

31-Aug-2016

Scout Barbour-Evans

fyi-request-3747-2e4afee4@requests.fyi.org.nz

Dear Scout,

Official information request for information about SOUTH DUNEDIN STORMWATER MAINTENANCE

I refer to your official information request dated 13-March-2016. I apologise for the delay in responding. The fyi website did not transmit the request to the correct email address and it bypassed our processing system. We have notified fyi and fixed this. As soon as I became aware of your request, on August 24, I processed it as quickly as possible.

You asked the following questions and our responses are in red:

1. What is the name of the company that was contracted to complete maintenance tasks in the South Dunedin stormwater drainage systems during the June 2015 floods in South Dunedin?

CityCare Ltd were responsible for the maintenance of the stormwater system in South Dunedin (screens and pipes). Mud tanks were maintained by Fulton Hogan under the road maintenance contract. The pumping stations were maintained by DCC staff.

2. What was on this company's checklist of required/designated tasks from the Dunedin City Council? Please respond with a document outlining the tasks designated to contractors leading up to June 2015.

A spreadsheet is attached.

3. What is the name of the company that is now contracted to complete maintenance tasks in the South Dunedin stormwater drainage systems?

Citycare is still the contractor. Downer have now taken over the road maintenance contract previously performed by Fulton Hogan.

4. Does the checklist of required and/or designated tasks this company is paid to undertake differ from what contractors were given to do in the lead up to the June 2015 floods in South Dunedin? Please respond with a document outlining the current tasks designated to contractors.

There has been no change to the routine maintenance activities as outlined in the spreadsheet. However, the frequency of cleaning on receipt of a severe rain warning has been increased.

5. How much has the Dunedin City Council budgeted for maintenance and upkeep of stormwater drains each year in each suburb? If this is not recorded by each suburb and it's needs, how much has the Dunedin City Council budgeted for maintenance and upkeep of stormwater drains each year citywide?

In the 15/16 year the Council budget for stormwater maintenance was \$518k. This is the direct cost of work done by the contractor only.

It does not include contract overheads; mudtank maintenance (budgeted under the roading contract); staff time; capital works or pumping stations.

6. What is the selection process for contractors to undertake this role?

The City Care contract was awarded following a full public tender process.

If you wish to discuss this further with us, please feel free to contact me by return email and I can put you in touch with the best person to answer your questions.

Please note that when a candidate requests information from staff in the pre-election period the staff are required to share this information with all other candidates in order to maintain impartiality. It is our intention to post all official information responses on the DCC website <http://www.dunedin.govt.nz/your-council/official-information/lgoima-requests> in the near future, to allow all candidates the same access.

Yours sincerely
Arlene Goss
Governance Support Officer
