## 4. Temporary Activities

### 4.1 Introduction

Temporary events and uses such as concerts, festivals, parades, and market days occur on a regular basis throughout the city, and primarily in public places. The Plan needs to provide for such activities and recognise the contribution that they make to the social and cultural well-being of communities and to the vitality of the city.

In addition to community focused events, military training exercises, filming, construction, temporary helicopter landings, mobile trading, temporary signage, and temporary disaster management accommodation are also provided for within the Plan with a clear set of parameters to ensure any adverse effects arising from the activities are avoided, remedied or mitigated. Temporary activities incorporate both the activities and structures to facilitate the activities.

While they make a positive contribution, temporary activities can also generate adverse effects on surrounding environments, ; particularly in the form of noise, increased traffic movements and parking requirements. That said, the temporary nature of such activities generally minimises these adverse effects and consequently, many events of short duration are tolerated by parts of the community, while other members enjoy what the event has to offer.

To address these issues, the Second Generation Plan proposes to include objectives, policies and rules to ensure the number, scale and intensity of temporary events and uses does not increase to a level beyond which the effects of the event are more than of a temporary and do not have more than a minor effect.

### 4.2 Objectives and Policies

#### Objective 4.2.1

Temporary activities are enabled while:

- a. minimising, as far as practicable, any adverse effects on the amenity and character of the zone;
- b. ensuring any adverse effects on people's health and safety are minimised; and
- c. meeting the relevant objectives and policies for any overlay zone, scheduled site, or mapped area in which it is located.

Policy 4.2.1.1	Require temporary activities to be designed and operated to minimise adverse effects on: <ol style="list-style-type: none"> <li>a. the amenity of surrounding properties;</li> <li>b. people's health and safety; and</li> <li>c. the safety and efficiency of the transport network.</li> </ol>
Policy 4.2.1.2	Require temporary signs to be located and designed to minimise adverse effects on: <ol style="list-style-type: none"> <li>a. streetscape amenity; and</li> <li>b. the safety and efficiency of the transport network.</li> </ol>
Policy 4.2.1.3	Only allow temporary events - large scale and filming - large scale where they are located and operated to ensure adverse effects on amenity and the transport network can be avoided or, if avoidance is not possible, adequately mitigated.

## Rules

### Rule 4.3 Activity Status

#### 4.3.1 Activity status introduction

1. The activity status table in Rule 4.3.2 shows the activity status of temporary activities across all zones, provided any performance standards shown in the far right column are met. The activities in the temporary activities category are listed in the nested table in Section 1.6.
2. Performance standards apply to permitted and restricted discretionary activities.
3. If a permitted activity does not meet one or more performance standards, then the activity status of the activity will become restricted discretionary, unless otherwise indicated by the relevant performance standard.
4. If a restricted discretionary activity does not meet one or more performance standards, then the activity status remains restricted discretionary, unless otherwise indicated in the performance standard.
