Hi Michelle,

Unfortunately we do not have a "view" service available for you to look at your house plans and any information required for your property must be requested.

There are a couple of options for you:

You can apply for a Property Search: this allows you to request floor plans and plumbing and drainage plans and a print out of consents taken out for the property. It is a chargeable service and I've included the prices below. There is currently a 5 day turnaround on Property Searches.

Property Search Fees July 2016 to July 2017

Type of Search

Charges

Residential - combined building, plumbing and drainage consents

\$91.00

Electronic Report - Building Consents and Code Compliance Certificates issued

\$24.00

Residential Building or Plumbing and Drainage Plans plus \$1.00 per photocopy (Building plans - site and floor plans) \$56.00

Requests for Residential Plans by Tradesmen, Designers and Building Consultants, plus \$1.00 per photocopy \$31.00

Copy of Consent Documents required for one specific consent plus \$1.00 per photocopy \$31.00

Commercial Searches

Hourly rate charged for Commercial Property Information Requests plus \$1.00 per photocopy

\$91.00

Student Discount: 10% with Student ID

The second option is a LIM report, which include the property information from a property search but is also a search done by other departments within council. There is a 3 or 5 day option for a LIM report and the prices are \$275 (5 day) or \$327 (3 day.)

This link will give you the LIM information you require:
