Hi Sue,

Sorry for any confusion.

The Phase 1 Initial Consideration sheet is incomplete as neither of the options for suitability for Phase 2 assessment have been ticked.

The rezoning request did pass Phase 1, and additional water and waste infrastructure and transportation assessments were made.

In addition natural hazards and landscape values were considered in the Phase 2 assessment.

Ideally there would have been another report taking into consideration the various assessments ahead of notification of the 2GP, but given the timing of the 2GP it was considered appropriate to indicate some potential rezoning in this area and deal with the matter in greater detail through the 2GP plan change process.

Kind regards

Paul Freeland
