13-Dec-2016

Phil Mutton  
[REDACTED]

Dear Mr Mutton,

**Official information request for WATER REPORT RE ON CHEMICALS AND NUMBER OF SAMPLES TESTED**

I refer to your official information request dated 2-December-2016 for "a Dunedin water report that outlines parameters like calcium, chloride, ammonium etc, together with number of samples tested, min max avg mg/l and data over a 12 month period?"

The following information comes from Chris Henderson, Plant Operations and Maintenance Manager, Water and Waste Services:

*I have attached a copy of our quarterly testing of Dunedin's drinking water sources beginning 2009/10. Please note that we have not yet received the 2016 figures from our testing laboratory.*

*I have also attached a copy of the testing performed at Mount Grand WTP from 2000 onwards.*

If you wish to discuss this information with us, please feel free to contact Chris Henderson at  
Telephone: 03 477 4000, Email: [chris.henderson@dcc.govt.nz](mailto:chris.henderson@dcc.govt.nz).

Regards

Arlene Goss
