**Attachments:** SH88 - District Road closed.docx

Kia ora koutou,

Please see below information provided to Cr Walker regarding SH88 work affecting Roseneath for your information.

- SH88 section - Total cost, including the materials already purchased and upcoming work to install them - approx. \$4.2m
- Section 5, Roseneath – completed earlier this year by Downer – approx. \$1M
- Section 4, St Leonards – currently underway by Downer – approx.\$3M

Previous design costs – approx. \$500k

Remaining sections (from Ellesmere Rd reservoir in Ravensbourne to St Leonards) – estimated cost \$12M

All to be completed by end 2027/2028, subject to budget etc.

This watermain renewal is part of the Port Chalmers Water Supply project in the LTP.

**Subject:** Re: SH88 work affecting Roseneath

Can you give me a rough \$ amount for the work (the whole new connection including St Leonards and Roseneath work) please, doesn't have to be bang on, just roughly.

It's useful for me when I'm talking to people about roadworks to be able say: "you do realise this is excellent news that the DCC are investing \$xxx millions in water resilience / future proofing for OUR community.

Cheers.

**Subject:** SH88 work affecting Roseneath

Hi there,

Sorry, I meant to get in touch with you earlier regarding the upcoming work on SH88 near Roseneath. As per the media release, from Monday 15/09 we will be working on SH88 from District Road back towards St Leonards. McConnell Dowell are the contractor undertaking this work. This is part of the wider programme to renew the main West Harbour drinking water distribution main. It carries on from work carried out in Roseneath earlier this year, and proceeds to connect up to the work currently underway by Downer in St Leonards.

I have attached a copy of the letter delivered to Roseneath residents explaining how this will affect them for the first 10 weeks (approx.) of this work, they will need to access / exit St Leonards via Shandon Street rather than District Road.

TMC who are managing the Traffic Management have worked in with NZTA, Port Otago and the ORC (public buses) to keep them informed. They also attended the Dunedin Cruise Ship meeting to help keep the tourism community up to date.

Ange – John McAndrew mentioned you may have some questions or concerns regarding alternate routes to / from town?

If you have any questions, please let me know so I can help follow up. If any residents would like further info, please encourage them to email [water.capitalprojects@dcc.govt.nz](mailto:water.capitalprojects@dcc.govt.nz)

Cheers,

08 September 2025

Dear Resident

### WEST HARBOUR WATER MAIN – SH88

As part of the DCC 3 Waters capital works programme to replace pipes across Dunedin, work is underway to renew the West Harbour water distribution main. Work will commence shortly to install a new water main along SH88 between Roseneath and St Leonards, starting at District Road:

Construction is planned to begin from **Monday 15th September 2025**. This is a continuation of the work carried out in this area earlier this year. Please note that from 9am on this date, District Road will be closed to all through traffic.

SH88 will be reduced to one lane during this work, which is expected to be completed in June 2026. The contract for this work has been awarded to McConnell Dowell. The initial work is planned to start at the corner of District Road and SH88, working back towards St Leonards. It is expected that this first stage of work will take up to **10 weeks**. During this time, access to and from Roseneath will only be available via Shandon Road, including public transport. There will be detour signs and reduced speed limits in place to help with this.

For further information regarding bus services during this time, please visit the ORC Bus website at <https://www.orc.govt.nz/orbus/dunedin-bus-timetables/>

If you have any questions or concerns about this project, please feel free to contact our customer services team on 03 477 4000 or email the project team at [water.capitalprojects@dcc.govt.nz](mailto:water.capitalprojects@dcc.govt.nz)

Yours faithfully

Simon Hood
