Detailed instructions for physical amendment of Volume Two

Legend and Maps

Some maps have had considerable changes over time and it is advisable to write on the bottom of these particular map pages: "Changes: refer to website map" or even to reprint them. This applies to the Schedule pages as well.

The District Plan maps are located at: <http://www.dunedin.govt.nz/your-council/district-plan/volume-2>.

Table 2 contains instructions for manually amending the legends in the front inside cover of Volume Two and on certain maps where that legend occurs. The amendments can be made with a suitable fine-tipped pen.

Table 3 contains instructions for making amendments to the maps in Volume Two. They are listed in order of the maps and each has a corresponding black & white map showing the amendment. Only put these black & white maps into the folder for the corresponding map where you are unable to amend the map with a suitable pen as the folder clasps have a limited amount of leeway for added material and using it may become tedious and unreliable. They are intended as an aid only to finding the part of the map and the notation you are seeking to amend. For example, in Table 3,

Sept 2008 (3.0)	2	D101	Strath Taieri Primary School	Uplifted in part as per detail map
-----------------	----------	------	------------------------------	------------------------------------

This instruction requires you to go to Map 2 and by using the street references, item notation and the shape of the property you can locate the area designated as D101. The black and white update shows the area that has been uplifted from this designation. First draw a line across the area to divide it as shown and then write 'uplifted' in the portion that is no longer designated a primary school.

If you are having trouble locating a feature, we advise entering the full address in the street map search provided on the DCC website, Council Online Webmaps:- <http://www.dunedin.govt.nz/council-online/webmaps/street-map>

If a map looks to have a lot of significant changes to it, you may wish to reprint the maps from the website.
