes of calculating maximum height, where a fence or wall is erected atop a retaining wall, the height will be calculated as the combined height measured from ground level to the top of the fence, from the external side of the boundary.

2. Where landscaping is required by Rule 18.6.1, fences must be set back from the road an adequate distance to allow the landscaping to be located between the fence and the road (see Figure 18.6.3A).
3. Activities that contravene this performance standard are restricted discretionary activities.

Figure 18.6.3A: Street frontage landscaping and fencing

18.6.4 Fire Fighting

New residential buildings must comply with Rule 9.3.3.

18.6.5 Height

18.6.5.1 Height in relation to boundary

- New buildings and additions and alterations to buildings on sites which adjoin a residential zone along their side or rear boundary must comply with the height in relation to boundary performance standard of that residential zone, along the adjoining boundary (see Rule 15.6.6.1).
- New buildings and additions and alterations to buildings on sites which adjoin the Recreation Zone along their side or rear boundary must comply with the height in relation to boundary performance standard of the Recreation Zone, along the adjoining boundary (see Rule 20.6.4.1).
- Activities that contravene this performance standard are restricted discretionary activities.

18.6.5.2 Maximum and minimum height

- New buildings and structures, and additions and alterations must comply with the following:

Zone/Centre		1. Minimum height of buildings (above ground level)	2. Minimum number of storeys for buildings (above ground level)	3. Maximum height of buildings and structures (above ground level)	4. Maximum number of storeys for buildings (above ground)
i.	Central Business District Zone (CBD)				
	1. On sites which adjoin George Street	8m	2 storeys	12m	3 storeys
	2. On sites which do not adjoin George Street	8m	2 storeys	16m	4 storeys
ii.	Warehouse Precinct Zone	8m	2 storeys	16m	4 storeys
iii.	Princes, Parry and Harrow Street Zone				
	1. On sites located in the PPH Zone height mapped area (see Figure 18.6.5.2A)	6m	1 storey	20m	—
	2. On sites located outside the PPH Zone height mapped area	6m	1 storey	12m	—
iv.	CBD Edge Commercial North Zone	6m	1 storey	20m	—
v.	CBD Edge Commercial South Zone	6m	1 storey	16m	—
v.	Smith Street and York Place Zone	8m	2 storeys	12m	3 storeys
vi.	Trade Related Zone	—	—	16m	—
vii.	Centres	6m	1 storey	12m	3 storeys

viii. Except:

- Additions to scheduled heritage buildings and character-contributing buildings may exceed the maximum height limit within the Central Business District and centres zones and CBD Edge

Mixed Use zones, as long as that addition is:

1. set back a minimum of 6m from the street frontage façade of the building;
 2. set back a minimum of 6m from the façade of the building which adjoins a residential or recreation zoned site; and
 3. a maximum height of 4m above the maximum height of an existing building.
2. Rooftop structures are exempt from the performance standard for height provided they do not exceed the maximum height limit for all other buildings and structures by more than one third of that limit or 5m, whichever is the lesser.

b. Activities that contravene this performance standard are restricted discretionary activities.

Figure 18.6.5.2A: PPH Zone Height Mapped Area

Note 18.6.5.2A - Other relevant District Plan provisions

1. The performance standard for Height for the Harbourside Edge Zone is included in Rule 18.6.17.1.

18.6.6 Natural Hazards Performance Standards

18.6.6.1 Hazard exclusion areas (swale mapped area)

New buildings and structures and additions and alterations in the Rural Centre Zone located in a **swale mapped area** must comply with Rule 11.3.1.1.

18.6.6.2 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the Hazard 1 (land instability) Overlay Zone or Hazard 2 (land instability) Overlay Zone must comply with Rule 11.3.2.

18.6.6.3 Relocatable buildings

New buildings containing residential activity on the ground floor in the Hazard 3 (coastal) Overlay Zone must comply with Rule 11.3.3.

18.6.7 Hazardous Substances Quantity Limits and Storage Requirements

The storage and use of hazardous substances must comply with Rule 9.3.4.

18.6.8 Location and Screening of Car Parking

1. Within a heritage precinct (except View Street Heritage Precinct) or on sites that adjoin a **primary pedestrian street frontage mapped area**, new extensions to parking areas must be located behind or within a building.
2. In all other locations, any parking areas on a site must be either located behind or within a building, or separated from the street frontage by a minimum 1.5m wide landscaping strip that meets Rule 18.6.1. (Boundary treatments and other landscaping)
3. Parking areas that contravene this performance standard are a non-complying activity.

Note 18.6.8A Other relevant District Plan provisions

Car parking that is provided within a building is subject to the performance standards for new buildings. Within a primary pedestrian street frontage there are also restrictions on the activities that can occupy the ground floor facing the primary pedestrian street frontage (Rule 18.5.4.1)

18.6.9 Location and Screening of Outdoor Storage

1. Outdoor storage of raw materials associated with industrial activities must be located or screened so it is not visible from ground level of a public place or a residential or recreation zoned property.
2. Service areas must be located or screened so that they are not visible at ground level from adjacent: residential activities, residential zoned properties, or public places.
3. Outdoor storage, including service areas, must not encroach into required parking, loading or landscaping areas.
4. Materials stored outside must be stored in a way that prevents them contaminating any off-site area.
5. Activities that contravene this performance standard are restricted discretionary activities.

18.6.10 Materials and Design

Repairs and maintenance, restoration, and earthquake strengthening must comply with Rule 13.3.2.

18.6.11 Minimum Glazing and Building Modulation

- The minimum building modulation and minimum glazing requirements for any parts of a new building or additions and alterations to a building which face, and are visible from, the following street frontages, is as follows:

Street frontage		i. Floor level	ii. Maximum distance between building modulation elements	iii. Minimum glazing
a.	Primary pedestrian street frontage mapped area	i. Ground floor	10m	60%
		ii. Upper floors	10m	30%
b.	Secondary pedestrian street frontage mapped area	i. Ground floor	15m	30%
		ii. Upper floors	15m	20%
c.	Other street frontage	i. All floors	20m, or	20%

- Buildings must meet both the building modulation and minimum glazing standards in **pedestrian street frontage mapped areas**; in all other street frontages, they must only meet one of the standards.
- The required glazing will be calculated as a percentage of the total wall area (from floor to ceiling) that faces the street frontage and that includes clear glass. In the case of curved walls, the wall area will be calculated as the part of the wall which is 45° either side of a point directly facing (parallel to) the street frontage (see Figure 18.6.11A).
- Ground floor glazing within the **primary pedestrian street frontage mapped area** must be clear (unobstructed from signage, glass frosting or other materials attached to the glazing that prevents glazing being visually permeable) for a minimum of 50% of the glazed area.
- This standard does not apply to scheduled heritage buildings or within the Trade Related Zone.
- Activities that contravene this performance standard are restricted discretionary activities.

Figure 18.6.11A: Extent of building façade included in minimum glazing calculation

18.6.12 Minimum Ground Floor to Ceiling Height

1. New buildings, and additions and alterations adjacent to a **primary pedestrian street frontage mapped area** must have a minimum ground floor to ceiling height of 4m for a minimum depth of 6m from the front of the building along the **primary pedestrian street frontage mapped area**.
2. Activities that contravene this performance standard are restricted discretionary activities.

18.6.13 Number, Location and Design of Ancillary Signs

18.6.13.1 General

- a. Signs visible from a public place must meet all of the following performance standards, except that regulatory signs, directional signs and warning signs that do not exceed 0.25m² are exempt from these standards.
- b. Signs must also comply with:
 - i. Rule 6.7.2 where located on or above the footpath; and
 - ii. Rule 6.7.3 where visible from a road.
- c. Signs must not be flashing within **pedestrian street frontage mapped areas**, heritage precincts and the Harbourside Edge Zone and must not be illuminated or digital within heritage precincts
- d. Signs higher than 4m above ground level must only display the business name.
- e. Signs related to restaurants ancillary to food and beverage retail 1,500m² or more in gross floor area, or trade related retail, in the Trade Related Zone must not be externally facing (i.e. must not be visible from a

public place).

- f. Signs that contravene the performance standard for number, location and design of ancillary signs are restricted discretionary activities.

18.6.13.2 Signs attached to buildings

- a. The height, above ground level, at the highest point of any sign, attached to a building is:
 - i. 4m within **pedestrian street frontage mapped areas**, heritage precincts and the Harbourside Edge Zone (see Figure 18.6.13.6A); and
 - ii. 8m in all other locations.
- b. Signs must not be attached to roofs.
- c. Signs must not project higher than the lowest point of the roof, except where mounted against a parapet or gable end.
- d. Signs must be made of a solid material and may not be in the form of a flag, banner or other type of fabric sign in the **pedestrian street frontage mapped areas**, heritage precincts and the Harbourside Edge Zone.

18.6.13.3 Signs attached flat against buildings (including verandah fascia)

- a. The maximum area of walls facing the street that signs may occupy (excluding signs in windows) is:
 - i. 50% of the area up to 4m or the bottom of a verandah, whichever is the lesser, in **pedestrian street frontage mapped areas**, heritage precincts and the Harbourside Edge Zone (see Figure 18.6.13.6A); and
 - ii. 15% or 8m², whichever is the lesser, in all other locations.
- b. Signs attached to a verandah fascia must not exceed a height of 500mm, or the height of a verandah fascia, whichever is greater.

18.6.13.4 Signs attached at a right angle to the façade of a building (including attached to the underside of a verandah)

- a. Signs must not exceed:
 - i. a maximum of 1 per 5m of street frontage, in **pedestrian street frontage mapped areas**, heritage precinct or in the Harbourside Edge Zone (see Figure 18.6.13.6A);
 - ii. a maximum of 1 per 15m of street frontage, for a site with a single premise, or 1 per 7.5m, for a site with multiple premises; and
 - iii. in all locations, a total of 3 signs per building.
- b. Signs must have a maximum of 2 display faces.
- c. Signs must have a maximum area per display face of:
 - i. 1.5m² in **pedestrian street frontage mapped areas**, heritage precinct or in the Harbourside Edge Zone; and
 - ii. 2m² in all other locations.
- d. Signs must not protrude from a façade more than:
 - i. 1m in **pedestrian street frontage mapped areas**, heritage precinct or in the Harbourside Edge Zone; and
 - ii. 1.5m in all other locations.

18.6.13.5 Portable freestanding signs on footpaths

- a. Portable freestanding signs on footpaths are only allowed for premises that have no ground floor street

frontage (other than entranceways) in:

- i. **pedestrian street frontage mapped areas**, heritage precinct or in the Harbourside Edge Zone; and
 - ii. CBD and centres zones (outside **pedestrian street frontage mapped areas** and heritage precincts) and the PPH and CEC zones.
- b. Portable freestanding signs on footpaths must not exceed:
- i. a maximum height of 900mm above ground level; and
 - ii. a maximum width of 600mm.
- c. Portable freestanding signs on footpaths must be spaced at least 5m from any other portable sign.
- d. Portable freestanding signs on footpaths must not exceed 1 sign per site, except where a site has a street frontage of 30m or more, then a maximum of 1 sign per 15m of street frontage is allowed.
- e. In the Trade Related Zone, portable signs on footpaths are not allowed.

18.6.13.6 Freestanding signs

- a. The maximum number of freestanding signs is:
- i. 1 per site in **pedestrian street frontage mapped areas**, heritage precincts or the Harbourside Edge Zone; and
 - ii. 2 per site or 1 per 50m of street frontage, whichever is the lesser, for permanently fixed freestanding signs in all other locations.
- b. The maximum dimensions of freestanding signs are:
- i. In **pedestrian street frontage mapped areas**, heritage precincts or the Harbourside Edge Zone:
 1. maximum height of 4m;
 2. maximum area of 3m² per display face;
 3. maximum width of 2m; and
 4. maximum depth of 400mm
 - ii. In Trade Related Zone (see Figure 18.6.13.6B):
 1. maximum height of 8m for permanently fixed freestanding signs;
 2. maximum height of 4m for portable freestanding signs;
 3. maximum area of 16m² per display face for permanently fixed freestanding signs;
 4. maximum area of 8m² per display face for portable freestanding signs;
 5. maximum width of 2m; and
 6. maximum depth of 400mm.
 - iii. In all other locations (see Figure 18.6.13.6C):
 1. maximum height of 6m for permanently fixed freestanding signs;
 2. maximum height of 4m for portable freestanding signs;
 3. maximum area of 12m² per display face for permanently fixed freestanding signs;
 4. maximum area of 8m² per display face for portable freestanding signs;
 5. maximum width of 2m; and
 6. maximum depth of 400mm.
- c. Freestanding signs must:
- i. not obstruct parking, loading and access areas; and

- ii. be positioned entirely within site boundaries, except:
 1. flag signs within the CBD and centres zones (outside **pedestrian street frontage mapped areas** and heritage precincts) and within PPH, CEC and TR zones may project a maximum of 1.5m over a footpath if the flag sign is located at least 2.5m, at its lowest point, above the footpath; and
 2. portable freestanding signs on footpaths provided for in Rule 18.6.13.5.

Figure 18.6.13.6A: Signs in **pedestrian street frontage mapped areas**, heritage precincts and Harbourside Edge Zone

Figure 18.6.13.6B: Signs in the Trade Related Zone

Figure 18.6.13.6C: Signs in all other locations.

Note 18.6.13A - Other relevant District Plan provisions

1. Commercial advertising is a non-complying land use activity in all zones, except for the Airport Zone.
2. See Section 3 Public Amenities for the rules related to public noticeboards.
3. See Section 4 Temporary Activities for the rules related to temporary signs.
4. Illuminated signs must comply with the standards in Rule 6.7.3.

Note 18.6.13B - Other requirements outside of the District Plan

1. For additional restrictions that may apply to signs, see also:
 - a. NZ Transport Agency *Traffic Control Devices Manual, Part 3, Advertising Signs and Signs on State Highways Bylaw*
 - b. Dunedin City Council Commercial Use of Footpaths Policy
 - c. Dunedin City Council Roadway Bylaw
 - d. Dunedin City Council Traffic and Parking Bylaw

18.6.14 Parking, Loading and Access Standards

1. Parking, loading and access must comply with Rule 6.6.
2. New vehicle accesses are not allowed on any **primary pedestrian street frontage mapped area**.
3. Vehicle accesses that contravene the performance standard in Rule 18.6.14.2 are a non-complying activity.

18.6.15 Pedestrian Entrances

1. For new buildings and additions and alterations to buildings built adjacent to a **primary pedestrian street frontage mapped area** or **secondary pedestrian street frontage mapped area**:
 - a. the principal pedestrian entrance must be located on the **pedestrian street frontage mapped area**; and
 - b. if a building is adjacent to both a **primary pedestrian street frontage mapped area** and a **secondary pedestrian street frontage mapped area**, the principal pedestrian entrance must be located on the primary pedestrian street frontage.
 - c. Activities that contravene this performance standard are restricted discretionary activities.

18.6.16 Setbacks

18.6.16.1 Setback from road boundaries

- a. New buildings and additions and alterations to buildings must be built within 400mm of any road boundary that is a **primary pedestrian street frontage mapped area** (i.e. they must occupy the full width of the site, parallel to the road boundary), for the entire length of the **primary pedestrian street frontage mapped area**, except:
 - i. a setback of up to 1.5m for a maximum width of 3m may be provided to allow for a recessed pedestrian entrance;
 - ii. a gap adjacent to the side boundary of up to 3m may be provided to allow for a publicly-accessible pedestrian connection from the street, to an existing or proposed public walkway, road, reserve or other public place (see Figure 18.6.16.1A); and
 - iii. on any part of a site that adjoins a residential or recreation zone and where Rule 18.6.16.2 (setback from boundaries of residential or recreation zone) applies.
- b. New buildings or additions and alterations to buildings must be built within 400mm of any road boundary that is a **secondary pedestrian street frontage mapped area** for 60% of the length of the **secondary pedestrian street frontage mapped area**, except a setback of up to 1.5m for a maximum width of 3m may be provided to allow for a recessed pedestrian entrance.
- c. On a **secondary pedestrian street frontage mapped area**, any part of a building that is not built within 400mm of the street frontage, must be set back a minimum of 1.5m from the street frontage in order to meet Rule 18.6.1.
- d. Activities that contravene this performance standard are restricted discretionary activities.

Figure 18.6.16.1A: Setback from a **primary pedestrian street frontage mapped area**

18.6.16.2: Setback from boundaries of residential or recreation zoned sites

- Along any boundaries that adjoin a residential or recreation zone, all new buildings or additions and alterations to buildings must have a minimum boundary setback of 3m.
- Activities that contravene this performance standard are restricted discretionary activities.

18.6.16.3: Setback from scheduled tree

New buildings and structures, additions and alterations, and any site development activities that involve the installation of impermeable surfacing must comply with Rule 7.5.2.

18.6.16.4: Setback from coast and water bodies

New buildings and structures, additions, alterations and storage and use of hazardous substances must comply with Rule 10.3.3.

18.6.16.5 Setback from National Grid

New buildings and structures, and additions and alterations must comply with Rule 5.6.1.1.

18.6.17 Harbourside Edge Zone Standards

The following standards apply only within the Harbourside Edge Zone.

1. New buildings must comply with the following:

Area	i. Minimum Height	ii. Maximum Height
a. Harbourside edge height mapped area (see Figure 18.6.17A)	6m	20m
b. Harbourside Edge Zone outside the harbourside edge height mapped area	6m	16m
c. Harbourside Edge Transition Overlay Zone (when it is released)	6m	16m

2. New buildings and structures and additions and alterations must be designed to enable public pedestrian access through from Birch and Kitchener streets to the public walkway required in Rule 18.6.17.3, at a minimum of three locations, as follows:
 - a. one accessway must be located within 5m of the 'Roberts Street public accessway' shown on Figure 18.6.17B;
 - b. two further accessways must be located in the general area of the 'other public accessways' shown on Figure 18.6.17B;
 - c. the accessways must be available for public use between the hours of 8.00am and 10.00pm; and
 - d. the accessways may be external to or internal to (through) buildings.
3. Before any new building on a site is occupied, a public walkway must be provided along the full length of the seaward side of the site in the general location of the **harbourside edge public walkway mapped area** (see also Figure 18.6.17B). The public walkway must be either:
 - a. along the wharf, if it is upgraded to a safe standard;
 - b. along the land between the external seaward wall of the building and mean high water springs; or
 - c. partly along the wharf and partly on the land between the external seaward wall of the building and mean high water springs.
4. The public walkway required by Rule 18.6.17.3 must:
 - a. have a minimum width of 5m;
 - b. be designed and located to enable the continuation of the walkway into any adjacent site where it is required by this plan;
 - c. be free of all obstructions to pedestrian movement;
 - d. not be used by vehicles, except for using or accessing the slipway, or vehicles being used for maintenance of the wharf, the walkway or any adjacent structure or building;
 - e. be constructed with a non-slip finish with materials complementary in colour to the materials used for the adjoining sections of walkway, if already constructed; and
 - f. be lit to the Lighting for Roads and Public Spaces AS/NZS 1158.3.1:2005, P4 Standard.
5. Activities that contravene rules 18.6.17.1, 18.6.17.2, or 18.6.17.4 are a restricted discretionary activity.
6. Activities that contravene Rule 18.6.17.3 are a non-complying activity.

Figure 18.6.17A: Harbourside Edge height mapped area

Figure 18.6.17B: Harbourside Edge public walkway mapped area and location of accessways

18.6.18 Verandahs

1. Buildings along a **primary pedestrian street frontage mapped area**, except within the St Clair Neighbourhood Destination Centre, must have a verandah that:
 - a. extends the full length of building frontage along the **primary pedestrian street frontage mapped area** and adjoins its neighbours (except across any existing vehicle access) to provide continuous pedestrian cover of the footpath;
 - b. has a maximum depth of 3m or is no closer than 500mm from the adjacent kerb (whichever is the lesser);
 - c. the bottom of which is between 3m and 4m above the footpath;
 - d. has a fascia that is no higher than 500mm;
 - e. provides under lighting unless the building provides lighting of the footpath under the verandah; and
 - f. on corner sites, continues around the corner for the full length of the **primary pedestrian street frontage mapped area**.
2. Along a **secondary pedestrian street frontage mapped area**, except within the Warehouse Industrial Commercial Heritage Precinct, buildings must have a verandah that covers the full width of the main pedestrian entrance.
3. Scheduled heritage buildings that do not have an existing verandah are exempt from this standard.
4. Activities that contravene this performance standard are restricted discretionary activities.

18.7 Subdivision Performance Standards

18.7.1 Access

Subdivision activities must comply with Rule 6.8.1.

18.7.2 Esplanade Reserves and Strips

Subdivision activities must comply with Rule 10.3.1.

{Note - appeal applies to HE Zone only}

18.7.3 Fire Fighting

Subdivision activities must comply with Rule 9.3.3.

18.7.4 Service Connections

Subdivision activities must comply with Rule 9.3.7.

18.7.5 Shape

1. Each resultant site that is intended to be developed must be of a size and shape that is large enough to contain a building platform of at least 100m² that meets the performance standards of this Plan including, but not limited to:
 - a. minimum car parking;
 - b. setbacks from boundaries, water bodies, scheduled trees; and
 - c. esplanade reserves or strips.
2. Building platforms must have a slope of 12° (1:4.7 or 21%) or less and must:
 - a. not contain scheduled heritage buildings or structures; or
 - b. not contain right-of-way easements.
 - c. be located at least 12m from the outer edge of a National Grid support structure or centreline of an overhead National Grid transmission line.
3. For unreticulated areas, resultant sites must provide for a waste disposal area to be located at least 50m from any water body and Mean High Water Springs.
4. Sites created and used solely for the following purposes are exempt from the shape standard:
 - a. Scheduled ASBV or QEII covenant;
 - b. reserve;
 - c. access;
 - d. network utility; or
 - e. road.
5. Subdivision activities that do not meet this standard are restricted discretionary activities, except that subdivision activities that do not meet Rule 18.7.5.2.c are non-complying activities.

Rule 18.8 Assessment of Controlled Activities

Rule 18.8.1 Introduction

1. Controlled activities will be assessed in accordance with section 104 and 104A of the RMA. Council must grant the application and may impose conditions with respect to matters over which it has reserved its control.
2. Rule 18.8.2:
 - a. lists the matters over which Council has reserved its control; and
 - b. provides guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi); and
 - ii. conditions that may be imposed.
3. Where a controlled activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 18.9; and
 - iv. the matters of control become matters of discretion and will be assessed as indicated in this section.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 18.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 18.12; and
 - iii. the assessment guidance in this section will also be considered.

18.8.2 Assessment of controlled development activities

Activity	Matters of control	Guidance on the assessment of resource consents
1. Affecting a scheduled heritage building or a scheduled heritage structure: • Earthquake strengthening that affects a protected part of a scheduled heritage building or scheduled heritage structure, where external features only are protected; or • Restoration of a protected part of a scheduled heritage building or scheduled heritage structure that has a Heritage New Zealand Category 1 listing (as detailed in Appendix A1.1).	a. Effects on heritage values	See Rule 13.4
2. In a heritage precinct, additions and alterations to a non character-contributing building that involve: • an increase in the footprint of 10m² or more; or • an increase in the height of the building by more than 2m.	a. Effect on heritage streetscape character	See Rule 13.4

Rule 18.9 Assessment of Restricted Discretionary Activities (Performance Standard Contraventions)

Rule 18.9.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 18.9.2 - 18.9.6:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 18.9.2 - 18.9.6 apply as follows:
 - a. Rule 18.9.2 applies to all performance standard contraventions;
 - b. Rule 18.9.3 applies to land use performance standard contraventions;
 - c. Rule 18.9.4 applies to development performance standard contraventions;
 - d. Rule 18.9.5 applies to subdivision performance standard contraventions; and
 - e. Rule 18.9.6 applies to restricted discretionary performance standard contraventions in a pedestrian street frontage, overlay zone, mapped area, heritage precinct, or affecting a scheduled item.

18.9.2 Assessment of all performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. Performance standard contraventions	<i>Potential circumstances that may support a consent application include:</i> a. The degree of non-compliance with the performance standard is minor. b. Topography or other site specific factors make the standard irrelevant as the adverse effects that the standard is trying to manage will not occur. c. Non-compliance with a development performance standard would improve the design of the development in a way that would result in positive effects and better achieve the identified objectives and policies of the Plan. d. There are positive effects on heritage values related to better site design outcomes achieved through not meeting the performance standards. <i>General assessment criteria:</i> e. Where more than one standard is contravened, the combined effects of the contraventions should be considered. f. In balancing consideration of the objectives and policies related to the maintenance of heritage values or heritage precinct streetscape character and those related to general amenity, greater weight will usually be placed on heritage policies.

18.9.3 Assessment of land use performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
1. Electrical Interference	a. Effects on health and safety	See Rule 9.5
2. Maximum gross area of centre (Rule 18.5.5.1)	a. Effects on the vibrancy, and economic and social success of CBD and centres	<i>Relevant objectives and policies:</i> i. Objective 18.2.1 ii. Activities in neighbourhood and rural centres: 1. are not a destination retail activity designed to attract customers from across suburbs, which are more appropriately located in the CBD or other central city commercial and mixed use zones; and 2. do not dominate the centre and reduce the diversity of different activities that are able to establish within the centre (Policy 18.2.1.8).
3. Maximum gross floor area of dairies	a. Effects on the vibrancy, and economic and social success of CBD and centres	<i>Relevant objectives and policies:</i> i. Objective 18.2.1 ii. Dairies are of a size that ensures they operate as a convenience store rather than a destination supermarket (Policy 18.2.1.11). <i>Potential circumstances that may support a consent application include:</i> iii. The dairy serves the local neighbourhood and primarily sells day-to-day convenience food, beverage and house consumables, for example milk and bread.

18.9.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
4.	Maximum gross floor area of retail ancillary to industry	a. Effects on the vibrancy, and economic and social success of CBD and centres	<i>Relevant objectives and policies:</i> i. Objective 18.2.1 ii. The size of retail ancillary to industry: 1. is clearly subordinate to and part of the operation of the primary industry activity; 2. does not conflict with objectives 2.3.2 and 2.4.3; and 3. does not create adverse effects on other industrial activities, for example from traffic, parking, or reverse sensitivity (Policy 18.2.1.7).
		b. Effects on ability of other commercial and industrial activities to operate	
5.	Minimum car parking	a. Effects on accessibility	See Rule 6.10
		b. Effects on the safety and efficiency of the transport network	
6.	• Minimum vehicle loading • Service station standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
7.	Location of residential activities	a. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. The potential for reverse sensitivity is avoided or, if avoidance is not practicable, adequately mitigated (Policy 18.2.2.11).

18.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Boundary treatments and other landscaping	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. Development maintains or enhances streetscape amenity by ensuring: 1. an attractive street interface is maintained through landscaping where buildings are not built to the street frontage (Policy 18.2.3.1.a); and 2. large parking areas which are visible from the street are visually broken up with internal landscaping, which also provides for rainwater absorption (Policy 18.2.3.1.b).
2.	• Boundary treatments and other landscaping • Height in relation to boundary • Setback from boundaries of residential and recreation zoned sites	a. Effects on amenity of sites in adjoining residential or recreation zones	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. Buildings are of a height in relation to boundary and setback from side and rear boundaries that maintains a reasonable level of sunlight access for: 1. current and future residential buildings and their outdoor living spaces in adjoining residential zones; and 2. sites in the Recreation and School zones (Policy 18.2.2.3). iii. Fencing along property boundaries which adjoin residential or school zoned sites are of an adequate height and design to provide screening for the purposes of privacy and security (Policy 18.2.2.1). <i>Potential circumstances that may support a consent application include:</i> iv. Access to sunlight to the outdoor living space(s) and windows of bedrooms and living areas of nearby residential buildings is maintained or any reduction is minor. v. Access to sunlight on surrounding recreation areas is maintained or any reduction is minor. vi. A reasonable level of privacy is maintained for the windows, doors, and decks of any residential and visitor accommodation on surrounding residential zoned sites.
3.	Fence height and design	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. Fences visible from public places are designed to maintain or enhance streetscape amenity (Policy 18.2.3.6).
4.	Fire fighting	a. Effects on health and safety	See Rule 9.5

18.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
5.	Hazardous substances quantity limits and storage requirements	a. Effects on health and safety	See Rule 9.5
6.	Height (Rule 18.6.5.2) - maximum and minimum height	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 2.4.3 ii. Objective 18.2.3 iii. Buildings and structures maintain or enhance streetscape amenity by ensuring building height reflects the general heights of the block (Policy 18.2.3.11.a). iv. Buildings and additions and alterations as part of the Dunedin Hospital redevelopment maintain or enhance streetscape amenity by ensuring buildings and structures above 20m minimise as far as practicable adverse effects of shading and wind on pedestrian amenity (Policy 18.2.3.13.b)
		b. Effects on views across Otago harbour	<i>Relevant objectives and policies:</i> i. Objective 2.4.3 ii. Objective 18.2.3 iii. Buildings and structures minimise as far as practicable adverse effects on the skyline vista of the city, particularly as viewed from Dunedin's inner hill suburbs across the harbour towards the Otago Peninsula, including through the use of quality and contextually appropriate architectural design (Policy 18.2.3.11.b).
7.	Location and screening of outdoor storage	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. Development maintains or enhances streetscape amenity by ensuring service areas and outdoor storage areas associated with industrial or other activities are not visible from ground level of a public place (Policy 18.2.3.1.c).
8.	Minimum glazing and building modulation	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. Development maintains or enhances streetscape amenity by ensuring an architecturally interesting façade through building modulation and use of glazing (Policy 18.2.3.1.d).

18.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
9.	Number, location and design of ancillary signs	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. Ancillary signs convey information about the name, location and nature of the business to passing pedestrians and vehicles while not being oversized or too numerous for that purpose (Policy 18.2.3.7). <i>Potential circumstances that may support a consent application include:</i> iii. An attractive streetscape is maintained. iv. The visual cohesion of the street is not reduced by the increase in size or number of signs. <i>General assessment guidance:</i> v. For signs that do not comply with Rule 18.6.13.1.e (the restriction on signs for restaurants ancillary to trade related retail or food and beverage retail), Council will also consider the effects in terms of Policy 18.2.1.17 and Policy 18.2.1.18.
		b. Effects on the safety and efficiency of the transport network	See Rule 6.10
10.	Parking, loading and access standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
		b. Effects on the safety of parking and loading areas	
11.	Setback from coast and water bodies	a. Effects on biodiversity values and natural character of riparian margins and the coast	See Rule 10.5
		b. Effects on public access	
		c. Risk from natural hazards	See Rule 11.4
12.	Setback from scheduled tree	a. Effects on long term health of tree	See Rule 7.6

18.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
13.	Harbourside Edge Zone Standards (18.6.17.1) - height	a. Effects on views across Otago Harbour b. Effects on amenity and character of zone	<i>Relevant objectives and policies:</i> i. Objectives 2.4.1, 18.2.3, Policy 2.4.1.4. ii. Buildings and structures: 1. reflects the general heights of the block; and 2. minimises, as far as practicable, adverse effects on the skyline vista of the city, particularly as viewed from Dunedin's inner hill suburbs across the upper harbour toward Otago Peninsula, including through the use of quality and contextually appropriate design (Policy 18.2.3.11). iii. Buildings and additions and alterations to buildings provide a high level of amenity by being of a design that is coherent, appropriate to the setting and history of the area, and providing a positive relationship to both the street and the harbour (Policy 18.2.3.4.c).
14.	Harbourside Edge Zone Standards (18.6.17.2) - access	a. Effects on amenity and character of zone	<i>Relevant objectives and policies:</i> i. Objectives 2.4.1, 18.2.3 ii. Development in the Harbourside Edge Zone is designed and located to provide a high level of amenity by: 1. requiring public pedestrian access to and along the coast that is attractive, safe, durable, and readily accessible to the public (Policy 18.2.3.5.a); and 2. maintaining viewshafts from Roberts Street and Kitchener Street to and across the Steamer Basin (Policy 18.2.3.5.d).
15.	Harbourside Edge Zone Standards (18.6.17.4) - walkway design	a. Effects on amenity and character of zone	<i>Relevant objectives and policies:</i> i. Objectives 2.4.1, 18.2.3 ii. Development in the Harbourside Edge Zone is designed and located to provide a high level of amenity by requiring public pedestrian access to and along the coast that is attractive, safe, durable, and readily accessible to the public (Policy 18.2.3.5.a).

18.9.5 Assessment of subdivision performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Access	a. Effects on accessibility	See Rule 6.10
2.	Esplanade reserves and strips	a. Effects on biodiversity values and natural character of riparian margins and the coast	See Rule 10.5
		b. Effects on public access	
3.	Fire fighting	a. Effects on health and safety	See Rule 9.5
4.	Service connections	a. Effects on efficiency and affordability of infrastructure	See Rule 9.5

18.9.5 Assessment of subdivision performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
5. Shape	<i>Relevant objectives and policies:</i> a. Objective 2.4.1 b. Subdivisions are designed to ensure any future land use or development of the resultant site is able to meet the performance standards in the zone, or where in a structure plan mapped area, reflects the requirements of the structure plan mapped area performance standards, unless: i. a resource consent is approved for a development that does not meet the performance standard and the subdivision is intended for and capable of providing for that approved development; or ii. the resultant site is required for: 1. a Scheduled ASBV; 2. a QEII covenant; 3. a reserve; 4. an access; 5. a utility; or 6. a road (Policy 2.4.1.8). <i>General assessment guidance:</i> c. Non-compliance with the performance standard for shape will be assessed based on which performance standard(s) the shape of the resultant site does not provide for compliance with. See matters of discretion and assessment rules in relation to performance standard contraventions for: i. minimum car parking; ii. boundary setbacks; iii. setback from scheduled tree; iv. setbacks from water bodies; and v. setback from National Grid. d. For contravention of the building platform slope part of the shape performance standard (Rule 18.7.5.2), see the matters of discretion and assessment rules in relation to earthworks - large scale (Rule 8A.7.2.1). <i>Conditions that may be imposed:</i> e. Restrictions or conditions, including by way of consent notice, on land use or development activities allowed on the site. f. A building platform may be required to be registered against the title by way of consent notice.	

18.9.6 Assessment of restricted discretionary performance standard contraventions in a pedestrian street frontage mapped area, overlay zone, mapped area, heritage precinct, or affecting a scheduled item

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Affecting a scheduled heritage building or scheduled heritage structure : Materials and design	a. Effects on heritage values	See Rule 13.5
2.	In a hazard overlay zone or swale mapped area : - Hazard exclusion areas (Rule 11.3.1.1) – Swale mapped area (Rural Centre Zone only) - Maximum area of vegetation clearance in the hazard overlay zones (Hazard 1 or 2 (land instability) overlay zones) - Relocatable buildings (Hazard 3 (coastal) Overlay Zone) - Hazardous substances quantity limits and storage requirements	a. Risk from natural hazards	See Rule 11.4
3.	In a heritage precinct : - Boundary setbacks - Building colour - Fence height and design - Materials and design - Height - Number, location and design of ancillary signs	a. Effects on heritage streetscape character	See Rule 13.5

18.9.6 Assessment of restricted discretionary performance standard contraventions in a pedestrian street frontage mapped area, overlay zone, mapped area, heritage precinct, or affecting a scheduled item

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
4.	Along or adjacent to a pedestrian street frontage mapped area: Location of industrial activities	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. Industrial activities avoid or, if avoidance is not practicable, adequately mitigate any adverse effects on streetscape amenity by locating any part of the industrial operation that involves machinery or metal work within a part of a building that does not include any doors or windows that open to a primary pedestrian street frontage mapped area or secondary pedestrian street frontage mapped area (Policy 18.2.3.10).

18.9.6 Assessment of restricted discretionary performance standard contraventions in a pedestrian street frontage mapped area, overlay zone, mapped area, heritage precinct, or affecting a scheduled item

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
5. Along or adjacent to a primary pedestrian street frontage mapped area: • Location of activities within pedestrian street frontage mapped areas • Height • Minimum glazing and building modulation • Minimum ground floor to ceiling height • Pedestrian entrances • Setback from road boundaries • Verandahs	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> - Objective 18.2.3 - Buildings along a primary pedestrian street frontage mapped area are located, designed and operated to provide a high level of pedestrian amenity by: - providing a continual frontage of buildings along the street, apart from pedestrian alleyways; - providing a clear and direct visual connection between the street and the building interior; - providing a direct physical connection to the building interior through clearly identified pedestrian entrances on the highest order pedestrian street frontage; - providing shelter for pedestrians on footpaths, in the form of a verandah; - being of a height that maintains existing sunlight access to footpaths and public open spaces; - providing an architecturally interesting façade and human scale design, through building modulation and consistent alignment of windows; - being designed to have commercial activities at the ground floor, with an adequate ground floor to ceiling height to accommodate these activities; and - providing customer-facing activities on the ground floor (Policy 18.2.3.2). <i>Potential circumstances that may support a consent application include:</i> - The length of the total building frontage that will not meet this standard is short and the context of the building means any effects on streetscape amenity will be no more than minor. - It is proposed to only lease the space for a limited period of time, and the consent will be time-limited. - In neighbourhood centres the setback area between the road boundary and the building is used for outdoor seating for a restaurant. <i>Conditions that may be imposed include:</i> - Time limit on consent. - A condition that prevents the setback area from being used for carparking or outdoor storage.

18.9.6 Assessment of restricted discretionary performance standard contraventions in a pedestrian street frontage mapped area, overlay zone, mapped area, heritage precinct, or affecting a scheduled item

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
6. Along or adjacent to a secondary pedestrian street frontage mapped area: • Location of activities within pedestrian street frontage mapped areas • Pedestrian entrances • Minimum glazing and building modulation • Setback from road boundaries • Verandahs	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> - Objective 18.2.3 - Buildings provide a good level of pedestrian amenity by: - providing a regular frontage of buildings along the street, with limited interruptions for vehicle accesses; - providing a clear and direct visual connection between the street and the building interior; - providing an architecturally interesting façade and human scale design, through building modulation and consistent alignment of windows; and - providing shelter for pedestrians at pedestrian entrances (Policy 18.2.3.3). <i>Potential circumstances that may support a consent application include:</i> - The design and size of the verandah still allows for the shelter of pedestrians from the weather. - The activities proposed at ground floor have a customer-facing function. - The length of the total building frontage that will not meet this standard is short and the context of the building means any effects on streetscape amenity will be no more than minor. - It is proposed to only lease the space for a limited period of time, and the consent will be time-limited. <i>Conditions that may be imposed include:</i> - Time limit on consent.
7. On a primary or secondary pedestrian street frontage mapped area: • Location (network utility activities) (Rule 5.5.2.1) • Maximum volume in pedestrian street frontage mapped areas, heritage precincts and scheduled heritage sites (network utility activities) (Rule 5.5.4)	a. Effects on pedestrian amenity	<i>Relevant objectives and policies:</i> - Objectives 18.2.3 and 5.2.1 - Network utility structures – small scale are of a design, location and scale that maintains a high level of pedestrian amenity in pedestrian street frontage mapped areas (Policy 18.2.3.12).

18.9.6 Assessment of restricted discretionary performance standard contraventions in a pedestrian street frontage mapped area, overlay zone, mapped area, heritage precinct, or affecting a scheduled item

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
8.	In a wāhi tūpuna mapped area: • Setback from coast and water bodies • Esplanade reserves and strips	a. Effects on cultural values of Manawhenua	See Rule 14.3

Rule 18.10 Assessment of Restricted Discretionary Activities

Rule 18.10.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 18.10.2 - 18.10.5:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how a consent application will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 18.10.2 - 18.10.5 apply as follows:
 - a. Rule 18.10.2 applies to restricted discretionary land use activities;
 - b. Rule 18.10.3 applies to assessment of restricted discretionary development activities;
 - c. Rule 18.10.4 applies to restricted discretionary subdivision activities; and
 - d. Rule 18.10.5 applies to restricted discretionary activities in an overlay zone, mapped area, heritage precinct or affecting a scheduled item.
4. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in the Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.
5. Where a restricted discretionary activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 18.9; and
 - iv. the matters of discretion in this section will be assessed as indicated.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 18.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 18.12; and
 - iii. the assessment guidance in this section will also be considered.

18.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. All high trip generators, which include any activities that generate 250 or more vehicle movements a day	a. Effects on the safety and efficiency of the transport network b. Effects on accessibility	See Rule 6.11
2. - Restaurants drive-through (CEC - North, CEC - South, TR) <i>{Note - appeal applies to CEC - North Zone only}</i> - Service stations (CEC - North, CEC - South, TR, Centres, PPH)	a. Effects on residential amenity b. Effects on the safety and efficiency of the transport network	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. Significant adverse effects on the amenity of existing residential activities are avoided or mitigated as far as practicable (Policy 18.2.2.4). See Rule 6.11
3. Early childhood education (CBD, centres, WP, PPH, SSYP, HE)	a. Reverse sensitivity effects b. Effects on the safety and efficiency of the transport network	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. Early childhood education and residential activities in the CBD, centres and CBD edge mixed use zones are located where they will not constrain (have reverse sensitivity effects on) activities which are provided for in the commercial and mixed use zone (Policy 18.2.2.8). <i>Potential circumstances that may support a consent application include:</i> iii. Performance standards for development activities are met. iv. Outdoor play areas of early childhood centres are protected from external noise through acoustic fencing or other building design measures that reduce the noise received in play areas. See Rule 6.11

18.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
4. - Conference, meeting and function ancillary to visitor accommodation (PPH, SSYP) - Entertainment and exhibition ancillary to visitor accommodation (PPH, SSYP)	a. Effects on the vibrancy and economic and social success of the CBD and centres.	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. The activities are secondary to the visitor accommodation activity (Policy 18.2.2.2.a).
	b. Effects on residential amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. Any adverse effects on the amenity of surrounding residential activities, from noise, anti-social behaviour, or other effects will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 18.2.2.2.b). <i>Potential circumstances that may support a consent application</i> iii. Performance standards for development activities are met. iv. The scale and nature of the activity including the number of people involved in the activity, hours of operation means that effects will be avoided, or if avoidance is not possible, adequately mitigated.
	c. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. The potential for reverse sensitivity will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 18.2.2.2.c).
	d. Effects on the safety and efficiency of the transport network	See Rule 6.11
5. - Visitor accommodation (NEC and NECC) - Community and leisure - large scale (NEC and NECC)	a. Effects on residential amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.2 ii. Any adverse effects on the amenity of surrounding residential activities are avoided or, if avoidance is not practicable, adequately mitigated (Policy 18.2.2.7). <i>Potential circumstances that may support a consent application include:</i> iii. Communal outdoor living / gathering areas are located or screened from surrounding properties. iv. Performance standards for development activities are met.
6. Hospital (CEC - North)	a. Effects on accessibility	See Rule 6.11
	b. Effects on the safety and efficiency of the transport network	

18.10.3 Assessment of restricted discretionary development activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. New buildings and additions and alterations to buildings in the Harbourside Edge Zone, that are visible from an adjoining public place or the harbour	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. New buildings and additions and alterations to buildings in the Harbourside Edge Zone are designed and located to provide a high level of amenity by: 1. being built to the street frontage along the entire length of Birch Street, and for no less than 60% of the street frontage on Kitchener Street, except for: 1. any setbacks required to allow pedestrian entrances; and 2. the provision of amenity space for customers or residents at the front of buildings. 2. including appropriate building modulation, window alignment, use of glazing, floor height, colour, architectural detail to provide visual interest and a human-scale design; 3. being of a design that is coherent, appropriate to the setting and history of the area, and provides a positive relationship to both the street and the harbour; and 4. having active edges with strong visual and physical connections from the street to the inside of buildings (Policy 18.2.3.4). iii. Development is designed and located to provide a high level of amenity by: 1. ensuring the design and location of on-site car parking does not compromise streetscape or harbour amenity (Policy 18.2.3.5.b); and 2. ensuring development activities incorporate the principles of CPTED (Policy 18.2.3.5.c) <i>Conditions that may be imposed include:</i> iv. Council may place condition on aspects of building design including: 1. entry and exit points for pedestrians; 2. building materials; 3. architectural detail; 4. building modulation; 5. colour; and 6. window type and placement.

