29 May 2019

Dear

Local Government Official Information and Meetings Act 1987 (LGOIMA) request for information on Councils boundaries of fluoridated/non-fluoridated areas.

I am writing in response to your LGOIMA request received 11 May 2019 requesting information on Council boundaries for fluoridated and non-fluoridated areas.

Please find attached a map of the current fluoridated areas. Please consider this in conjunction with the Waters Services Map (see link below) which allows you to identify individual properties inside, or outside the water supply area.

<https://www.dunedin.govt.nz/dunedin-city/maps-and-photos/water-services-map-and-wws-work-in-progress>

Note is made that fluoridation was added in the Mosgiel area in December 2017, when the bore supply was shutdown in favour of supply from the metro system.

I hope this information is of assistance.

Yours sincerely

Lauren McDonald
Governance Support Officer
