

27 March 2019

Dear 

Local Government Official Information and Meetings Act 1987

I refer to your letter of 27 February 2019 requesting the detailed costings of the proposed six trial speed humps on Aramoana Road, Te Ngaru and the costings of the proposed street lighting alongside the speed humps. Below is the response to your questions.

1. **Costing for the six trial speed humps**

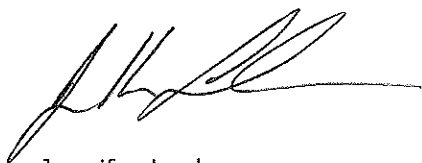

As the work has not yet begun, costs are an estimate except for the purchase of the speed humps for which a quote has been received

- 6 speed cushion pads plus freight = \$7,525.00
- Labour to install (estimate) = \$4,140.00
- Signs on either end (materials and labour- estimate) = \$540.00
- Total cost (estimate) = \$12,205.00

2. **Costing for street lighting:** Trial speed humps are to be located next to existing "power poles" not "street lights". Street lighting is not planned for this project.

I trust this answers your query.

Yours faithfully

Jennifer Lapham
Governance Support Officer
