

## **Domestic Pressure Foul Sewer System Installation Declaration**

This declaration is a requirement of Dunedin City Council (DCC) 3 Waters to ensure all domestic pressure foul sewer systems to be vested in Council are installed in accordance with the approved building consent and the manufacturer's specifications and technical requirements.

All sections of this declaration must be completed by the DCC approved contractor who is a certified drainlayer of the domestic pressure sewer system. Any repairs and maintenance of the pump system is the responsibility of the property owner for first 12 months from the date of installation (12 months maintenance period).

This declaration does not substitute or replace the requirement for a building inspection and will not be accepted if the building inspection has not been passed by DCC building inspectors.

Building Consent N°:		Address of the property the system is serving:								
System Info	rmation:									
System or product used: ☐ Ecoflow E-One System and/or ☐ Aquatec System										
Please tick	Component		Manufacturer		M	odel	Serial Nº		Cost (ex. GST)