18.10.3 Assessment of restricted discretionary development activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
2. New buildings and structures, and additions and alterations as part of the Dunedin Hospital redevelopment	a. Effects on streetscape and pedestrian amenity	<i>Relevant objectives and policies:</i> i. Objective 18.2.3 ii. Development maintains or enhances streetscape amenity by ensuring: 1. an attractive street interface is maintained through landscaping where buildings are not built to the street frontage; 2. large parking areas which are visible from the street are visually broken up with internal landscaping, which also provides for rainwater absorption; 3. service areas and outdoor storage areas associated with industrial or other activities are not visible from ground level of a public place; and 4. an architecturally interesting façade through building modulation and use of glazing (Policy 18.2.3.1) iii. Buildings and additions and alterations maintain or enhance streetscape amenity by ensuring the use of verandahs where appropriate (Policy 18.2.3.13.a)
3. High trip generators: • New or additions to parking areas that result in 50 or more new parking spaces	a. Effects on the safety and efficiency of the transport network b. Effects on accessibility	See Rule 6.11

18.10.4 Assessment of restricted discretionary subdivision activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. Subdivision activities	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
	b. Risk from natural hazards	See Rule 11.5

18.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area, heritage precinct or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. In a heritage precinct : All RD activities due to being in a heritage precinct	a. Effects on heritage streetscape character	See Rule 13.6
2. Activities affecting a scheduled heritage building or scheduled heritage structure : - Additions and alterations that affect a protected part of a scheduled heritage building or scheduled heritage structure - Removal for relocation - All subdivision activities on sites containing a scheduled heritage building or scheduled heritage structure	a. Effects on heritage values	See Rule 13.6
3. In all hazard overlay zones, swale mapped areas and dune system mapped areas : Subdivision activities	a. Risk from natural hazards	See Rule 11.5
4. In the Hazard 2 (flood) Overlay Zone (see Rule 18.3.8): New buildings, and additions and alteration to buildings, which create more than 60m² of new ground floor area	a. Risk from natural hazards	See Rule 11.5
5. In the Hazard 2 (flood) Overlay Zone : - Natural hazards sensitive activities - Natural hazards potentially sensitive activities	a. Risk from natural hazards	See Rule 11.5
6. In the National Grid Corridor mapped area : All subdivision activities	a. Effects on health and safety	See Rule 5.8
	b. Reverse sensitivity effects	
	c. Effects on efficient and effective operation of network utilities	

18.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area, heritage precinct or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
7. Activities affecting a scheduled heritage site: • New buildings and structures on a scheduled heritage site, where visible from an adjoining public place or a publicly accessible place within the site • Parking, loading and access on a scheduled heritage site, where visible from an adjoining public place or a public place within the site • All subdivision activities	a. Effects on heritage values	See Rule 13.6

Rule 18.11 Assessment of Discretionary Activities

Rule 18.11.1 Introduction

1. Discretionary activities will be assessed in accordance with section 104 and 104B of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. With respect to section 104(2) of the RMA, Council will not consider retail as a permitted activity in scheduled heritage buildings as part of the permitted baseline in considering the effects of discretionary activities in the Warehouse Precinct Zone.
3. Rules 18.11.2 - 18.11.4 provide guidance on how a consent application for the listed discretionary activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi);
 - b. potential circumstances that may support a consent application;
 - c. general assessment guidance, including any effects that will be considered as a priority; and
 - d. conditions that may be imposed.
4. Rules 18.11.2 - 18.11.4 apply as follows:
 - a. Rule 18.11.2 applies to all land use discretionary activities;
 - b. Rule 18.11.3 applies to discretionary land use activities; and
 - c. Rule 18.11.4 applies to discretionary performance standard contraventions.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

18.11.2 Assessment of all discretionary activities

Activity	Guidance on the assessment of resource consents
1. All discretionary land use activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. The activity does not detract from, or preferably contributes to, the strategic directions objectives, including, but not limited to, those related to: i. Objective 2.3.2, policies 2.3.2.1 - 2.3.2.4 ii. Objective 2.4.3, policies 2.4.3.1 - 2.4.3.4 b. Objective 14.2.1 c. Objective 18.2.3 d. Avoid land use activities (including stand-alone car parking) that require buildings or site design that is incompatible with: i. the high level of pedestrian streetscape amenity expected for the location in a primary pedestrian street frontage mapped area and secondary pedestrian street frontage mapped area; and ii. the higher level of urban neighbourhood amenity anticipated in the HE, SSYP and WP zones (18.2.3.9). <i>Potential circumstances that may support a consent application:</i> e. For discretionary land use activities, whether any associated buildings or structures meet relevant development performance standards, or otherwise achieve the relevant policies for development (see rules 18.9 and 18.12.5 for performance standard contraventions). f. All relevant land use performance standards are met, including noise and light spill standards. <i>General assessment guidance:</i> g. In assessing the significance of effects, consideration will be given to: i. both short and long term effects, including effects in combination with other activities; and ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the granting of a resource consent. <i>Relevant guidance from other sections (priority considerations):</i> h. See Section 6.12 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. i. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety.

18.11.3 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
1. Ancillary licensed premises (NEC/NECC)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1 b. Adverse effects on the amenity of adjacent residential activities and the surrounding neighbourhood will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 18.2.2.9). <i>Potential circumstances that may support a consent application:</i> c. The scale and nature of the activity, including hours of operation, and whether the activity has an on and/or off license, is appropriate for a neighbourhood centre and will reduce the potential for any adverse effects.
2. Restaurants (PPH, SSYP, CEC, TR) {Note - appeal applies to CEC - North Zone only}	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1 b. The activity is not of a scale or nature that is more appropriate to locate in the CBD, centres, WP or HE because: i. it is unlikely to contribute to the vibrancy and vitality of those zones; and ii. it has specific operational requirements that do not fit with those locations (Policy 18.2.1.17). <i>Potential circumstances that may support a consent application include:</i> c. The restaurant is a take-away only restaurant that requires easily accessible short term parking.
3. Food and beverage retail (WP and PPH)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1 b. Food and beverage retail in the WP and PPH zones is of a size, and designed in a manner, to serve the local area and not operate as a destination retailer for other parts of the city (Policy 18.2.1.12).
4. Restaurant - drive through (PPH and Centres)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.2 b. Objective 18.2.3 c. Significant adverse effects on the amenity of existing residential activities will be avoided or mitigated as far as practicable (Policy 18.2.2.4). d. The drive-through component of restaurant - drive through will not be visible or accessed from a primary pedestrian street frontage mapped area (Policy 18.2.1.14.b).
5. Development associated with discretionary land use activities	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.3 b. Policies 18.2.3.1 - 18.2.3.7

18.11.3 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
6. Visitor accommodation (CEC-South)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.2 b. The potential for reverse sensitivity will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 18.2.2.10)
7. • Early childhood education (CEC-North) • Residential activities (CEC - North)	<i>Relevant objectives and policies:</i> a. Objective 18.2.2 b. Early childhood education and residential activities are located where their establishment will not constrain (have reverse sensitivity effects on) activities that are provided for in the commercial and mixed use zone (Policy 18.2.2.8). <i>Potential circumstances that may support a consent application include:</i> c. Outdoor play areas of early childhood centres are protected from external noise through acoustic fencing or other building design measures that reduce the noise received in play areas.

18.11.4 Assessment of discretionary performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. Acoustic insulation	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
2. • Noise - where the limit is exceeded by less than 5dB LAeq (15min) • Light spill - where the limit is exceeded by 25% or less	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
3. Location (hazard facility mapped area)	See Rule 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to people's health and safety.
4. Restaurants ancillary to trade related retail or food and beverage retail activity 1,500m ² or more in gross floor area • Location of ancillary restaurants • Maximum gross floor area of restaurants	<i>Relevant objectives and policies:</i> a. Objective 18.2.1 b. Restaurants service people engaged in the primary activity and are unlikely to attract significant patronage outside this purpose (Policy 18.2.1.18). c. The activity is not of a scale or nature that is more appropriate to locate in the CBD, centres, WP or HE because: i. it is unlikely to contribute to the vibrancy and vitality of those zones; and ii. it has specific operational requirements that do not fit with those locations (Policy 18.2.1.17).

Rule 18.12 Assessment of Non-complying Activities

Rule 18.12.1 Introduction

1. Non-complying activities will be assessed in accordance with section 104, 104B and 104D of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. With respect to section 104(2), Council will not consider retail as a permitted activity in scheduled heritage buildings as part of the permitted baseline in considering the effects of non-complying activities in the Warehouse Precinct Zone.
3. Rules 18.12.2 - 18.12.5 provide guidance on how a consent application for the listed non-complying activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi); and
 - b. general assessment guidance, including any effects that will be considered as a priority.
4. Rules 18.12.2 - 18.12.5 apply as follows:
 - a. Rule 18.12.2 applies to all non-complying activities;
 - b. Rule 18.12.3 applies to non-complying land use activities;
 - c. Rule 18.12.4 applies to non-complying development activities; and
 - d. Rule 18.12.5 applies to non-complying performance standard contraventions.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

18.12.2 Assessment of all non-complying activities

Activity	Guidance on the assessment of resource consents
1. All non-complying activities, including but not limited to the activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. The activity does not detract from, or preferably contributes to, the strategic directions objectives, including, but not limited to, those related to: i. Objective 2.3.2, policies 2.3.2.1 - 2.3.2.4 ii. Objective 2.4.3, policies 2.4.3.1 - 2.4.3.4 b. The activity supports the purpose of the zone as outlined in Objective 2.3.2 and Objective 18.2.1. c. The proposed activities will achieve objectives 18.2.1, 18.2.2. and 18.2.3. <i>General assessment guidance:</i> d. In assessing the significance of effects, consideration will be given to: i. both short and long term effects, including effects in combination with other activities. ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the granting of a resource consent. e. In assessing activities that are non-complying due to being in an overlay zone, mapped area, in a scheduled site, or affecting a scheduled item, that otherwise require resource consent, the assessment guidance provided in relation to the underlying activity status will also be considered. <i>Relevant guidance from other sections (priority considerations):</i> f. See Section 6.13 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3, and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. g. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety. h. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.

18.12.3 Assessment of non-complying land use activities

Activity		Guidance on the assessment of resource consents
1.	Commercial advertising	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.4.1 b. Policy 2.4.1.6.c
2.	Crematoriums	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.2, Policy 18.2.2.5 <i>Relevant guidance from other sections (priority considerations):</i> b. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua.
3.	Office and retail outside of CBD and centres, where non-complying	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.3.2 b. Objective 18.2.1, Policy 18.2.1.3
4.	Industry in SSYP	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1, Policy 18.2.1.13
5.	Service stations, restaurant drive-through, yard-based retail in CBD, WP, SSYP and HE zones.	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1, Policy 18.2.1.14 b. Objective 18.2.2, Policy 18.2.2.4 c. Objective 18.2.3, Policy 18.2.3.9
6.	Conference, meeting and function, entertainment and exhibition (PPH, SSYP, CEC, TR)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1, Policy 18.2.1.16
7.	- Early childhood education and residential activities (CEC - South and TR) - Visitor accommodation (TR)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.2, Policy 18.2.2.6
8.	- Cemeteries - Landfills	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua.
9.	Yard-based retail (CBD, SSYP, HE, WP)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1, Policy 18.2.1.3
10.	In a hazard facility mapped area : - Major facility activities (except emergency services) - Entertainment and exhibition - Registered health practitioners	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and Policy 9.2.2.15 and the risks to people from an emergency event occurring at a hazard facility.

18.12.4 Assessment of non-complying development activities

Activity	Guidance on the assessment of resource consents
1. Demolition of a protected part of a scheduled heritage building or scheduled heritage structure.	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 13.8 for guidance on the assessment of resource consents in relation to Objective 13.2.1 and effects on heritage values.

18.12.5 Assessment of non-complying performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. - Light spill - where the limit is exceeded by greater than 25% - Noise - where the limit is exceeded by 5bD LAeq (15 min) or more - Hazardous substances quantity limits and storage requirements (Rule 9.3.4.2)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2, and effects related to public health and safety.
2. Setback from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities and public health and safety.
3. Location and screening of car parking	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.3 b. Policies 18.2.3.8 and 18.2.3.9 <i>Relevant guidance from other sections (priority considerations):</i> c. See Section 13.8 for guidance on the assessment of resource consents in relation to Objective 13.2.3 and effects on heritage streetscape character.
4. Harbourside Edge Zone Standards (Rule 18.6.17.3) - walkway location	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.3 b. Policy 18.2.3.5.a
5. Location of restaurant drive-through and service stations (Rule 18.5.4.3)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.1 b. Policy 18.2.1.14
6. Along a primary pedestrian street frontage mapped area: Access to loading areas (Rule 6.6.2.5.b)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Rule 6.13 for guidance on the assessment of resource consents in relation to Objective 6.2.4 and effects on the safety and efficient operation of the transport network.
7. Maximum gross floor area of office activity in the Harbourside Edge Zone	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.3.2 b. Objective 18.2.1, policies 18.2.1.2, 18.2.1.3

18.12.5 Assessment of non-complying performance standard contraventions

Performance standard		Guidance on the assessment of resource consents
8.	Shape (Rule 18.7.5.2.c) - setback of building platforms from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and reverse sensitivity.
9.	Parking, loading and access standards (Rule 18.6.14.2) - new vehicle accesses on a primary pedestrian street frontage mapped area	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 18.2.3 b. Policies 18.2.3.2
10.	In a dune system mapped area or swale mapped area: Hazard exclusion areas (except Rural Centre Zone in a swale mapped area)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.

19. Industrial Zones

19.1 Introduction

Industrial activities make an important contribution to the economic well-being of Dunedin. In order to be able to operate effectively, industrial activities have particular requirements including adequate land and access to raw materials and markets. However, these activities can create off-site effects such as noise, smell, and heavy traffic movements that need to be managed under the RMA.

Industrial zoned land is spread throughout the City, including in the following areas:

- Ravensbourne Road;
- State Highway 88;
- Dunedin Wharf (inner city Port);
- Strathallan Street, Portobello Road, Portsmouth Drive;
- Hillside Road;
- Kaikorai Valley Road and Donald Street;
- Burnside Corner;
- Fairfield;
- Abbotsford; and
- Mosgiel.

The inner city Port area, like Port Chalmers, is recognised as an important city gateway. As a key transportation route, the inner city Port is important for both economic and social prosperity. The inner city Port area has been included in the Industrial Port Zone. The intent of the Industrial Port Zone is to specifically recognise and provide for the needs of the inner city Port and its associated activities.

The key resource management issues that are being experienced or are anticipated in industrial zones are:

- Reverse sensitivity due to off-site effects such as noise, odour (managed by Otago Regional Council), heavy traffic movements, and the interaction between industrial activities and adjacent activities also needs to be managed under the RMA. Often the extent of these effects is such that physical separation is required between industrial activities and more sensitive activities.
- Threats to the availability and affordability of industrial land from the encroachment of non industrial activities (particularly retail and residential activities) into industrial zoned land. An example of this is the development of the former industrial zoned land adjoining Andersons Bay Road into large format retail, car yards and other commercial activities. The use of industrial zoned land for retail and residential activities reduces the availability, and increases the value, of industrial zoned land and consequently reduces the potential for industrial activities to be able to successfully operate in these locations. Such encroachment also exacerbates potential reverse sensitivity issues. For this reason, one of the primary focusses of the Industrial Zone is the protection of industrial zoned land for industrial activities.

In response to these issues, the Plan provisions propose to protect the existing clusters of industrial zoning, including areas near the centre city in order to take advantage of economies of scale and connectivity, while identifying new industrial land in strategic locations.

The Plan provides for all industrial activities to occur in the Industrial Zone and Industrial Port Zone, including industry, industrial ancillary tourism, rural contractor and transport depots and rural industry. A range of activities that are unlikely to create reverse sensitivity issues or compete with industrial activities for land are also provided for in the

Industrial Zone. These activities include port, yard based retail, retail ancillary to industry (with maximum gross floor area requirement), and stand-alone car parking activities. Industry is also broadly defined and includes service activity (repairs and maintenance), transport depots, and laboratories.

Lastly, land that is currently zoned rural but is suitable for future industrial development has been identified and a rule included that will trigger a change from rural to industrial applied to this land.

19.2 Objectives and Policies

Objective 19.2.1

The industrial zones enable and protect industrial and port activities by:

- a. only providing for a very limited range of specified non-industrial or non-port activities; and
- b. ensuring the potential for reverse sensitivity is insignificant.

Policy 19.2.1.1	Provide for industrial and port activities, and retail ancillary to industry in the industrial zones.
Policy 19.2.1.2	Enable farming and grazing in the Dukes Road North mapped area .
Policy 19.2.1.3	Avoid the establishment of non-industrial or non-port activities, other than those expressly provided for in the industrial zones, unless they would have significant positive effects on the successful operation of surrounding industrial or port activities.
Policy 19.2.1.4	Provide for yard based retail, service stations and emergency services to locate in the industrial zones in recognition that: a. these activities often require a built form that cannot meet the requirements within the CBD and centres; and b. they are unlikely to be incompatible with industrial or port activities due to reverse sensitivity; and c. they are unlikely to be significant competing uses of land in an Industrial and Industrial Port zoned area.
Policy 19.2.1.5	Only allow retail ancillary to industry where it is of a size that: a. is clearly subordinate to and part of the operation of the primary industry activity; and b. does not conflict with objectives 2.3.1, 2.3.2 and 2.4.3; and c. does not create adverse effects on other industrial activities, for example from traffic, parking or reverse sensitivity.
Policy 19.2.1.6	Only allow restaurants and ancillary licensed premises which are designed and operated to service the workers engaged in or associated with industrial or port activities in the area, and are unlikely to attract significant patronage outside of this purpose.
Policy 19.2.1.7	Only allow community and leisure, and sport and recreation, to locate in the industrial zones where these activities have specific operational requirements that mean it is not practical to locate in a recreation, residential or commercial and mixed use zone.
Policy 19.2.1.8	Provide for crematoriums to locate in the industrial zones due to the high degree of cultural and social sensitivity to their operation, and the lack of residential activity in these zones.
Policy 19.2.1.9	Avoid retail activity (excluding retail ancillary to industry and yard based retail activities) due to its high potential to be a significant competing use of land primarily zoned for industrial or port uses, unless it would have significant positive effects on the successful operation of surrounding industrial or port activities.
Policy 19.2.1.10	Only allow industrial ancillary tourism and activities other than industrial activities in the industrial zones where the potential for reverse sensitivity is insignificant.

Objective 19.2.2

Activities are designed and operated so that:

- a. a reasonable level of amenity is maintained within the industrial zones;
- b. adverse effects on the amenity of adjoining residential, school or recreation zones are minimised as far as practicable; and
- c. a high standard of amenity along identified **amenity route mapped areas** is maintained.

Policy 19.2.2.1	Require buildings to be set back an adequate distance from boundaries which adjoin residential, school or recreation zoned sites to maintain adequate sunlight access to these sites.
Policy 19.2.2.2	Require development along an amenity route mapped area to provide a high level of streetscape amenity by: a. providing landscaping of a height and density adequate to maintain or enhance the amenity of the route and to mitigate the visual impact of industrial activities and development; and b. setting back buildings an adequate distance to allow this landscaping.
Policy 19.2.2.3	Require fencing along boundaries that adjoin residential or school zoned sites to be of an adequate height and design to provide screening and security.
Policy 19.2.2.4	Require materials stored outside, including those which may become airborne due to wind, to be stored in a way that prevents materials escaping and contaminating any off-site area.
Policy 19.2.2.5	Require buildings and structures to be of a height that: a. avoids or minimises, as far as practicable, significant adverse effects on views from the central city and Dunedin's inner hill suburbs across the upper harbour toward the Otago Peninsula; and b. avoids or, if avoidance is not practicable, ensures adverse effects from shading and wind tunnelling effects on school, residential, and recreation zoned sites are no more than minor.
Policy 19.2.2.6	Only allow buildings and structures to exceed the maximum height limit where: a. the height is essential to the operation of the industry activity; and b. the visual effects of the height limit exceedance have been minimised as far as practicable.
Policy 19.2.2.7	Require ancillary signs to be of an appropriate size and number to convey information about the name, location and nature of the business to passing vehicles or pedestrians, and not oversized or too numerous for that purpose.
Policy 19.2.2.8	Only allow crematoriums where they are located to avoid or minimise, as far as practicable, significant adverse effects on the amenity of surrounding residential, school and recreation zoned sites.

Rules

Rule 19.3 Activity Status

19.3.1 Rule Location

The activity status tables in rules 19.3.3 to 19.3.6 specify the activity status of land use activities, development activities, and subdivision activities in the industrial zones and relevant overlay zones, except rules for the following city-wide activities, which are contained in Part B of the Plan:

1. Public Amenities (Section 3)
2. Temporary Activities (Section 4) - note that this section includes provisions that apply to construction
3. Network Utilities (Section 5)
4. Transportation (Section 6)
5. Scheduled Trees (Section 7)
6. Natural Hazard Mitigation Activities (Section 8)
7. Earthworks (Section 8A)

19.3.2 Activity Status Introduction

1. The tables in rules 19.3.3 to 19.3.5 show the activity status of activities in the industrial zones and the overlay zones indicated, provided any performance standards shown in the far right column are met.
2. Activities are split into three types: a. land use activities, b. development activities, c. subdivision activities. Within these types, activities are split into categories. The nested tables in Section 1.3 outline the hierarchy of categories, activities and sub-activities.
3. Permitted land use activities do not automatically provide for any related development activities. Therefore, the activity status of any associated development activities should also be checked.
4. Where a new land use activity requires a resource consent, all associated development activities will be considered and assessed as part of the resource consent even if the development otherwise meets the development performance standards listed in the Plan.
5. The nested tables in Section 1.3 are intended to be a complete list of activities and categories of activities. For any activity that is not covered by any of the defined activities in the nested tables, the activity status will be non-complying if the activity status of "all" or "all other" activities in the most closely related category is non-complying, otherwise it will be discretionary.

Additional activity status rules in hazard overlay zones

6. For the purpose of the hazards provisions, activities are categorised as natural hazards sensitive activities, natural hazards potentially sensitive activities or natural hazards least sensitive activities. The activities that are in each hazards sensitivity category are included in the definitions section and in Section 11.1.
7. In the Hazard 2 (flood) Overlay Zone, the activity statuses in Rule 19.3.6 apply to the following activities:
 - a. natural hazards sensitive activities;
 - b. natural hazards potentially sensitive activities, and
 - c. new buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area.
8. Where the activity status in Rule 19.3.6 differs from that in rules 19.3.3 - 19.3.5, the most restrictive activity status always applies.

9. In addition to the rules in Rule 19.3.6, performance standards for development activities within hazard overlay zones are included in rules 19.3.3 - 19.3.5.
10. Activities in a hazard overlay zone must comply with all of the rules in 19.3.3 - 19.3.6.

Performance Standards

11. Performance standards are listed in the far right column of the activity status tables.
12. Performance standards apply to permitted, controlled, and restricted discretionary activities.
13. If a permitted or controlled activity does not meet one or more performance standards, then the activity status of the activity is indicated in the relevant performance standard rule.
14. If a restricted discretionary activity does not meet one or more performance standards, then the activity status remains restricted discretionary, unless otherwise indicated in the performance standard.

Legend

Acronym	Meaning
N/A	Not Applicable
P	Permitted Activity
C	Controlled Activity
RD	Restricted Discretionary Activity
D	Discretionary Activity
NC	Non-complying Activity
Ind	Industrial Zone
IndPort	Industrial Port Zone
Haz1	Hazard 1 Overlay Zones
Haz2	Hazard 2 Overlay Zones
Haz3	Hazard 3 Overlay Zones

19.3.3 Land Use Activity Status Table

1.	Performance standards that apply to all land use activities	a. Acoustic insulation b. Electrical interference c. Light spill d. Noise e. Setback from National Grid (National Grid sensitive activities only)		
Industrial activities		Activity status		Performance standards
		a. Ind	b. IndPort	
2.	Industrial ancillary tourism	RD	RD	i. Minimum car parking ii. Minimum vehicle loading
3.	All other activities in the Industrial activities category	P	P	i. Minimum car parking ii. Minimum vehicle loading
Major facility activities		a. Ind	b. IndPort	Performance standards
4.	Crematoriums	RD	RD	i. Minimum car parking
5.	Emergency services <i>{Note - appeal relates to Liquigas Limited existing hazard facility mapped area only}</i>	P	P	i. Minimum car parking
6.	Port	P	P	
7.	All other activities in the major facility activities category	NC	NC	
Commercial activities		a. Ind	b. IndPort	Performance standards
8.	Ancillary licensed premises	RD	RD	
9.	Yard based retail	P	P	i. Minimum car parking
10.	Retail ancillary to industry	P	P	i. Maximum gross floor area ii. Minimum car parking
11.	Service stations other than self-service fuel stations	RD	RD	i. Service station standards ii. Minimum car parking
12.	Self-service fuel stations	P	P	i. Service station standards ii. Minimum car parking
13.	Restaurants	P	P	i. Hours of operation ii. Maximum gross floor area iii. Minimum car parking
14.	Stand-alone car parking	P	P	
15.	Commercial advertising	NC	NC	

16.	All other activities in the commercial activities category	NC	NC	
Community activities		a. Ind	b. IndPort	Performance standards
17.	Community and leisure	NC	NC	
18.	Sport and recreation	RD	RD	
19.	Conservation	P	P	
20.	Early childhood education	NC	NC	
Rural activities		a. Ind	b. IndPort	Performance standards
21.	Farming in Dukes Road North mapped area	P	N/A	
22.	Farming in all other areas	NC	NC	
23.	Grazing in Dukes Road North mapped area	P	N/A	
24.	All other activities in the rural activities category <i>{Note - appeals relate to mining and intensive farming only}</i>	NC	NC	
Residential activities		a. Ind	b. IndPort	Performance standards
25.	All other activities in the residential activities category	NC	NC	

19.3.4 Development Activity Status Table

1.	Performance standards that apply to all development activities	a. Boundary treatments b. Setback from scheduled tree c. Natural Hazards Performance Standards		
2.	Performance standards that apply to all buildings and structures activities	a. Boundary setbacks b. Maximum height c. Height in relation to boundary d. Number, location and design of ancillary signs e. Setback from coast and water bodies f. Setback from National Grid		
Buildings and structures activities (excluding activities affecting a protected part of a scheduled heritage building or scheduled heritage structure. See rows 4 - 11)		Activity status		Performance standards
		a. Ind	b. IndPort	
3.	Buildings and structures activities	P	P	

Buildings and structures activities that affect a protected part of a scheduled heritage building or scheduled heritage structure		a. Ind	b. IndPort	Performance standards
4.	Repairs and maintenance	P	P	i. Materials and design
5.	Restoration of a building or structure that has a Heritage New Zealand Category 1 listing as detailed in Appendix A1.1	C	C	i. Materials and design
6.	Restoration of all other scheduled heritage buildings and structures	P	P	i. Materials and design
7.	Earthquake strengthening where external features only are protected	C	C	i. Materials and design
8.	Signs attached to buildings or structures	P	P	
9.	All other additions and alterations	RD	RD	
10.	Demolition	NC	NC	
11.	Removal for relocation	RD	RD	
Development activities on a scheduled heritage site, where visible from an adjoining public place or a public place within the heritage site		a. Ind	b. IndPort	Performance standards
12.	New structures no more than 2.5m high or 2m ² footprint	P	P	
13.	All other new structures	RD	RD	
14.	New buildings	RD	RD	
15.	Parking, loading and access	RD	RD	i. Parking, loading and access standards
Site development activities in all areas (except as covered by rows 12 - 15 above)		a. Ind	b. IndPort	Performance standards
16.	Parking, loading and access	P	P	i. Parking, loading and access standards ii. Boundary treatments
17.	New or additions to parking areas that result in 50 or more new parking spaces.	RD	RD	i. Parking, loading and access standards ii. Boundary treatments
18.	Outdoor storage	P	P	i. Maximum height ii. Location of outdoor storage
19.	Storage and use of hazardous substances	P	P	i. Hazardous substances quantity limits and storage requirements ii. Setback from coast and water bodies
20.	Vegetation clearance	P	P	i. Vegetation clearance standards
21.	All other site development activities	P	P	

Note 19.3.4A - General advice

1. An archaeological authority is required under the Heritage New Zealand Pouhere Taonga Act 2014 to modify or destroy an archaeological site. If you wish to do any earthworks that may affect an archaeological site, you must first obtain an authority from Heritage New Zealand. This is the case regardless of whether the site is designated, or the activity is permitted under the District Plan or Regional Plan, or a resource or building consent has been granted.
2. An archaeological site is defined as any place in New Zealand that was associated with human activity that occurred before 1900 and provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand. This includes the scheduled archaeological sites within the District Plan.
3. Pre-1900 buildings are considered archaeological sites. An archaeological authority must be obtained before demolishing a pre-1900 building or structure.
4. The **archaeological alert layer mapped area** identifies sites and areas that have a strong likelihood of containing archaeological remains, however remains may be present anywhere within the District. If archaeological remains are discovered during any site works, at any location, the Accidental Discovery Protocol (Appendix A8) should be followed.

19.3.5 Subdivision Activity Status Table

Subdivision activities		Activity status		Performance standards
		a. Ind	b. IndPort	
1.	Subdivision activities	RD	RD	i. Access ii. Esplanade reserves and strips iii. Fire fighting iv. Service connections v. Shape

Note 19.3.5A - Other RMA considerations

1. Under Section 226(1)(e)(ii) of the Resource Management Act 1991, where an existing allotment shown on a survey plan meets all relevant provisions of the district plan and any proposed district plan, the Dunedin City Council must issue a certificate to that effect to enable the Registrar-General of Land to issue a certificate of title for that separate allotment.

19.3.6 Activity Status in the Hazard 2 (flood) Overlay Zone

Activity	Activity status
1. Natural hazards sensitive activities	RD
2. Natural hazards potentially sensitive activities	RD
3. New buildings, and additions and alterations to buildings, which create more than 60m ² of new ground floor area	RD

Note 19.3.6A - Other RMA considerations

1. For the purposes of the natural hazards provisions only, with respect to section 10 of the RMA (existing use rights), Council will generally consider that a land use activity is similar in character, intensity, and scale where:
 - a. for a residential activity, there is less than 25m² increase in ground floor area of any residential building(s), in any consecutive 10 year period; or
 - b. for a residential activity, a new building is to be used solely as a garage or shed; or
 - c. for all other natural hazards sensitive activities and natural hazards potentially sensitive activities, the ground floor area of any buildings increases by less than 100% in any consecutive 10 year period.
2. Accordingly, these activities will not usually trigger the provisions for natural hazards sensitive activities and natural hazards potentially sensitive activities in Rule 19.3.6. However, Council will consider specific circumstances associated with the development and how this affects the character, intensity and scale of the land use activity.

Rule 19.4 Notification

1. Applications for resource consent for the following activities will be considered without the need to obtain a written approval of affected persons and will not be notified in accordance with section 95A or section 95B of the RMA, unless Council considers special circumstances exist in relation to the application that require public notification:
 1. earthquake strengthening of a scheduled heritage building or scheduled heritage structure where external features only are protected (controlled activity) and that are not listed by Heritage New Zealand; and
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is not listed by Heritage New Zealand.
2. With respect to resource consent applications, Heritage New Zealand will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided for the following:
 1. activities that affect a protected part of a scheduled heritage building, scheduled heritage structure, or a scheduled heritage site, that is listed with Heritage New Zealand;
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is listed by Heritage New Zealand; and
 3. contravention of the archaeological sites performance standard (Rule 13.3.3).
3. With respect to resource consent applications for the following activities, Manawhenua will be considered an affected person in accordance with section 95B of the RMA where their written approval is not provided:
 1. crematoriums;
 2. all restricted discretionary activities that list 'effects on cultural values of Manawhenua' as a matter for discretion; and
 3. discretionary and non-complying activities in a **wāhi tūpuna mapped area** where the activity is identified as a threat in Appendix A4.
4. With respect to sections 95D(b) and 95E(2)(a), Council will not use the performance standard for maximum height as a permitted baseline in considering the effects of any development activity associated with a discretionary or non-complying activity in the industrial zones.
5. With respect to resource consent applications for activities in **swale mapped areas**, the Otago Regional Council will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided.
6. All other activities are subject to the normal tests for notification in accordance with sections 95A-95G of the RMA.

Rule 19.5 Land Use Performance Standards

19.5.1 Acoustic Insulation

1. Noise sensitive activities in the following areas must comply with Rule 9.3.1:
 - a. port noise control mapped area;
 - b. within 40m of a state highway;
 - c. within 40m of the Taieri Aerodrome Zone; and
 - d. within 70m of a railway line.

19.5.2 Electrical Interference

Land use activities must comply with Rule 9.3.2.

19.5.3 Hours of Operation

1. Restaurants must not be open before 6am or after 6pm.
2. Activities that contravene this performance standard are restricted discretionary activities.

19.5.4 Light Spill

Land use activities must comply with Rule 9.3.5.

19.5.5 Maximum Gross Floor Area

1. The gross floor area used for retail ancillary to industry activity must not exceed 10% of the gross floor area of the premises.
2. The maximum gross floor area for restaurants is 50m².
3. Any retail ancillary to industry activity that contravenes the performance standard for maximum gross floor area is a non-complying activity.
4. Any restaurants that contravene the performance standard for maximum gross floor area are a restricted discretionary activity.

19.5.6 Minimum Car Parking

1. Land use activities must provide on-site car parking as follows:

Activity		Minimum car parking rate
a.	Industry (excluding industrial ancillary tourism)	1 parking space per 100m ² gross floor area.
b.	Industrial ancillary tourism	i. 1 parking space for every 5 persons the facility can accommodate at any one time, and ii. 1 coach parking space for facilities that can accommodate more than 50 people at one time (see Figure 6B.12)
c.	Retail ancillary to industry	1 parking space per 35m ² of retail floor area
d.	Yard based retail	1 parking space per 100m ² of gross floor area and 1 per 400m ² of yard display area.
e.	Restaurants	1 parking space per 35m ² of gross floor area.
f.	Crematoriums	1 parking space per 75m ² gross floor area.

Activity	Minimum car parking rate
g. Emergency services	i. For fire stations: 5 parking spaces per fire engine bay. ii. For all other activities: 1 parking space per 100m ² gross floor area.
h. Service stations	1 parking space per 40m ² of gross public floor area.

2. Activities must provide mobility parking spaces as follows:

Total number of parking spaces provided	Minimum number of these that must be mobility parking spaces
i. 1 - 20	1 parking space
ii. 21 - 50	2 parking spaces
iii. For every additional 50 parking spaces	1 additional parking space

3. Required parking spaces must be designed and constructed to comply with Rule 6.6.1.
4. Required parking spaces may be used for car, cycle or motorcycle parking, except for any required mobility parking spaces.
5. Parking spaces may be shared between land use activities (i.e. the same parking spaces may be used to fulfil the minimum parking requirement for more than one land use activity), as long as the hours of operation of the land use activities do not overlap.
6. Where the minimum parking performance standard results in the requirement for a fractional space, any fraction under one half will be disregarded and any fraction of one half or greater will be counted as one space.
7. For activities where the minimum car parking performance standard is based on the gross floor area, the following areas will be excluded from the assessment of gross floor area:
 - a. any parking area and associated manoeuvring space, including aisle;
 - b. any loading area and associated manoeuvring space
8. Activities that contravene this performance standard are restricted discretionary activities.

Note 19.5.6A - Other relevant District Plan provisions

1. Parking areas must comply with the standards in Section 6.6: Parking, Loading and Access Standards.

19.5.7 Minimum Vehicle Loading

1. Land use activities must provide on-site vehicle loading and manoeuvring as follows:

Activity	Minimum vehicle loading
a. Industry	1 loading space to accommodate an 8m rigid truck (See Appendix 6B, Figure 6B.10).
b. Industrial ancillary tourism	1 loading space to accommodate a coach on any site greater than 400m ² which has a vehicle crossing onto a rural highway or urban connector (See Appendix 6B, Figure 6B.12).

2. Required vehicle loading must be designed and constructed to comply with Rule 6.6.2.
3. Activities that contravene this performance standard are restricted discretionary activities.

19.5.8 Noise

Land use activities must comply with Rule 9.3.6.

19.5.9 Service Station Standards

Service stations must comply with Rule 6.7.1.

19.5.10 Setback from National Grid

National Grid sensitive activities must comply with Rule 5.6.1.1.

Rule 19.6 Development Performance Standards

19.6.1 Boundary Treatments

1. A landscaping area with a minimum width of 3m must be provided along the full length of any road frontage that is identified as an **amenity route mapped area** (except for where existing or permitted vehicle access is provided). Landscaping areas must:
 - a. be planted with a mix of trees and shrubs and/or ground cover plants that achieves a total coverage of the ground area in planting (when mature), except for 10% of the area, which may be used for pedestrian paths;
 - b. have an average of one tree for every 5m of frontage;
 - c. not have more than 10% cover in impermeable surfaces (for pedestrian paths);
 - d. be designed to allow surface water run-off from surrounding areas to enter;
 - e. be protected by a physical barrier that prevents cars damaging plants;
 - f. for required trees, use trees that are at least 1.5m high at the time of planting and capable of growing to a minimum height of 5m within 10 years of planting;
 - g. be planted prior to occupation of any relevant building(s) or upon completion of site development activities; and
 - h. be maintained to a high standard, which means trees and under-planting are healthy and areas are regularly cleared of rubbish and weeds.
2. Any road boundary fences provided must be placed on the property side of any required road frontage landscaping required by this rule.
3. Fencing must be provided along any boundaries which adjoin a residential or school zoned property. Fencing must:
 - a. be constructed from solid timber paling;
 - b. have vertical palings which are butted together;
 - c. only have palings visible from the residential zone (have posts and rails on the Industrial Zone side); and
 - d. be a minimum of 1.8m high.
4. Activities that contravene this performance standard are restricted discretionary activities.

Note 19.6.1A - Other requirements outside of the District Plan

1. The Dunedin City Council Commercial Use of Footpaths Policy applies to all objects placed on the footpath or suspended over it up to a height of 2.6m. Contact customer services on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.

19.6.2 Natural Hazards Performance Standards

19.6.2.1 Hazard exclusion areas

New buildings and structures and additions and alterations located in a **swale mapped area** must comply with Rule 11.3.1.1.

19.6.2.2 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the Hazard 2 (land instability) Overlay Zone must comply with Rule 11.3.2.

19.6.2.3 Relocatable buildings

New buildings containing residential activity on the ground floor in the Hazard 3 (coastal) Overlay Zone must comply with Rule 11.3.3.

19.6.3 Hazardous Substances Quantity Limits and Storage Requirements

The storage and use of hazardous substances must comply with Rule 9.3.4.

19.6.4 Height

19.6.4.1 Height in relation to boundary

- a. New buildings and additions and alterations to buildings on sites adjoining a residential zone must comply with the height in relation to boundary performance standard of that residential zone, along the adjoining boundary (see Rule 15.6.6.1);
- b. New buildings and additions and alterations to buildings on sites adjoining the Recreation Zone must comply with the height in relation to boundary performance standard of the Recreation Zone, along the adjoining boundary (see Rule 20.6.4.1);
- c. New buildings and additions and alterations to buildings along the **amenity route mapped area** on Burns Street must not protrude through a plane raising at an angle of 40 degrees measured from ground level at the centreline of the road (see Figure 19.6.4.1A).
- d. New buildings and additions and alterations to buildings along the **amenity route mapped area** in all other locations must not protrude through a plane raising at an angle of 60 degrees measured from ground level along the road boundary (see Figure 19.6.4.1B).
- e. Rooftop structures are exempt from the performance standard for height in relation to boundary.
- f. Activities that contravene this performance standard are restricted discretionary activities.

Figure 19.6.4.1A: Height in relation to boundary

Example 1. 40 degree height plane measured from the road centre.

Figure 19.6.4.1B: Height in relation to boundary

Example 2. 60 degree height plane measured from the property road boundary.

19.6.4.2 Maximum height

- a. The maximum height of new buildings and structures, additions and alterations, and outdoor storage, including the temporary storage of shipping containers must not exceed the following above ground level:

Height area		Maximum height
i.	Industrial Port Zone	25m
ii.	Ravensbourne height mapped area (see Figure 19.6.4.2A)	20m
iii.	Cerebos Greggs height mapped area (see Figure 19.6.4.2B)	33m
iv.	Parry Street East height mapped area (see Figure 19.6.4.2A)	25m
v.	All other areas in the Industrial Zone	18m

- vi. Except, rooftop structures and freestanding chimneys as part of industry activity are exempt from the performance standard for height provided they do not exceed the maximum height limit for all other building and structures by 5m.
- vii. Buildings or structures must not protrude through the height restriction for the Taieri Aerodrome approach and take-off fans shown on the **Taieri Aerodrome flight fan mapped area**.

- b. Activities that contravene this performance standard are restricted discretionary activities.

Figure 19.6.4.2A: Parry Street East and Ravensbourne height mapped area

Figure 19.6.4.2B: Cerebos Gregg's height mapped area

19.6.5 Materials and Design

Repairs and maintenance, restoration and earthquake strengthening must comply with Rule 13.3.2.

19.6.6 Number, Location and Design of Ancillary Signs

19.6.6.1 General

- a. Signs visible from a public place must meet all of the following performance standards, except that regulatory signs, directional signs and warning signs that do not exceed 0.25m² are exempt from these standards.
- b. Signs must also comply with:
 - i. Rule 6.7.2 where located on or above the footpath; and
 - ii. Rule 6.7.3 where visible from a road.
- c. Signs higher than 4m above ground level must only display the business name.
- d. Signs that contravene the performance standard for number, location and design of ancillary signs are restricted discretionary activities.

19.6.6.2 Signs attached to buildings

- a. The height, above ground level, at the highest point of any sign attached to a building is 8m.
- b. Signs must not be attached to roofs.
- c. Signs must not project higher than the lowest point of the roof, except where mounted against a parapet or gable end.
- d. Signs attached flat against a building:
 - i. must not cumulatively exceed 15% of the total wall area (excluding windows) that face the street frontage, or 8m², whichever is lesser; and
 - ii. if attached to a verandah fascia, must not exceed a height of 500mm, or the height of a verandah fascia, whichever is greater.
- e. If attached on the underside of a verandah or protruding from a building façade, signs must:
 - i. where attached to the façade of a building, not protrude more than 1.5m from the façade;
 - ii. have a maximum area per display face of 2m²;
 - iii. have a maximum of 2 display faces;
 - iv. not exceed 1 sign per 15m of street frontage, for a site with a single premise, or 1 per 7.5m, for a site with multiple premises; and
 - v. not exceed a total of 3 signs per building.

19.6.6.3 Freestanding signs

- a. The maximum number of freestanding signs is:
 - i. 2 per site or 1 per 50m of street frontage, whichever is the lesser, for permanently fixed freestanding signs; and
 - ii. 1 per 15m of street frontage for portable freestanding signs.
- b. The maximum dimensions of freestanding signs are:
 - i. maximum height of 8m for permanently fixed freestanding signs;
 - ii. maximum height of 4m for portable freestanding signs;
 - iii. maximum area of 16m² per display face for permanently fixed freestanding signs;
 - iv. maximum area of 8m² per display face for portable freestanding signs;
 - v. maximum width of 2m; and
 - vi. maximum depth of 400mm.
- c. Portable freestanding signs must not be located on the road reserve.
- d. Freestanding signs must:
 - i. not obstruct driveways, parking or loading areas; and
 - ii. be positioned entirely within site boundaries, except:
 1. a flag sign may project a maximum of 1.5m over a footpath if the flag sign is located at least 2.5m, at its lowest point, above the footpath.

Note 19.6.6A - Other requirements outside of the District Plan

1. For additional restrictions that may apply to signs, see also:
 - a. NZ Transport Agency *Traffic Control Devices Manual, Part 3, Advertising Signs and Signs on State Highways Bylaw*.
 - b. Dunedin City Council Commercial use of Footpaths Policy
 - c. Dunedin City Council Roadway Bylaw
 - d. Dunedin City Council Traffic and Parking Bylaw

Figure 19.6.6.3A: Signs in industrial zones

19.6.7 Parking, Loading and Access Standards

Parking, loading and access must comply with Rule 6.6.

19.6.8 Location of Outdoor Storage

1. Materials stored outside must be stored in a way that prevents them contaminating any off-site area.
2. Outdoor storage must not encroach into required parking, loading or landscaping areas.
3. Activities that contravene this performance standard are restricted discretionary activities.

19.6.9 Setbacks

19.6.9.1 Boundary setbacks

- a. New buildings and structures, and additions and alterations to buildings and structures must have a minimum setback as follows:

Location		Setback distance
i.	From a site boundary that adjoins a residential, school or recreation zone	5m
ii.	From a boundary along the Burns Street amenity route mapped area	3m
iii.	From a boundary along all other amenity route mapped areas	4m

- iv. Except, fences and ancillary signs are exempt from this standard.

- b. Activities that contravene this performance standard are restricted discretionary activities.

19.6.9.2 Setback from scheduled tree

New buildings and structures, additions and alterations, and any site development activities that involve the installation of impermeable surfacing must comply with Rule 7.5.2.

19.6.9.3 Setback from National Grid

New buildings and structures, and additions and alterations must comply with Rule 5.6.1.1.

19.6.9.4 Setback from coast and water bodies

New buildings and structures, additions and alterations, and storage and use of hazardous substances must comply with Rule 10.3.3.

19.6.10 Vegetation Clearance Standards

19.6.10.1 Maximum area of vegetation clearance (UBMA)

Vegetation clearance in an **urban biodiversity mapped area** (UBMA) must comply with Rule 10.3.2.4.

19.6.10.2 Maximum area of vegetation clearance in a hazard overlay zone

Vegetation clearance in the Hazard 2 (land instability) Overlay Zones must comply with Rule 11.3.2.

Rule 19.7 Subdivision Performance Standards

19.7.1 Access

Subdivision activities must comply with Rule 6.8.1.

19.7.2 Esplanade Reserves and Strips

Subdivision activities must comply with Rule 10.3.1.

19.7.3 Fire Fighting

Subdivision activities must comply with Rule 9.3.3.

19.7.4 Service Connections

Subdivision activities must comply with Rule 9.3.7.

19.7.5 Shape

1. Each resultant site must be of a size that is large enough to ensure the following performance standards can be met:
 - a. minimum car parking;
 - b. setbacks from boundaries, water bodies, scheduled trees; and
 - c. esplanade reserves or strips.
2. Building platforms must have a slope of 12° (1:4.7 or 21%) or less and must:
 - a. not contain scheduled heritage buildings or structures; or
 - b. not contain right-of-way easements.
 - c. be located at least 12m from the outer edge of a National Grid support structure or centreline of an overhead National Grid transmission line.
3. For unreticulated areas, resultant sites must provide for a waste disposal area to be located at least 50m from any water body and mean high water springs.
4. Sites created and used solely for the following purposes are exempt from the shape standard:
 - a. Scheduled ASBV or QEII covenant;
 - b. reserve;
 - c. access;
 - d. network utility; or
 - e. road.
5. Subdivision activities that do not meet this standard are restricted discretionary activities, except that subdivision activities that do not meet Rule 19.7.5.2.c are non-complying activities.

Rule 19.8 Assessment of Controlled Activities

Rule 19.8.1 Introduction

1. Controlled activities will be assessed in accordance with section 104 and 104A of the RMA. Council must grant the application and may impose conditions with respect to matters over which it has reserved its control.
2. Rule 19.8.2:
 - a. lists the matters over which Council has reserved its control; and
 - b. provides guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi); and
 - ii. conditions that may be imposed.
3. Where a controlled activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 19.9; and
 - iv. the matters of control become matters of discretion and will be assessed as indicated in this section.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 19.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 19.12; and
 - iii. the assessment guidance in this section will also be considered.

