

DUNEDIN, NEW ZEALAND. TOWN BOARD RATEBOOK 1857 - 1862.

The Dunedin Town Board was constituted in 1855 under the Otago Provincial Government Ordinance. No rates were collected by the Board until 1857.

The rate was collected under the Dunedin Roads and Streets Ordinance Session II No.13 1855. The information in the original ratebook is arranged according to the block and section numbers of the property and a brief description of any buildings is given. Other information in the ratebook is: the name of the proprietor, name of the occupier, annual value, rateable value, rate (i.e. one shilling in the pound), amount of rates due, date of notice, amendments to the assessment, date of notice demanding payment, date of payment and amount of payment.

In the transcript / index the name of the proprietor, name of occupier, description of property and rateable value has been given. The geographical coverage of the ratebook is that area which is now the present central Dunedin City bounded within the Town Belt (see map). The information relating to 1862 is for a footpath expenses' levy which related to some streets in the centre of town only and is listed by the name of the street. It is not a complete listing of 1862 ratepayers.

The original Town Board Ratebook is held in the DCC Archives, P O Box 5045, Dunedin.

There are no surviving ratebooks from 1862 to 1875. From 1875 onwards a complete set is held in the DCC Archives.

Anna Blackman, Archivist
Dunedin City Council, Otago, New Zealand

USE OF THE TRANSCRIPTION.

The transcription which comprises 5740 entries is printed in two lists which should be used together:

1. YEAR and NUMBER ORDER (which is the Entry order of the original Ratebook).
2. ALPHABETICAL order of Owners and Occupiers' names.

Search the alphabetic list for a name.

Note the Year and Number.

Using these, turn to the Year & Number Order list. Information may be seen there about the neighbouring properties.

Information about the Fields:

PAGE NUMBER: refers only to that of the original Ratebook.

YEAR: The year the rate was levied.

NO: refers to the original REFERENCE NUMBER. Because some entries did not have a specific number, the transcriber has allocated them one of her own choosing to give the researcher a better idea of the record's placing within the Ratebook.

NAME: Consists of the Proprietor's name and sometimes the Occupier's name. Occupier is noted as such in the Occupier column.

R.VALUE: refers to the RATEABLE VALUE of the Section. This has been transcribed exactly in pounds, shillings and pence., except in 1862 where the amount listed is actually the amount of the account for a footpath levy. It has been noted as [to the nearest £].

DESCRIPTION: includes the exact Block and Section numbers as well as any other relevant details - which might include buildings on the site or notes on whether current rates have been paid.

In several instances, the original book shows additions which have been roughly written, usually in pencil, next to or over the original name.

In the few cases where the spelling has been unclear, a question mark -?- has been placed beside the word. Researchers are advised to look at the original Ratebook if permitted, and make their own decisions.

A copy of the transcription has been donated to the Dunedin Group, New Zealand Society of Genealogists and is held at the Otago Early Settlers' Museum, 220 Cumberland St, Dunedin.

The two lists were compiled and printed for the Dunedin City Council Archives by members of the Dunedin Group, New Zealand Society of Genealogists, Mrs Margaret Johnston, Miss Gaynor Kirkby, Mrs Rewa Noye, Mr Noel Read and Mrs Shirley Hay.

Anna Blackman, Archivist for the Dunedin City Council, initiated and supervised the project.
October 1992.
