

SECOND GENERATION DISTRICT PLAN

Summary table of minor and inconsequential amendments made following notification of the 2GP

November 2023

This table includes further amendments made in accordance with Schedule 1, clause 16(2) of the Resource Management Act.

Clause 16(2) of Schedule 1 of the RMA allows a local authority to make an amendment where the alteration “is of minor effect”, and to correct any minor errors, without needing to go through the submission and hearing process.

The changes of minor effect being made are minor wording changes to improve clarity of wording, where this does not change the meaning. This includes changes to ensure consistent terminology and phrasing is used throughout the plan where it is intended to mean the same thing (clarity error/change of minor effect to improve clarity).

The DCC is currently undertaking a project to update the numbering of the 2GP. From 2019 to the present, as part of the resolution of appeals on the 2GP, a range of new provisions have been added to the Plan. To minimise changes to numbering while appeals were being resolved, these new provisions were given X, Y, Z placeholders rather than being numbered in the usual style. Now that most appeals have been resolved, 2GP numbering is now being updated, section by section, to remove these placeholders and replace them with standard numbering. Alongside this, minor clause 16 amendments are also being made as required. This report includes the renumbering of provisions in **Section 18 Commercial and Mixed Use Zones**.

Minor technical and formatting errors in the 2GP will be amended, when found, on an ongoing basis and will not be reported in a summary table. This includes, but is not limited to, incorrect spelling, missing macrons, and incorrect use of italics/bold. ePlan data loading errors that result in the 2GP Plan text being incorrect will be amended within 7 days of occurrence. Data loading errors found and amended later than this will be reported in a summary table.

Please note this is not a complete list of all minor and inconsequential amendments necessary to correct any errors in the Plan’s text or in the 2GP Planning Map. The DCC will continue to identify these and make further amendments as required.