19.8.2 Assessment of controlled development activities

Activity	Matters of control	Guidance on the assessment of resource consents
1. Affecting a scheduled heritage building or a scheduled heritage structure: • Earthquake strengthening that affects a protected part of a scheduled heritage building or scheduled heritage structure, where external features only are protected. • Restoration of a protected part of a scheduled heritage building or scheduled heritage structure that has a Heritage New Zealand Category 1 listing (as detailed in Appendix A1.1)	a. Effects on heritage values	See Rule 13.4

Rule 19.9 Assessment of Restricted Discretionary Activities (Performance Standard Contraventions)

Rule 19.9.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 19.9.2 - 19.9.6:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 19.9.2 - 19.9.6 apply as follows:
 - a. Rule 19.9.2 applies to all performance standard contraventions;
 - b. Rule 19.9.3 applies to land use performance standards;
 - c. Rule 19.9.4 applies to development performance standards;
 - d. Rule 19.9.5 applies to subdivision performance standard contraventions; and
 - e. Rule 19.9.6 applies to performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item.

19.9.2 Assessment of all performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. All performance standard contraventions	<i>Potential circumstances that may support a consent application include:</i> a. The degree of non-compliance with the performance standard is minor. b. Compliance with the performance standard would be impracticable or create health and safety issues. c. The need to meet other performance standards, or other site specific factors including topography, make meeting the standard impracticable. d. Topography or other site specific factors make the standard irrelevant as the adverse effects that the standard is trying to manage will not occur. e. Non-compliance with the development performance standard would improve the design of the development in a way that would result in positive effects and better achieve identified objectives and policies of the Plan. f. The contravention is necessary for the industry activity to operate or would have significant positive effects on its operation. <i>General assessment criteria:</i> g. Where more than one standard is contravened, the combined effects of the contraventions should be considered.

19.9.3 Assessment of land use performance standards

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
1. Electrical interference	a. Effects on health and safety	See Rule 9.5
2. - Hours of operation - Maximum gross floor area (restaurants)	a. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 19.2.1 ii. The restaurant is designed and operated to service workers engaged in or associated with industrial activities in the area, and is unlikely to attract significant patronage outside of this purpose (Policy 19.2.1.6).
3. - Minimum vehicle loading - Service station standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
4. Minimum car parking	a. Effects on the safety and efficiency of the transport network b. Effects on accessibility	See Rule 6.10

19.9.4 Assessment of development performance standards

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Boundary setbacks (boundaries adjoining residential, school or recreation zoned sites)	a. Effects on the character and amenity of sensitive surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 19.2.2 ii. Buildings are set back an adequate distance from boundaries which adjoin residential, school or recreation zoned sites to maintain adequate sunlight access to these sites (Policy 19.2.2.1). <i>Potential circumstances that may support a consent application include:</i> iii. The topography of the area means adequate sunlight access will be maintained to the adjacent sites. iv. The affected part of the adjacent site is not utilised by, and will not be used in the future for, a sensitive use.
2.	Boundary treatments (fencing)	a. Effects on the character and amenity of sensitive surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 19.2.2 ii. Fencing along boundaries that adjoin residential sites in the residential zones or sites in the Schools Zone is of an adequate height and design so that it provides screening and security (Policy 19.2.2.3).
3.	Hazardous substances quantity limits and storage requirements	a. Effects on health and safety	See Rule 9.5

19.9.4 Assessment of development performance standards

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
4. Height	a. Effects on views across Otago Harbour	<i>Relevant objectives and policies:</i> i. Objective 2.4.1, Policy 2.4.1.4 ii. Objective 19.2.2 iii. Buildings and structures are of a height that avoids or minimises, as far as practicable, significant adverse effects on views from the central city and Dunedin's inner hill suburbs, across the upper harbour toward the Otago Peninsula (Policy 19.2.2.5.a). <i>Potential circumstances that may support a consent application include:</i> iv. Adverse effects are adequately mitigated by: 1. natural landforms and features (e.g. cliffs, tall trees on adjacent reserves) that provide a backdrop to the building; 2. the topography of the site; 3. building design; or 4. other neighbouring buildings.
	b. Effects on neighbourhood amenity	<i>Relevant objectives and policies:</i> i. Objective 19.2.2 ii. Buildings and structures are of a height that avoids or, if avoidance is not practicable, ensures adverse effects from shading and wind tunnelling effects on school, residential, and recreation zoned sites are no more than minor (Policy 19.2.2.5.b).
	c. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 19.2.2 ii. The height is essential to the operation of the industry activity; and the visual effects of the height limit exceedance have been minimised as far as practicable. (Policy 19.2.2.6).
	d. Effects on health and safety	See Rule 9.5

19.9.4 Assessment of development performance standards

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
5.	Number, location and design of ancillary signs	a. Effects on character and streetscape amenity	<i>Relevant objectives and policies:</i> i. Objective 19.2.2 ii. Signs are of an appropriate size and number to convey information about the name, location and nature of the business to passing vehicles or pedestrians, and are not oversized or too numerous for that purpose (Policy 19.2.2.7). <i>Potential circumstances that may support a consent application include:</i> iii. Signs will not be visible from outside the zone.
		b. Effects on the safety and efficiency of the transport network	See Rule 6.10
6.	Parking, loading and access standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10
7.	Location of outdoor storage	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 19.2.2 ii. Materials stored outside, including those which may become airborne due to wind, are stored in way that prevents materials escaping and contaminating any off-site area (Policy 19.2.2.4).
8.	Setback from coast and water bodies	a. Effects on biodiversity values and natural character of the coast and riparian margins	See Rule 10.5
		b. Effects on public access	See Rule 10.5
		c. Risk from natural hazards	See Rule 11.4
9.	Setback from scheduled tree	a. Effects on long term health of tree	See Rule 7.6

19.9.5 Assessment of subdivision performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Access	a. Effects on accessibility	See Rule 6.10

19.9.5 Assessment of subdivision performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
2.	Esplanade reserves and strips	a. Effects on biodiversity values and natural character of the coast and riparian margins	See Rule 10.5
		b. Effects on public access	
3.	Fire fighting	a. Effects on health and safety	See Rule 9.5
4.	Service connections	a. Effects on efficiency and affordability of infrastructure	See Rule 9.5

19.9.5 Assessment of subdivision performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
5. Shape	<i>Relevant objectives and policies:</i> a. Objective 2.4.1 b. Subdivisions are designed to ensure any future land use or development is able to meet the performance standards in the zone, or where in a structure plan mapped area, reflects the requirements of the structure plan mapped area performance standards, unless: i. a resource consent is approved for a development that does not meet the performance standard and the subdivision is intended for and capable of providing for that approved development; or ii. the resultant site is required for: 1. Scheduled ASBV; QEII covenant; or 2. reserve; or 3. access; or 4. utility; or 5. road (Policy 2.4.1.8). <i>General assessment guidance:</i> c. Non-compliance with the performance standard for shape will be assessed based on which performance standard(s) the shape of the resultant site does not provide for compliance with. See matters of discretion and assessment rules in relation to performance standard contraventions for: i. boundary setbacks; ii. setbacks from water bodies; iii. setback from scheduled tree; and iv. setback from National Grid. d. For contravention of the building platform slope part of the shape performance standard (Rule 19.7.5.2), see the matters of discretion and assessment rules in relation to earthworks - large scale (Rule 8A.7.2.1). <i>Conditions that may be imposed:</i> e. Restrictions or conditions, including by way of consent notice, on land use or development activities allowed on the site. f. A building platform may be required to be registered against the title by way of consent notice.	

19.9.6 Assessment of performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
1. In an amenity route mapped area: - Boundary setbacks - Boundary treatments - landscaping	a. Effects on streetscape amenity	<i>Relevant objectives and policies:</i> - Objective 19.2.2 - Development along an amenity route mapped area provides a high level of streetscape amenity by: - providing landscaping of a height and density adequate to maintain or enhance the amenity of the route and to mitigate the visual impact of industrial activities and development; and - setting back buildings an adequate distance to allow this landscaping (Policy 19.2.2.2). <i>Potential circumstances that may support a consent application include:</i> - There are positive effects on streetscape amenity from better building or site design outcomes achieved through not meeting the performance standard. These include the use of building treatments such as murals, green walls, or activation treatments. - The alternative boundary treatment proposed is necessary to address traffic safety issues that could arise if the standard was complied with; and is necessary to achieve Objective 6.2.3.
2. In a hazard overlay zone: - Maximum area of vegetation clearance in the hazard overlay zones (Hazard 1 or 2 (land instability) overlay zones) - Relocatable buildings (Hazard 3 (coastal) Overlay Zone) - Hazardous substances quantity limits and storage requirements	a. Risk from natural hazards	See Rule 11.4

19.9.6 Assessment of performance standard contraventions in an overlay zone, mapped area or affecting a scheduled item

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
3.	Affecting a scheduled heritage building or scheduled heritage structure : Materials and design	a. Effects on heritage values	See Rule 13.5
4.	In the Taieri Aerodrome flight fan mapped area : Maximum height (Rule 19.6.4.2.a.vii)	a. Effects on health and safety	See Rule 9.5
5.	In a wāhi tūpuna mapped area : - Setback from coast and water bodies - Esplanade reserves and strips	a. Effects on cultural values of Manawhenua	See Rule 14.3
6.	In an urban biodiversity mapped area : Vegetation clearance standards: Maximum area of vegetation clearance (UBMA)	a. Effects on biodiversity values	See Rule 10.5

Rule 19.10 Assessment of Restricted Discretionary Activities

Rule 19.10.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 19.10.2 - 19.10.6:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how a consent application will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 19.10.2 - 19.10.6 apply as follows:
 - a. Rule 19.10.2 applies to all restricted discretionary activities;
 - b. Rule 19.10.3 applies to restricted discretionary land use activities;
 - c. Rule 19.10.4 applies to restricted discretionary development activities;
 - d. Rule 19.10.5 applies to restricted discretionary subdivision activities; and
 - e. Rule 19.10.6 applies to restricted discretionary activities in an overlay zone, mapped area, or affecting a scheduled item.
4. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in the Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.
5. Where a restricted discretionary activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 19.9; and
 - iv. the matters of discretion in this section will be assessed as indicated.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 19.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 19.12; and
 - iii. the assessment guidance in this section will also be considered.

19.10.2 Assessment of all restricted discretionary activities

Activity	Guidance on the assessment of resource consents
1. All restricted discretionary activities listed below	<i>Potential circumstances that may support a consent application include:</i> a. For restricted discretionary land use activities, whether any associated buildings or structures meet relevant development performance standards. <i>General assessment guidance:</i> b. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in the Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

19.10.3 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. All high trip generators, which include any activities that generate 250 or more vehicle movements a day.	a. Effects on accessibility b. Effects on the safety and efficiency of the transport network	See Rule 6.11
2. Service stations (except self-service fuel stations)	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
3. Crematoriums	a. Effects on cultural values of Manawhenua b. Reverse sensitivity effects c. Effects on amenity of surrounding sites	See Rule 14.4 <i>Relevant objectives and policies:</i> i. Objective 19.2.1 ii. The potential for reverse sensitivity is insignificant (Policy 19.2.1.10). <i>Relevant objectives and policies:</i> i. Objective 19.2.2 ii. Crematoriums are located to avoid or minimise, as far as practicable, significant adverse effects on the amenity of surrounding residential, school and recreation zoned sites (Policy 19.2.2.8).

19.10.3 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
4. • Sport and recreation • Industrial ancillary tourism	a. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 19.2.1 ii. The potential for reverse sensitivity is insignificant (Policy 19.2.1.10). iii. Sport and recreation activities have specific operational requirements when located in the industrial zones that mean it is not practical to locate in a recreation, residential or commercial and mixed use zone (Policy 19.2.1.7). <i>Potential circumstances that may support a consent application include:</i> iv. The scale of the activity is such that it will not result in a more than minor long term loss of land for industrial or port activities within a particular area, either on its own, or cumulatively with other non-industrial or port activities in that area. v. The number of people involved in the activity, hours of operation, and noise is such that the activity will not have significant adverse effects on the amenity of surrounding residential, school and recreation zones.
5. Ancillary licensed premises	a. Reverse sensitivity effects	<i>Relevant objectives and policies:</i> i. Objective 19.2.1 ii. Ancillary licensed premises are designed and operated to service the workers engaged in or associated with industrial or port activities in the area, and are unlikely to attract significant patronage outside of this purpose (Policy 19.2.1.6). iii. The potential for reverse sensitivity is insignificant (Policy 19.2.1.10) <i>Potential circumstances that may support a consent application include:</i> iv. The number of people involved in the activity, hours of operation and noise is such that the activity will not have significant adverse effects on the amenity of surrounding residential, school and recreation zones.

19.10.4 Assessment of restricted discretionary development activities

Activity		Matters of discretion	Guidance on the assessment of resource consents
1.	High trip generators: New or additions to parking areas that result in 50 or more new parking spaces	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
		b. Effects on accessibility	

19.10.5 Assessment of restricted discretionary subdivision activities

Subdivision activities		Matters of discretion	Guidance on the assessment of resource consents
1.	Subdivision activities	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
		b. Effects on health and safety	See Rule 9.6
		c. Effects on efficiency and affordability of infrastructure	
		d. Risk from natural hazards	See Rule 11.5

19.10.6 Assessment of restricted discretionary activities in an overlay zone, mapped area, or affecting a scheduled heritage item

Activity		Matters of discretion	Guidance on the assessment of resource consents
1.	In all hazard overlay zones, swale mapped areas and dune system mapped areas : • Subdivision activities	a. Risk from natural hazards	See Rule 11.5
2.	In the Hazard 2 (flood) Overlay Zone (see Rule 19.3.6): • New buildings, and additions and alterations to buildings, which create more than 60m ² of new ground floor area	a. Risk from natural hazards	See Rule 11.5
3.	Activities affecting a scheduled heritage building or scheduled heritage structure: • Additions and alterations that affect a protected part of a scheduled heritage building or scheduled heritage structure • Removal for relocation • All subdivision activities on sites containing a scheduled heritage building or scheduled heritage structure	a. Effects on heritage values	See Rule 13.6
4.	Activities affecting a scheduled heritage site: • New buildings and structures on a scheduled heritage site, where visible from an adjoining public place or a publicly accessible place within the site • Parking, loading and access on a scheduled heritage site, where visible from an adjoining public place or a public place within the site • All subdivision activities	a. Effects on heritage values	See Rule 13.6

19.10.6 Assessment of restricted discretionary activities in an overlay zone, mapped area, or affecting a scheduled heritage item

Activity		Matters of discretion	Guidance on the assessment of resource consents
5.	In the Hazard 2 (flood) Overlay Zone : - Natural hazards sensitive activities - Natural hazards potentially sensitive activities	a. Risk from natural hazards	See Rule 11.5
6.	In the National Grid Corridor mapped area : All subdivision activities	a. Effects on health and safety b. Reverse sensitivity effects c. Effects on efficient and effective operation of network utilities	See Rule 5.8

Rule 19.11 Assessment of Discretionary Activities

Rule 19.11.1 Introduction

1. Discretionary activities will be assessed in accordance with section 104 and 104B of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. With respect to section 104(2) of the RMA, Council will not consider the performance standard for maximum height in the industrial zones as part of the permitted baseline in considering the effects of discretionary activities.
3. Rules 19.11.2 - 19.11.3 provide guidance on how a consent application for the listed discretionary activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi);
 - b. potential circumstances that may support a consent application;
 - c. general assessment guidance, including any effects that will be considered as a priority; and
 - d. conditions that may be imposed.
4. Rules 19.11.2 and 19.11.3 apply as follows:
 - a. Rule 19.11.2 applies to all discretionary activities; and
 - b. Rule 19.11.3 applies to discretionary performance standard contraventions.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

19.11.2 Assessment of all discretionary activities

Activity	Guidance on the assessment of resource consents
1. All discretionary activities	<i>General assessment guidance:</i> a. In assessing the significance of effects, consideration will be given to: i. both short and long term effects, including effects in combination with other activities ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the granting of a resource consent.

19.11.3 Assessment of discretionary performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. • Acoustic insulation • Noise - where the limit is exceeded by less than 5dB LAeq (15min) • Light spill - where the limit is exceeded by 25% or less	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and the effects on public health and safety.

Rule 19.12 Assessment of Non-complying Activities

Rule 19.12.1 Introduction

1. Non-complying activities will be assessed in accordance with section 104, 104B and 104D of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. With respect to section 104(2) of the RMA, Council will not consider the maximum height performance standard in the industrial zones as part of the permitted baseline in considering the effects of non-complying activities.
3. Rules 19.12.2 - 19.12.4 provide guidance on how a consent application for the listed non-complying activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi); and
 - b. general assessment guidance, including any effects that will be considered as a priority.
4. Rules 19.12.2 - 19.12.5 apply as follows:
 - a. Rule 19.12.2 applies to non-complying land use activities;
 - b. Rule 19.12.3 applies to non-complying development activities; and
 - c. Rule 19.12.4 applies to non-complying performance standard contraventions.
5. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

19.12.2 Assessment of non-complying land use activities

Activity	Assessment Matters
1. All non-complying land use activities, including but not limited to the activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. The activity does not detract from, or preferably contributes to, the strategic directions objectives, including, but not limited to, those related to: i. land and facilities that are important for economic productivity and social wellbeing, which include industrial areas, major facilities, key transportation routes, network utilities, and highly productive land, are protected from less productive competing uses or incompatible uses, including activities that may give rise to reverse sensitivity effects, and in the case of facilities, able to operate efficiently and effectively (Objective 2.3.1). b. The activity supports the purpose of the zone as outlined in (objectives 2.3.1 and 19.2.1) c. The activity would have significant positive effects on the successful operation of surrounding industrial or port activities (Policy 19.2.1.3). d. The potential for reverse sensitivity is insignificant (Policy 19.2.1.10) <i>General assessment guidance:</i> e. In assessing the significance of effects, consideration will be given to: i. both short and long term effects, including effects in combination with other activities. ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the granting of a resource consent. f. In assessing activities that are non-complying due to being in an overlay zone, mapped area, in a scheduled site, or affecting a scheduled item, that otherwise require resource consent, the assessment guidance provided in relation to the underlying activity status will also be considered. <i>Conditions that may be imposed:</i> g. A requirement for noise sensitive activity establishing in an industrial zone to comply, at a minimum with the acoustic insulation requirements in Rule 9.3.1 <i>Relevant guidance from other sections (priority considerations):</i> h. See Section 6.13 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3, and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. i. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety. j. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua.

19.12.2 Assessment of non-complying land use activities

Activity	Assessment Matters
2. Commercial advertising	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.4.1 b. Policy 2.4.1.6.c
3. Community and leisure	<i>Relevant objectives and policies (priority considerations):</i> a. The activity has specific operational requirements that mean it is not practical to locate in a recreation, residential or commercial and mixed use zone (Policy 19.2.1.7) b. The potential for reverse sensitivity is insignificant (Policy 19.2.1.10)
4. • Cemeteries • Landfills	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua.
5. Retail (excluding retail ancillary to industry and yard based retail)	<i>Relevant objectives and policies (priority considerations):</i> a. Retail activity (excluding retail ancillary to industry and yard based retail activities), is avoided, due to its high potential to be a significant competing use of land primarily zoned for industrial or port uses, unless it has significant positive effects on the successful operation of surrounding industrial or port activities (Policy 19.2.1.9).
6. In the hazard 1 (flood) overlay zones (see Rule 19.3.6): • Natural hazards potentially sensitive activities • Natural hazards sensitive activities	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and the effects related to the risk from natural hazards.
7. In a hazard facility mapped area : • Community and leisure - large scale • Early childhood education • Entertainment and exhibition • Major facility activities • Registered health practitioners • Residential activities • Training and education • Visitor accommodation	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and Policy 9.2.2.15 and the risks to people from an emergency event occurring at a hazard facility.

19.12.3 Assessment of non-complying development activities

Activity	Guidance on the assessment of resource consents
1. Demolition of a protected part of a scheduled heritage building or scheduled heritage structure.	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 13.8 for guidance on the assessment of resource consents in relation to Objective 13.2.1 and effects on heritage values.

19.12.4 Assessment of non-complying performance standard contraventions

Performance standard	Assessment matters
1. - Light spill - where the limit is exceeded by greater than 25% - Noise - where the limit is exceeded by 5dB LAeq (15 min) or more - Hazardous substances quantity limits and storage requirements (Rule 9.3.4.2)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and the effects related to public health and safety.
2. Setback from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities and public health and safety.
3. Hazard exclusion areas	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and effects related to the risk from natural hazards.
4. Maximum gross floor area (retail ancillary to industry)	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 2.3.1 and 19.2.1 b. Retail ancillary to industry is of a size that is clearly subordinate to and part of the operation of the primary industry activity; and does not conflict with objectives 2.3.1, 2.3.2 and 2.4.3; and does not create adverse effects on other industrial activities, for example from traffic, parking or reverse sensitivity (Policy 19.2.1.5).
5. Shape (Rule 19.7.5.2.c) - setback of building platforms from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and reverse sensitivity.

20. Recreation Zone

20.1 Introduction

Public reserve and recreational areas are interspersed among other environments within the city. The protection and provision of these areas and facilities is important for the health and well-being of the community and to contribute to amenity values.

- Activities and developments in recreation areas can have adverse effects on the surrounding environment. For example, large scale buildings and structures, parking and traffic effects, and nuisance-related effects such as noise or glare from lighting can impact on the amenity of surrounding residential properties.
- Many recreation areas provide important green space for the city. Limiting the types and scale of activities and development that occurs on them is necessary to ensure that they are available for a range of uses (including casual public use), and that green space is not consumed by inappropriate activities or development.
- Commercial food, beverage, and retail activities provided in association with recreation facilities could threaten the vitality of centres if provided in a way or at a scale that would compete with activities in the centres. Such activities occurring outside of a commercial centre also have the potential to impact on neighbours.

The areas covered by the zone are primarily sports fields, large urban bush reserves, and coastal reserves.

Other recreation areas not incorporated in this zone are:

- a. Small pocket parks, such as neighbourhood playgrounds, and small reserve areas in a commercial centre or the inner city, which retain the zoning of the surrounding environment.
- b. Moana Pool is managed through the Moana Pool Zone .
- c. Open space and recreation areas in the rural environment, which are generally zoned the same as the surrounding environment (i.e. rural zones). These areas are primarily used for conservation, protection of biodiversity and landscapes, and to provide for walking and biking tracks.

20.2 Objectives and Policies

Objective 20.2.1	
The Recreation Zone provides opportunities for a wide range of recreational, sporting, community, and cultural activities.	
Policy 20.2.1.1	Enable sport and recreation, community and leisure, and restaurant and retail ancillary to sport and recreation.
Policy 20.2.1.2	Enable rural activities in the form of grazing and forestry.
Policy 20.2.1.3	Provide for a wide range of community activities, cemeteries, and campgrounds, where these activities are designed and operated to meet Objective 20.2.2 and its policies.
Policy 20.2.1.4	Avoid industrial, residential, commercial, rural, and major facility activities, unless otherwise provided for in the Recreation Zone.

Objective 20.2.2	
Land use, development and subdivision activities: support the efficient and effective operation of the recreation area; maintain a high standard of on-site amenity for users of the recreation area; and maintain or enhance neighbourhood amenity and the amenity of any surrounding residential properties.	
Policy 20.2.2.1	Require development to maintain or enhance on-site amenity for recreation area users, neighbourhood amenity, and the amenity of any surrounding residential properties by ensuring: a. there are adequate areas free from buildings or hard surfacing; b. the height, boundary setbacks, height in relation to boundary, and scale of buildings and structures is appropriate to the recreation area and in keeping with the scale of buildings in surrounding residential environments; c. service areas for campgrounds or restaurants ancillary to sport and recreation, are not visible from ground level from outside the site; d. communal outdoor gathering areas are designed and located to avoid overlooking and disturbing surrounding residential properties; e. parking areas are designed or located to minimise, as far as practicable, light spill from vehicles using the parking area on surrounding residential properties; and f. outdoor storage is managed in a way that does not result in unreasonable visual amenity effects or nuisance effects.
Policy 20.2.2.2	Require boundary fences to be of a height and design that contributes positively to streetscape amenity and character of the neighbourhood and recreation area.
Policy 20.2.2.3	Require ancillary signs to be located and designed to maintain on-site amenity, and surrounding streetscape and residential amenity by: a. being of an appropriate size, design, and number to convey information about the name and nature of the club, organisation, or reserve, and not oversized or too numerous than what is necessary for that purpose; and b. limiting commercial sponsorship signs ancillary to sport and recreation to be temporary or enclosed within the site.
Policy 20.2.2.4	Require forestry and shelterbelts and small woodlots to be set back an adequate distance to avoid significant effects from shading on residential buildings on adjacent properties.

Objective 20.2.2

Land use, development and subdivision activities: support the efficient and effective operation of the recreation area; maintain a high standard of on-site amenity for users of the recreation area; and maintain or enhance neighbourhood amenity and the amenity of any surrounding residential properties.

Policy 20.2.2.5	Require retail and restaurants ancillary to sport and recreation, and ancillary licensed premises, to operate in a way (including hours of operation) that avoids, or if avoidance is not practicable, adequately mitigates, noise or other adverse effects on the amenity of surrounding residential properties.
Policy 20.2.2.6	Only allow sport and recreation that involves motor vehicles, where there will be no, or only minimal, adverse effects on: a. any surrounding residential properties; and b. other recreation area users.
Policy 20.2.2.7	Only allow campgrounds where any adverse effects, including from noise, dust or loss of privacy, on surrounding residential properties and other recreation area users, will be avoided or, if avoidance is not practicable, are adequately mitigated.
Policy 20.2.2.8	Only allow cemeteries, where they are designed and located: a. to avoid or, if avoidance is not practicable, adequately mitigate adverse effects on the amenity of surrounding residential properties; and b. to minimise, as far as practicable the potential for reverse sensitivity.
Policy 20.2.2.9	Only allow mining where: a. there is a reasonable certainty that land will be restored or rehabilitated to a standard that will minimise, as far as practicable, the long term visual effects; and b. any adverse effects, including from noise or dust, on surrounding residential properties or other recreation area users will be avoided, or if avoidance is not practicable, adequately mitigated.
Policy 20.2.2.10	Only allow new buildings or additions and alterations to buildings that will result in gross floor area greater than 350m ² and/ or have any wall longer than 20m, where any adverse effects on on-site amenity, surrounding properties, and neighbourhood amenity, will be avoided, or if avoidance is not practicable, adequately mitigated.
Policy 20.2.2.11	Only allow subdivision activities where the subdivision does not adversely affect the efficient and effective operation of the recreation area.
Policy 20.2.2.12	Only allow early childhood education or conference, meeting and function where they are designed, located, and operated to avoid or, if avoidance is not practicable, adequately mitigate adverse effects on: a. the amenity of surrounding residential properties; and b. other recreation area users.
Policy 20.2.2.13	Only allow stand-alone car parking where it is the secondary use of a car parking area required for an activity provided for in the recreation area, at times when that parking is not needed for that activity or otherwise needed to facilitate public use of the recreation area.

Rules

Rule 20.3 Activity Status

20.3.1 Rule Location

The activity status tables in rules 20.3.3 to 20.3.6 specify the activity status of land use activities, development activities, and subdivision activities in the residential zones and relevant overlay zones, except rules for the following city-wide activities, which are contained in Part B of the Plan:

1. Public Amenities (Section 3)
2. Temporary Activities (Section 4) - note that this section includes provisions that apply to construction
3. Network Utilities (Section 5)
4. Transportation (Section 6)
5. Scheduled Trees (Section 7)
6. Natural Hazard Mitigation Activities (Section 8)
7. Earthworks (Section 8A)

20.3.2 Activity Status Introduction

1. The activity status tables in rules 20.3.3 - 20.3.5 show the activity status of activities in the Recreation Zone and the overlay zones indicated, provided any performance standards shown in the far right column are met.
2. Activities are split into three types: a. land use activities, b. development activities, c. subdivision activities. Within these types, activities are split into categories. The nested tables in Section 1.3 outline the hierarchy of categories, activities and sub-activities.
3. Permitted land use activities do not automatically provide for any related development activities. Therefore, the activity status of any associated development activities should also be checked.
4. Where a new land use activity requires a resource consent, all associated development activities will be considered and assessed as part of the resource consent even if the development otherwise meets the development performance standards listed in the Plan.
5. The nested tables in Section 1.3 are intended to be a complete list of activities. However, in the case of an activity that is not covered by any of the activities in the nested tables, the activity status will be non-complying.

Additional activity status rules in hazard overlay zones

6. For the purpose of the hazards provisions, activities are categorised as natural hazards sensitive activities, natural hazards potentially sensitive activities or natural hazards least sensitive activities. The activities that are in each hazards sensitivity category are included in the definitions section and in Section 11.1.
7. In the Hazard 1 (flood) Overlay Zone or Hazard 2 (flood) Overlay Zone, the activity statuses in Rule 20.3.6 apply to the following activities:
 - a. natural hazards sensitive activities;
 - b. natural hazards potentially sensitive activities, and
 - c. new buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area
8. Where the activity status in Rule 20.3.6 differs from that in rules 20.3.3 - 20.3.5, the most restrictive activity status always applies.
9. In addition to the rules in Rule 20.3.6, performance standards for development activities within hazard overlay

zones are included in rules 20.3.3 - 20.3.5.

10. Activities in a hazard overlay zone must comply with all of the rules in 20.3.3 - 20.3.5.

Performance Standards

11. Performance standards are listed in the far right column of the activity status tables.
12. Performance standards apply to permitted, controlled, and restricted discretionary activities.
13. If a permitted or controlled activity does not meet one or more performance standards, then the activity status of the activity is indicated in the relevant performance standard rule.
14. If a controlled or restricted discretionary activity does not meet one or more performance standards, then the activity status is restricted discretionary, unless otherwise indicated in the performance standard.

Legend

Acronym	Meaning
+	Additional provisions apply (assessment criteria for activities in the overlay need to be viewed)
N/A	Not Applicable
P	Permitted Activity
C	Controlled Activity
RD	Restricted Discretionary Activity
D	Discretionary Activity
NC	Non-complying Activity
Rec	Recreation Zone
NCC	Natural Coastal Character Overlay Zone
ASBV	Areas of Significant Biodiversity Value
UBMA	Urban Biodiversity Mapped Area
SHS	Scheduled Heritage Site
Haz1	Hazard 1 Overlay Zones
Haz2	Hazard 2 Overlay Zones
Haz3	Hazard 3 Overlay Zones

20.3.3 Land Use Activity Status Table

1.	Performance standards that apply to all land use activities				a. Acoustic insulation (noise sensitive activities only) b. Electrical interference c. Light spill d. Noise e. Setback from National Grid (National Grid sensitive activities only)
Community activities		Activity status			Performance standards
		a. Rec	b. NCC	c. ASBV	
2.	Community and leisure - small scale <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only }</i>	P	P	P	i. Minimum car parking
3.	Community and leisure - large scale <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only }</i>	RD	RD	RD	i. Minimum car parking ii. Location (hazard facility mapped area)
4.	Conservation	P	P	P	
5.	Early childhood education - small scale <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only }</i>	RD	RD	RD	i. Location (hazard facility mapped area)
6.	Early childhood education - large scale <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only }</i>	D	D	D	
7.	Sport and recreation that involves motor vehicles	D	D	D+	
8.	All other sport and recreation	P	P	D	i. Hours of operation ii. Minimum car parking
Commercial activities		a. Rec	b. NCC	c. ASBV	Performance standards
9.	Ancillary licensed premises	RD	RD	RD	i. Hours of operation
10.	Conference, meeting, and function	D	D	D	
11.	Campgrounds <i>{Note - relates to appeals by BP Oil and Liquigas on hazard facility mapped areas only }</i>	RD	RD	NC	i. Minimum car parking

12.	Restaurants ancillary to sport and recreation	P	P	D	i. Hours of operation
13.	Retail activity ancillary to sport and recreation	P	P	D	i. Hours of operation
14.	Stand-alone car parking	RD	RD	NC	
15.	All other activities in the commercial activities category	NC	NC	NC+	
Rural activities		a. Rec	b. NCC	c. ASBV	Performance standards
16.	Forestry	P	RD	NC	i. Forestry and shelterbelts and small woodlots setbacks ii. Tree species
17.	Grazing	P	P	NC	
18.	Mining <i>{Note - appeal relates to activity status of expansion of existing mining operations only}</i>	D	D+	NC	
19.	Scheduled Mining Activity	P	P	N/A	i. Scheduled Mining Activity
20.	All other activities in the rural activities category	NC	NC	NC+	
Industrial activities		a. Rec	b. NCC	c. ASBV	Performance standards
21.	All activities in the industrial activities category	NC	NC	NC+	
Residential activities		a. Rec	b. NCC	c. ASBV	Performance standards
22.	All activities in the residential activities category	NC	NC	NC+	
Major facility activities		a. Rec	b. NCC	c. ASBV	Performance standards
23.	Cemeteries	RD	RD	NC	
24.	All other activities in the major facility activities category	NC	NC	NC+	

Note 20.3.3A – Other requirements outside of the District Plan

- Activities that involve the sale, consumption, or provision of alcohol, may require a licence. Contact the DCC's Alcohol Licensing Department on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.
- Permission from the Dunedin City Council (DCC) must be obtained for activities or development on recreation areas in addition to any permission or consent granted under the District Plan. Additional controls may apply under the Reserves Act 1977 or any management plan made under the Reserves Act. Please contact the Parks and Recreation Department on 03 477 4000 or visit the DCC website www.dunedin.govt.nz to ensure all appropriate permissions are received.

Note 20.3.3B – Other requirements outside of the District Plan

Plantation forestry and associated activities are addressed by the NESPF rather than Rule 20.3.3.16 for the Rural Residential 1 Zone at 50 Three Mile Hill Road, although the NESPF does not apply to any vegetation clearance prior to afforestation and the rules in Section 10 Natural Environment apply.

20.3.4 Development Activity Status Table

1.	Performance standards that apply to all development activities	a. Natural Hazards Performance Standards b. Setback from scheduled tree			
2.	Performance standards that apply to all buildings and structures activities	a. Boundary setbacks b. Height in relation to boundary c. Maximum height d. Number, location and design of ancillary signs e. Setback from coast and water bodies f. Setback from National Grid			
Buildings and structures activities (excluding activities affecting a protected part of a scheduled heritage building or a scheduled heritage structure. See rows 8 - 15)		Activity status			Performance standards
		a. Rec	b. NCC	c. ASBV	
3.	New buildings or additions and alterations that result in a building that is less than or equal to 60m ²	P	P	P	
4.	New buildings or additions and alterations that result in a building that is greater than 60m ² and less than or equal to 350m ² and does not have any wall longer than 20m	P	RD	RD	
5.	New buildings or additions and alterations that result in a building that is greater than 350m ² and/or has any wall longer than 20m	RD	RD	RD	
6.	Fences	P	P	P	i. Fence height and design
7.	All other buildings and structures activities	P	P	P	
Buildings and structures activities that affect a protected part of a scheduled heritage building or scheduled heritage structure		a. Rec	b. NCC	c. ASBV	Performance standards
8.	Repairs and maintenance	P	P	P	i. Materials and design
9.	Restoration of a building or structure that has a Heritage New Zealand Category 1 listing (as detailed in Appendix A1.1)	C	C	C	i. Materials and design

10.	Restoration of all other scheduled heritage buildings and structures	P	P	P	i. Materials and design
11.	Earthquake strengthening where external features only are protected	C	C	C	i. Materials and design
12.	Signs attached to buildings or structures	P	P	P	
13.	All other additions and alterations	RD	RD	RD	
14.	Demolition	NC	NC	NC	
15.	Removal for relocation	RD	RD	RD	
<u>Development activities on a scheduled heritage site, where visible from an adjoining public place or a public place within the heritage site</u>		a. Rec	b. NCC	c. ASBV	Performance standards
16.	New structures that are no more than 2.5m high or that have no more than a 2m ² footprint	P	P	P	
17.	All other new structures	RD	RD	RD	
18.	New buildings	RD	RD	RD	
19.	Parking, loading and access	RD	RD	RD	i. Parking, loading and access standards ii. Location and screening of car parking
Site development activities in all areas (except as covered by rows 16 - 19 above)		a. Rec	b. NCC	c. ASBV	Performance standards
20.	Outdoor storage	P	P	P	i. Location and screening of outdoor storage
21.	Indigenous vegetation clearance - small scale	P	P	P	i. Vegetation clearance standards
22.	Indigenous vegetation clearance - large scale	N/A	RD+	NC	i. Vegetation clearance standards
23.	All other vegetation clearance	P	P	P	i. Vegetation clearance standards
24.	Parking, loading and access	P	P	P	i. Parking, loading and access standards ii. Location and screening of car parking
25.	New or additions to parking areas that result in 50 or more new parking spaces.	RD	RD	RD	i. Parking, loading and access standards ii. Location and screening of car parking

26.	Storage and use of hazardous substances	P	P	P	i. Hazardous substances quantity limits and storage requirements ii. Setback from coast and water bodies
27.	Shelterbelts and small woodlots	P	P	RD	i. Tree species ii. Forestry and shelterbelts and small woodlots setbacks
28.	All other site development activities	P	P	RD	

Note 20.3.4A - General advice

1. An archaeological authority is required under the Heritage New Zealand Pouhere Taonga Act 2014 to modify or destroy an archaeological site. If you wish to do any earthworks that may affect an archaeological site, you must first obtain an authority from Heritage New Zealand. This is the case regardless of whether the site is designated, or the activity is permitted under the District Plan or Regional Plan, or a resource or building consent has been granted.
2. An archaeological site is defined as any place in New Zealand that was associated with human activity that occurred before 1900 and provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand. This includes the scheduled archaeological sites within the District Plan.
3. Pre-1900 buildings are considered archaeological sites. An archaeological authority must be obtained before demolishing a pre-1900 building or structure.
4. The **archaeological alert layer mapped area** identifies sites and areas that have a strong likelihood of containing archaeological remains, however remains may be present anywhere within the District. If archaeological remains are discovered during any site works, at any location, the Accidental Discovery Protocol (Appendix A8) should be followed.
5. Freedom camping is managed by Council's Camping Control Bylaw 2015. Bylaws are available at www.dunedin.govt.nz.
6. Dunedin City Council Bylaws may apply to some activities in the Recreation Zone. Please refer to the bylaws for more detail. Bylaws are available at www.dunedin.govt.nz.

20.3.5 Subdivision Activity Status Table

Subdivision activities		Activity status			Performance standards
		a. Rec	b. NCC	c. ASBV	
1.	General subdivision	RD	RD+	RD+	i. Access ii. Esplanade reserves and strips iii. Fire fighting iv. Service connections v. Shape
2.	Cross lease, company lease and unit title subdivision	NC	NC	NC	

Note 20.3.5A - Other RMA considerations

1. Under Section 226(1)(e)(ii) of the Resource Management Act 1991, where an existing allotment shown on a survey plan meets all relevant provisions of the district plan and any proposed district plan, the Dunedin City Council must issue a certificate to that effect to enable the Registrar-General of Land to issue a certificate of title for that separate allotment.

20.3.6 Activity Status in Hazard 1 (Flood) Overlay Zone and Hazard 2 (Flood) Overlay Zone

		Activity status	
Activity		a. Haz1 (flood)	b. Haz2 (flood)
1.	Natural hazards sensitive activities	NC	RD
2.	Natural hazards potentially sensitive activities	NC	RD
3.	New buildings, and additions and alterations to buildings, which create more than 60m ² of new ground floor area	RD	RD

Note 20.3.6A - Other RMA considerations

1. For the purposes of the natural hazards provisions only, with respect to section 10 of the RMA (existing use rights), Council will generally consider that a land use activity is similar in character, intensity, and scale where:
 - a. for a residential activity, there is less than 25m² increase in ground floor area of any residential building(s), in any consecutive 10 year period; or
 - b. for a residential activity, a new building is to be used solely as a garage or shed; or
 - c. for all other natural hazards sensitive activities and natural hazards potentially sensitive activities, the ground floor area of any buildings increases by less than 100% in any consecutive 10 year period.
2. Accordingly, these activities will not usually trigger the provisions for natural hazards sensitive activities and natural hazards potentially sensitive activities in Rule 20.3.6. However, Council will consider specific circumstances associated with the development and how this affects the character, intensity and scale of the land use activity.

Rule 20.4 Notification

1. Applications for resource consent for the following activities will be considered without the need to obtain a written approval of affected persons and will not be notified in accordance with section 95A or section 95B of the RMA, unless Council considers special circumstances exist in relation to the application that require public notification:
 1. earthquake strengthening of a scheduled heritage building or scheduled heritage structure where external features only are protected (controlled activity) and that are not listed by Heritage New Zealand; and
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is not listed by Heritage New Zealand.
2. With respect to resource consent applications, Heritage New Zealand will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided for the following:
 1. activities that affect a protected part of a scheduled heritage building, scheduled heritage structure, or a scheduled heritage site, that is listed with Heritage New Zealand;
 2. contravention of the materials and design performance standard (Rule 13.3.2) where the building or structure is listed by Heritage New Zealand; and
 3. contravention of the archaeological sites performance standard (Rule 13.3.3) .
3. Applications for resource consent for the following activities will be publicly notified in accordance with section 95A of the RMA, unless Council considers special circumstances exist in relation to the application:
 1. all commercial activities (including commercial advertising); and
 2. all industrial activities.
4. With respect to resource consent applications for the following activities, Manawhenua will be considered an affected person in accordance with section 95B of the RMA where their written approval is not provided:
 1. cemeteries;
 2. all restricted discretionary activities that list effect on cultural values of Manawhenua as a matter for discretion; and
 3. discretionary and non-complying activities in a **wāhi tūpuna mapped area** where the activity is identified as a threat in Appendix A4.
5. With respect to resource consent applications for the following activities, the Department of Conservation will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
 1. indigenous vegetation clearance - large scale in a scheduled Area of Significant Biodiversity Value; or
 2. indigenous vegetation clearance - large scale or any discretionary or non-complying activity in a Natural Coastal Character overlay zone.
6. With respect to resource consent applications for the following activities, the Otago Regional Council will be considered an affected person in accordance with section 95B of the RMA where its written approval is not provided:
 1. activities in the Hazard 1 (flood) or Hazard 1A (flood) overlay zones; and
 2. activities in **swale mapped areas**.
7. All other activities are subject to the normal tests for notification in accordance with sections 95A-95G of the RMA.

Rule 20.5 Land Use Performance Standards

20.5.1 Acoustic Insulation

1. Noise sensitive activities in the following areas must comply with Rule 9.3.1:
 - a. port noise control mapped area;
 - b. within 40m of a state highway;
 - c. within 20m of an industrial zone; and
 - d. within 70m of a railway line.

20.5.2 Electrical Interference

Land use activities must comply with Rule 9.3.2.

20.5.3 Hours of Operation

1. Sport and recreation, restaurants ancillary to sport and recreation, retail ancillary to sport and recreation, and ancillary licensed premises must operate within the following hours:

Days of week		Hours of operation
a.	Sunday - Thursday	7.00am - 10.30pm
b.	Friday - Saturday	7.00am - 12.00am (midnight)

2. Sportsfield lighting on sites adjacent to a residential zone must not operate within the hours of 10.00pm - 7.00am.
3. Activities that contravene this performance standard are restricted discretionary activities.

Note 20.5.3A - Other requirements outside of the District Plan

1. Activities that involve the sale or provision of alcohol, or contain a social area that could be used for this purpose, may require a licence. Contact the DCC's Alcohol Licensing Department on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.
2. Land owner consent from the DCC's Parks, Recreation and Aquatic Group Department is required for activities or development on recreation areas in addition to any permission or consent granted under the District Plan. Additional controls may apply under the Reserves Act 1977 or any Management Plan for the Area. Please contact customer services on 03 477 4000 or visit the DCC website www.dunedin.govt.nz for more information.

20.5.4 Light Spill

Land use activities must comply with Rule 9.3.5.

20.5.5 Minimum Car Parking

1. Land use activities must provide on-site parking as follows:

Activity	Minimum car parking rate
a. Community and leisure	1 parking space for every 5 persons the facility can accommodate at any one time
b. Sport and recreation	1 parking space for every 5 persons that the facility can accommodate at any one time.
c. Campgrounds	1 parking space for every visitor accommodation unit

- d. Activities must provide mobility parking spaces as follows:

Total number of parking spaces provided	Minimum number of these that must be mobility parking spaces
i. 1 - 20	1 parking space
ii. 21 - 50	2 parking spaces
iii. For every additional 50 parking spaces	1 additional parking space

- e. Required parking spaces may be used for car, cycle or motorcycle parking, except for any required mobility parking spaces, which must be used for mobility parking.
- f. Parking spaces may be shared between land use activities (i.e. the same parking spaces may be used to fulfil the minimum car parking requirement for more than one land use activity), as long as the hours of operation of the land use activities do not overlap.
- g. Where the minimum car parking performance standard results in the requirement for a fractional space, any fraction under one half will be disregarded and any fraction of one half or greater will be counted as one space.

2. Activities that contravene this performance standard are restricted discretionary activities.

Note 20.5.5A - Other relevant District Plan provisions

1. Parking areas must comply with the standards in Section 6.6: Parking, Loading and Access Standards.

20.5.6 Noise

Land use activities must comply with Rule 9.3.6.

20.5.7 Setback from National Grid

National Grid sensitive activities must comply with Rule 5.6.1.

20.5.8 Tree Species

Forestry and shelterbelts and small woodlots must comply with Rule 10.3.4.

20.5.9 Location (hazard facility mapped area)

Activities must comply with Rule 9.3.8.

20.5.10 Scheduled Mining Activity

20.5.10.1

Waldronville Gun Club Sand Pit must meet the performance standards listed below.

20.5.10.2

If Waldronville Gun Club Sand Pit contravenes any of these standards it will be considered a new mining activity and will be subject to the rules that apply to mining in Rule 20.3.

Rule 20.5.10.3 Operating Limits

- a. Waldronville Gun Club Sand Pit:
 - i. may only operate: Monday to Saturday 6.00am to 10.00pm;
 - ii. must not use blasting;
 - iii. must not undertake aggregate processing.

Rule 20.5.10.4 Noise

- a. Waldronville Gun Club Sand Pit must comply with Rule 9.3.6, subject to the following:
 - i. An adjustment of minus 5 dBA for noise emissions having special audible characteristics.
 - ii. Noise level readings for the purpose of determining compliance with the noise conditions must be provided by the quarry operator for two hours, at times representative of the operation and at which maximum noise levels can be assessed. For continuous operations, readings must take place at 12 monthly intervals. For intermittent operations, readings must be provided at the time of every subsequent operation of the site.

Rule 20.5.10.5 Landscaping and rehabilitation

- a. Waldronville Gun Club Sand Pit must undertake a programme of landscaping to encourage the revegetation of areas that are no longer being mined. The landscaping programme must ensure that:
 - i. all planting is in accordance with a landscape plan prepared by a qualified landscape architect;
 - ii. all vegetation established as part of this programme is maintained in a healthy state at all times;
 - iii. the site is rehabilitated to an appearance and character similar to that of the surrounding environment.
- b. Prior to removing sand from undisturbed areas, the DCC will be contacted to allow the removal of any pingao growing in the area.

Rule 20.6 Development Performance Standards

20.6.1 Fence Height and Design

20.6.1.1 Maximum Height

- a. The maximum height of fences along boundaries (including within the boundary setbacks required by Rule 20.6.10) is 2m.
- b. For the purposes of calculating maximum height, where a fence is erected atop a retaining wall, the height will be calculated as the combined height measured from ground level to the top of the fence.
- c. Activities that contravene this performance standard are restricted discretionary activities.

20.6.1.2 Visual Permeability

- a. Fences along road boundaries (or within the boundary setbacks required by Rule 20.6.10), or along a side or rear boundary with a residential zone, must be constructed to a length and/or height that maintains visual permeability for 50% of the length of the boundary measured at a height of 1.4m above ground level (see Figure 15.6.2.2A).
- b. The following fences are exempt from this requirement:
 - i. fences along the road boundary of a state highway;
 - ii. fences required to meet Rule 20.6.6 (Location and Screening of Outdoor Storage); and
 - iii. fences required to meet Rule 20.6.5 (Location and Screening of Car Parking).
- c. Fences that contravene this performance standard are restricted discretionary activities.

20.6.2 Natural Hazards Performance Standards

20.6.2.1 Hazard exclusion areas

- a. New buildings and structures and additions and alterations located in a **swale mapped area** must comply with Rule 11.3.1.1.
- b. New buildings and structures and additions and alterations located in a **dune system mapped area** must comply with Rule 11.3.1.2.

20.6.2.2 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the Hazard 1 (land instability) Overlay Zone, Hazard 2 (land instability) Overlay Zone, or in a **dune system mapped area**, must comply with Rule 11.3.2.

20.6.2.3 Outdoor storage

Outdoor storage in the Hazard 1 (flood) Overlay Zone must comply with Rule 11.3.4.

20.6.3 Hazardous Substances Quantity Limits and Storage Requirements

The storage and use of hazardous substances must comply with Rule 9.3.4.

20.6.4 Height

20.6.4.1 Height in relation to boundary

- New buildings and additions and alterations to buildings must not protrude through a plane (see Figure 20.6.4.1A) raising at an angle of 45 degrees measured from a point 2.5m above ground level at the boundary of the Recreation Zone.
- Except sports field fences which are 100% permeable and required to be tall for the purposes of public safety (e.g. wire netting fences around softball fields), sports field lighting, and goal posts.
- Rooftop structures are exempt from the performance standard for height in relation to boundary
- Activities that contravene this performance standard are restricted discretionary activities.

Figure 20.6.4.1A: Height in relation to boundary

20.6.4.2 Maximum Height

- The maximum height for new buildings and structures, and additions and alterations, must not exceed the following above ground level:

Activity		1. Recreation Zone	2. Natural Coastal Character Overlay Zone (NCC)
i.	Goal posts and sports field lighting	22m	22m
ii.	All other buildings and structures	9m	5m

- Rooftop structures are exempt from the performance standard for height provided they do not exceed the maximum height limit for all other buildings and structures by more than one third of that limit.
- Activities that contravene this performance standard are restricted discretionary activities.

20.6.5 Location and Screening of Car Parking

1. Parking areas adjacent to boundaries of sites that are in a residential zone must, on that boundary, have a solid fence or dense landscaping at least 1.4m high that is capable of blocking light from headlights of motor vehicles.
2. Activities that contravene this performance standard are restricted discretionary activities.

20.6.6 Location and Screening of Outdoor Storage

1. Service areas must be located or screened so that they are not visible at ground level from adjacent residential zoned sites or roads.
2. Outdoor storage, including service areas, must not encroach into required parking, loading and access areas.
3. Outdoor storage must be managed in a way that does not result in unreasonable visual amenity effects or nuisance effects.
4. Materials stored outside must be stored in a way that prevents them contaminating any off-site area.
5. Activities that contravene this performance standard are restricted discretionary activities.

20.6.7 Materials and Design

Repairs and maintenance, restoration and earthquake strengthening must comply with Rule 13.3.2.

20.6.8 Number, Location and Design of Ancillary Signs

20.6.8.1 General

- a. Signs visible from a public place must meet all of the following performance standards, except that regulatory signs, directional signs and warning signs that do not exceed 0.25m² are exempt from these standards.
- b. Signs must also comply with:
 - i. Rule 6.7.2 where located on or above the footpath; and
 - ii. Rule 6.7.3 where visible from a road.
- c. Signs must not be illuminated or digital.
- d. Signs that contravene the performance standard for number, location and design of ancillary signs are restricted discretionary activities.

20.6.8.2 Performance standards that apply to all ancillary signs, except commercial sponsorship signs

- a. Ancillary signs must only display the name, and logo of the relevant land use activity or organisation (e.g. DCC), locational, directional or informative information relevant to the area, or rules of the area or use of the area.
- b. Ancillary signs that promote or advertise retail, restaurants, or conference, meeting and function ancillary to sport and recreation must not be visible from a public place outside the recreation area.

20.6.8.3 Signs attached to buildings

- a. Any signs displaying the club/s name on clubrooms must not exceed a maximum total area of 5m² per building face.
- b. The maximum number of permanent commercial sponsorship signs is one sign for the naming rights sponsor of the sport and recreation activity (club), with a maximum area of 3m², except: for clubs that operate in an enclosed area that is only open to members, apart from during events, there is no maximum number of commercial sponsorship signs, provided those signs are not visible from outside of the enclosed area.
- c. Other signs must not exceed a total maximum area of 1m² per building face.

- d. Signs must remain entirely within the visual profile of the building or structure.
- e. Signs must not project higher than the lowest point of the roof, except as mounted flat against a parapet or gable end.

20.6.8.4 Freestanding signs

- a. Freestanding signs
 - i. must not exceed a maximum total area of all display faces of 3m²; and each display face must not exceed 1.5m² in area;
 - ii. must not exceed a maximum height above ground level of 4m; and
 - iii. must not obstruct parking, loading and access areas; and
 - iv. must be positioned entirely within the site boundaries.

20.6.8.5 Portable freestanding signs

- a. Commercial sponsorship signs erected for matches, competitions, or events must not be displayed for more than one day before the competition/event, and must be removed within one day of completion of the competition/event.
- b. Any other portable signs must not exceed one sign per activity, and 0.9m in height and 0.6m in width.
- c. Signs must be positioned within site boundaries.

Note 20.6.8A - Other requirements outside of the District Plan

1. For additional restrictions that may apply to signs, see also:
 - a. NZ Transport Agency *Traffic Control Devices Manual, Part 3, Advertising Signs and Signs on State Highways Bylaw*.
 - b. Dunedin City Council Commercial Use of Footpaths Policy.
 - c. Dunedin City Council Roadway Bylaw.
 - d. Dunedin City Council Traffic and Parking Bylaw.

20.6.9 Parking, Loading and Access Standards

Parking, loading and access must comply with Rule 6.6.

20.6.10 Setbacks

20.6.10.1 Boundary setbacks

- a. New buildings and structures, and additions and alterations, must be set back from boundaries as follows:
 - i. 4.5m from the road boundary; and
 - ii. 2m from side and rear boundaries;
 - iii. except for the site at 50 Three Mile Hill Road, where they must be set back: 12m from the road boundary; and 6m from side and rear boundaries.
 - iv. Jetties, boat ramps, wharves, fences, and ancillary signs are exempt from this standard.
- b. Communal outdoor gathering areas, including decks at or above ground level, must be setback 10m from a residential zone.
- c. Activities that contravene this performance standard are restricted discretionary activities.

20.6.10.2 Forestry and shelterbelts and small woodlots setbacks

- a. Trees associated with forestry activity:

- i. must not be planted within 30m of the boundary of any residential zone or rural residential zone;
 - ii. must not be planted within 40m of a residential building where the building exists at the time of planting;
 - iii. must not shade a motorway or a strategic road, arterial road, or collector road between 10.00am and 2.00pm on the shortest day of the year; and
 - iv. must not be planted within 10m of the boundary of the designated rail corridor.
- b. Trees associated with shelterbelts and small woodlots:
- i. must be set back, or managed so that they maintain, a minimum distance of their own height from any residential building on an adjacent site, where the building exists at the time of planting;
 - ii. must not shade a motorway, strategic road, arterial road, or collector road between 10.00am and 2.00pm on the shortest day of the year; and
 - iii. must not be planted within 10m of the boundary of the designated rail corridor.
- c. Activities that contravene this performance standard are restricted discretionary activities.

20.6.10.3 Setback from coast and water bodies

New buildings and structures, additions and alterations, and storage and use of hazardous substances must comply with Rule 10.3.3.

20.6.10.4 Setback from National Grid

New buildings and structures, and additions and alterations must comply with Rule 5.6.1.

20.6.12.5 Setback from scheduled tree

New buildings and structures, additions and alterations, and any site development activities that involve the installation of impermeable surfacing must comply with Rule 7.5.2.

20.6.11 Vegetation Clearance Standards

20.6.11.1 Indigenous vegetation clearance – small scale thresholds

Indigenous vegetation clearance – small scale must comply with Rule 10.3.2.1.

20.6.11.2 Maximum area of vegetation clearance (UBMA)

Vegetation clearance in an **urban biodiversity mapped area** must comply with Rule 10.3.2.4.

20.6.11.3 Protected areas (vegetation clearance)

Vegetation clearance and indigenous vegetation clearance must comply with Rule 10.3.2.2.

20.6.11.4 Protected species (indigenous vegetation clearance)

Indigenous vegetation clearance must comply with Rule 10.3.2.3.

20.6.11.5 Maximum area of vegetation clearance in the hazard overlay zones

Vegetation clearance in the Hazard 1 (land instability) Overlay Zone, Hazard 2 (land instability) Overlay Zone, or in a **dune system mapped area**, must comply with Rule 11.3.2.

Rule 20.7 Subdivision Performance Standards

20.7.1 Access

General subdivision must comply with Rule 6.8.1.

20.7.2 Esplanade Reserves and Strips

General subdivision must comply with Rule 10.3.1.

20.7.3 Fire Fighting

General subdivision must comply with Rule 9.3.3.

20.7.4 Service Connections

General subdivision must comply with Rule 9.3.7.

20.7.5 Shape

1. Each resultant site must be of a size and shape that is large enough to allow for:
 - a. setbacks from boundaries, water bodies, scheduled trees; and
 - b. esplanade reserve or strip areas.
2. Building platforms must be located at least 12m from the outer edge of a National Grid support structure or centreline of an overhead National Grid transmission line.
3. Resultant sites created and used solely for the following purposes are exempt from the shape standard:
 - a. Scheduled ASBV or QEII covenant;
 - b. reserve;
 - c. access;
 - d. network utilities activities; or
 - e. road.
4. Activities that contravene this performance standard are restricted discretionary activities, except that activities that do not meet Rule 20.7.5.2 are non-complying activities.

Rule 20.8 Assessment of Controlled Activities

Rule 20.8.1 Introduction

1. Controlled activities will be assessed in accordance with section 104 and 104A of the RMA. Council must grant the application and may impose conditions with respect to matters over which it has reserved its control.
2. Rule 20.8.2:
 - a. lists the matters over which Council has reserved its control; and
 - b. provides guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi); and
 - ii. conditions that may be imposed.
3. Where a controlled activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 20.9; and
 - iv. the matters of control become matters of discretion and will be assessed as indicated in this section.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 20.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 20.12; and
 - iii. the assessment guidance in this section will also be considered.

20.8.2 Assessment of controlled activities

Activity	Matters of control	Guidance on the assessment of resource consents
1. Affecting a scheduled heritage building or a scheduled heritage structure: • Earthquake strengthening that affects a protected part of a scheduled heritage building or scheduled heritage structure, where external features only are protected. • Restoration of a protected part of a scheduled heritage building or scheduled heritage structure that has a Heritage New Zealand Category 1 listing (as detailed in Appendix A1.1)	a. Effects on heritage values	See Rule 13.4

Rule 20.9 Assessment of Restricted Discretionary Activities (Performance Standard Contraventions)

Rule 20.9.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 20.9.2 - 20.9.6:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how consent applications will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 20.9.2 - 20.9.6 apply as follows:
 - a. Rule 20.9.2 applies to all performance standard contraventions;
 - b. Rule 20.9.3 applies to land use performance standard contraventions;
 - c. Rule 20.9.4 applies to development performance standard contraventions;
 - d. Rule 20.9.5 applies to subdivision performance standard contraventions; and
 - e. Rule 20.9.6 applies to performance standard contraventions in an overlay zone, mapped area, or affecting a scheduled item.

20.9.2 Assessment of all performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. All performance standard contraventions	<i>Potential circumstances that may support a consent application include:</i> a. The degree of non-compliance with the performance standard is minor. b. The need to meet other performance standards, or other site specific factors including topography, make meeting the standard impracticable. c. Topography or other site specific factors make the standard irrelevant as the adverse effects that the standard is trying to manage will not occur. d. Non-compliance with a development performance standard would improve the design of the development in a way that would result in positive effects and better achieve the identified objectives and policies of the Plan. <i>General assessment guidance:</i> e. Where more than one standard is contravened, the combined effects of the contraventions should be considered.

20.9.3 Assessment of land use performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Electrical interference	a. Effects on health and safety	See Rule 9.5
2.	Hours of operation	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Retail and restaurant activities ancillary to sport and recreation operate in a way that avoids, or if avoidance is not practicable, adequately mitigates adverse effects on surrounding properties (Policy 20.2.2.5). <i>General assessment guidance:</i> iii. In assessing effects on amenity, Council will consider the location of the building on the site in relation to adjacent residential buildings, and the location of the site and access in the context of the wider environment, considering effects of vehicle movements, vehicle headlights and noise.
3.	Minimum car parking	a. Effects on the safety and efficiency of the transport network b. Effects on accessibility	See Rule 6.10
4.	Tree species	a. Effects on biodiversity values b. Effects on natural character of the coast c. Effects on landscape values	See Rule 10.5

20.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Boundary setbacks	a. Effects on on-site amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Development maintains or enhances on-site amenity for recreation area users (Policy 20.2.2.1.b).
		b. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Development maintains or enhances neighbourhood amenity, and the amenity of any surrounding residential properties (Policy 20.2.2.1.b). <i>Potential circumstances that may support a consent application include:</i> iii. Access to sunlight to the outdoor living space(s) and windows of bedrooms and living areas of adjacent residential buildings is maintained or any reduction is minor.
2.	Fence height and design	a. Effects on neighbourhood amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Boundary fences are of a height and design that contributes positively to the amenity and character of the neighbourhood and recreation area (Policy 20.2.2.2). <i>Potential circumstances that may support a consent application include:</i> iii. The increased height or reduced visual permeability is necessary to meet protection requirements, to provide security, minimise noise effects from a busy road or activity, or for public well-being. iv. Existing vegetation or proposed landscaping will screen fences from public places. v. For side and rear boundaries, the fence is on a boundary that is not generally accessible or visible from open areas of the recreation area, e.g. on a boundary in a dense bush area.
		b. Effects on health and safety	See Rule 9.5

20.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
3.	Forestry and shelterbelts and small woodlots setbacks	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Forestry and shelterbelts and small woodlots are set back an adequate distance to avoid significant effects from shading on residential buildings on adjacent properties (Policy 20.2.2.4). <i>Potential circumstances that may support a consent application include:</i> iii. The area to be planted is to the south of any adjacent residential or rural residential zone. iv. Slope or orientation or other topographical aspects of the sites involved mean that there will be no shading of a residential building on an adjoining site.
		b. Effects on health and safety	See Rule 9.5
		c. Effects on the safety and efficiency of the transport network	See Rule 6.10
4.	Hazardous substances quantity limits and storage requirements	a. Effects on health and safety	See Rule 9.5
5.	Height in relation to boundary	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Development maintains or enhances neighbourhood amenity, and the amenity of any surrounding residential properties (Policy 20.2.2.1.b). <i>Potential circumstances that may support a consent application include:</i> iii. Access to sunlight to the outdoor living space(s) and windows of bedrooms and living areas of adjacent residential buildings is maintained or any reduction is minor.

20.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
6.	Maximum height	a. Effects on on-site amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Development maintains or enhances on-site amenity for recreation area users (Policy 20.2.2.1.b). <i>Potential circumstances that may support a consent application include:</i> iii. Better use of public space and retention of open space within the site can be achieved. iv. Greater height is required to meet specialised recreational needs.
		b. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Development maintains or enhances neighbourhood amenity, and the amenity of any surrounding residential properties and is in keeping with the scale of buildings in the surrounding residential environment (Policy 20.2.2.1.b). <i>Potential circumstances that may support a consent application include:</i> iii. Access to sunlight to the outdoor living space(s) and windows of bedrooms and living areas of adjacent residential buildings is maintained or any reduction is minor. iv. Landscaping or fences screen or soften the visual effects of buildings. v. Natural landforms or topography (e.g. cliffs or tall trees) provide a backdrop to the building.
7.	Location and screening of car parking	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Parking areas are designed or located to minimise, as far as practicable, light spill from vehicles using the parking area on surrounding residential properties (Policy 20.2.2.1.e). <i>Potential circumstances that may support a consent application include:</i> iii. Landscaping to minimise adverse visual and nuisance effects from lighting, vehicle headlights, or car parking areas on surrounding properties.

20.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
8.	Location and screening of outdoor storage	a. Effects on neighbourhood amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Service areas for campgrounds or restaurants ancillary to sport and recreation are not visible from ground level from outside the site (Policy 20.2.2.1.c). iii. Outdoor storage is managed in a way that does not result in unreasonable visual amenity effects or nuisance effects (Policy 20.2.2.1.f). <i>Conditions that may be imposed include:</i> iv. Landscaping
9.	Number, location, and design of ancillary signs	a. Effects on on-site amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2
		b. Effects on surrounding streetscape and residential amenity	ii. Ancillary signs are located and designed to maintain on-site amenity and surrounding streetscape and residential amenity, by being of an appropriate size, design, and number to convey information about the name and nature of the club, organisation, or reserve, and not oversized or too numerous than what is necessary for that purpose (Policy 20.2.2.3.a). iii. Commercial sponsorship signs ancillary to sport and recreation are temporary in nature or are enclosed within a site to maintain on-site amenity and surrounding streetscape and residential amenity (Policy 20.2.2.3.b). <i>Potential circumstances that may support a consent application include:</i> iv. The number and location of signs will not result in more than minor cumulative visual effects.
		c. Effects on the safety and efficiency of the transport network	See Rule 6.10
10.	Parking loading and access standards	a. Effects on the safety and efficiency of the transport network	See Rule 6.10

20.9.4 Assessment of development performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
11.	Setback from coast and water bodies	a. Effects on biodiversity values and natural character values of riparian margins and the coast	See Rule 10.5
		b. Effects on public access	See Rule 10.5
		c. Risk from natural hazards	See Rule 11.4
12.	Setback from scheduled tree	a. Effects on long term health of tree	See Rule 7.6
13.	Vegetation clearance standards: • Protected areas (vegetation clearance)	a. Effects on biodiversity values and natural character values of riparian margins and the coast	See Rule 10.5
14.	Vegetation clearance standards: • Protected species (indigenous vegetation clearance)	a. Effects on biodiversity values	See Rule 10.5

20.9.5 Assessment of subdivision performance standard contraventions

Performance standard		Matters of discretion	Guidance on the assessment of resource consents
1.	Access	a. Effects on accessibility	See Rule 6.10
		b. Effects on the safety and efficiency of the transport network	
2.	Esplanade reserves and strips	a. Effects on biodiversity values and natural character values of riparian margins and coast	See Rule 10.5
		b. Effects on public access	
3.	Fire fighting	a. Effects on health and safety	See Rule 9.5
4.	Service connections	a. Effects on efficiency and affordability of infrastructure	See Rule 9.5

20.9.5 Assessment of subdivision performance standard contraventions

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
5. Shape	<i>Relevant objectives and policies:</i> a. Objectives 2.4.1 b. Subdivisions are designed to ensure any future land use or development is able to meet the performance standards in the zone, or where in a structure plan mapped area, reflects the requirements of the structure plan mapped area performance standards, unless: i. a resource consent is approved for a development that does not meet the performance standard and the subdivision is intended for and capable of providing for that approved development; or ii. the resultant site is required for: 1. Scheduled ASBV or QEII covenant; 2. reserve; 3. access; 4. network utility activities; or 5. road (Policy 2.4.1.8). <i>General assessment guidance:</i> c. Non-compliance with the performance standard for shape will be assessed based on which performance standard(s) the shape of the resultant site does not provide for compliance with. See matters of discretion and assessment rules in relation to performance standard contraventions for: i. boundary setbacks; ii. setbacks from coast and water bodies; iii. setback from scheduled tree; and iv. setback from National Grid. <i>Conditions that may be imposed:</i> d. Restrictions or conditions, including by way of consent notice, on land use or development activities allowed on the site. e. A building platform may be required to be registered against the title by way of consent notice.	

20.9.6 Assessment of performance standard contraventions in an overlay zone, mapped area, or affecting a scheduled item

Performance standard	Matters of discretion	Guidance on the assessment of resource consents
1. In a hazard overlay zone - Maximum area of vegetation clearance in the hazard overlay zones (Hazard 1 or 2 (land instability) overlay zones and in a dune system mapped area) - Outdoor Storage (Hazard 1 (flood) Overlay Zone) - Hazardous substances quantity limits and storage requirements	a. Risk from natural hazards	See Rule 11.4
2. In the NCC overlay zone : Maximum height	a. Effects on natural character of the coast	See Rule 10.5
3. On a scheduled heritage building or scheduled heritage structure : Materials and design	a. Effects on heritage values	See Rule 13.5
4. In an urban biodiversity mapped area : Vegetation clearance standards: Maximum area of vegetation clearance (UBMA)	a. Effects on biodiversity values	See Rule 10.5
5. In a wāhi tūpuna mapped area : - Setback from coast and water bodies - Esplanade reserves and strips - Vegetation clearance standards: Maximum area of vegetation clearance (UBMA) - Protected areas - Protected species	a. Effects on cultural values of Manawhenua	See Rule 14.3

Rule 20.10 Assessment of Restricted Discretionary Activities

Rule 20.10.1 Introduction

1. Restricted discretionary activities will be assessed in accordance with section 104 and 104C of the RMA, meaning only those matters to which Council has restricted its discretion will be considered, and Council may grant or refuse the application, and, if granted, may impose conditions with respect to matters over which it has restricted its discretion.
2. Rules 20.10.2 - 20.10.5:
 - a. list the matters Council will restrict its discretion to; and
 - b. provide guidance on how a consent application will be assessed, including:
 - i. relevant objectives and policies, with respect to s104(1)(b)(vi);
 - ii. potential circumstances that may support a consent application;
 - iii. general assessment guidance; and
 - iv. conditions that may be imposed.
3. Rules 20.10.2 - 20.10.5 apply as follows:
 - a. Rule 20.20.2 applies to restricted discretionary land use activities;
 - b. Rule 20.10.3 applies to restricted discretionary development activities;
 - c. Rule 20.20.4 applies to restricted discretionary subdivision activities; and
 - d. Rule 20.20.5 applies to restricted discretionary activities in an overlay zone, mapped area, or affecting a scheduled item.
4. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in the Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.
5. Where a restricted discretionary activity does not meet a performance standard the following occurs:
 - a. if the contravention of the performance standard defaults to **restricted discretionary** then:
 - i. the activity, as a whole, will be treated as **restricted discretionary**; and
 - ii. the matters of discretion are expanded to include the areas of non-compliance with the performance standard; and
 - iii. the performance standard contravention will be assessed as indicated in Section 20.9; and
 - iv. the matters of discretion in this section will be assessed as indicated.
 - b. if the contravention of the performance standard defaults to **discretionary** then:
 - i. the activity, as a whole, will be treated as **discretionary**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 20.11; and
 - iii. the assessment guidance in this section will also be considered.
 - c. if the contravention of the performance standard defaults to **non-complying** then:
 - i. the activity, as a whole, will be **non-complying**; and
 - ii. the performance standard contravention will be assessed as indicated in Section 20.12; and
 - iii. the assessment guidance in this section will also be considered.

20.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. All restricted discretionary land use activities, including but not limited to the activities below	a. Effects on the safety and efficiency of the transport network	See Rule 6.11
2. All high trip generators, which include: • any activities that generate 250 or more vehicle movements a day	a. Effects on accessibility b. Effects on the safety and efficiency of the transport network	See Rule 6.11
3. Campgrounds	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Campgrounds are designed so any adverse effects, including from noise or dust, or loss of privacy, on surrounding residential properties and other recreation area users, will be avoided or, if avoidance is not practicable, adequately mitigated (Policy 20.2.2.7). iii. Campgrounds are designed so service areas are not visible from ground level from outside the site (Policy 20.2.2.1.c). iv. Outdoor storage is managed in a way that does not result in unreasonable visual amenity effects or create nuisance effects (Policy 20.2.2.1.f). <i>Conditions that may be imposed include:</i> v. Limits on the scale of the activity. vi. Location of dump stations (for disposal of waste from motor homes) away from boundaries with residential properties. vii. Restrictions on location and hours of operation of generators to minimise any effects from noise on neighbours. viii. Road upgrades necessary to handle the amount and type of vehicles anticipated. ix. Location, screening, or acoustic fencing of communal outdoor gathering areas.

20.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
4. Cemeteries	a. Effects on cultural values of Manawhenua	See Rule 14.4
	b. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Cemeteries are designed and located to: 1. avoid, or if avoidance is not practicable, adequately mitigate, adverse effects on the amenity of surrounding residential properties; and 2. minimise, as far as practicable, the potential for reverse sensitivity (Policy 20.2.2.8). <i>General assessment guidance/Conditions that may be imposed include:</i> iii. In assessing the effects on amenity, Council will consider whether graves will be located a suitable distance away from boundaries and whether any screening or landscaping proposed will be adequate. These aspects may be included as conditions of consent.

20.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
5. Early childhood education - small scale	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Early childhood education facilities are designed, located, and operated to avoid or, if avoidance is not practicable, adequately mitigate adverse effects on the amenity of surrounding residential properties (Policy 20.2.2.12.a). <i>General assessment guidance:</i> iii. In assessing the effects on amenity, Council will consider whether buildings and outdoor areas are designed and located to reduce noise emissions. <i>Conditions that may be imposed include:</i> iv. Delivery time restrictions. v. Landscaping to minimise amenity effects of lighting, or parking areas on surrounding properties. Mitigation measures to minimise noise such as insulation, acoustic fencing, low noise surfaces for play areas, or other such treatments. vi. A noise management plan may be required.
	b. Effects on on-site amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Early childhood education facilities are designed, located, and operated to avoid or, if avoidance is not practicable, adequately mitigate adverse effects for other recreation area users (Policy 20.2.2.12.b). <i>Potential circumstances that may support a consent application include:</i> iii. Any loss of open space that would otherwise be available to the public, is minimal. iv. The activity will support a recreation activity on the site. <i>General assessment guidance include:</i> v. In assessing the effects on amenity, Council will consider whether: 1. noise emissions reduction measures should be required 2. the scale of the activity is suitable for the site.

20.10.2 Assessment of restricted discretionary land use activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
6. Stand-alone car parking	a. Effects on on-site amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Stand-alone car parking is only allowed where it is the secondary use of a parking area required for an activity provided for in the recreation area, when not required for the primary purpose of the area, and where that parking is not needed to facilitate public use of the recreation area (Policy 20.2.2.13). <i>Conditions that may be imposed include:</i> iii. Limits on the number of parking spaces that can be used for stand-alone parking to ensure car parks are still available for public use. iv. Limits on the hours parking spaces can be used for stand-alone car parking to ensure conflicts with the primary use of the site do not occur.
7. Ancillary licensed premises	a. Effects on amenity of surrounding sites	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. Ancillary licensed premises operate in a way that avoids or, if avoidance is not practicable, adequately mitigates, noise or other adverse effects on the amenity of surrounding residential properties (Policy 20.2.2.5). <i>Potential circumstances that may support a consent application include:</i> iii. The intensity and scale of the activity will not result in increased vehicle or pedestrian movement at unreasonable hours or undesirable activities that would create a disturbance for surrounding residential properties; and iv. effects of the activity will be contained within the recreation area.

20.10.3 Assessment of restricted discretionary development activities

Development activities	Matters of discretion	Guidance on the assessment of resource consents
1. New buildings or additions and alterations that result in a building that is greater than 350m ² GFA and/or has any wall longer than 20m.	a. Effects on on-site amenity b. Effects on amenity of surrounding sites c. Effects on neighbourhood amenity	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. New buildings or additions and alterations to buildings avoid adverse effects on on-site amenity, or if avoidance is not practicable, effects are adequately mitigated (Policy 20.2.2.10). iii. Development maintains or enhances on-site amenity for recreation area users, neighbourhood amenity and the amenity of any surrounding residential properties by ensuring the scale of buildings and structures is appropriate to the recreation area and in keeping with the scale of buildings in surrounding residential environments (Policy 20.2.2.1.b). <i>Potential circumstances that may support a consent application include:</i> iv. The visual effect of the building length is screened and softened by landscaping, fencing, or other screening. v. The building is set back from boundaries an adequate distance to avoid shading or visual effects on adjacent residential properties or public places. vi. Topography of the site mitigates the effects of the building scale on adjacent residential properties or public places. vii. The building will not result in removal of important trees or other vegetation. viii. The building will not visually dominate the site or result in unacceptable loss of open space available for users of the recreation area. ix. The building enhances opportunities for use of the recreation area for its purpose. x. The building is attractive and has appropriate building modulation such as through: 1. varying building elevations; 2. setting parts of the building back; 3. using different textures; 4. architectural features; or 5. other forms of building modulation.

20.10.3 Assessment of restricted discretionary development activities

Development activities	Matters of discretion	Guidance on the assessment of resource consents
2. High trip generators: New or additions to parking areas that result in 50 or more new parking spaces	a. Effects on the safety and efficiency of the transport network b. Effects on accessibility	See Rule 6.11

20.10.4 Assessment of restricted discretionary subdivision activities

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. General subdivision	a. Effects on the efficient and effective operation of the recreation area	<i>Relevant objectives and policies:</i> i. Objective 20.2.2 ii. The subdivision does not adversely affect the efficient and effective operation of the recreation area (Policy 20.2.2.11).
	b. Effects on the safety and efficiency of the transport network	See Rule 6.11
	c. Effects on health and safety	See Rule 9.6
	d. Effects on biodiversity values and natural character of riparian margins and the coast	See Rule 10.6
	e. Effects on public access	
	f. Risk from natural hazards	See Rule 11.5

20.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
1. In all hazard overlay zones, swale mapped areas and dune system mapped areas: General subdivision	a. Risk from natural hazards	See Rule 11.5

20.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity	Matters of discretion	Guidance on the assessment of resource consents
2. In a Hazard 1 (flood) or Hazard 2 (flood) Overlay Zone (see Rule 20.3.6): • New buildings, and additions and alterations to buildings, which create more than 60m² of new ground floor area	a. Risk from natural hazards	See Rule 11.5
3. In the NCC Overlay Zone: • Forestry • New buildings or additions and alterations that result in a building greater than 60m² GFA and/or has any wall longer than 20m • Indigenous vegetation clearance - large scale • General subdivision	a. Effects on natural character of the coast	See Rule 10.6
4. On a Scheduled ASBV: • New buildings or additions and alterations that result in a building greater than 60m² GFA and/or has any wall longer than 20m • General subdivision • Shelterbelts and small woodlots • Site development activities (except for outdoor storage, parking, loading and access, vegetation clearance, storage and use of hazardous substances)	a. Effects on biodiversity values	See Rule 10.6
5. Activities affecting a scheduled heritage building or scheduled heritage structure: • Additions and alterations that affect a protected part of a scheduled heritage building or scheduled heritage structure • Removal for relocation • All subdivision activities on sites containing a scheduled heritage building or scheduled heritage structure	a. Effects on heritage values	See Rule 13.6
6. Activities affecting a scheduled heritage site: • New buildings and structures on a scheduled heritage site, where visible from an adjoining public place or a publicly accessible place within the site • Parking, loading and access on a scheduled heritage site, where visible from an adjoining public place or a public place within the site • All subdivision activities	a. Effects on heritage values	See Rule 13.6

20.10.5 Assessment of restricted discretionary activities in an overlay zone, mapped area or affecting a scheduled item

Activity		Matters of discretion	Guidance on the assessment of resource consents
7.	In a wāhi tūpuna mapped area where activity is identified as a threat, including: • All RD forestry • All RD buildings and structures, additions and alterations up to 60m² • Indigenous vegetation clearance - large scale • General subdivision activities	a. Effects on cultural values of Manawhenua	See Rule 14.4
8.	In the Hazard 2 (flood) Overlay Zone : • Natural hazards sensitive activities • Natural hazards potentially sensitive activities	a. Risk from natural hazards	See Rule 11.5
9.	In the National Grid Corridor mapped area : • General subdivision	a. Effects on health and safety b. Reverse sensitivity effects c. Effects on efficient and effective operation of network utilities	See Rule 5.8

Rule 20.11 Assessment of Discretionary Activities

Rule 20.11.1 Introduction

1. Discretionary activities will be assessed in accordance with section 104 and 104B of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. Rules 20.11.2 - 20.11.3 provide guidance on how a consent application for the listed discretionary activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi);
 - b. potential circumstances that may support a consent application;
 - c. general assessment guidance, including any effects that will be considered as a priority; and
 - d. conditions that may be imposed.
3. Rules 20.11.2 - 20.11.3 apply as follows:
 - a. Rule 20.11.2 applies to discretionary land use activities; and
 - b. Rule 20.11.3 applies to discretionary performance standard contraventions.
4. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

20.11.2 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
1. All discretionary land use activities listed below	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 20.2.1 and 20.2.2 <i>Potential circumstances that may support a consent application include:</i> b. For discretionary land use activities, whether any associated development activities meet relevant performance standards, or are otherwise consistent with relevant objectives and policies for development (see Rules 20.9 for performance standard contraventions). c. For discretionary land use activities, whether relevant land use performance standards are met, including noise and light spill standards. <i>General assessment guidance:</i> d. In assessing the significance of effects, consideration will be given to: i. both short and long term effects, including effects in combination with other activities ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the grant of resource consent. <i>Relevant guidance from other sections (priority considerations):</i> e. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety f. For activities that may have effects on biodiversity values, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1. g. For activities adjacent to water bodies and the coast, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.2. h. See Section 14.5 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua

20.11.2 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
2. Early childhood education - large scale	<i>Relevant objectives and policies (priority considerations)</i> a. Objective 20.2.2 b. Early childhood education facilities are designed, located, and operated to avoid or, if avoidance is not practicable, adequately mitigates adverse effects on the amenity of surrounding residential properties or other recreation area users (Policy 20.2.2.12). <i>Potential circumstances that may support a consent application include:</i> c. The activity will not result in a loss of open space that would otherwise be available to the public. d. The activity is provided to support a recreation activity on the site. <i>General assessment guidance:</i> e. In assessing the effects on amenity Council will consider whether buildings and outdoor areas are designed and located to reduce noise emissions. f. The scale of the activity is suitable for the site. <i>Conditions that may be imposed include:</i> g. Delivery time restrictions. h. Landscaping to minimise amenity effects of lighting, vehicle headlights or parking areas on surrounding properties. i. Mitigation measures to minimise noise such as insulation, acoustic fencing, low noise surfaces for play areas, or other such treatments. j. A noise management plan. <i>Relevant guidance from other sections (priority considerations):</i> k. See Section 6.12 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. l. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and Policy 9.2.2.15 and the risks to people from an emergency event occurring at a hazard facility.

20.11.2 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
3. Mining	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 20.2.2 b. Mining is only allowed where there is reasonable certainty that land will be restored or rehabilitated to a standard that will minimise, as far as practicable, the long term visual effects (Policy 20.2.2.9.a). c. Any adverse effects on the amenity of the site for recreation users or on surrounding residential properties from noise or dust can be avoided or, if avoidance is not practicable, adequately mitigated (Policy 20.2.2.9.b). <i>Potential circumstances that may support a consent application include:</i> d. The site will be restored or rehabilitated to the satisfaction of the landowner. e. The site will be restored or rehabilitated to its original or better condition at the completion of the activity or, for mining sand from dunes or beaches, there will be no significant effect on the look of the area. f. The activity will not result in the creation of significant dust and noise. g. The stability of the area, or surrounding areas will not be undermined or affected. <i>Relevant guidance from other sections (priority considerations):</i> h. See Section 6.12 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. i. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety. j. See Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and effects on biodiversity values. k. Where in the NCC Overlay Zone, see Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.3 and effects related to the natural character of the coast. l. Where in a wāhi tūpuna mapped area, see Section 14.5 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on the cultural values of Manawhenua.

20.11.2 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
4. Sport and recreation that involves motor vehicles	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 20.2.2 b. Sport and recreation that involves motor vehicles has no, or only minimal, adverse effects on: i. surrounding residential properties; and ii. other recreation area users (Policy 20.2.2.6). <i>General assessment guidance:</i> c. There is sensitivity to the ecological values, scale, character, and use of the recreation area. d. Existing trees and desirable vegetation is retained. e. Activities support the continued operation of railway activities at 3 John Wilson Drive, Ocean Beach <i>Relevant guidance from other sections (priority considerations):</i> f. See Section 6.12 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. g. Where in an ASBV - See Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and effects related to biodiversity values.

20.11.2 Assessment of discretionary land use activities

Activity	Guidance on the assessment of resource consents
5. Conference, meeting and function	<i>Relevant objectives and policies (priority considerations):</i> a. Objectives 20.2.1 and 20.2.2 b. Conference, meeting and function is designed, located and operated to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on surrounding residential properties amenity. (Policy 20.2.2.12.a) c. Conference, meeting and function is designed, located, and operated to avoid or, if avoidance is not practicable, adequately mitigate, adverse effects on other reserve area users. (Policy 20.2.2.12.b) <i>Potential circumstances that may support a consent application include:</i> d. The activity will not result in a loss of open space that would otherwise be available to the public. e. The activity is provided to support a recreation activity on the site. <i>General assessment guidance:</i> f. In assessing the effects on amenity Council will consider whether buildings and outdoor areas are designed and located to reduce noise emissions. <i>Conditions that may be imposed include:</i> g. Restrictions on the hours, days or frequency of operation, or maximum number of participants for events. h. Delivery time restrictions. i. Landscaping to minimise amenity effects of lighting, vehicle headlights or parking areas on surrounding properties. j. Mitigation measures to minimise noise such as insulation, acoustic fencing, or other such treatments. <i>Relevant guidance from other sections (priority considerations):</i> k. See Section 6.12 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3 and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public.
6. In an ASBV: • Sport and recreation (excluding sport and recreation that involves motor vehicles) • Restaurants and retail ancillary to sport and recreation.	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.7 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and effects related to biodiversity values.

20.11.3 Assessment of discretionary performance standard contraventions

Activity	Guidance on the assessment of resource consents
1. • Acoustic insulation • Noise - where the limit is exceeded by less than 5bD LAeq (15 min) • Light spill - where the limit is exceeded by 25% or less	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.7 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
2. Location (hazard facility mapped area)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Rule 9.7

Rule 20.12 Assessment of Non-complying Activities

Rule 20.12.1 Introduction

1. Non-complying activities will be assessed in accordance with section 104, 104B and 104D of the RMA meaning Council may grant or refuse the application, and, if granted, may impose conditions.
2. Rules 20.12.2 - 20.12.6 provide guidance on how a consent application for the listed non-complying activities will be assessed, including:
 - a. relevant objectives and policies that will be considered as a priority with respect to s104(1)(b)(vi); and
 - b. general assessment guidance, including any effects that will be considered as a priority.
3. Rules 20.12.2 - 20.12.5 apply as follows:
 - a. Rule 20.12.2 applies to all non-complying activities;
 - b. Rule 20.12.3 applies to non-complying land use activities;
 - c. Rule 20.12.4 applies to non-complying development activities;
 - d. Rule 20.12.5 applies to non-complying subdivision activities; and
 - e. Rule 20.12.6 applies to non-complying performance standard contraventions.
 - f. For all land use activities that require consent, all associated development activities will be considered as part of the resource consent even if the development otherwise meets the development performance standards in this Plan. Conditions on development activities may be used to minimise any adverse effects from the land use activity or create mitigating positive effects.

20.12.2 Assessment of all non-complying activities

Activity	Guidance on the assessment of resource consents
1. All non-complying activities including but not limited to the activities listed below.	<i>Relevant objectives and policies (priority considerations):</i> a. The activity does not detract from, or preferably contributes to, the strategic direction objectives, including, but not limited to, those related to: i. Objective 2.3.3 and 2.4.1 b. The activity supports the purpose of the zone as outlined in Objective 20.2.1. <i>General assessment guidance:</i> c. In assessing the significance of effects, consideration will be given to: i. both short and long term effects, including effects in combination with other activities; ii. the potential for cumulative adverse effects arising from similar activities occurring as a result of a precedent being set by the grant of resource consent; iii. any effects otherwise managed through performance standards and consistent with all relevant objectives and policies for the zone. d. In assessing activities that are non-complying due to being in an overlay zone, mapped area, in a scheduled site, or affecting a scheduled item, that otherwise require resource consent, the assessment guidance provided in relation to the underlying activity status will also be considered. <i>Relevant guidance from other sections (priority considerations):</i> e. See Section 6.13 for guidance on the assessment of resource consents in relation to objectives 6.2.2 and 6.2.3, and effects related to accessibility and the safety and efficiency of the transport network and its affordability to the public. f. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects on health and safety g. For activities that may have effects on biodiversity values, see Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1. h. For activities adjacent to water bodies and the coast, see Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.2. i. See Section 14.6 for guidance on the assessment of resource consents in relation to Objective 14.2.1 and effects on cultural values of Manawhenua

20.12.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
1. Commercial advertising	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 2.4.1 b. Policy 2.4.1.6.c
2. • Commercial activities (except commercial advertising, campgrounds) • Industrial activities • Major facility activities (except cemeteries) • Rural activities (except grazing, forestry, mining, and scheduled mining activity)	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 20.2.1 b. Policy 20.2.1.4
3. Residential	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 20.2.1 b. Policy 20.2.1.4 <i>Potential circumstances that may support a consent application include:</i> c. An on-site residence is essential for management of the recreation area and approval has been granted under the Reserves Act 1977; and d. The location, design, and scale of the residence is appropriate to minimise effects on the recreation area, recreation users, surrounding sites, and neighbourhood amenity.
4. In the Hazard 1 (flood) Overlay Zone (see Rule 20.3.6): • Natural hazards potentially sensitive activities • Natural hazards sensitive activities	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and the effects related to the risk from natural hazards.
5. In an ASBV : • Commercial activities (except ancillary licensed premises, conference, meeting and function, restaurants or retail activities ancillary to sport and recreation) • Rural activities • Industrial activities • Residential activities • Major Facility activities	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.

20.12.3 Assessment of non-complying land use activities

Activity	Guidance on the assessment of resource consents
6. In a hazard facility mapped area: • Major facility activities • Entertainment and exhibition • Registered health practitioners • Residential • Training and education • Visitor accommodation	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and Policy 9.2.2.15 and the risks to people from an emergency event occurring at a hazard facility.

20.12.4 Assessment of non-complying development activities

Activity	Guidance on the assessment of resource consents
1. Demolition of a protected part of a scheduled heritage building or scheduled heritage structure	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 13.8 for guidance on the assessment of resource consents in relation to Objective 13.2.1 and the effects on heritage values.
2. In an ASBV: • Indigenous vegetation clearance – large scale	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.

20.12.5 Assessment of non-complying subdivision activities

Activity	Guidance on the assessment of resource consents
1. Cross lease, company lease and unit title subdivision	<i>Relevant objectives and policies (priority considerations):</i> a. Objective 20.2.2 b. Policy 20.2.2.11

20.12.6 Assessment of non-complying performance standard contraventions

Performance standard	Guidance on the assessment of resource consents
1. • Light spill - where the limit is exceeded by greater than 25% • Noise - where the limit is exceeded by 5dB LAeq (15 min) or more • Hazardous substances quantity limits and storage requirements (Rule 9.3.4.2)	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 9.8 for guidance on the assessment of resource consents in relation to Objective 9.2.2 and effects related to public health and safety.
2. Setback from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities and public health and safety.
3. Hazard overlay zones development standards: • Hazard exclusion areas	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 11.7 for guidance on the assessment of resource consents in relation to Objective 11.2.1 and the effects related to the risk from natural hazards.
4. Shape (Rule 20.7.5.2) - setback of building platforms from National Grid	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 5.10 for guidance on the assessment of resource consents in relation to Objective 5.2.2 and effects related to the efficient and effective operation of network utilities, and reverse sensitivity.
5. In an ASBV : • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.1 and the effects related to biodiversity values.
6. In the NCC Overlay Zone: • Tree species	<i>Relevant guidance from other sections (priority considerations):</i> a. See Section 10.8 for guidance on the assessment of resource consents in relation to Objective 10.2.3 and the effects related to natural character of the coast.
